**Le ville di Lucca** Cristina Acidini Luchinat, Enrico Colle, Gilberto Bedini, Marcello Fagiolo, Massimo Listri.2003 L'opera offre un panorama esemplare dell'eccezionale contesto culturale delle ville di Lucca, patrimonio artistico e paesaggistico di risonanza internazionale. Nelle suggestive immagini panoramiche, come nei dettagli insoliti, Massimo Listri illustra, in una raffinata interpretazione, i vari temi presenti: l'architettura dei palazzi, gli interni, i parchi e i numerosi elementi del loro arredo. La ricchezza iconografica affianca il percorso che si snoda nel vasto e diffuso contesto collinare che il curatore, Gilberto Bedini, esamina per temi e aree geografiche con specifica attenzione al paesaggio. **Between Ostrogothic and Carolingian Italy** Fabrizio Oppedisano.2023-10-03 The victory of Justinian, achieved after a lacerating war, put an end to the ambitious project conceived and implemented by Theoderic after his arrival in Italy: that of a new society in which peoples divided by centuries-old cultural barriers would live together in peace and justice, without renouncing their own traditions but respecting shared principles inspired by the values of civilitas. What did this great experiment leave to Europe and Italy in the centuries to come? What were the survivals and the ruptures, what were the revivals of that world in early medieval society? How did that past continue to be recounted and how did it interact with the present, especially in the decisive moment of the Frankish conquest of Italy? This book aims to confront these questions, and it does so by exploring different themes, concerning politics and ideology, culture and literary tradition, law, epigraphy and archaeology.

Italian Villas Ovidio Guaita.2003 In this fascinating volume, [the author] describes and illustrates 250 of the most remarkable villas, some well-known houses, others generally overlooked, covering a span of more than half a millennium, from the Renaissance to the present. Presented here are panoramas as well as details of grand country villas, magnificent suburban estates, appealing vacation houses, and captivating artist's homes, each with its own charm and history, and each of which is part of a style that is important in our century. The illustrations and text by Ovidio Guaita, representing decades of work, are organized by region, north to south from Piedmont and Venice to Sicily. Enriching the coverage each chapter includes a profile of a personality - architect, builder, artist or patron - whose work has had a lasting influence on the style of the villa. Supplementing the color photographs of exteriors and interiors are architectural drawings of houses and maps. The appendices offer a glossary, a bibliography, and a listing of villas that may be visited--Bookjacket.

**Roads to Health** G. Geltner.2019-08-02 In *Roads to Health*, G. Geltner demonstrates that urban dwellers in medieval Italy had a keen sense of the dangers to their health posed by conditions of overcrowding, shortages of food and clean water, air pollution, and the improper disposal of human and animal waste. He consults scientific, narrative, and normative sources that detailed and consistently denounced the physical and environmental hazards urban communities faced: latrines improperly installed and sewers blocked; animals left to roam free and carcasses left rotting on public byways; and thoroughfares congested by artisanal and commercial activities that impeded circulation, polluted waterways, and raised miasmas. However, as Geltner shows, numerous administrative records also offer ample evidence of the concrete measures cities took to ameliorate unhealthy conditions. Toiling on the frontlines were public functionaries generally known as viarii, or road-masters, appointed to maintain their community's infrastructures and police pertinent human and animal behavior. Operating on a parallel track were the camparii, or field-masters, charged with protecting the city's hinterlands and thereby the quality of what would reach urban markets, taverns, ovens, and mills. *Roads to Health* provides a critical overview of the mandates and activities of the viarii and camparii as enforcers of preventive health and safety policies between roughly 1250 and 1500, and offers three extended case studies, for Lucca, Bologna, and the smaller Piedmont town of Pinerolo. In telling their stories, Geltner contends that preventive health practices, while scientifically informed, emerged neither solely from a centralized regime nor as a reaction to the onset of the Black Death. Instead, they were typically negotiated by diverse stakeholders, including neighborhood residents, officials, artisans, and clergymen, and fostered throughout the centuries by a steady concern for people's greater health.

*Gardens of Tuscany* .2001 Il volume analizza, con volontà catalografiche ma anche divulgative, alcuni tra i più importanti giardini storici che punteggiano il territorio toscano. Il corredo iconografico è frutto di una campagna fotografica approntata per l'occasione e riporta numerose planimetrie dei giardini, frutto della ricerca che sta a monte di questa pubblicazione. Contiene un saggio introduttivo dell'architetto Mariella Zoppi, assessore alla Cultura della Regione Toscana. La nuova edizione del 2004 porta a 130 i giardini storici della Regione censiti, divisi per le dieci province, è accresciuto di pagine, di illustrazioni e contiene un indice analitico dell'intera opera.

**Garden and Grove** John Dixon Hunt.2016-02-15 Garden and Grove is a pioneering study of the English fascination with Italian Renaissance gardens. John Dixon Hunt studies reactions of English visitors in their journals and travel books to the exciting world of Italian gardens: its links with classical villas, with Virgil and farming, with Ovid and metamorphosis, its association with theater, its variety, its staged debates between art and nature. Then he looks at what English visitors made of these Italian garden experiences upon their return home and at how they created Italianate gardens on their estates, on their stages, and in their poems. With a wealth of literary and visual materials previously untapped, Hunt provides a new history of an intriguing and vital phase of English garden history. Not only does he suggest the centrality of the garden as a focus for many social, aesthetic, political, and philosophical ideas but he argues that the so-called English landscape garden before Capability Brown, in the late eighteenth century, owed much to a long and continuing emulation of Italian Renaissance models.

