**Русские Уголовные Татуировки И Игральные Карты** Damon Murray.2018 This book reveals the importance of playing cards in Russian criminal culture. The handmade decks are beautiful works of art in their own right. Prohibited by the prison authorities, they are constructed from innocuous materials procured from the everyday routine of prison life. During construction both the cards and their designs are adroitly manipulated so they can be read. Once they are completed, the virtuoso player prowls the prison, searching for a suitable victim. This process is described here for the first time. Extensive diagrams show how the cards are made, while decks of actual prison cards are reproduced in facsimile.

**Dressing for Pleasure in Rubber, Vinyl & Leather** Jonny Trunk.2010 AtomAge magazine was the underground bible of leather, rubber and vinyl fetish wear throughout the 1970s. Founded, designed and published by John Sutcliffe as a way of showcasing his extraordinary clothing designs, it quickly became a focal point for explorers of every kind of fledgling clothing scene. For its readers, AtomAge was both an instruction manual and a mirror. The experimental clothing, including items made by the readers themselves, transformed a passion for a sexual kink into a cult phenomenon. From motorbiking and mask wearing, to mudlarking and wading worship, AtomAge covered every conceivable wrinkle. The photographs reflect an age of amateur enthusiasm, before fetish became the industry it is today, inadvertently depicting a suburbia from which Dressing for Pleasure was a necessary escape. These outrageous costumes were an inspiration to a new generation of fashion designers, many of whom have since been assimilated into high-end collections. Presenting the most astonishing imagery from all thirty-two issues of this now rare and sought-after cult magazine, Dressing for Pleasure illustrates not just Sutcliffe's exceptional designs, but also, through their own photography and writing, the fantasies and desires of AtomAge followers.

**Bodies of Subversion** Margot Mifflin.2013-08-02 In this provocative work full of intriguing female characters from tattoo history, Margot Mifflin makes a persuasive case for the tattooed woman as an emblem of female self-expression. —Susan Faludi Bodies of Subversion is the first history of women's tattoo art, providing a fascinating excursion to a subculture that dates back into the nineteenth-century and includes many never-before-seen photos of tattooed women from the last century. Author Margot Mifflin notes that women's interest in tattoos surged in the suffragist 20s and the feminist 70s. She chronicles: \* Breast cancer survivors of the 90s who tattoo their mastectomy scars as an alternative to reconstructive surgery or prosthetics. \* The parallel rise of tattooing and cosmetic surgery during the 80s when women tattooists became soul doctors to a nation afflicted with body anxieties. \* Maud Wagner, the first known woman tattooist, who in 1904 traded a date with her tattooist husband-to-be for an apprenticeship. \* Victorian society women who wore tattoos as custom couture, including Winston Churchill's mother, who wore a serpent on her wrist. \* Nineteenth-century sideshow attractions who created fantastic abduction tales in which they claimed to have been forcibly tattooed. "In Bodies of Subversion, Margot Mifflin insightfully chronicles the saga of skin as signage. Through compelling anecdotes and cleverly astute analysis, she shows and tells us new histories about women, tattoos, public pictures, and private parts. It's an indelible account of an indelible piece of cultural history." —Barbara Kruger, artist

**Holidays in Soviet Sanatoriums** Maryam Omid.2017-09-14 A fascinating photographic study of the previously overlooked Soviet Sanatoriums and their treatments - stunning eastern bloc architecture meets crude-oil baths and radon water douches. Visiting a Soviet sanatorium is like stepping back in time. Originally conceived in the 1920s, they afforded workers a place to holiday, courtesy of a state-funded voucher system. At their peak

they were visited by millions of citizens across the USSR every year. A combination of medical institution and spa, the era's sanatoriums are among the most innovative buildings of their time. Although aesthetically diverse, Soviet utopian values permeated every aspect: western holidays were perceived as decadent. By contrast, sanatorium breaks were intended to edify and strengthen visitors - health professionals carefully monitored guests throughout their stay, so they could return to work with renewed vigour. Certain sanatoriums became known for their specialist treatments, such as crude oil baths, radon water douches and stints in underground salt caves. While today some sanatoriums are in critical states of decline, many are still fully operational and continue to offer their Soviet-era treatments to visitors. Using specially commissioned photographs by leading photographers of the post-Soviet territories, and texts by sanatorium expert Maryam Omid, this book documents over forty-five sanatoriums and their unconventional treatments. From Armenia to Uzbekistan, it represents the most comprehensive survey to date of this fascinating and previously overlooked Soviet institution.

