Dark Side of the Light Louis Sala-Molins.2006 Enlightenment thinkers such as Rousseau and Montesquieu are best known for their humanist theories and liberating influence on Western civilization. But as renowned French intellectual Louis Sala-Molins shows, Enlightenment discourses and scholars were also complicit in the Atlantic slave trade, becoming instruments of oppression and inequality. Translated into English for the first time, *Dark Side of the Light* scrutinizes Condorcet's Reflections on Negro Slavery and the works of Montesquieu, Rousseau, and Diderot side by side with the Code Noir (the royal document that codified the rules of French Caribbean slavery) in order to uncover attempts to uphold the humanist project of the Enlightenment while simultaneously justifying slavery. Wielding the pen of both the ironist and the moralist, Sala-Molins demonstrates the flawed nature of these attempts and the reasons given for this denial of rights, from the imperatives of public order to the incomplete humanity of the slave (and thus the need for his progressive humanization through slavery), to the economic prosperity that depended on his labor. At the same time, Sala-Molins uses the techniques of literature to give equal weight to the perspective of the "barefooted, the starving, and the slaves" through expository prose and scenes between slave and philosopher, giving moral agency and flesh-and-blood dimensions to issues most often treated as abstractions. Both an urgent critique and a measured analysis, *Dark Side of the Light* reveals the moral paradoxes of Enlightenment philosophies and their world-changing consequences. Louis Sala-Molins is a moral and political philosopher and emeritus professor at the University of Toulouse. He is the author of many books, including *Le Code Noir, ou Le calvaire de Canaan* and *L'Afrique aux Amériques*. John Conteh-Morgan is associate professor of French and Francophone, African-American, and African studies at Ohio State University. He is the author of *Theatre and Drama in Francophone Africa: A Critical Introduction*.

Overtourism Rachel Dodds,Richard Butler.2019-05-06 Overtourism has become a major concern for an increasing number of destinations as tourism numbers continue to grow, stimulated by general economic and technological growth and the expansion of the global middle class. This, coupled with relentless promotion of tourism by many organisations and destinations, has increased tourism, despite growing opposition to excessive development. This book is the first academic volume to deal with this topic and contains chapters by experienced researchers in the tourism field, taking a multidisciplinary approach to review and explain the subject. The introductory section begins with an overview of the current situation and the forces enabling the appearance of overtourism. This is followed by a number of case studies from a range of destinations around the world, both urban and rural, which share the same problems. The concluding section includes a discussion of potential mitigation methods and approaches and a final assessment of future developments. The focus and relevance of this book are not just for academics, as it offers insights into destinations, enablers and solutions for how to address the issue of overtourism on a wide variety of scales. This book offers globally relevant perspectives on destinations as varied as Venice and Barcelona, that have gained global media attention, as well as less publicised rural areas and developing destinations.

Moon-face and Other Stories Jack London.1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. The son of the Wolf (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Reflections in Place Donna Deyhle.2022-12-13 Woven together in Donna Deyhle's ethnohistory are three generations and twenty-five years of friendship, interviews, and rich experience with Navajo women. Through a skillful blending of sources, Deyhle illuminates the devastating cultural consequences of racial stereotyping in the context of education. Longstanding racial tension in southeastern Utah frames this cross-generational set of portraits that together depict all aspects of this specifically American Indian struggle. Deyhle cites the lefthanded compliment, "Navajos work well with their hands," which she indicates represents the limiting and all-too-common appraisal of American Indian learning potential that she vehemently disputes and seeks to disprove. As a recognized authority on the subject, qualified by multiple degrees in racial and American Indian studies, Deyhle is able to chronicle the lives and "survival" of three Navajo women in a way that is simultaneously ethnographic and moving. Her critique of the U.S. education system's underlying yet very real tendency toward structural discrimination takes shape in elegant prose that moves freely into and out of time and place. The combination of substantive sources and touching personal experience forms a profound and enduring narrative of critical and current importance. While this book stands as a powerful contribution to American Indian studies, its compelling human elements will extend its appeal to anyone concerned with the ongoing plight of American Indians in the education system.

Standards for Access to the European Market .1993

Elements of Chemistry William Allen Miller.1855

Leadership in Europe Heller, Johnny.1998-02 Although leadership is obviously a topic with global significance, this special issue has a distinctive European flavor. This is partly due to the fact that the contributors and editors hail from five European countries, but even the two chapters that describe major cross-national research covering up to 60 countries, concentrate attention on European issues including eastern countries that only moved into the center of Europe six or seven years ago. The justification for inclusion in this special issue is that each report makes a potentially practical contribution to work and organizational psychologists and those working in organizations in the area of Human Resource Management or Consultancy. European psychology has not yet given leadership anything like the attention it deserves and consequently the contrast with the United States, where this subject is extensively researched, is very noticeable. This special edition may lead to a reassessment of the opportunities and perhaps also act as a stimulus for more applied research to be carried out to engage with the prevalent conditions in Europe. The growth of the European Union and its various harmonization provisions seeks to establish what is often called a 'level playing field' for organizations and this will give leaders in competing enterprises new challenges and new opportunities. Several contributions in the present special issue begin to relate to these developing areas.

The Dare Harley Laroux.2023-10-31 Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The freak, Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? The Dare is an 18+ erotic romance novella and a prequel to the Losers Duet. Reader discretion is strongly advised. This book contains graphic sexual scenes, intense scenes of BDSM, and strong language. A full content note can be found in the front matter of the book.
