She knew she needed to get away from her old life and recover in safety. With the proceeds of a video game she helped develop, Ellie starts over in rural Missouri, working from her cottage and trusting no one except her friend and business partner. Yet even in this quiet small town, it's impossible to completely isolate herself. Especially when a curious eight-year-old boy, smitten with Ellie's pup, stops by every day to talk to him over the fence. Little by little, Ellie is being drawn back into the world through the neighbors and community around her, realizing that everyone has their own fears and obstacles to contend with. But when Ellie hears that Rick has resurfaced, her nightmares return, and with them, small snippets of memory. No one has heard from Rick since before the incident, so why is he back now? Ellie wants to move forward with her life, but first she must find the courage to look into her past, no matter what she finds there...

Minilateralism in the Indo-Pacific Bhubhindar Singh,Sarah Teo.2020-05-05 While US-centred bilateralism and ASEAN-led multilateralism have largely dominated the post-Cold War regional security architecture in the Indo-Pacific, increasing doubts about their effectiveness have resulted in countries turning to alternative forms of cooperation, such as minilateral arrangements. Compared to multilateral groupings, minilateral platforms are smaller in size, as well as more exclusive, flexible and functional. Both China and the US have contributed to minilateral initiatives in the Indo-Pacific. In the case of the former, there is the Lancang-Mekong Cooperation mechanism—involving China, Cambodia, Laos, Myanmar, Thailand and Vietnam—established in 2015. In the case of the latter, there has been a revival of the Quadrilateral Security Dialogue in 2017—involving the US, Australia, Japan and India. This book examines the rise of these arrangements, their challenges and opportunities, as well as their impact on the extant regional security architecture, including on the ASEAN-led multilateral order. A valuable guide for students and policy-makers looking to understand the nature and development of minilateralism in the Indo-Pacific region.

Albanian: Ligji dhe Etika Islame (Islamic Law and Ethics) David R. Vishanoff .2023-01-01 Does Islamic law define Islamic ethics? Or is the law a branch of a broader ethical system? Or is it but one of several independent moral discourses, Islamic and otherwise, competing for Muslims' allegiance? The essays in this book present a range of answers: some take fiqh as the defining framework for ethics, others insert the law into a broader ethical system, and others present it as just one among several parallel Islamic ethical discourses, or show how Islamic ethics might coexist with non-Muslim normative systems. Their answers have far reaching implications for epistemology, for the authority of jurists and lay Muslims, for the practical moral challenges of daily life, and for relationships with non-Muslims. The book presents Muslim ethicists with a strategic contemporary choice: should they pursue a single overarching methodology for judging all ethical questions, or should they relish the rhetorical and political competition of alternative but not necessarily incompatible moral discourses?

Company Law in the New Europe Janet Dine, Marios Koutsias, Michael Blecher.2007-01-01 This study on the potential of law to ensure the social responsibility of a company is an innovative and important study. It is a topical contribution to the sociology of market economies in transition. It is a unique effort to provide detailed practical guidance for the design of the company law in developing economies in general and the new Europe in particular. Christian Joerges, European University Institute Florence, Italy This book provides comprehensive analysis of the recent enlargement of the EU, shedding light on the rationale behind the EU's decisions to enlarge, examining the side effects these choices have on a range of EU policies and particularly on the effect of the Acquis on candidate countries. Emphasis is placed on the area of company law, which occupies a central part in a country's economic planning and therefore its commercial law. Past enlargements are thoroughly explained and the potential impact of the new political landscape in Europe in the wake of the popular rejection of the European Constitutional Treaty on future enlargements is evaluated. A comparative methodology for commercial law drafting in transition and developing economies is put forward and the book concludes with a complete draft of a model company law for transition (and developing) economies. The aim is to provide a template for discussion. This book will be of great interest to those interested in considering the influence that the prospect of EU membership has on transition countries in general, the emphasis being on laws vital to emerging market economies, particularly commercial and company law.