**Russian Alphabet Colouring Book** FUEL.2016 From Sputnik to Gorbachev: an intricately detailed graphic exploration of Russian history that only you can complete This coloring book for all ages marks the first publication of the graphic works of Russian artist Amanita. His fantastical images form a unique world: they are like modern variations of illustrated manuscripts, packed full with elements of Soviet and post-Soviet cultures. The book also works as an introduction to the Russian alphabet. Every drawing depicts a word beginning with each letter from the Cyrillic alphabet, also shown in English, giving a light-hearted guide as to how the letters look and sound. The subjects of Amanita's illustrations are wide-ranging: from political leaders (Lenin, Gorbachev) to inanimate objects (Tupolev aircraft, Sputnik, Tsars, cosmonauts) and Constructivism, these classic Soviet themes are interwoven from one page to the next, all rendered in an abundance of detail. Amanita's amazing and skillful images define a previously unimagined graphic landscape that takes the humble coloring book into a new dimension. Russian Alphabet Colouring Book is the perfect gift book. Alexander Erashov was born in Ermak, Kazakhstan, in 1972. The pseudonym Amanita (a red-and-white spotted mushroom) is a reference to the black-white-red palette of his artworks.

*Russian Prison Tattoos* Alix Lambert, Mary Christ.2003 For centuries, Russian prison inmates forcibly initiated newcomers with tattoos. Gradually,

prisoners developed a secret form of communication with their tattoos, allowing them to establish rank among the other inmates and maintain a clandestine hierarchy. This book explores the grisly reality of Russian prisons and the people who inhabit them. Over 190 black and white and color photographs expose the different tattoos and their meanings, ranging from churches, crosses, Christs, Madonnas, military symbols, cats, dolphins, bears, hawks, and other startling images. Documentary filmmaker Alix Lambert traveled around modern Russia to film these sinister environments, collected stories to identify the dying art of tattooing in Russian prisons, and detailed the lives of the heavily marked inmates, past and present. This fascinating, spine-tingling book provides an entirely new outlook on tattoos and what they can represent!

**Vintage Tattoo Flash** Jonathan Shaw.2016-04-12 Vintage Tattoo Flash is a one-of-a-kind visual exploration of the history and evolution of tattooing in America. A conscious, offset-printed, hardcover tome—a beautiful and serious addition to the understanding of one of the world's oldest and most popular art forms. Electric tattooing as we know it today was invented in New York City at the turn of the 19th century. In the first days of American tattooing, tattoos were primarily worn by sailors and soldiers, outlaws and outsiders. The visual language of what came to be known as traditional tattooing was developed in those early days on the Bowery and catered to the interests of the clientele. Common imagery that soon became canon included sailing ships, women, hearts, roses, daggers, eagles, dragons, wolves, panthers, skulls, crosses, and popular cartoon characters of the era. The first tattooists also figured out that using bold outlines, complimented by solid color and smooth shading, was the proper technique for creating art on a body that would stand the test of time. In the over 100 years since then, techniques and styles have evolved, and the customer base has expanded, but the core subject matter and philosophy developed at the dawn of electric tattooing has persisted as perennial favorites through the modern era. While most tattoos are inherently ephemeral, transported on skin until the death of the collector, a visual record exists in the form of tattoo flash: the hand-painted sheet of designs posted in tattoo shops for customers to select from. Painted and repainted, stolen, traded, bought and sold, these sheets are passed between artists through one channel or another, often having multiple useful lives in a variety of shops scattered across time and geography. The utility of these original pieces of painted art has made it so that original examples can still be found in use or up for grabs if you know where to look. Vintage Tattoo Flash draws from the personal collection of Jonathan Shaw—renowned outlaw tattooist and author—and represents a selection of over 300 pieces of flash from one of the largest private collections in existence. Vintage Tattoo Flash spans the first roughly 75 years of American tattooing from the 1900s Bowery, to 50s Texas, through the Pike in the 60s and the development of the first black and grey, single-needle tattooing in LA in the 70s. The book lovingly reproduces entirely unpublished sheets of original flash from the likes of Bob Shaw, Zeke Owen, Tex Rowe, Ted Inman, Ace Harlyn, Ed Smith, Paul Rogers, the Moskowitz brothers, and many, many others relatively known and unknown.

