Closing the Gap in a Generation WHO Commission on Social Determinants of Health, World Health Organization. 2008 Social justice is a matter of life and death. It affects the way people live, their consequent chance of illness, and their risk of premature death. We watch in wonder as life expectancy and good health continue to increase in parts of the world and in alarm as they fail to improve in others.

California Mennonites Brian Froese. 2015-02-19 Books geographically focused on the midwestern and eastern states dominate the study of Mennonites in America. The intriguing history of Mennonites in the American West remains untold. In *From Digging Gold to Saving Souls*, Brian Froese introduces readers for the first time to the California Mennonite experience. Although a few Mennonites did dig for gold in the 1850s, the real story of Mennonites in California begins in the 1890s with westward migrations for fertile soil and healthy sunshine. By the mid-twentieth century, the Mennonite story in California had developed into an interesting tale of religious conservatives--traditional agrarians--finding their way in an increasingly urban and religiously pluralistic California. Some California Mennonites negotiated new identities by endorsing conservative evangelicalism; some found them in reclamations of sixteenth-century Anabaptists. Still other Mennonites found meaningful religious experience by engaging in social action and justice even when these actions appeared in secular forms. These emerging identities--Evangelical, Anabaptist, and secular--covered a broad spectrum, yet represented a selective retaining and discarding of Mennonite religious practices and expressions. *From Digging Gold to Saving Souls* touches on such topics as migration, pluralism, race, gender, pacifism, institutional construction, education, and labor conflict, all of which defined the experience of Mennonites of California. Brian Froese shows how this experience was a rich, complex, and deliberate move into modern society. In *From Digging Gold to Saving Souls*, he introduces readers to a dynamic people who did not simply become modern, but who chose to modernize on their own terms--

Is Two-Tier Health Care the Future? Colleen M. Flood, Bryan Thomas. 2020-04-28 Canadians are deeply worried about wait times for health care. Entrepreneurial doctors and private clinics are bringing Charter challenges to existing laws restrictive of a two-tier system. They argue that Canada is an outlier among developed countries in limiting options to jump the queue. This book explores whether a two-tier model is a solution. In *Is Two-Tier Health Care the Future?*, leading researchers explore the public and private mix in Canada, Australia, Germany, France, and Ireland. They explain the history and complexity of interactions between public and private funding of health care and the many regulations and policies found in different countries used to both inhibit and sometimes to encourage two-tier care, such as tax breaks. This edited collection provides critical evidence on the different approaches to regulating two-tier care across different countries and what could work in Canada. This book is published in English.

Theories Of The Policy Process Christopher M. Weible. 2023-06-12 *Theories of the Policy Process* provides a forum for the experts in policy process research to present the basic propositions, empirical evidence, latest updates, and the promising future research opportunities of each policy process theory. In this thoroughly revised fifth edition, each chapter has been updated to reflect recent empirical work, innovative theorizing, and a world facing challenges of historic proportions with climate change, social and political inequities, and pandemics, among recent events. Updated and revised chapters include Punctuated Equilibrium Theory, Multiple Streams Framework, Policy Feedback Theory, Advocacy Coalition Framework, Narrative Policy Framework, Institutional and Analysis and Development Framework, and Diffusion and Innovation. This fifth edition includes an entirely new chapter on the Ecology of Games Framework. New authors have been added to most chapters to diversify perspectives and make this latest edition the most internationalized yet. Across the chapters, revisions have clarified concepts and theoretical arguments, expanded and extended the theories' scope, summarized lessons learned and knowledge gained, and addressed the relevancy of policy process theories. *Theories of the Policy Process* has been, and remains, the quintessential gateway to the field of policy process research for students, scholars, and practitioners. It's ideal for those enrolled in policy process courses at the undergraduate and graduate levels, and those conducting research or undertaking practice in the subject.

Wealth, Poverty and Politics Thomas Sowell. 2016-09-06 In *Wealth, Poverty, and Politics*, Thomas Sowell, one of the foremost conservative public intellectuals in this country, argues that political and ideological struggles have led to dangerous confusion about income inequality in America. Pundits and politically motivated economists trumpet ambiguous statistics and sensational theories while ignoring the true determinant of income inequality: the production of wealth. We cannot properly understand inequality if we focus exclusively on the distribution of wealth and ignore wealth production factors such as geography, demography, and culture. Sowell contends that liberals have a particular interest in misreading the data and chastises them for using income inequality as an argument for the welfare state. Refuting Thomas Piketty, Paul Krugman, and others on the left, Sowell draws on accurate empirical data to show that the inequality is not nearly as extreme or sensational as we have been led to believe. Transcending partisanship through a careful examination of data, *Wealth, Poverty, and Politics* reveals the truth about the most explosive political issue of our time.

