The Post-Soviet Wars Christoph Zurcher.2009-09 A brief history of the Caucasus region during and after the Post-Soviet Wars The Post-Soviet Wars is a comparative account of the organized violence in the Caucasus region, looking at four key areas: Chechnya, Armenia, Azerbaijan, Georgia, and Dagestan. Zürcher's goal is to understand the origin and nature of the violence in these regions, the response and suppression from the post-Soviet regime and the resulting outcomes, all with an eye toward understanding why some conflicts turned violent, whereas others not. Notably, in Dagestan

actual violent conflict has not erupted, an exception of political stability for the region. The book provides a brief history of the region, particularly the collapse of the Soviet Union and the resulting changes that took place in the wake of this toppling. Zürcher carefully looks at the conditions within each region—economic, ethnic, religious, and political—to make sense of why some turned to violent conflict and some did not and what the future of the region might portend. This important volume provides both an overview of the region that is both up-to-date and comprehensive as well as an accessible understanding of the current scholarship on mobilization and violence.

Building Resilience to Climate Change in South Caucasus Agriculture Nicolas Ahouissoussi, James E. Neumann, Jitendra P. Srivastava. 2014-05-06 This book illustrates the World Bank's commitment to assist countries to respond to the opportunities and challenges posed by climate change. Undertaken in collaborative partnership with policy makers, farmers, civil society, and other stakeholders in Armenia, Azerbaijan and Georgia, it provides a much needed response to the call for action by quantifying the impact and identifying key priorities for policies, programs, and investments to reduce the vulnerability of agricultural systems to climate change in the South Caucasus. The study responds to the urgent need for climate adaptation, as highlighted in the World Bank's "Turn Down the Heat" report. Notably, the South Caucasus is already contending with increasing aridity and more frequent extreme weather events (e.g. severe droughts, floods and hailstorms). It presents practical solutions for a more climate smart agriculture, at the regional, national and agro-ecological zone level in each country. The recommendations offered in this book are a compilation of the results of the three national studies, and highlight the need and potential for regional collaborative action to increase benefits, while also continuing to emphasize the need for an effective response at the national level. The national level results are supported by country reports, which provide more details. This work is but an important beginning. To achieve the goals of climate resilience in the

agriculture sector, more work is needed to translate the proposals into reality. The analysis demonstrates that investments in irrigation infrastructure and on-farm technologies have great potential to raise agricultural productivity and improve the climate resilience of the sector. Demand-side agricultural water management will have high short-term payoffs, and these short-term payoffs are complementary to the success of long-term irrigation, drainage and other infrastructure investments. Strengthening the disaster risk management strategies (beyond agricultural measures) are also needed to help mitigate household risks from extreme events, especially for the poorest, who are the most vulnerable.

Republic of Azerbaijan International Monetary Fund. Middle East and Central Asia Dept.. 2019-09-18 This 2019 Article IV Consultation with the Republic of Azerbaijan highlights that the economy is continuing to recover from a banking crisis and recession. Looking ahead, economic growth is expected to reach 2.7 percent in 2019 on strong hydrocarbon production and robust domestic demand, benefitting from new spending measures. Gradual and growth-friendly fiscal consolidation is needed to strengthen intergenerational and precautionary buffers while mitigating the adverse impact on the economy. Consolidation could rely on prioritizing and improving the efficiency of spending, rationalizing tax policy, and improving revenue administration. Reducing administrative burden for businesses, encouraging competition, and strengthening governance and transparency

would reduce the cost of doing business, foster entrepreneurship, and attract foreign capital. Prioritizing investment for healthcare and education, improving its efficiency, and better targeting of social protection would help nurture human capital and improve productivity. Addressing governance weaknesses is essential to reduce vulnerabilities to corruption. More integrated policies, along with better data availability, would support decision making and credibility, and attract investment.

Georgia After the Rose Revolution Svante E. Cornell.2007 The attacks on New York and Washington on September 11, 2001, enhanced the importance of both the Transcaucasus and Central Asia to American security. Overflight rights through the Caucasus to Central Asia and Afghanistan are vital components of the ongoing military effort there by both U.S. and NATO forces. But this region has multiple conflicts and fault-lines. As multiple recent crises show, Russo-Georgian tensions connected with South Ossetia and Abkhazia could erupt into open violence at any time. The author outlines the possibilities for conflict in this region and the qualities that make it strategically important, not only for Washington and Moscow, but also increasingly for Europe.

The Russian Military and the Georgia War Ariel Cohen,Robert E. Hamilton.2011 In this monograph, the authors state that Russia planned the war against Georgia in August 2008 aiming for the annexation of Abkhazia, weakening the Saakashvili regime, and prevention of NATO enlargement. According to them, while Russia won the campaign, it also exposed its own military as badly needing reform. The war also demonstrated weaknesses of the NATO and the European Union security systems.

