Connexions - Manuel pour la lutte contre le discours de haine en ligne par l'éducation aux droits de l'homme .2014-01-01 L'action du Conseil de l'Europe en faveur de la démocratie est fortement axée sur l'éducation : l'éducation à l'école, mais aussi l'éducation en tant que pratique de la démocratie tout au long de la vie, comme dans le cadre des activités d'apprentissage non formel. L'éducation aux droits de l'homme et l'éducation à la citoyenneté démocratique font partie intégrante du socle que nous devons bâtir pour faire de la démocratie une réalité durable. Le discours de haine est l'une des formes les plus inquiétantes de racisme et de discrimination qui sévit aujourd'hui en Europe, amplifiée par internet et les médias sociaux. Le discours de haine en ligne n'est que la partie visible de l'iceberg de l'intolérance et de l'ethnocentrisme. Les jeunes sont directement concernés, en tant qu'acteurs et victimes d'abus des droits de l'homme en ligne. L'Europe a besoin que les jeunes veillent aux droits de l'homme et les protègent : c'est là l'assurance-vie de la démocratie. Connexions vise à soutenir le Mouvement contre le discours de haine, autrement dit, la campagne de la jeunesse du Conseil de l'Europe pour les droits de l'homme en ligne. Connexions est un outil précieux pour les éducateurs qui souhaitent aborder le discours de haine en ligne sous l'angle des droits de l'homme, tant dans le système éducatif formel que dans le cadre de l'éducation informelle. Ce manuel a été conçu pour travailler avec des apprenants de 13 à 18 ans, mais les activités proposées peuvent être adaptées à d'autres groupes d'âge.

The Virtual Customer: A New Paradigm for Improving Customer Relations in Libraries and Information Services / O cliente virtual: um novo paradigma para melhorar o relacionamento entre clientes e serviços de informação e bibliotecas / L' usager virtuel: un nouveau paradigme pour améliorer le service à la clientèle dans les bibliothèques et services d'information / El cliente virtual: un nuevo paradigma para mejorar el relacionamento entre clientes y servicios de información y biblioteca Sueli Mara Soares Pinto Ferreira,Réjean Savard.2005-01-01 For several years the concept of virtual client or virtual customer has been part of the world of libraries and information services. This publication contains the proceedings of a satellite meeting on this topic, organized by the Management and Marketing Section of IFLA and held in Sao Paulo, Brazil in August 2004. It contains papers from more general points of views such as the democratization of access to digital information to more specific questions such as virtual libraries and new services, not forgetting user and librarian education, web site design, more specialized information, etc. The readers of these proceedings will find along these pages a very stimulating content which will guide them towards better services for virtual clients. Papers are presented in the original language of their presentation (Portuguese, French, Spanish and English) with summaries in these four languages.

Pedagogical Appropriation of Information and Communication Technologies (ICT) by West African Educators Toure, Kathryn.2016-08-06 West African teachers and professors who are appropriating information and communication technologies (ICT) are making it part and parcel of education and everyday life. In Mali and beyond, they adapt ICT to their milieus and work as cultural agents, mediating between technology and society. They yearn to use ICT to make education more relevant to life, facilitate and enhance African participation in global debates and scholarly production, and evolve how Africa and Africans are projected and perceived. In sum, educators are harnessing ICT for its transformative possibilities. The changes apparent in student-teacher relations (more interactive) and classrooms (more dialogical) suggest that ICT can be a catalyst for pedagogical change, including in document-poor contexts and ones weighed down by legacies of colonialism. Learning from the perspectives and experiences of educators pioneering the use of ICT in education in Africa can inform educational theory, practice and policy and deepen understandings of the concept of appropriation as a process of cultural change.

Proceedings of the 3rd International Conference of Economics and Management (CIREG 2016) Volume II Houcine Berbou,Aziz Fassouane,Mustapha Belaissaoui.2020-04-06 This book brings together papers presented at the 3rd Conference of Research in Economics and Management (CIREG) held in Morocco in May 2016. With a focus on the challenges of SMEs and innovative solutions, they highlight the contribution of researchers in the fields of business and management, with all their micro and macro-economic aspects. They shed light on the universal scientific vision of the importance of SMEs with answers relevant to their local context and adapted to their specific national situation. The relevance of SME research lies in its heuristic value of analyzing change, rather than in constructing a category, a particularly useful empirical concept. This third volume is focused on marketing and human resources.

L'accès à l'information en ligne : moteurs, dispositifs et médiations SIMONNOT Brigitte.2012-04-16 L'accès à l'information a toujours nécessité des médiations. Avec le numérique et l'internet, certaines sont devenues invisibles, d'autres se transforment et de nouvelles émergent. Le développement des moteurs commerciaux implique une banalisation des pratiques de recherche en ligne. Cet ouvrage analyse l'évolution des recherches scientifiques sur l'accès à l'information et les dispositifs associés. En se focalisant sur le fonctionnement des moteurs de recherche commerciaux, il attire l'attention sur un aspect souvent oublié : la dimension médiatique de ces dispositifs. L'accès à l'information en ligne appelle à un changement de paradigme pour mettre l'agir informationnel et les socialités associées au coeur des réflexions.

French Phrases Vol.1 Nik Marcel.2015-07-23 *French Phrases Vol.1: English & French THIS EDITION: French Phrases* seeks to bridge the gap between knowing individual words and knowing how to create or understand sentences. Sentences are phrases or a combination of phrases, and phrases are a combination of words. The simplest phrases are the simplest ways of combining words. Exposure to a wide variety of phrases, especially in increasing complexity, provides the basis for obtaining a solid grasp of a new language. The reason being, phrases can be combined with other phrases to create endless possibilities in language. *French Phrases* contains a wide variety of phrases, but it also demonstrates how phrases can increase in complexity - through the inclusion of individual words or other phrases. The reader can choose between four formats: Section 1: English to French Section 2: French to English Section 3: English Section 4: French The text can be used to obtain a fundamental grasp of French grammar. An understanding of the rules that underpin the way words combine into phrases, or phrases combine into sentences, allows the language learner to expand their capacity exponentially simply by increasing vocabulary. With this in mind, the text includes an introductory section summarising the important aspects of French grammar. The dual-language text has been arranged for quick and easy cross-referencing. The text can be used on its own. However, the content is ideal for reinforcing and expanding on a basic grasp of the language. With an increasingly robust grasp of the language, the language learner can easily and fruitfully move on to more advanced bilingual text — like in 2Language Books editions —, or suitable French only text: a simple novel, a French news website, etc. Many basic language books offer some form of audio support. Internet services — primarily news based radio stations — offer podcasts. Audio from television is an additional resource, and can be formatted for use on various digital platforms. However, if audio is an important component of your interest in languages, electronic devices that support quality text-to-speech (TTS) will likely be appealing. With a library card, TTS technology (in a device that supports the relevant content), and the above mentioned resources (as digital content), an entire language learning system is available for not much more than a cup of coffee! There is no substantial financial outlay to get you started. Furthermore, there are no additional ongoing fees (and updates), and there are no expiry dates on 'premium' content and resources.