**The Philosophy of Beards** Thomas S. Gowing.2019-11-20 'The Philosophy of Beards' is a non-fiction book that delves deep into uncovering a subset of Victorian culture that are obsessed with beards as ideals of hyper-masculinity. Gowing, passionately argues that the wearing of a beard is not only a rite of passage, but also a crucial symbol of manly virtue and distinction that has stood the test of time.

Jerusalem Tattoos Alessandra Borroni.2020-01-11 Around the 13th century, among the Crusaders and Christian pilgrims who went to Jerusalem, the custom of marking their skin with tattoos began to spread, as a symbol of their Christianity and their stay in the Holy Land. If we dig through the origins of this custom we discover that it was already practised by Egyptian Christians of the early centuries. Copts, Crusaders, Franciscans, Armenians, Dragomans and pilgrims have ensured that the tradition of sacred tattooing in this city has been continuous, without interruption; so

much so that even today in Jerusalem a family exists that for many centuries has continued to tattoo ancient drawings on the skin of pilgrims.

**Brutal Bloc Postcards** Damon Murray, Stephen Sorrell. 2018 Brutalist hotels, avant-garde monuments and futurist TV towers: rare and previously unpublished vintage postcards from the Eastern Bloc Brutal concrete hotels, futurist TV towers, heroic statues of workers--this collection of Soviet-era postcards documents the uncompromising landscape of the Eastern Bloc through its buildings and monuments. These are interspersed with quotes from prominent figures of the time, which both support and confound the ideologies presented in the images. In contrast to the photographs of a ruined and abandoned Soviet empire we are accustomed to seeing today, the scenes depicted here publicize the bright future of communism: social housing blocks, palaces of culture and monuments to comradeship. Dating from the 1960s to the 1980s, they offer a nostalgic yet revealing insight into social and architectural values of the time, acting as a window through which we can examine cars, people and, of course, buildings. These postcards, sanctioned by the authorities, were intended to show the world what living in communism looked like. Instead, this postcard propaganda inadvertently communicates other messages: outside the House of Political Enlightenment in Yerevan, the flowerbed reads Glory to the Communist Party of the Soviet Union; in Novopolotsk, art-school pupils paint plein air, their subject a housing estate; at the Irkutsk Polytechnic Institute students stroll past a 16-foot-tall concrete hammer and sickle. These postcards are at once sinister, funny, poignant and surreal.

*Russian Criminal Tattoo Archive* Danzig Baldaev, Sergei Vasilev, Arkady Bronnikov, Fuel. 2023-04-13 Tattoo drawings and prison portraits from Fuel's fabled archive of Russian criminal subculture. This volume presents highlights from Fuel's singular collection of authentic material on this subject. Previously unpublished in its original form, this work comprises ink-on-paper drawings by Danzig Baldaev, the photographic albums of Arkady Bronnikov and prisoner portraits by Sergei Vasiliev. The selection is contextualized with insights from Mark Vincent, an author and academic specializing in the Soviet Gulag, and Alison Nordström, a photography scholar, writer and curator. The meticulous depictions of tattoos by prison guard Danzig Baldaev are reproduced in facsimile, authenticated by his signature and stamp, alongside his handwritten notes on the reverse. The paper has yellowed with age, giving the exquisite drawings a visceral temporality, almost like skin. Sergei Vasiliev's photographs portray inmates in startling intimacy. He achieves a remarkable level of trust within the closed criminal society, a strict hierarchy, where outsiders are viewed with hostile suspicion. Arkady Bronnikov's collection of photographs are shown in the albums in which they were collected. Used exclusively to aid police in their investigations, they depict a motley lineup of assorted body parts. *Russian Criminal Tattoo Archive* is the only publication of primary material on this subject, highlighting the pioneering methods these three individuals used to document this unique phenomenon.