The Gargoyle Andrew Davidson. 2009-06-23 An extraordinary debut novel of love that survives the fires of hell and transcends the boundaries of time. On a burn ward, a man lies between living and dying, so disfigured that no one from his past life would even recognize him. His only comfort comes from imagining various inventive ways to end his misery. Then a woman named Marianne Engel walks into his hospital room, a wild-haired, schizophrenic sculptress on the lam from the psych ward upstairs, who insists that she knows him - that she has known him, in fact, for seven hundred years. She remembers vividly when they met, in another hospital ward at a convent in medieval Germany, when she was a nun and he was a wounded mercenary left to die. If he has forgotten this, he is not to worry: she will prove it to him. And so Marianne Engel begins to tell him their story, carving away his disbelief and slowly drawing him into the orbit and power of a word he'd never uttered: love.

Traditional Knowledge in Policy and Practice Suneetha M. Subramanian, Balakrishna Pisupati. 2010 Traditional knowledge (TK) has contributed immensely to shaping development and human well-being. Its influence spans a variety of sectors, including agriculture, health, education and governance. However, in today's world, TK and its practitioners are increasingly underrepresented or under-utilized. Further, while the applicability of TK to human and environmental welfare is well-recognized, collated information on how TK contributes to different sectors is not easily accessible. --

Adult Literacy in OECD Countries T. Scott Murray, Irwin S. Kirsch, Lynn Jenkins. 1998 In December 1995, the Organisation for Economic Co-Operation and Development (OECD) and Statistics Canada jointly published the results of the first International Adult Literacy Survey (IALS). For this survey, representative samples of adults aged 16 to 65 were interviewed and tested in their homes in Canada, France, Germany, the Netherlands, Poland, Sweden, Switzerland, and the United States. This report describes how the survey was conducted in each country and presents all available evidence on the extent of bias in each country's data. Potential sources of bias, including sampling error, non-sampling error, and the cultural appropriateness and construct validity of the assessment instruments, are discussed. The chapters are; (1) Introduction (Irwin S. Kirsch and T. Scott Murray); (2) Sample Design (Nancy Darcovich); (3) Survey Response and Weighting (Nancy Darcovich); (4) Non-Response Bias (Nancy Darcovich, Marilyn Binkley, Jon Cohen, Mats Myrberg, and Stefan Persson); (5) Data Collection and Processing (Nancy Darcovich and T. Scott Murray); (6) Incentives and the Motivation To Perform Well (Stan Jones); (7) The Measurement of Adult Literacy (Irwin S. Kirsch, Ann Jungeblut, and Peter B. Mosenthal); (8) Validity Generalization of the Assessment across Countries (Don Rock); (9) An Analysis of Items with Different Parameters across Countries (Marilyn R. Binkley and Jean R. Pignal); (10) Scaling and Scale Linking (Kentaro Yamamoto); (11) Proficiency Estimation (Kentaro Yamamoto and Irwin S. Kirsch); (12) Plausibility of Proficiency Estimates (Richard Shillington); and (13) Nested-Factor Models for the Swedish IALS Data (Bo Palaszewski). Fourteen appendixes contain supplemental information, some survey questionnaires, and additional documentation for various chapters. (Contains 94 tables, 12 figures, and 74 references.) (SLD)

A Light to My Path Lynn Austin. 2004-11-01 You don't have to go with Missy Claire. She can't make you go with her. Kitty, a house slave, has always obeyed Missy Claire and followed orders. But when word arrives that the Yankees are coming, Kitty is faced with a decision. Will she continue serving Missy Claire and her household? Or will she listen to Grady and embrace this chance for freedom? Even wise Delia says Kitty has to decide for herself--that nobody except the Lord can tell her which way to go. Kitty has always lived in a world where authority is not questioned. She never has learned to make up her own mind any more than she has learned to read or write. But now Kitty has a daunting choice: How does she want her story to end?

