Spatial Aesthetics Nikos Papastergiadias.2010

What was Man Created For? Nikolaï Fedorovich Fedorov.1990 Taken from the *The Philosophy of the Common Task and Essays*, this is a selection of the writings of the Russian mystic philosopher who had an influence on such contemporaries as Tolstoy and Solov'ev. His ideas, once thought far-fetched, are now found to have been prophetic. He lived at a time of intense intellectual controversy, artistic creativity and scientific development in Russia, while at the same time, there was growing world-wide militarism, civic strife and labour unrest. Fedorov was deeply distressed by this state of discord and looked for a means to develop brotherly feeling and ways to divert human energies from war towards dealing more effectively with such natural disasters as floods, droughts, earthquakes and hurricanes.

Info-Aesthetics Lev Manovich.2019-03-07 Does new media represent a 'new avant-garde' of information? How can an information society be represented iconically if the activities that define it are all so dynamic? What are the cultural consequences of extending the internet into the physical world? In proposing software as modernity's new societal force, this book seeks to reclassify software as today's revitalized combustion engine, underpinning the logic of contemporary culture. Manovich investigates the ways in which the shift from an industrial to information society has resulted in new aesthetic sensibilities and representations. He describes software as the internal combustion engine of the information society, arguing that it is in software that the new cultural logic manifests itself most clearly. This is a cutting-edge and systematic examination of contemporary culture by the creator of the field of software studies.

Terry Pratchett's Carpe Jugulum Terry Pratchett.1999 Characters: 21 males, 15 females, Plus extras Scenic Requirements: Unit Set The de Magpyrs are the sort of vampires that would have Count Dracula spinning in his grave: modern, forward-looking and no longer afraid of holy water, garlic, religious symbols or, indeed, of anything else. This makes them very, very dangerous. Luckily for the Discworld, the three Lancre witches are on hand - and the battle is on!

The Wooden Star William Tenn.2013-07-25 The general theme of this collection is an ironic and sometimes bitter comment on man's stupidity to man. But Tenn's humor is irrepressible and bursts forth in a joyous political satire on the wars of the sexes titled *The Masculinist Revolt* - which may yet bring codpieces back into fashion. The *Wooden Star* contains the following: *Generation of Noah* *Brooklyn Project* *The Dark Star* *Null-P* *Eastward Ho!* *The Deserter* *Betelgeuse* *Bridge* *Will You Walk a Little Faster* *It Ends with a Flicker* *Lisbon* *Cubed* *The Masculinist Revolt*

The Wine-Dark Sea Leonardo Sciascia.2014-01-02 Here are some of Sciascia's greatest stories - brief and haunting, the realist tradition at its best. In one tale a couple of men talk, cynically yet earnestly, about the etymology of the word 'mafia' - who they are, and why their interest is so piqued by the word, becomes apparent with frightening clarity. In another story a group of peasants are taken on board ship and promised that they will be put ashore illegally at Trenton, New Jersey; after a long time at sea, their landfall is far from what they expected. And Mussolini himself takes an interest in the case of Aleister Crowley, whose presence in Sicily has become an embarrassment.

The Vikings and the Victorians Andrew Wawn.2000 Andrew Wawn draws together a wide range of source material, including novels, poems, lectures and periodicals, to give a comprehensive account of the construction and translation of the Viking age in 19th century Britain.

Iceland and Images of the North Sumarlidi Isleifsson, Daniel Chartier. 2011-05-20 T00:00:00-04:00
With a radically changing world, cultural identity and images have emerged as one of the most challenging issues in the social and cultural sciences. These changes provide an occasion for a thorough reexamination of cultural, historical, political, and economic aspects of society. The INOR (Iceland and Images of the North) group is an interdisciplinary group of Icelandic and non-Icelandic scholars whose recent research on contemporary and historical images of Iceland and the North seeks to analyze the forms these images assume, as well as their function and dynamics. The 21 articles in this book allow readers to seize the variety and complexity of the issues related to images of Iceland.

