European Book Cultures Stephanie Kurschus.2014-11-28 Stephanie Kurschus analyses the idea of a common European book culture that integrates the book market as an essential aspect and employs book promotion as balancing instrument. Characteristics of book culture are identified; the resultant concept of book culture provides an overview of the values and myths ascribed to the book. Furthermore, applied book promotion measures are analyzed for their effectiveness and best practice models. Since, in a context determined by culture and market, preservation and innovation, book promotion fulfills two functions: it is to protect the unique national characteristics of book culture as well as to support its continuous development. To adapt and to advance within a changing environment is critical to the survival of book culture in the digital reality.

Chinese Migration to Europe Graeme Johanson,Narelle McAuliffe,Massimo Bressan.2015-05-26 Through an analysis of Chinese migration to Europe, this volume examines the most pressing migration and integration issues facing many societies today, from the political and policy-based challenges of managing increasingly diverse communities, to individual lived experiences of identity and belonging. In addition to chapters on the UK, France and Italy, the book spotlights one of the most extraordinary examples of Chinese migration to Europe: that provided by the city of Prato, just 20km from Florence in Tuscany, Italy. Renowned for its historic textile industry, Prato is now home to one of the largest populations of Chinese residents in Europe, a phenomenon that is remarkable not only for its magnitude but also for the speed with which it has developed. This edited collection, which brings together twenty-seven separate contributors, deepens our understanding of the case of Prato within the context of Chinese

migration to the new Europe.

Storia ed evoluzione delle Radio Libere oscurate dai Network Gennaro Rino Loffredo.2020-01-08 “Storia ed evoluzione delle radio libere oscurate dai network” è un omaggio a un periodo storico brulicante di fermento culturale e di una tangibile necessità di comunicare e di farlo nel modo che potesse raggiungere una gran fetta della popolazione, è un omaggio alla forza del sogno e della fantasia, della libertà e del coraggio. Il lavoro, prevalentemente tecnico e di ricerca approda a un certo punto al caso di Teano, scenario, negli anni ottanta, di una fioritura di radio senza precedenti, di un coinvolgimento di massa come mai si era visto, di una voglia di realizzare che trasversalmente coinvolgeva giovani sognatori e adulti consapevoli della grande potenzialità della nuova frontiera della comunicazione. È stata palesemente una parentesi temporale in cui è accaduto di tutto, nell'arco della quale le piccole realtà sono state oscurate dai grandi network, schiacciate dagli insostenibili costi di gestione ma di essa si serba una nostalgia che, volendo assecondare una visione ottimistica, lascerebbe presagire un ritorno di quei tempi seppur adeguati alle nuove tecnologie e alle norme costantemente in fieri e non ben definite che regolano il settore. Gennaro Loffredo nasce a Teano, in provincia di Caserta, il 26 maggio 1972. Dalla Radio scaturisce la sua passione per il giornalismo tanto che dal 2001 è iscritto all'Ordine dei Giornalisti della Campania. Numerose le collaborazioni con quotidiani e mensili provinciali e nazionali. Laureatosi in Scienze della Comunicazione vince un concorso nella Pubblica Amministrazione dove lavora tuttora e, nel contempo, continua a coltivare il suo interesse per il giornalismo e la scrittura, partecipando a concorsi letterari con racconti brevi, curando un blog personale “Notiziario Casertano” e alimentando la sua inclinazione restando sempre occhio attento e critico di ciò che lo circonda. Questo libro segna il suo esordio come narratore che certamente avrà un copioso seguito.

Diversity and Otherness Lisa Gaupp,Giulia Pelillo-Hestermeyer.2021 This book critically examines multiple ways in which cultural diversity is, and has been represented and handled. It questions the construction of differences in doing culture while emphasizing the fluidity of cultural entanglements. It is an invitation to re-think norms, practices and negotiations of diversity and otherness, to distinguish emancipatory from standardizing approaches and to “transculturalize” the study and the politics of culture.

Primary and Secondary Education During Covid-19 Fernando M. Reimers.2021-09-14 This open access edited volume is a comparative effort to discern the short-term educational impact of the covid-19 pandemic on students, teachers and systems in Brazil, Chile, Finland, Japan, Mexico, Norway, Portugal, Russia, Singapore, Spain, South Africa, the United Kingdom and the United States. One of the first academic comparative studies of the educational impact of the pandemic, the book explains how the interruption of in person instruction and the variable efficacy of alternative forms of education caused learning loss and disengagement with learning, especially for disadvantaged students. Other direct and indirect impacts of the pandemic diminished the ability of families to support children and youth in their education. For students, as well as for teachers and school staff, these included the economic shocks experienced by families, in some cases leading to food insecurity and in many more causing stress and anxiety and impacting mental health. Opportunity to learn was also diminished by the shocks and trauma experienced by those with a close relative infected

by the virus, and by the constraints on learning resulting from students having to learn at home, where the demands of schoolwork had to be negotiated with other family necessities, often sharing limited space. Furthermore, the prolonged stress caused by the uncertainty over the resolution of the pandemic and resulting from the knowledge that anyone could be infected and potentially lose their lives, created a traumatic context for many that undermined the necessary focus and dedication to schoolwork. These individual effects were reinforced by community effects, particularly for students and teachers living in communities where the multifaceted negative impacts resulting from the pandemic were pervasive. This is an open access book.

