*Marco Polo's Book* John Critchley.2017-07-05 Marco Polo and his book may seem to have been well served by scholars, yet the majority have been concerned to write about his travels in Asia, what he did or did not see, and how useful he is as a source on the East. John Critchley's subject, on the other hand, is the text of Polo's book itself and the political and ideological context - the crusades, the Mongol missions, the French presence in Italy - in which it was put together by its author(s), and read by its audience. The homogeneity of the 'original' Franco-Italian text and the accepted relationship between this text and the Latin recensions is tested by computer analysis. An examination of vocabulary and other textual features draws out the different attitudes and contributions of Polo himself and his various editors and translators. Critchley's book will be of interest not only to those concerned with the history of later medieval Europe but also to specialists in medieval Asia, who will find it useful to know about the background and composition of so famous and frequently cited a work. On pourrait penser que Marco Polo et son livre ont été amplement débattus par les spécialistes en la matière, cependant la majorité a surtout écrit à propos de ses voyages en Asie, ce qu'il avait ou n'avait pas vu et sur son utilité en tant que source de références sur l'Orient. Le sujet traité par John Critchley par contre, est le texte même du livre de Polo, ainsi que le contexte politique et idéologique - les croisades, les missions mongoles, la présence française en Italie - dans lequel il a été composé par son ou ses auteurs et dans lequel ses lecteurs ont pu le

lire. L'homogénéité du texte franco-italien d'origine et le rapport accepté entre celui-ci et les révisions latines ont été analysés par ordinateur. Un examen du vocabulaire et d'autres caractéristiques littéraires fait transparaître les différences d'attitudes et de contributions entre Polo

*Middle Ages without borders: a conversation on medievalism* Collectif.2021-12-14 This book presents the proceedings of the international conference "The Middle Ages in the Modern World," held in Rome November 21-24, 2018. Attended by more than a hundred participants of different ages, educational backgrounds, and places of origin, the conference constituted a landmark in the study of medievalism: the historical discipline, now in full bloom, that investigates the ways in which the thousand-year period between 500 and 1500 was, and continues to be, presented, reconstructed, and imagined in successive eras. The book opens with a substantial bibliography drawn from all of its components, followed by the seven keynote lectures and ninety-three shorter texts - abstracts of the individual conference papers - organized along eight thematic pathways, which together provide a vivid image of the current state of the field.

**Screening the Body** Lisa Cartwright.1995 Moving images are used as diagnostic tools and locational devices every day in hospitals, clinics and laboratories. But how and when did such issues come to be established and accepted sources of knowledge about the body in medical culture? How

are the specialized techniques and codes of these imaging techniques determined, and whose bodies are studied, diagnosed and treated with the help of optical recording devices? Screening the Body traces the unusual history of scientific film during the late 19th and early 20th centuries, presenting material that is at once disturbing and engrossing. Lisa Cartwright looks at films like *The Elephant Electrocutation*. She brings to light eccentric figures in the history of the science film such as William P. Spratling who used Biograph equipment and crews to film epileptic seizures, and Thomas Edison's lab assistants who performed x-ray experiments on their own bodies. Drawing on feminist film theory, cultural studies, the history of film, and the writings of Foucault, Lisa Cartwright illustrates how this scientific cinema was a part of a broader tendency in society toward the technological surveillance, management, and physical transformation of the individual body and the social body. She frequently points out the similarities of scientific film to works of avant-garde cinema, revealing historical ties among the science film, popular media culture and elite modernist art and film practices. Ultimately, Cartwright unveils an area of film culture that has rarely been discussed, but which will leave readers scouring video libraries in search of the films she describes.

**Cesare Pavese and Anthony Chiuminatto** Cesare Pavese,Anthony Lawrence

Chiuminatto.2007-01-01 Italian poet, novelist, literary critic and translator Cesare Pavese (1908-1950) is generally recognized as one of the most important writers of his period. Between the years 1929 and 1933, Pavese enjoyed a rich correspondence with his Italian American friend, the musician and educator Antonio Chiuminatto (1904-1973). The nature of this correspondence is primarily related to Pavese's thirst to learn about American culture, its latest books, its most significant contemporary writers, as well as its slang. This volume presents an annotated edition of

Pavese and Chiminatto's complete epistolary exchange. Mark Pietralunga's brilliant introduction provides historical and cultural context for the letters and traces Pavese's early development as a leading Americanist and translator. The volume also includes an appendix of Chiuminatto's detailed annotations and thorough explanations of colloquial American terms and slang, drawn from the works of Sinclair Lewis, Sherwood Anderson, and William Faulkner. A lively and illuminating exchange, this collection ultimately corroborates critical opinion that America was the igniting spark of Pavese's literary beginnings as a writer and translator.