**The Philosophy of Tattoos** John Miller. 2021-03-25 Tattooing is an ancient practice with profound religious and cultural significance. While western tattooing centers on three main traditions - Polynesian, Japanese and Euro-American - it has been recorded more or less everywhere. Beginning with the birth of the tattoo, John Miller explores this unique expression of personal, cultural and national identity, the tension between tattoo's status as a fashion item and its roots in subculture, and the relevance of magic - a crucial part of tattooing's origins - in contemporary society. As the inherent shock factor of tattoos decreases, tattoos are becoming more extensive, public and challenging in response, prompting an upsurge in avant-garde tattoo projects and 'extreme' tattooing. *The Philosophy of Tattoos* investigates the innate human desire to mark the skin, and what tattooing might tell us about that obsessively asked question: what does it mean to be human?

*Written on the Body* Jane Caplan.2021-10-12 Despite the social sciences' growing fascination with tattooing--and the immense popularity of tattoos themselves--the practice has not left much of a historical record. And, until very recently, there was no good context for writing a serious history of tattooing in the West. This collection exposes, for the first time, the richness of the tattoo's European and American history from antiquity to the present day. In the process, it rescues tattoos from their stereotypical and sensationalized association with criminality. The tattoo has long hovered in a space between the cosmetic and the punitive. Throughout its history, the status of the tattoo has been complicated by its dual association with slavery and penal practices on the one hand and exotic or forbidden sexuality on the other. The tattoo appears often as an involuntary stigma, sometimes as a self-imposed marker of identity, and occasionally as a beautiful corporal decoration. This volume analyzes the tattoo's fluctuating, often uncomfortable position from multiple angles. Individual chapters explore fascinating segments of its history--from the metaphorical meanings of tattooing in Celtic society to the class-related commodification of the body in Victorian Britain, from tattooed entertainers in Germany to tattooing and piercing as self-expression in the contemporary United States. But they also accumulate to form an expansive, textured view of permanent bodily modification in the West. By combining empirical history, powerful cultural analysis, and a highly readable style, this volume both draws on and propels the ongoing effort to write a meaningful cultural history of the body. The contributors, representing several disciplines, have all conducted extensive original research into the Western tattoo. Together, they have produced an unrivalled account of its history. They are, in addition to the editor, Clare Anderson, Susan Benson, James Bradley, Ian Duffield, Juliet Fleming, Alan Govenar, Harriet Guest, Mark Gustafson, C. P. Jones, Charles MacQuarrie, Hamish Maxwell-Stewart, Stephan Oettermann, Jennifer A. Rosecrans, and Abby Schrader.

Russian Criminal Tattoo Arkady Bronnikov,Stephen Sorrell.2016-02-29 This book features over 180 photographs and accompanying texts of Russian criminal tattoos from the Arkady Bronnikov collection. From the mid-1960s to the late- 1980s Bronnikov worked as a senior expert in criminalistics at the USSR Ministry of Internal Affairs, part of his duties involved visiting correctional institutions of the Ural and Siberia regions. It was here that he interviewed, gathered information and took photographs of convicts and their tattoos, building one of the most comprehensive archives of this phenomenon. He regularly helped to solve criminal cases across Russia by using his collection of tattoos to identify culprits and corpses. The Bronnikov collection was made exclusively for police use, to further the understanding of the language of these tattoos and to act as an aid in the identification and apprehension of criminals in the field. Unimpeded by artistry, these vernacular photographs present a guileless representation of criminal society. Every image discloses evidence of an inmate's character: aggressive, vulnerable, melancholic, conceited. Their bodies display an unofficial history, told not just through tattoos, but also in scars and missing digits. Closer inspection only confirms our inability to comprehend the unimaginable lives of this previously unacknowledged caste.