Helsinki 1975 and the Transformation of Europe Oliver Bange, Gottfried Niedhart. 2008 It was in Europe that the Cold War reached a decisive turning point in the 1960s, leading to the era of detente. The Conference on Security and Cooperation in Europe (CSCE), with its Final Act in Helsinki in August 1975, led to a rapprochement between East and West in the fields of security, economy and culture. This volume offers a pilot study in what the authors perceive as the key issues within this process: an understanding over the 'German problem' (balancing the recognition of the post-war territorial status quo against a formula for the eventuality of a peaceful change of frontiers) and the Western strategy of transformation through a multiplication of contacts between the two blocs. Both of these arguments emerged from the findings of an international research project on 'Detente and CSCE in Europe, 1966-1975', funded by the VolkswagenStiftung and headed by the two editors.--BOOK JACKET.

Literary Translation, Reception, and Transfer Norbert Bachleitner. 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

In onda Raffaello A. Doro. 2017-07-07T00:00:00+02:00 Qual è stato il ruolo delle nuove radio private, locali e nazionali - comparse in modo capillare nel territorio nazionale a partire dalla metà degli anni Settanta - nella società italiana? E quale la loro importanza all'interno di un sistema dei mass media in rapida evoluzione, con la centralità della televisione? Come si è passati dal sistema monopolistico della Radio Rai alle migliaia di esperienze di radio libere, locali, private, indipendenti? Dall'esempio delle radio offshore in Nord Europa ai primi esperimenti clandestini in Italia, dalla Radio Sicilia Libera di Danilo Dolci alla legge di Riforma della Rai del 1975 e alla sentenza della Corte costituzionale del 1976, dalle radio politiche a quelle musicali, dall'impegno all'evasione, un ventennio di storia della radio è ricostruito studiandone l'impatto all'interno del sistema dei mezzi di comunicazione di massa, ed esaminando contenuti, strategie editoriali e degli ascolti, cesure e trasformazioni di un'epoca in cui il desiderio di libertà si esprimeva andando, anziché on line, in onda.

Contract with America Newt Gingrich, Richard K. Arme. 1994 The November 1994 midterm elections were a watershed event, making possible a Republican majority in Congress for the first time in forty years. *Contract with America*, by Newt Gingrich, the new Speaker of the House, Dick Arme, the new Majority Leader, and the House Republicans, charts a bold new political strategy for the entire country. The ten-point program, which forms the basis of this book, was announced in late September. It received the signed support of more than 300 GOP candidates. Their pledge: If we break this contract, throw us out. *Contract with America* fleshes out the vision and provides the details of the program that swept the GOP to victory. Among the pressing issues addressed in this important book are: balancing the budget, stopping crime, reforming welfare, reinforcing families, enhancing fairness for seniors, strengthening national defense, cutting government regulations, promoting legal reform, considering term limits, and reducing taxes.

Women and Language in Transition Joyce Penfield. 1987-08-01 This collection of essays deals with the interplay of language and social change, asking the question: How can language and society be made gender equal? The contributors examine the critical role of language in the lives of white women and women of color in the United States. Since language pervades many dimensions of women's lives, this study takes a multi-disciplinary approach to the issues considered. The volume is divided into three sections. The first, "Liberating Language," focuses on the active role women had in altering the extent of linguistic sexism in English during the 1970s. A second section, "Identity Creation," deals with the alteration of that portion of language which serves to name women and their experiences. The final section, "Women of Color," offers a rare and timely look at the particular problems confronted by minority women. It argues that women of color have different problems and different links to language than white middle-class women.

My Name is Rachel Corrie Rachel Corrie. 2005 A deeply moving personal testimony... Theatre can't change the world. But what it can do, when it's as good as this, is to send us out enriched by other people's passionate concern.--Guardian Intensely topical account of the life and early death of a young female activist--adapted from her own writings and published alongside the premiere.

Godard On Godard Jean-luc Godard. 1986-03-22 Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for *La Gazette du Cinéma* to his later writings for *Cahiers du Cinéma*, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself--his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of *Breathless*, *A Woman Is a Woman*, *My Life to Live*, *Alphaville*, *La Chinoise*, and *Weekend*, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

Napoleon's Empire Ute Planert. 2016-01-26 The Napoleonic Empire played a crucial role in reshaping global landscapes and in realigning international power structures on a worldwide scale. When Napoleon died, the map of many areas had completely changed, making room for Russia's ascendancy and Britain's rise to world power.

