**Fascinante Europe** Nadège Monschau, Vincent Rea, Gilles Luneau, Serge Berstein. 2006 Quelle est cette Europe qui nous fascine ? Avec ses différences géographiques, historiques ou humaines, l'Europe compose un ensemble unique et formidable, dont la richesse et la beauté n'ont de cesse de nous étonner. S'étendant de l'Atlantique à l'Oural, elle abrite un patrimoine naturel stupéfiant. Des prairies irlandaises à la taïga finlandaise, des vignobles toscans au delta du Danube, landes, calanques, déserts, glaciers, lacs ou archipels constituent une incroyable variété de paysages : le monde entier en modèle réduit ! Mais l'Europe, c'est aussi une aventure partagée depuis plus de 2 000 ans. Une succession d'épisodes vécus en commun qui ont laissé partout des milliers de joyaux. Monastères, palais, cités, gares, majestueuses bibliothèques racontent la grande et la petite histoire de ce Vieux Continent . L'Europe, c'est enfin une grande famille. Par-delà les rancœurs d'hier, une identité européenne se construit, se nourrissant de traditions, de diversités, d'échanges et de fraternité. Une richesse culturelle insoupçonnée, de Riga à Porto, des peuples Pomaks aux Gagaouzes... C'est une Europe comme vous ne l'avez jamais vue que nous vous invitons à découvrir dans ce magnifique album illustré des plus inattendues et des plus belles photos.

**The Europeans** Richard Mayne. 1972

**Europe as viewed from the margins. An East-Central European perspective during the long 19th Century** .2006

**Europa: How Europe Shaped the Modern World** Julio MacLennan. 2018-07-03 An original and innovative examination of the continent—and its culture—that was the epicenter of the world for almost five centuries. European history is deeply embedded in the global civilization that has emerged in the 21st century. More than two thirds of today’s nations were once European colonies or protectorates. Europe’s legacy is evident in the trajectory of the United States and has influenced aspiring hegemonic powers like China. For centuries, Europe was the heart and soul of the West, and European powers enjoyed unprecedented global hegemony, not only by military and economic means, but also through their influence on politics and culture. The rise and fall of the European era of world supremacy constitutes one of the most epic histories of all time. ere were the extraordinary changes of the Renaissance and its aftermath, which marked the beginning of Europe's imposition of itself over other civilizations, but it was Columbus’s “discovery” of America that provided the key to its meteoric rise. Spain and Portugal would form the first global empires, closely followed by Holland, Britain, France and Russia. Following the exploits of navigators like Vasco da Gama and Captain Cook, the conquistador Hernan Cortes, missionary Henry Livingstone and others, Europa reveals the origins of Europe’s rapid expansion, which was then expanded upon further by millions

of Europeans migrants, who spread their culture and values. MacLennan also reveals how statesmen, scientists, inventors, philosophers, writers, and revolutionaries were responsible for transforming the continent into a civilization that inspired universal attraction. Even into the twentieth century, after reaching the nadir of imperial decline and self- destruction, Europe has once again become a global trendsetter.

**Cultural Encounters** Charles Burdett, Derek Duncan. 2002 The 1930s were one of the most important decades in defining the history of the twentieth century. It saw the rise of right-wing nationalism, the challenge to established democracies and the full force of imperialist aggression. Cultural Encounters makes an important contribution to our understanding of the ideological and cultural forces which were active in defining notions of national identity in the 1930s. By examining the work of writers and journalists from a range of European countries who used the medium of travel writing to articulate perceptions of their own and other cultures, the book gives a comprehensive account of the complex intellectual climate of the 1930s.

**Long Awaited West** Stefano Bottoni. 2017 What is Eastern Europe and why is it so culturally and politically separate from the rest of Europe? In Long Awaited West, Stefano Bottoni considers what binds these countries together in an increasingly globalized world. Focusing on economic and social policies, Bottoni explores how Eastern Europe developed and, more importantly, why it remains so distant from the rest of the continent. He argues that this distance arises in part from psychological divides which have only deepened since the global economic crisis of 2008, and provides new insight into Eastern Europe's significance as it finds itself located--both politically and geographically--between a distracted European Union and Russia's increased aggressions--Provided by publisher.

Views on Europe Lilli Riettiens, Elke Kleinau. 2022-04-04 The history of travel has long been

constructed and described almost exclusively as a history of European, male mobility, without, however, explicitly making the gender and whiteness of the travellers a topic. The anthology takes this as an occasion to focus on journeys to Europe that gave non-Europeans the opportunity to glance at Europe and to draw a picture of it by themselves. So far, little attention has been paid to the questions with which attributes these travellers endowed Europe and its people, which similarities and differences they observed and which idea(s) of Europe they produced. The focus is once again on Europe, but not as the starting point for conquests or journeys. From a postcolonial and gender historical view, the anthology's contributions rather juxtapose (self-)representations of Europe with perspectives that move in a field of tension between agreement, contradiction and oscillation.