**Medieval Monsters** Damien Kempf, Maria Leilani Gilbert. 2015 From satyrs and sea creatures to griffins and dragons, monsters lay at the heart of the medieval world. Believed to dwell in exotic, remote areas, these inexplicable parts of God's creation aroused fear, curiosity, and wonder in equal measure. Powerfully captured in the illustrations of manuscripts, such as bestiaries, travel books, and devotional works, they continue to delight audiences today with their vitality and humor. Medieval Monsters shows how strange creatures sparked artists' imaginations to remarkable heights. Half-human hybrids of land and sea mingle with bewitching demons, blemmyae, cyclops, and multi-headed beasts of nightmare and comic grotesques. Over 100 wondrous and terrifying images offer a fascinating insight into the medieval mind.

**Sacred and Profane Tattoos** Caterina Pigorini Beri. 2018-06-06 Around the 15th and lasted until the beginning of the 20th century, on the Italian Adriatic coast to the Apennines, the sacred tattoo began to spread. The inhabitants and pilgrims of these lands had the use of tattooing their hands or forearms near their wrists. They were blue tattoos of figures, mottos, crosses, sacred symbols, pierced hearts, skulls and anchors. The origins of this tradition came from the Sanctuary of Loreto, probably it was an act of devotion or perhaps recognition. Caterina Pigorini Beri, in this book of 1889, traces the birth of this interesting custom and collects a hundred drawings of the original tattoos.

**Home-made** Vladimir Arkhipov. 2006 Edited by Vladimir Arkhipov. Foreword by Susan B. Glasser.

**Crime** Alix Lambert. 2008 Through a series of extraordinary interviews, this book explores the gap and overlap between real crime and its representation in the arts. As long as it has been documented, crime has captivated the public's imagination. This book brings together the world of real crime with its artistic counterpart and allows a dialogue to develop between the two, each commenting on and assessing the impact of the other. When directors make films, actors play roles, writers write fiction, or musicians create songs, should they have a responsibility towards the public? Should they be realistic and unsparing in detail - or should they be protecting us from the excesses of the criminal world by sanitising their productions? Or are they just telling stories? Does the film industry continue to learn from the mafia, or has the inventiveness of scriptwriters had a real effect on organized crime? What experiences do these people who shape our perceptions of crime and criminals have of the real thing? This

remarkable book is the first to explore the representation of crime by interviewing those involved on, in, and around all sides of the law, both real and fictional, and often somewhere in between.

**Drawings from the Gulag** Dant[s]ik Sergeevich Baldaev, Danzig Baldaev, Damon Murray. 2010 Drawings from the Gulag consists of 130 drawings by Danzig Baldaev describing the history, horror and peculiarities of the Gulag system from its inception in 1918. Baldaev's father, a respected ethnographer, taught him techniques to record the tattoos of criminals in St Petersburg's notorious Kresty prison, where he worked as a guard. He was reported to the KGB who unexpectedly supported his work, allowing him the opportunity to travel across the former USSR. Witnessing scenes of everyday life in the Gulag, he chronicled this previously closed world from both sides of the wire. With every vignette, Baldaev brings the characters he depicts to vivid life: from the lowest zek (inmate) to the most violent tattooed vor (thief), all the practices and inhabitants of the Gulag system are depicted here in incredible, and often shocking, detail. In documenting the attitude of the authorities to those imprisoned, and the transformation of those citizens into survivors or victims of the Gulag system, this 'graphic novel' vividly depicts methods of torture and mass murder undertaken by the administration, as well as the atrocities committed by criminals on their fellow inmates.