Let's Get Free Paul Butler.2010-06-08 Drawing on his personal fascinating story as a prosecutor, a defendant, and an observer of the legal process, Paul Butler offers a sharp and engaging critique of our criminal justice system. He argues against discriminatory drug laws and excessive police power and shows how our policy of mass incarceration erodes communities and perpetuates crime. Controversially, he supports jury nullification—or voting “not guilty” out of principle—as a way for everyday people to take a stand against unfair laws, and he joins with the “Stop Snitching” movement, arguing that the reliance on informants leads to shoddy police work and distrust within communities. Butler offers instead a “hip hop theory of justice,” parsing the messages about crime and punishment found in urban music and culture. Butler's argument is powerful, edgy, and incisive.

Kanuni i Lekë Dukagjinit Lekë Dukagjini.1989 THE CODE OF LEKE DUKAGJINI is a great cultural treasure, comparable to the chapters of The Old Testament. It provides deep insights into the ancient society of the Albanians, their somber dignity & their magnificent sense of honor.--David Binder, The New York Times. This legal system was established & passed on to future generations as a common law by Leke Dukagjini, a co-fighter of the legendary Skenderbeg. The 'Besa' or the 'word of honor' as stated in THE CODE OF LEKE DUKAGJINI which means peace & protection to those whom it is given, has become today an important fighting tool in the political struggle of Kosovo's Albanians against Serb oppression.--Victor Meier, The Frankfurter Allgemeine Zeitung. The legal Code of the Albanians known by them for a thousand years, is one of the most original in the history of mankind. Among the basic pillars of this code are the equality of men before the code & the non-abuse of justice. The entire essence of the legal code of the Albanians is an unparalleled rigorous respect for this basic principle: non-violation of the dignity of a man- his honor, home, & life.--Ismail Kadare, Albanian writer.

Decision By Objectives: How To Convince Others That You Are Right Ernest Forman, Mary Ann Selly.2001-12-10 Decision-making is a process of choosing from possible courses of action in order to attain goals and objectives. Nobel laureate Herbert Simon wrote that the whole process of managerial decision-making is synonymous with the practice of management. Decision-making is at the core of all managerial functions. Planning, for example, involves the following decisions: What should be done? When? How? Where? By whom? Other managerial functions, such as organizing, implementing, and controlling, rely heavily on decision-making. Decision by Objectives is an invaluable book about the art and science of decision-making. It presents a very practical approach to decision-making that has a sound theoretical foundation, known as the analytic hierarchy process. Intended for both the student and the professional, the book includes approaches to prioritizing, evaluating alternative courses of action, forecasting, and allocating resources. By focusing on objectives rather than alternatives alone, it shows the reader how to synthesize information from multiple sources, analyses, and perspectives. The methods presented have been gaining popularity throughout the world.

Usual Cruelty Alec Karakatsanis.2019-10-29 From an award-winning civil rights lawyer, a profound challenge to our society's normalization of the caging of human beings, and the role of the legal profession in perpetuating it Alec Karakatsanis is interested in what we choose to punish. For

example, it is a crime in most of America for poor people to wager in the streets over dice; dice-wagerers can be seized, searched, have their assets forfeited, and be locked in cages. It's perfectly fine, by contrast, for people to wager over international currencies, mortgages, or the global supply of wheat; wheat-wagerers become names on the wings of hospitals and museums. He is also troubled by how the legal system works when it is trying to punish people. The bail system, for example, is meant to ensure that people return for court dates. But it has morphed into a way to lock up poor people who have not been convicted of anything. He's so concerned about this that he has personally sued court systems across the country, resulting in literally tens of thousands of people being released from jail when their money bail was found to be unconstitutional. Karakatsanis doesn't think people who have gone to law school, passed the bar, and sworn to uphold the Constitution should be complicit in the mass caging of human beings—an everyday brutality inflicted disproportionately on the bodies and minds of poor people and people of color and for which the legal system has never offered sufficient justification. Usual Cruelty is a profoundly radical reconsideration of the American injustice system by someone who is actively, wildly successfully, challenging it.

Like its predecessors, this edition celebrates the joys of teaching and learning at their best and emphasizes the reciprocal exchange of wisdom that teachers and students can experience.
