Alpha Wolves Bruce Hudson.2004-05 Alpha Wolves is a dramatic story exploring the continuing struggle between strength and wisdom. A few years ago, Biologists discovered what none of them thought was possible. Ex-alpha male wolves were running in packs. The occurrence of the Lone Wolf was one that was common to naturalists worldwide. Within the wolf pack, there is an alpha male and alpha female who are the leaders of the pack. When a younger wolf gains strength, it can challenge the alpha male for pack leadership. If the challenge is successful, the younger one takes over leadership of the pack and forces the older male wolf to leave the pack. Traditionally, the older wolf would become a Lone Wolf. Within this context, the conflict between wisdom, generally acknowledged to be acquired over time, and strength, often associated with youth and vitality, is explored in a powerful and moving story. Alpha Wolves is a riveting story with a rich set of characters.

The Lone Wolf Ashley Jane.2020-04-21 When I chose The Lone Wolf as a title for my collection of wolf inspired prose, my thinking was this: * Drawing parallels between the predator wolf, the lone wolf, the Alpha wolf, and the Alpha Personality in man, highlighting the traits that unite yet define each. * We are individuals, ergo lone* We are honor-bound, loyal, loving, and fierce, ergo wolf* We embody traits that protect, teach, and love our Pack, ergo Alpha* We generally mate for life, in our heart of hearts, and in our soul* Man and wolf are the upper echelon of beasts with an honor code and react similarly to any threat or breach. We are one * We are lone * We are Alpha * We are Alpha Wolves

Japanese Film and the Challenge of Video Tom Mes.2023-05-19 This book explores the phenomenon of V-Cinema, founded in Japan in 1989 as a distribution system for direct-to-video movies which film companies began making having failed to recoup their investment in big budget films. It examines how studios and directors worked quickly to capitalize on niche markets or upcoming and current trends, and how as a result this period of history in Japanese cinema was an exceptionally diverse and vibrant film scene. It highlights how, although the V-Cinema industry declined from around 1995, the explosion in quantity and variety of such movies established and cemented many specific genres of Japanese film. Importantly the book argues that film scholars who have long looked down on video as a substandard medium without scholarly interest have been wrong to do so, and that V-Cinema challenges accepted notions of cultural value, providing insight into the formation of cinematic canons and inviting us to rethink what is meant by Japanese cinema.