The Discworld Fools' Guild Terry Pratchett, Stephen Briggs. 2000-08-24 Contrast the Fools' Guild with the Assassins' Guild next door: one is pleasant, light and airy and the corridors echo with the quiet activity of people working hard to master a job they love; the other is gaunt, forbidding and silent, except for the occasional muffled sob . . . The Fools' Guild, founded 150 years ago, is also a hospital, craft standards enforcer, fraternal society and school. There is always a place and a custard pie in the face for any young boy with an amusing hump, speech impediment or other laughable deformity. As with previous diaries in the series, the usual mundane dates are complemented by the Discworld's own special occasions, so you will always know when to expect the Soul Cake Duck's choccie eggs and which days are most auspicious for the throwing of custard pies.

Wyrd Sisters - Playtext Stephen Briggs, Terry Pratchett. 2011-09-30 Terry Pratchett takes Shakespeare's Macbeth and then turns it up 'till the knob comes off. It's all there - a wicked duke and duchess, the ghost of the murdered king, dim soldiers, strolling players, a land in peril. And who stands between the Kingdom and destruction? Three witches. Granny Weatherwax (intolerant, self-opinionated, powerful), Nanny Ogg (down-to-earth, vulgar) and Magrat Garlick (naïve, fond of occult jewellery and bunnies). Stephen Briggs has been involved in amateur dramatics for over 25 years and he assures us that the play can be staged without needing the budget of Industrial Light and Magic. Not only that, but the cast should still be able to be in the pub by 10 o'clock! Oh, and a world of advice omitted from the play text: LEARN THE WORDS Havelock, Lord Vetinari

Brazil Imagined Darlene J. Sadlier. 2010-01-01 The first comprehensive cultural history of Brazil to be written in English, *Brazil Imagined: 1500 to the Present* captures the role of the artistic imaginary in shaping Brazil's national identity. Analyzing representations of Brazil throughout the world, this ambitious survey demonstrates the ways in which life in one of the world's largest nations has been conceived and revised in visual arts, literature, film, and a variety of other media. Beginning with the first explorations of Brazil by the Portuguese, Darlene J. Sadlier incorporates extensive source material, including paintings, historiographies, letters, poetry, novels, architecture, and mass media to trace the nation's shifting sense of its own history. Topics include the oscillating themes of Edenic and cannibal encounters, Dutch representations of Brazil, regal constructs, the literary imaginary, Modernist utopias, good neighbor protocols, and filmmakers' revolutionary and dystopian images of Brazil. A magnificent panoramic study of race, imperialism, natural resources, and other themes in the Brazilian experience, this landmark work is a boon to the field.

Total Modernity and the Avant-Garde in Twentieth-Century Chinese Art Minglu Gao. 2011-04-29 A groundbreaking book that describes a distinctively Chinese avant-gardism and a modernity that unifies art, politics, and social life. To the extent that Chinese contemporary art has become a global phenomenon, it is largely through the groundbreaking exhibitions curated by Gao Minglu: *China/Avant-Garde* (Beijing, 1989), *Inside Out: New Chinese Art* (Asia Society, New York, 1998), and *The Wall: Reshaping Contemporary Chinese Art* (Albright-Knox Art Gallery, 2005) among them. As the first Chinese writer to articulate a distinctively Chinese avant-gardism and modernity—one not defined by Western chronology or formalism—Gao Minglu is largely responsible for the visibility of Chinese art in the global art scene today. Contemporary Chinese artists tend to navigate between extremes, either embracing or rejecting a rich classical tradition. Indeed, for Chinese artists, the

term modernity refers not to a new epoch or aesthetic but to a new nation—modernity inextricably connects politics to art. It is this notion of total modernity that forms the foundation of the Chinese avant-garde aesthetic, and of this book. Gao examines the many ways Chinese artists engaged with this intrinsic total modernity, including the '85 Movement, political pop, cynical realism, apartment art, maximalism, and the museum age, encompassing the emergence of local art museums and organizations as well as such major events as the Shanghai Biennial. He describes the inner logic of the Chinese context while locating the art within the framework of a worldwide avant-garde. He vividly describes the Chinese avant-garde's embrace of a modernity that unifies politics, aesthetics, and social life, blurring the boundaries between abstraction, conception, and representation. Lavishly illustrated with color images throughout, this book will be a touchstone for all considerations of Chinese contemporary art.