**Europe in Love, Love in Europe** Luisa Passerini.2020-10-29 Combining the history of ideas and the history of emotions, this work explores the convergence between political and cultural ideas of Europe and the idea of love in the period between the two world wars. It investigates European unity from a political viewpoint, but also from cultural and symbolic ones, taking a critical stand towards Euro-centrism. Chapters focus on single texts, including bestselling novels, and artworks reviving the myth of Europa and the bull, set in the context of debates on marriage, sex and love in the western world. These alternate with chapters combining intellectual and cultural history with critical explorations of how historians, politicians and psychologists analyzed the crisis of European civilization.

**European Reconnaissance** J. H. Parry.1968-06-18

**Our Europe** LAURENT. GAUD,Alison Anderson.2019-09

**Orientations** Wendy Bracewell.2009-01-01 This anthology introduces readers to the rich body of

travel writing from eastern Europe. It presents a selection of accounts written over the past 450 years, chosen from many different types of author - from the well-known to the obscure - and representing many different genres of travel writing, from personal letters to self-consciously literary exercises. The extracts illustrate the variety of ways in which east Europeans have written about Europe, and their place in relation to it.--Publisher's description.

United in Visual Diversity Benjamin Drechsel, Claus Leggewie. 2010 Europe has no outstanding political icon. Yet, lots of weaker motifs and widespread iconographies give Europe a face to be seen. The motto of the European Union proves to be well founded, when it comes to images and counter-images of Europe. The texts in this volume analyze central, peripheral, and external iconographies; they add some interesting facets to our knowledge of these various different visual constructions of Europe.

**La temprana Europa Moderna** Captivating History.2019-11-13 El principio de la Edad Moderna europea fue un tiempo de confusión, agitación, sospecha, esperanza, desesperación e ideas nuevas. Fue un momento en el que se produjeron grandes cambios durante apenas unos pocos siglos formando un mundo completamente diferente al periodo anterior.

*Heart of Europe* Ralph Adams Cram.1915

**What is Europe?** Anna Triandafyllidou,Ruby Gropas.2015-11-03 What is Europe? Where does it begin and end? Who is a European? These questions have long been debated but never more so than in the early 21st century. Anna Triandafyllidou and Ruby Gropas show that there can be no single definition of Europe but that a lot can be learned--from addressing its diverse meanings--

Spain, Europe and the Atlantic Richard L. Kagan,John Huxtable Elliott,Geoffrey Parker.1995 The idea of a dialogue - sometimes harmonious, sometimes divisive - between the centre and periphery of the early modern European state stands at the heart of much of John Elliott's historical writing. It is the fulcrum around which his Imperial Spain revolves, and it lies at the heart of his analysis of the causes of the revolt of the Catalans against the centralising policies of the Madrid government. His

writings on the Americas, such as *The Old World and the New*, likewise stressed the relationship between centre and periphery. This collection of essays by a group of Elliott's former students examines different aspects of this important theme and develops them. Taken together with the 'personal appreciation' of Elliott (Regius Professor of Modern History at Oxford), it forms an important examination of the work of the greatest living historian of Spain as well as a major contribution to early modern European history.

Europe Flora Lewis.1988 Each country's history, geography, and personality is colorfully detailed. The themes crucial to the continent today are explored--the aftermath of colonialism, socialism, terrorism, the East-West conflict, bilingualism, and regionalism.

**Southern Europe** Giulio Sapelli.2014-09-19 Until relatively recently most of southern Europe was governed by authoritarian dictatorships, but within the space of two decades more or less stable democracies have become established throughout the entire region. At the same time, backward

peasant economies have been transformed by the injection of huge amounts of capital and new technology, into modern economies which are now approaching the size of the more established economies of Northern Europe. Southern Europe is a major contribution to our understanding of European politics. The product of original research and synthesis on exceptionally wide literature, it provides authoritative and systematic coverage of the politics, economics and society of this important region of Europe from 1945, up to the 1994 election of Silvio Berlusconi's far right alliance in Italy.

*The New Europe* .1917

European Encounters Carlos Reijnen, Marleen Rensen. 2014-04-20 *European Encounters* explores the making and remaking of ideas of Europe between 1914 and 1945 as a result of intellectual encounters and intellectual exchange. Against the background of the first half of the twentieth century European intellectuals feverishly chased new and uncharted territories, most often across national borders. Their encounters with other intellectuals, or ideas, cultures, concepts and practices produced new understandings of Europe and triggered projects for Europe's future. West-European writers turned to Russian literature, Catholic politicians from Northern Europe embraced corporatist and fascist solutions from Mediterranean Europe, scientist pointed at science and their network as sources of peace and reconciliation and others committed themselves to the European federalism of the Pan-Europa Movement. This volume unravels the encounters and exchanges that lie at the roots of this attempt at rethinking Europe.