The Insurrection in Dublin James Stephens.1916 The Easter Rising of April 1916 was an attempt by Irish nationalists to provoke a nationwide rebellion and thereby secure Ireland's independence from British rule. In fighting that was largely confined to Dublin, 60 insurgents and 130 troops and police were killed, along with 300 civilians caught in the crossfire. In the aftermath of the uprising the British executed another 15 conspirators, including Sir Roger Casement, a Protestant who had become an ardent Irish nationalist and who had sought to acquire weapons for the insurgents from Germany, Britain's enemy in World War I, underway at that time. The Insurrection in Dublin is an account of the Easter Rising by the poet and novelist James Stephens (1882-1950), a leading figure in the Irish literary revival of the early 20th century and a supporter of Irish independence. Stephens witnessed firsthand the events described in the book, and many of those killed were his friends and colleagues. The book begins with a strictly chronological account, with seven successive chapters devoted to the events of Monday, April 24 through Sunday, April 30. The remaining five chapters deal with the ending of the insurrection, the volunteers who took part in it, its leaders, the role of labor during the insurrection, and The Irish Questions. In this final chapter, Stephens argues that there are two Irish questions, an international question concerning the independence of the country, and a national question relating to relations between Catholics and Protestants on the island. The Easter Rising became a rallying point for Irish nationalists and eventually led to the Anglo-Irish Treaty of December 1921, followed shortly after by establishment of the Irish Free State and the partition of Ireland. The edition of *The Insurrection in Dublin* presented here was published in New York in 1916.

Post-TV Michael Strangelove.2015-03-27 In the late 2000s, television no longer referred to an object to be watched; it had transformed into content to be streamed, downloaded, and shared. Tens of millions of viewers have "cut the cord," abandoned cable television, tuned into online services like Netflix, Hulu, and YouTube, and also watch pirated movies and programmes at an unprecedented rate. The idea that the Internet will devastate the television and film industry in the same way that it gutted the music industry no longer seems farfetched. The television industry, however, remains driven by outmoded market-based business models that ignore audience behaviour and preferences. In *Post-TV*, Michael Strangelove explores the viewing habits and values of the post-television generation, one that finds new ways to exploit technology to find its entertainment for free, rather than for a fee. Challenging the notion that the audience is constrained by regulatory and industrial regimes, Strangelove argues that cord-cutting, digital piracy, increased competition, and new modes of production and distribution are making audiences and content more difficult to control, opening up the possibility of a freer, more democratic, media environment. A follow-up to the award-winning *Watching YouTube*, *Post-TV* is a lively examination of the social and economic implications of a world where people can watch what they want, when they want, wherever they want.

KAOS. Ten Years of Hacking and Media Activism AUTISTICI INVENTATI. -.2017-04-20 Autistici/Inventati was funded in 2001 with the goal of creating an autonomous server and providing free web services which respected users' privacy and anonymity. Having grown into a distributed network spread over several countries, their projects and servers have repeatedly been subjected to legal pressure by governments: however, even while being forcibly seized, shut down and under invasive surveillance operations, they survived. As of today they still offer secure and non-commercial tools for free communication to thousands of users. +KAOS is a cut and paste of interviews, like a documentary film transposed on paper.

It describes the peculiar relationship between hacktivism and activism, in Italy and beyond, highlighting the importance of maintaining digital infrastructures. While this may not sound as glamorous as sneaking into a server and leaking data, it is a fundamental topic: not even the most emblematic group of hacktivists can operate without the services of radical server collectives.

Italian Mathematics Between the Two World Wars Angelo Guerraggio, Pietro Nastasi. 2006-01-20 This book describes Italian mathematics in the period between the two World Wars. It analyzes the development by focusing on both the interior and the external influences. Italian mathematics in that period was shaped by a colorful array of strong personalities who concentrated their efforts on a select number of fields and won international recognition and respect in an incredibly short time. Consequently, Italy was considered a third mathematical power after France and Germany.

America in Italy Axel Körner. 2017-06-13 *America in Italy* examines the influence of the American political experience on the imagination of Italian political thinkers between the late eighteenth century and the unification of Italy in the 1860s. Axel Körner shows how Italian political thought was shaped by debates about the American Revolution and the U.S. Constitution, but he focuses on the important distinction that while European interest in developments across the Atlantic was keen, this attention was not blind admiration. Rather, America became a sounding board for the critical assessment of societal changes at home. Many Italians did not think the United States had lessons to teach them and often concluded that life across the Atlantic was not just different but in many respects also objectionable. In America, utopia and dystopia seemed to live side by side, and Italian references to the United States were frequently in support of progressive or reactionary causes. Political thinkers including Cesare Balbo, Carlo Cattaneo, Giuseppe Mazzini, and Antonio Rosmini used the United States to shed light on the course of their nation's political resurgence. Concepts from Montesquieu, Rousseau, and Vico served to evaluate what Italians discovered about America. Ideas about American domestic manners were reflected and conveyed through works of ballet, literature, opera, and satire. Transcending boundaries between intellectual and cultural history, *America in Italy* is the first book-length examination of the influence of America's political formation on modern Italian political thought.