In the Country of the Blind Michael Flynn. 2010-04-01 In the nineteenth century, a small group of American idealists managed to actually build Charles Babbage's Analytical Engine and use it to develop Cliology, mathematical models that could chart the likely course of the future. Soon they were working to alter history's course as they thought best. By our own time, the Society has become the secret master of the world. But no secret can be kept forever, at least not without drastic measures. Art to Come Terry Smith. 2019-09-06 In *Art to Come* Terry Smith—who is widely recognized as one of the world's leading historians and theorists of contemporary art—traces the emergence of contemporary art and further develops his concept of contemporaneity. Smith shows that embracing contemporaneity as both a historical concept and a condition of the globalized world allows us to grasp how contemporary art exists in a fluid space of increasing interdependencies, multiple contemporaneous modernities, and persistent inequalities. Throughout these essays, Smith offers systematic proposals for writing contemporary art's histories while assessing how curators, critics, philosophers, artists, and art historians are currently doing so. Among other topics, Smith examines the intersection of architecture with other visual arts, Chinese art since the Cultural Revolution, how philosophers are theorizing concepts associated with the contemporary, Australian Indigenous art, and the current state of art history. *Art to Come* will be essential reading for artists, art students, curators, gallery workers, historians, critics, and theorists.

The Square Root of Man William Tenn. 2013-10-02 Featuring man's staggering journey to the stars... In a Tenn's-eye view of the world, staggering can be interpreted in more ways than one, of

course. Notably - The warm, human interpretation The feminist interpretation The green-transparent-bubble interpretation The man-in-the-street interpretation Mr. Tenn has included a charming witch tale, a really delicious vampire item, and a superior machine (intergalactic hit) story. These have nothing to do with man's staggering journey to the stars. They are simply here to add to the confusion. Then again, why couldn't they have something to do with the square root of man?

Visual Rhetoric and Early Modern English Literature Katherine Acheson.2016-12-05 Early modern printed books are copiously illustrated with charts, diagrams, and other kinds of images that represent systems of thought and ways of doing things. *Visual Rhetoric and Early Modern English Literature* shows how these images fostered what Elizabeth Eisenstein called brainwork related to concepts of space, truth, art, and nature, and reveals their importance to poetry by Andrew Marvell and John Milton, and Aphra Behn's *Oroonoko*. The genres of illustration considered in this book include military strategy and tactics, garden design, instrumentation, Bibles, scientific schema, drawing instruction, natural history, comparative anatomy, and Aesop's Fables. The argument produces unique insights into the ways in which visual rhetoric affected verbal expression, and the book develops novel methods of using printed images as evidence in the interpretation of the rich, strange, and beautiful literature of early modern England.

Antinomies of Art and Culture Okwui Enwezor, Nancy Condee, Terry Smith.2009-01-16 In this landmark collection, world-renowned theorists, artists, critics, and curators explore new ways of conceiving the present and understanding art and culture in relation to it. They revisit from fresh perspectives key issues regarding modernity and postmodernity, including the relationship between art and broader social and political currents, as well as important questions about temporality and change. They also reflect on whether or not broad categories and terms such as modernity, postmodernity, globalization, and decolonization are still relevant or useful. Including twenty essays and seventy-seven images, *Antinomies of Art and Culture* is a wide-ranging yet incisive inquiry into how to understand, describe, and represent what it is to live in the contemporary moment. In the volume's introduction the theorist Terry Smith argues that predictions that postmodernity would emerge as a global successor to modernity have not materialized as anticipated. Smith suggests that the various situations of decolonized Africa, post-Soviet Europe, contemporary China, the conflicted Middle East, and an uncertain United States might be better characterized in terms of their "contemporaneity," a concept which captures the frictions of the present while denying the inevitability of all currently competing universalisms. Essays range from Antonio Negri's analysis of contemporaneity in light of the concept of multitude to Okwui Enwezor's argument that the entire world is now in a postcolonial constellation, and from Rosalind Krauss's defense of artistic modernism to Jonathan Hay's characterization of contemporary developments in terms of doubled and even para-modernities. The volume's centerpiece is a sequence of photographs from Zoe Leonard's *Analogue* project. Depicting used clothing, both as it is bundled for shipment in Brooklyn and as it is displayed for sale on the streets of Uganda, the sequence is part of a striking visual record of new cultural forms and economies emerging as others are left behind. Contributors: Monica Amor, Nancy Condee, Okwui Enwezor, Boris Groys, Jonathan Hay, Wu Hung, Geeta Kapur, Rosalind Krauss, Bruno Latour, Zoe Leonard, Lev Manovich, James Meyer, Gao Minglu, Helen Molesworth, Antonio Negri, Sylvester Okwunodu Ogbachie, Nikos Papastergiadis, Colin Richards, Suely Rolnik, Terry Smith, McKenzie Wark

