Neonatal and Perinatal Mortality Jelka Zupan,Elisabeth Åhman,World Health Organization.2006-01-01 This report provides neonatal and perinatal mortality estimates by country, regional groupings and globally. For countries that do not have data, models were developed to estimate mortality. Since data on deaths come from a number of different sources, the methods used to obtain the estimates are also described. Country-specific estimates of stillbirth and early neonatal deaths are published here for the first time. Estimates of stillbirth deaths that occur during delivery (intrapartum) by regional groupings, as well as estimates of sex ratio in neonatal, early neonatal and stillbirth mortality for the developing world are also included.--Publisher's description.

A Short Life of Jonathan Edwards George M. Marsden.2008-09-05 Jonathan Edwards is one of the most extraordinary figures in American history. Arguably the most brilliant theologian ever born on American soil, Edwards (1703-1758) was also a pastor, a renowned preacher, a missionary to the Native Americans, a

biographer, a college president, a philosopher, a loving husband, and the father of eleven children. George M. Marsden -- widely acclaimed for his magisterial large study of Edwards -- has now written a new, shorter biography of this many-sided, remarkable man. *A Short Life of Jonathan Edwards* is not an abridgment of Marsden's earlier award-winning study but is instead a completely new narrative based on his extensive research. The result is a concise, fresh retelling of the Edwards story, rich in scholarship yet compelling and readable for a much wider audience, including students. Known best for his famous sermon "Sinners in the Hands of an Angry God," Jonathan Edwards is often viewed as a proponent of fire, brimstone, and the wrath of God. As Marsden shows, however, the focus of Edwards's preaching was not God's wrath but rather his overwhelming and all-encompassing love. Marsden also rescues Edwards from the high realms of intellectual history, revealing him more comprehensively through the lens of his everyday life and interactions. Further, Marsden shows how Edwards provides a window on the fascinating and often dangerous world of the American colonies in the decades before the American Revolution. Marsden here gives us an Edwards who illumines both American history and Christian theology, an Edwards that will appeal to readers with little or no training in either field. This short life will contribute significantly to the widespread and growing interest in Jonathan Edwards.

Violence Against Women .2014 Violence against women undermines women's core fundamental rights such as dignity, access to justice and gender equality. For example, one in three women has experienced physical and/or sexual violence since the age of 15; one in five women has experienced stalking; every second woman has been confronted with one or more forms of sexual harassment. What emerges is a picture of extensive abuse that affects many women's lives but is systematically underreported to the authorities. The scale of violence against

women is therefore not reflected by official data. This FRA survey is the first of its kind on violence against women across the 28 Member States of the European Union (EU). It is based on interviews with 42,000 women across the EU, who were asked about their experiences of physical, sexual and psychological violence, including incidents of intimate partner violence ('domestic violence'). The survey also included questions on stalking, sexual harassment, and the role played by new technologies in women's experiences of abuse. In addition, it asked about their experiences of violence in childhood. Based on the detailed findings, FRA suggests courses of action in different areas that are touched by violence against women and go beyond the narrow confines of criminal law, ranging from employment and health to the medium of new technologies.--Editor.

Escaping the Endless Adolescence Joseph Allen,Claudia Worrell Allen.2009-10-20 Do you sometimes wonder how your teen is ever going to survive on his or her own as an adult? Does your high school junior seem oblivious to the challenges that lie ahead? Does your academically successful nineteen-year-old still expect you to “just take care of” even the most basic life tasks? Welcome to the stunted world of the Endless Adolescence. Recent studies show that today’s teenagers are more anxious and stressed and less independent and motivated to grow up than ever before. Twenty-five is rapidly becoming the new fifteen for a generation suffering from a debilitating “failure to launch.” Now two preeminent clinical psychologists tell us why and chart a groundbreaking escape route for teens and parents. Drawing on their extensive research and practice, Joseph Allen and Claudia Worrell Allen show that most teen problems are not hardwired into teens’ brains and hormones but grow instead out of a “Nurture Paradox” in which our efforts to support our teens by shielding them from the growth-spurring rigors and rewards of

the adult world have backfired badly. With compelling examples and practical and profound suggestions, the authors outline a novel approach for producing dramatic leaps forward in teen maturity, including

- Turn Consumers into Contributors Help teens experience adult maturity—its bumps and its joys—through the right kind of employment or volunteer activity.
- Feed Them with Feedback Let teens see and hear how the larger world perceives them. Shielding them from criticism—constructive or otherwise—will only leave them unequipped to deal with it when they get to the “real world.”
- Provide Adult Connections Even though they’ll deny it, teens desperately need to interact with adults (including parents) on a more mature level—and such interaction will help them blossom!
- Stretch the Teen Envelope Do fewer things for teens that they can do for themselves, and give them tasks just beyond their current level of competence and comfort. Today’s teens are starved for the lost fundamentals they need to really grow: adult connections and the adult rewards of autonomy, competence, and mastery. Restoring these will help them unlearn their adolescent helplessness and grow into adults who can make you—and themselves—proud.

A Man of the People Chinua Achebe.2016-09-30 From the renowned author of The African Trilogy, a political satire about an unnamed African country navigating a path between violence and corruption As Minister for Culture, former school teacher M. A. Nanga is a man of the people, as cynical as he is charming, and a roguish opportunist. When Odili, an idealistic young teacher, visits his former instructor at the ministry, the division between them is vast. But in the eat-and-let-eat atmosphere, Odili's idealism soon collides with his lusts—and the two men's personal and political tauntings threaten to send their country into chaos. When Odili launches a vicious campaign against his former mentor for the same seat in an election, their mutual animosity drives the country to revolution. Published, prophetically, just days before Nigeria's first attempted coup in 1966, A Man of the People is an essential part of Achebe's body of work.

It explores the Tanzanian REDD+ policy processes and strategies at the national level, identifying barriers, limits and opportunities in national REDD+ arenas to inform future REDD+ design by providing research-based options for achieving efficient, effective and equitable REDD+ (i.e. the 3Es of REDD+). Both direct and indirect drivers of deforestation and forest degradation are at work, including forest conversion to small-scale agriculture, timber extraction driven by demand from national and

international markets, fuelwood and charcoal, and population growth. The prospects for REDD+ rest on improving a number of issues: tenure arrangements, forest governance, reliability of long-term funding, benefit-sharing mechanisms, and technical, human and financial capacity. We recommend the continuation of support towards decentralized sustainable forest management and utilization of the participatory forest management model as an entry point for REDD+ initiatives. Participatory land-use planning practices coupled with improved spatial planning and strengthening mechanisms against illegal activities entrenched in driving forest degradation are needed. In addition, for REDD+ to succeed it will need to challenge and overcome the powerful actors invested in and driving the business-as-usual model.

The site itself is available in English, German, French, Italian, and Portuguese, and the catalog includes books in all languages. There's a heavy bias towards English-language works and translations, but the same is true of all the ebook download sites we've looked at here.
