Narasingha - The Legend of Padma Purusha (Konark Secrets - Book 2) Bhuban

Patra.2023-11-18 Kalinga is entering its golden period at the beginning of the 13th century. The kingdom has already established itself as a maritime superpower, and now it has to make its mark with its monuments that were built over a few centuries. The temple building spree had already begun many years ago, and after the successful construction of the Lingaraj temple and Jagannath temple, the grandest monument on earth was to be built. Book two is the story of Narasingha Deva, the King of Kalinga and the constructor of this grand sun temple built in Mundira. The monument is considered one of the most magnificent and among the most mysterious temples of Bharat. The King narrates this tale, as he had experienced it in his lifetime. The book describes his journey about how from an inquisitive prince, he became one of the powerful monarchs of Bharat. This book covers the many battles fought between Kalinga and the Bengal Kings and why King Narasingha was known as the greatest builder of Bharat. . The book will also answer all questions on the existence of the sun temple built at Mundira which is now known as Konark. Was this temple just a grand monument, or were there secrets behind its construction? Why was an unusual technique used for its creation when tried and tested methods were already there? History of Ancient India Rama Shankar Tripathi.2014-01-01 The object of this volume is to provide within a moderate compass a compendious account of the history, institutions, and culture of ancient India from the dim ages of antiquity to the establishment of Moslem rule. It has not been planned to

meet the needs of any particular class of readers. Its primary purpose is to serve alike students, scholars, and all others, interested in the study of ancient Indian history, as a book of ready use and reference. The pages which follow every attempt has been made to avoid presenting a mass of the dry bones of historical fact or over-burdening the account with intricate discussions on knotty problems of history, on the one hand, and giving a mere general and readable survey of India's long and fascinating past, on the other. I have endeavoured to tap and utilise properly the available sources of information, literary, epigraphic, and numismatic, and also to embody and set forth in a consistent manner the results of up-to-date researches on different topics and epochs. All the materials have been patiently sifted and critically examined with the sole desire to arrive at historical truth and scientific accuracy; and the unfortunate tendency, manifest in some modern publications, to extol or decry without warrant any of the manifold aspects of India's panoramic story, has been scrupulously eschewed. This book gives an authoritative, up-to-date, and compendious account of the history, institutions and culture of India from the earliest times to the advent of the Moslem period. It is based on all available materials - literary, epigraphic, and numismatic - and is written in a most elegant, sober, and lucid style. The author brings to bear upon his task not only profound scholarship and critical acumen but also scrupulous regard for historical truth, the accuracy of facts and impartiality of judgement. The merit of the book has been enhanced by an exhaustive Bibliography and a comprehensive Index. Students, scholars and the general reader alike will find the book highly interesting, useful and valuable for study and references.

Decolonising Heritage in South Asia Himanshu Prabha Ray. 2018-09-05 This volume cross-examines the stability of heritage as a concept. It interrogates the past which materialises through multi-layered narratives on monuments and other objects that sustain cultural diversity. It seeks to

understand how interpretations of “monuments” as “texts” are affected at the local level of experience, even as institutions such as UNESCO work to globalise and fix constructs of stable and universal heritage. Shifting away from a largely Eurocentric concept associated with architecture and monumental archaeology, this book reassesses how local and regional heritage needs to be balanced with the global and transnational. It argues that material objects and monuments are not static embodiments of culture but are, rather, a medium through which identity, power and society are produced and reproduced. This is especially relevant in South and Southeast Asian contexts, where debates over heritage often have local, regional and national political implications and consequences. Reevaluating how traditional valuation of monuments and cultural landscapes could help aid sustainability and long-term preservation of the heritage, this book will be useful for scholars and researchers of South and Southeast Asian history, heritage studies, archaeology, cultural studies, tourism studies and political history as well.

The Routledge Handbook of Hindu Temples Himanshu Prabha Ray, Salila Kulshreshtha, Uthara Suvrathan.2022-10-13 This handbook is a comprehensive study of the archaeology, social history and the cultural landscape of the Hindu temple. Perhaps the most recognizable of the material forms of Hinduism, temples are lived, dynamic spaces. They are significant sites for the creation of cultural heritage, both in the past and in the present. Drawing on historiographical surveys and in-depth case studies, the volume centres the material form of the Hindu temple as an entry point to study its many adaptations and transformations from the early centuries CE to the 20th century. It highlights the vibrancy and dynamism of the shrine in different locales and studies the active participation of the community for its establishment, maintenance and survival. The illustrated handbook takes a unique approach by focusing on the social base of the temple rather than its aesthetics or chronological linear development. It fills a significant gap in the study of Hinduism and will be an indispensable resource for scholars of archaeology, Hinduism, Indian history, religious studies, museum studies, South Asian history and Southeast Asian history. Chapters 1, 4 and 5 of this book are available for free in PDF format as Open Access from the individual product page at www.routledge.com. They have been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.