The Thieves' Guild celebrates its 21st anniversary with its first Yearbook, featuring an address from Lord Vetinari himself, who encouraged the setting-up of the Guild to avoid the random, unfair and disorganised crime which, until his ascent to power, plagued the great city of Ankh-Morpork. Now crime is legal, organised and run to an annual budget and everyone is happy & well, almost everyone: woe betide the unlicensed thief, highwayman or slipperlegger who tries to do business without Guild approval! Of All Possible Worlds William Tenn.2016-03-03 It was a good job and Max Alben knew whom he had to thank for it-his great-grandfather. Good old Giovanni Albeni, he muttered as he hurried into the laboratory slightly ahead of the escorting technicians, all of them, despite the excitement of the moment, remembering to bob their heads deferentially at the half-dozen full-fledged and hard-faced men lolling on the couches that had been set up around the time machine.

The French in Texas François Lagarde.2010-01-01 A surprising history of explorers, pirates, priests, artists, and more: "The best overall study of the French experience in Texas ever assembled." —Jack Jackson, editor of *Texas* by Terán The flag of France is one of the six flags that have flown over Texas, but all that many people know about the French presence in Texas is the ill-fated explorer Cavelier de La Salle, fabled pirate Jean Lafitte, or Cajun music and food. Yet the French have made lasting contributions to Texas history and culture that deserve to be widely known and appreciated. In this book, François Lagarde and thirteen other experts present original articles that explore the French presence and influence on Texas history, arts, education, religion,

and business from the arrival of La Salle in 1685 to the dawn of the twenty-first century. Each article covers an important figure or event in the France-Texas story. The historical articles thoroughly investigate early French colonists and explorers; the French pirates and privateers; the Bonapartists of Champ-d'Asile; the French at the Alamo; Dubois de Saligny and French recognition of the Republic of Texas; the nineteenth-century utopists of Icaria and Reunion; and the French Catholic missions. Other articles deal with French immigration in Texas, including the founding of Castroville; Cajuns in Texas; and the French economic presence in Texas today—the first such study ever published. The remaining articles look at painters Théodore and Marie Gentilz; sculptor Raoul Josset; French architecture in Texas; French travelers from Théodore Pavie to Simone de Beauvoir who have written on Texas; and the French heritage in Texas education. Includes more than seventy photos and illustrations

Images of the North Sverrir Jakobsson.2009 This interdisciplinary volume seeks to examine and explore the various issues surrounding image construction, identity making and representations of the North, as well as the interconnectedness between those issues. The aim is to elucidate the multiple aspects of the idea of the North, both as a mythological space and a discursive system created and shaped by cultures outside the North as well as from within. The objective of the research project Iceland and Images of the North is to elucidate several aspects of images of the North and to explore their functions in the present, focusing especially on Iceland. What effect have Iceland and its people had on images of the North, and how do those images influence the Icelanders and other nations? The project will be a cooperative, interdisciplinary undertaking by researchers in the humanities and social sciences.

The Rejection of Consequentialism Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.