*Autobiography of Miss Cornelia Knight* Ellis Cornelia Knight.1861

Hellenistic Poetry Barbara Hughes Fowler.1990 An accomplished poet and classical scholar, Barbara Hughes Fowler brings Hellenistic poetry to life for the contemporary reader. Her selections engage us with the full range of Hellenistic poetic genres, styles, themes, and moods. The anthology includes Fowler's new translation of the entire *Argonautica* of Apollonius of Rhodes, and eight of Theocritus' Idylls, including the beautiful, sensuous description of late summer in Idyll VII and the shrewdly comical description of two young matrons venturing into the noisy streets of Alexandria in Idyll XV. There are translations of four hymns of Callimachus, as well as poems by Aratus, Bion, Herodas, Moschus, Pseudo-Moschus, and a substantial selection from the Greek Anthology. An ideal companion to her recently published book, *The Hellenistic Aesthetic*, Barbara Fowler's *Hellenistic Poetry* is both a major contribution to classical studies and an invitation to all interested readers to discover the beauty and richness of Hellenistic poetry.

The Sex Appeal of the Inorganic Mario Perniola.2022-06-02 In *The Sex Appeal of the Inorganic*, Mario Perniola puts forth the radical argument that we are shifting away from organic sexuality, based on desire and pleasure, and moving towards a more neutral inorganic and artificial sexuality,

a sexuality always available but indifferent to beauty, age or form. Perniola takes the reader on a tour of Western philosophy, from Descartes, Kant and Hegel to Heidegger, Wittgenstein and Sartre, to reframe our understanding of personal experience and the aesthetic world around us. In order to realize the sex appeal of the inorganic Perniola argues that we must become 'things that feel', we must think ourselves closer to the inorganic, creating an alliance between senses and things. Examples from contemporary culture that, for Perniola, are emblems of the sex appeal of the inorganic, include progressive rock music, fashion, deconstructive architecture and the novels of Georges Perec.

What is Urban History? Shane Ewen.2016-09-12 Urban history is a well-established and flourishing field of historical research. Written by a leading scholar, this short introduction demonstrates how urban history draws upon a wide variety of methodologies and sources, and has been integral to the rise of interdisciplinary and comparative approaches to history since the second half of the twentieth

century. Shane Ewen offers an accessible and clearly written guide to the study of urban history for the student, teacher, researcher or general reader who is new to the field and interested in learning about past approaches as well as key themes, concepts and trajectories for future research. He takes a global and comparative viewpoint, combining a discussion of classic texts with the latest literature to illustrate the current debates and controversies across the urban world. The historiography of the field is mapped out by theme, including new topics of interest, with a particular focus on space and social identity, power and governance, the built environment, culture and modernity, and the growth and spread of transnational networking. By discussing a number of historic and fast-growing cities across the world, *What is Urban History?* demonstrates the importance of the history of urban life to our understanding of the world, both in the present and the future. As a result, urban history remains pivotal for explaining the continued growth of towns and cities in a global context, and is particularly useful for identifying the various problems and solutions faced by fast-growing megacities in the developing world.

**On Modern Poetry** Guido Mazzoni.2022-04-19 Guido Mazzoni tells the story of poetry's revolution in the modern age. The chief transformation was the rise of the lyric as it is now conceived: a genre in which a first-person speaker talks about itself. Mazzoni argues that modern poetry embodies the age of the individual and has wrought profound changes in the expectations of readers.

**A Philosophy of Gardens** David E. Cooper. 2006-02-02 Why do gardens matter so much and mean so much to people? That is the intriguing question to which David Cooper seeks an answer in this book. Given the enthusiasm for gardens in human civilization ancient and modern, Eastern and Western, it is surprising that the question has been so long neglected by modern philosophy. Now at last there is a philosophy of gardens. Not only is this a fascinating subject in its own right, it also provides a reminder that the subject-matter of aesthetics is broader than the fine arts; that ethics is not just about moral issues but about 'the good life'; and that environmental philosophy should not focus only on 'wilderness' to the exclusion of the humanly shaped environment. David Cooper identifies garden appreciation as a special human phenomenon distinct from both from the appreciation of art and the appreciation of nature. He explores the importance of various 'garden-practices' and shows how not only gardening itself, but activities to which the garden especially lends itself, including social and meditative activities, contribute to the good life. And he distinguishes the many kinds of meanings that gardens may have, from representation of nature to emotional expression, from historical significance to symbolization of a spiritual relationship to the world. Building on the familiar observation that, among human beings' creations, the garden is peculiarly dependent on the co-operation of nature, Cooper argues that the garden matters as an epiphany of an intimate co-dependence between human creative activity in the world and the 'mystery' that allows there to be a world for them at all. A Philosophy of Gardens will open up this subject to students and scholars of aesthetics, ethics, and cultural and environmental studies, and to anyone with a reflective interest in things horticultural.