Religion, Nation and Democracy in the South Caucasus Alexander Agadjanian, Ansgar Jödicke, Evert van der Zweerde. 2014-10-10 This book explores developments in the three major societies of the South Caucasus - Armenia, Azerbaijan and Georgia - focusing especially on religion, historical traditions, national consciousness, and political culture, and on how these factors interact. It outlines how, despite close geographical interlacement, common historical memories and inherited structures, the three countries have deep differences; and it discusses how development in all three nations has differed significantly from the countries' declared commitments to democratic

orientation and European norms and values. The book also considers how external factors and international relations continue to impact on the three countries.

Nested Nationalism Krista A. Goff.2021-01-15 Nested Nationalism is a study of the politics and practices of managing national minority identifications, rights, and communities in the Soviet Union and the personal and political consequences of such efforts. Titular nationalities that had republics named after them in the USSR were comparatively privileged within the boundaries of their republics, but they still often chafed both at Moscow's influence over republican affairs and at broader Russian hegemony across the Soviet Union. Meanwhile, members of nontitular communities frequently complained that nationalist republican leaders sought to build titular nations on the back of minority assimilation and erasure. Drawing on extensive archival and oral history research conducted in Armenia, Azerbaijan, Dagestan, Georgia, and Moscow, Krista A. Goff argues that Soviet nationality policies produced recursive, nested relationships between majority and minority nationalisms and national identifications in the USSR. Goff pays particular attention to how these asymmetries of power played out in minority communities, following them from Azerbaijan to

Georgia, Dagestan, and Iran in pursuit of the national ideas, identifications, and histories that were layered across internal and international borders. What mechanisms supported cultural development and minority identifications in communities subjected to assimilationist politics? How did separatist movements coalesce among nontitular minority activists? And how does this historicization help us to understand the tenuous space occupied by minorities in nationalizing states across contemporary Eurasia? Ranging from the early days of Soviet power to post-Soviet ethnic conflicts, *Nested Nationalism* explains how Soviet-era experiences and policies continue to shape interethnic relationships and expectations today.

Religion and Soft Power in the South Caucasus Ansgar Jödicke.2017-08-04 In the Caucasus region, Georgia, Armenia, Azerbaijan and their powerful neighbours Russia, Turkey, Iran and the EU negotiate their future policies and spheres of influence. This volume explores the role of religion in the South Caucasus to describe and explain how transnational religious relationships intermingle with transnational political relationships. The concept of 'soft power' is the heuristic starting point of this important investigation to define the importance of religion in the region. Drawing on a three-year project supported by the Swiss National Science Foundation, the book brings together academics from the South Caucasus and across Europe to offer original empirical research and contributions from experienced researchers in political science, history and oriental studies. This book will be of interest to scholars in the fields of post-Soviet studies, international relations, religious studies and political science.

need to be taken to realise that potential are feasible and affordable.

Armenia's Velvet Revolution Anna Ohanyan, Laurence Broers.2020-09-03 In April 2018, Armenia experienced a remarkable popular uprising leading to the resignation of Prime Minister Serzh Sargsyan and his replacement by protest leader Nikol Pashinyan. Evoking Czechoslovakia's similarly peaceful overthrow of communism 30 years previously, the uprising came to be known as Armenia's 'Velvet Revolution': a broad-based movement calling for clean government, democracy and economic reform. This volume examines how a popular protest movement, showcasing civil disobedience as a mass strategy for the first time in the post-Soviet space, overcame these unpromising circumstances. Situating the events in Armenia in their national, regional and global contexts, different contributions evaluate the causes driving Armenia's unexpected democratic turn, the reasons for regime vulnerability and the factors mediating a non-violent outcome. Drawing on comparative

perspectives with democratic transitions across the world, this book will be essential reading for those interested in the regime dynamics, social movements and contested politics of contemporary Eurasia, as well as policy-makers and practitioners in the fields of democracy assistance and human rights in an increasingly multipolar world.

The Nagorno-Karabakh Conflict Heiko Krüger.2010-07-30 The Caucasus region, situated on a natural isthmus between the Black Sea and the Caspian Sea, has long been a border zone and a melting pot for a diverse range of cultures and peoples. As the intersection between Europe and Asia, and also - tween Russia and the Ottoman and Persian Empires, it has featured in the strategic plans of numerous great powers over the centuries. Given its abundance of natural resources, the ready-made raw material transport routes to Europe and its enduring position on the edge of Russia, nothing has changed to the present day. The tremendous development opportunities of the Caucasian region are being tarnished by unresolved territorial conflicts that put a continual and regionally balanced growth, sustained democratisation and long-term stability at risk. These conflicts, which all erupted with the dissolution of the Soviet Union, include the separatist movements in Abkhazia, Chechnya, Nagorno-Karabakh and South - setia. The war over South Ossetia, which erupted between Russia and Georgia in August 2008, spelt out the explosive potential still inherent in these conflicts.