The Political Economy of Workplace Injury in Canada Bob Barnetson. 2010 Workplace injuries are common, avoidable, and unacceptable. The Political Economy of Workplace Injury in Canada reveals how employers and governments engage in ineffective injury prevention efforts, intervening only when necessary to maintain standard legitimacy. Barnetson sheds light on this faulty system, highlighting the way in which employers create dangerous work environments yet pour billions of dollars into compensation and treatment. Examining this dynamic clarifies the way in which production costs are passed on to workers in the form of workplace injuries.

Vital Signs Institute of Medicine, Committee on Core Metrics for Better Health at Lower Cost. 2015-08-26 Thousands of measures are in use today to assess health and health care in the United States. Although many of these measures provide useful information, their usefulness in either gauging or guiding performance improvement in health and health care is seriously limited by their sheer number, as well as their lack of consistency, compatibility, reliability, focus, and organization. To achieve better health at lower cost, all stakeholders - including health professionals, payers, policy makers, and members of the public - must be alert to what matters most. What are the core measures that will yield the clearest understanding and focus on better health and well-being for Americans? Vital Signs explores the most important issues - healthier people, better quality care, affordable care, and engaged individuals and communities - and specifies a streamlined set of 15 core measures. These measures, if standardized and applied at national, state, local, and institutional levels across the country, will transform the effectiveness, efficiency, and burden of health measurement and help accelerate focus and progress on our highest health priorities. Vital Signs also describes the leadership and activities necessary to refine, apply, maintain, and revise the measures over time, as well as how they can improve the focus and utility of measures outside the core set. If health care is to become more effective and more efficient, sharper attention is required on the elements most important to health and health care. Vital Signs lays the groundwork for the adoption of core measures that, if systematically applied, will yield better health at a lower cost for all Americans.

Building an Inclusive Development Community Karen Heinicke-Motsch, Susan Sygall. 2004 * An essential resource for all development agencies seeking to include people with disabilities* User-friendly tools and practical advice from experienced practitioners There are four hundred million people with disabilities living in developing countries today. All too often they live in poverty and isolation. If development is to truly address the needs of the poor and marginalized, the inclusion of people with disabilities is crucial. Building an Inclusive Development Community is a toolkit for development agencies and others concerned with the participation of people with disabilities at all levels and in all areas of the international development process. The manual is organized into issues and includes helpful worksheets, best practice examples, resources and much more.

Decolonizing Trauma Work Renee Linklater. 2020-07-10T00:00:00Z In *Decolonizing Trauma Work*, Renee Linklater explores healing and wellness in Indigenous communities on Turtle Island. Drawing on a decolonizing approach, which puts the "soul wound" of colonialism at the centre, Linklater engages ten Indigenous health care practitioners in a dialogue regarding Indigenous notions of wellness and wholistic health, critiques of psychiatry and psychiatric diagnoses, and Indigenous approaches to helping people through trauma, depression and experiences of parallel and multiple realities. Through stories and strategies that are grounded in Indigenous worldviews and embedded with cultural knowledge, Linklater offers purposeful and practical methods to help individuals and communities that have experienced trauma. *Decolonizing Trauma Work*, one of the first books of its kind, is a resource for education and training programs, health care practitioners, healing centres, clinical services and policy initiatives.

Gerontological Nursing: Competencies for Care Kristen L. Mauk.2010-10-25 Important Notice: The digital edition of this book is missing some of the images or content found in the physical edition. Gerontological Nursing: Competencies for Care, Second Edition is a comprehensive and student-accessible text that offers a holistic and inter-disciplinary approach to caring for the elderly. The framework for the text is built around the Core Competencies set forth by the American Association of Colleges of Nursing (AACN) and the John A. Hartford Foundation Institute for Geriatric Nursing. Building upon their knowledge in prior medical surgical courses, this text gives students the skills and theory needed to provide outstanding care for the growing elderly population. It is the first of its kind to have more than 40 contributing authors from many different disciplines. Some of the key features include chapter outlines, learning objectives, discussion questions, personal reflection boxes, and case studies.

The Open Book of Social Innovation Robin Murray,Julie Caulier-Grice,Geoff Mulgan.2010 This book is about the many ways in which people are creating new and more effective answers to the biggest challenges of our times: how to cut our carbon footprint; how to keep people healthy; and how to end poverty. It describes the methods and tools for innovation being used across the world and across different sectors - the public and private sectors, civil society and the household - in the overlapping fields of the social economy, social entrepreneurship and social enterprise. It draws on inputs from hundreds of organisations to document the many methods currently being used around the world. -- Back cover.