*Annuaire Europeen 1989 - European Yearbook 1989* Council of Europe/Conseil de L'Europe.1991-06-14 The European Yearbook has expanded over the years in keeping with the role played by European institutions compared with national ones. It is an indispensable work of reference for anyone dealing with these institutions, which have become so numerous and varied that no-one can possibly memorise all their acronyms or functions. The European Yearbook provides aids for finding one's way through the labyrinth of these organisations which coordinate a variety of activities in over 20 countries. One of the aids is an 'organisation chart' at the beginning of the documentary section, giving a clear picture of the general situation. A perusal of the many contributions in the volume organisation by organisation, shows the full diversity of the activities which Europe is gradually taking over from national governments, with their consent and financial support. Written in both of the Council of Europe's official languages, English and French, the European Yearbook also contains a general index by subject and name which constitutes a very valuable list of articles and provides direct access to the work's subject matter, regardless of the particular organisation concerned, offering a kind of cross-section of the activities of European organisations.

**Origins, Imitation, Conventions** James S. Ackerman.2024-03-19 Twelve studies by eminent art historian James S. Ackerman. This collection contains studies written by art historian James Ackerman over the past decade. Whereas Ackerman's earlier work assumed a development of the arts as they responded to social, economic, political, and cultural change, his recent work reflects the poststructural critique of the presumption of progress that characterized Renaissance and modernist history and criticism. In this book he explores the tension between the authority of the past—which may act not only as a restraint but as a challenge and stimulus—and the potentially liberating gift of invention. He examines the ways in which artists and writers on art have related to ancestors and to established modes of representation, as well as to contemporary experiences. The origins studied here include the earliest art history and criticism; the beginnings of architectural drawing in the Middle Ages and Renaissance; Leonardo Da Vinci's sketches for churches, the first in the Renaissance to propose supporting domes on sculpted walls and piers; and the first architectural photographs. Imitation refers to artistic achievements that in part depended on the imitation of forms established in practices outside the fine arts, such as ancient Roman rhetoric and print media. Conventions, like language, facilitate communication between the artist and viewer, but are both more universal (understood across cultures) and more fixed (resisting variation that might diminish their clarity). The three categories are closely linked throughout the book, as most acts of representation partake to some degree of all three.

*Legal Plunder* Daniel Lord Smail.2016-06-06 As a Europe grew rich in the Middle Ages, the well-made clothes, linens, and wares of households often substituted for hard currency. Pawnbrokers kept goods in circulation, and sergeants of the law marched into debtors' homes to seize belongings equal in value to debts owed. David Smail describes a material world on the cusp of modern capitalism.

**Epidemics** Samuel Kline Cohn.2018 In this study, Samuel K. Cohn, Jr. investigates hundreds of descriptions of epidemics reaching back before the fifth-century-BCE Plague of Athens to the 2014 Ebola outbreak to challenge the dominant hypothesis that epidemics invariably provoke hatred, blaming of the 'other', and victimizing bearers of epidemic diseases.--

**The Dark Side of Knowledge** Cornel Zwierlein.2016-06-10 How can one study the absence of knowledge, the voids, the conscious and unconscious unknowns through history? Investigations into late medieval and early modern practices of measuring, of risk calculation, of ignorance within financial administrations, of conceiving the docta ignorantia as well as the silence of the illiterate are combined with contributions regarding knowledge gaps within identification procedures and political decision-making, with the emergence of consciously delimited blanks on geographical maps, with ignorance as a factor embedded in iconographic programs, in translation processes and the semantic potentials of reading. Based on thorough archival analysis, these selected contributions from conferences at Harvard and Paris are tightly framed by new theoretical elaborations that have implications beyond these cases and epochal focus. Contributors: Giovanni Ceccarelli, Taylor Cowdery, Lucile Haguët, John T. Hamilton, Lucian Hölscher, Moritz Isenmann, Adam J. Kosto, Marie-Laure Legay, Andrew McKenzie-McHarg, Fabrice Micallef, William T. O'Reilly, Eleonora Rohland, Mathias Schmoeckel, Daniel L. Smail, Govind P. Sreenivasan, and Cornel Zwierlein.

**Dubrovnik: A Mediterranean Urban Society, 1300-1600** Barisa Krekić.2023-06-09 This second volume of the author's studies opens with a new survey of the recent historiography of Dubrovnik, and also contains four items specially translated from Serbo-Croat. The first part deals with aspects of daily life in this Mediterranean city, including analyses of the differing attitudes of the patricians and lower classes, and the position of the authorities with regard to homosexuals and Jews. The following articles consider Dubrovnik's international role, on the one hand as a maritime state and in relation to Venice, and on the other in terms of its participation in the interaction of Latin and Slav cultures in Renaissance Dalmatia.