Trends in Health Systems in the Former Soviet Countries Who Regional Office for Europe.2015-04-20 After the break-up of the Soviet Union in 1991, the countries that emerged from it faced myriad challenges, including the need to reorganize the organization, financing and provision of health services. Over two decades later, this book analyzes the progress that twelve of these countries (Armenia, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, the Republic of Moldova, the Russian Federation, Tajikistan, Turkmenistan, Ukraine and Uzbekistan) have made in reforming their health systems. Building on the health system reviews of the European Observatory on Health Systems and Policies (the HiT series), it illustrates the benefits of international comparisons of health systems, describing the often markedly different paths taken and evaluating the consequences of these choices. This book will be an important resource for those with an interest in health systems and policies in the post-Soviet countries, but also for those interested in health systems in general. It will be of particular use to governments in central and eastern Europe and the former Soviet countries (and those advising them), to international and non-governmental organizations active in the region, and to researchers of health systems and policies.

The International Politics of the Armenian-Azerbaijani Conflict Svante E. Cornell.2017-01-20 This book frames the Armenian-Azerbaijani conflict over Nagorno-Karabakh in the context of European and international security. It is the first book to focus on the politics of the conflict rather than the dispute itself. Since their emergence twenty years ago, this and other "frozen conflicts" of Eurasia have been affected by transformations in European security, and many ways absorbed into an ever fiercer geopolitical struggle for influence. The wars in Georgia and Ukraine brought greater attention to some unresolved conflicts, but not to the conflict between Armenia and Azerbaijan. As

the contributors to this volume argue, the conflict merits much greater European attention, for several reasons: it is on a path of escalation, existing mediation regimes are dysfunctional, and as both Georgia and Ukraine have showed, any outbreak of serious fighting will force the EU to respond. This book thus explains the interlocking interests of Russia, Turkey, Iran, the EU and United States in the conflict, and analyzes the negotiation process and the conflict's international legal aspects.

The Caucasus Thomas de Waal. 2018-11-02 This new edition of *The Caucasus* is a thorough update of an essential guide that has introduced thousands of readers to a complex region. Armenia, Azerbaijan, Georgia and the break-away territories that have tried to split away from them constitute one of the most diverse and challenging regions on earth, impressing the visitor with their multi-layered history and ethnic complexity. Over the last few years, the South Caucasus region has captured international attention again because of disputes between the West and Russia, its unresolved conflicts, and its role as an energy transport corridor to Europe. The Caucasus gives the reader a historical overview and an authoritative guide to the three conflicts that have blighted the region. Thomas de Waal tells the story of the Five-Day War between Georgia and Russia and recent political upheavals in all three countries. He also finds time to tell the reader about Georgian wine, Baku jazz and how the coast of Abkhazia was known as Soviet Florida. Short, stimulating and rich in detail, *The Caucasus* is the perfect guide to this fascinating and little-understood region.

Negotiating Armenian-Azerbaijani Peace Ohannes Geukjian. 2016-04-22 Conflict resolution,

conflict management and conflict transformations are major themes in this unique book which examines, explores and analyses the mediation attempts of the Organization for Security and Cooperation in Europe in the Nagorno-Karabakh conflict. Ohannes Geukjian shows the most striking characteristic of a protracted internal conflict such as this is its asymmetry and explains that, without meeting basic human needs like identity, recognition, security and participation, resolving any protracted social conflict is very difficult. The Armenian Azerbaijani case demonstrates how official diplomacy may not be able to solve protracted internal conflicts as, without addressing the real causes of the problematic relationship, attempts at peace making will always be sporadic and the space for mutual understanding and compromise shrink. Geukjian shows that conflict transformation has a particular salience in asymmetric conflicts such as this where the goal is to transform unjust relationships and where a high degree of polarisation between the disputants has taken root. Using the Nagorno-Karabakh case, this book focuses on the anatomy and causes of deadlock in negotiations and highlights the many difficulties in achieving a breakthrough.

The Security Dilemma and the End of the Cold War Alan Collins.1997 The security dilemma is rapidly emerging as one of the most important and controversial issues in international relations theory. This book asks what the security dilemma is and whether it really exists, and then tests the theory against the historical evidence of the most important geopolitical event since 1945 - the end of the Cold War. Collins suggests that Gorbachev's recognition of the existence of a security dilemma lay at the heart of the measures that he took to end the Cold War, and concludes that despite the euphoria of the early 1990s, the dilemma is re-emerging.
