*«Remov'd from human eyes»: Madness and Poetry 1676-1774*

Natali, Ilaria.2016-08-30 The years 1676 and 1774 marked two turning points in the social and legal treatment of madness in England. In 1676, London's Bethlehem Hospital expanded in grand new premises, and in 1774 the Madhouses Act attempted to limit confinement of the insane. This study explores almost a century of the English history of madness through the texts of five poets who were considered mentally troubled according to contemporary standards: James Carkesse, Anne Finch, William Collins, Christopher Smart and William Cowper were hospitalized, sequestered or exiled from society. Their works cope with representations of insanity, medical definitions or practices, imputed illness, and the judging eye of the 'sane other', shedding new light on the dis/continuities in the notion of madness of this period.

Falstaff calls upon the sky to rain potatoes in *The Merry Wives of Windsor*, he highlights the belief that the exotic vegetable, recently introduced to England from the Americas, was an aphrodisiac. In *Romeo and Juliet*, Lady Capulet calls for quinces to make pies for the marriage feast, knowing that the fragrant fruit was connected with weddings and fertility. Shakespeare's contemporaries would have been familiar with such ripe symbolism in part due to herbals, tomes filled with detailed botanical descriptions consulted to deepen knowledge of the plants of the day. *A Shakespearean Botanical* follows in the tradition of the medieval and Renaissance herbal, touring the Bard's remarkable knowledge of the fruits, vegetables, herbs, and flowers of Tudor and Jacobean England through fifty quotations from his plays and verse poems. Each of the entries is beautifully illustrated with hand-colored renderings from the work of Shakespeare's contemporary, herbalist John Gerard, making an appropriate pairing with his writing, along with a brief text setting the quotation within the context of the medicine, cooking, and gardening of the time. The book's many beautifully reproduced images are a pleasure to look at, and Margaret Willes's well-chosen quotations and expert knowledge of Shakespeare's England provide readers with a fascinating insight into daily life. The book will make an inspiring addition to the Shakespeare lover's bookshelf, as well as captivate anyone with a passion for plants or botanical art.

*Sixty Degrees North* Malachy Tallack.2016-07-12 The sixtieth parallel marks a borderland between the northern and southern worlds. Wrapping itself around the lower reaches of Finland, Sweden, and Norway, it crosses the tip of Greenland and the southern coast of Alaska, and slices the great expanses of Russia and Canada in half. The parallel also passes through Shetland, where Malachy Tallack has spent most of his life. In *Sixty Degrees North*, Tallack travels westward, exploring the landscapes of the parallel and the ways that people have interacted with those landscapes, highlighting themes of wildness and community, isolation and engagement, exile and memory. An intimate journey of the heart and mind, *Sixty Degrees North* begins with the author's loss of his father and his own troubled relationship with Shetland, and concludes with an embrace of the place he calls home.
