**The Letters of C.P.E. Bach** Carl Philipp Emanuel Bach.1997 This is a complete edition of the correspondence of the most famous of J.S. Bach's sons. Very few of these letters have appeared previously in English translation. They provide a fascinating picture of an eighteenth-century composer hard at work publishing his own music, debating aesthetic matters, and championing the music and teachings of his father. The readable translation, detailed index, extensive cross referencing, and glossary of names make this an accessible and useful volume.

**The Brugada Syndrome** Charles Antzelevitch.2008-04-15 Until recently, the cellular basis for sudden death, the Brugada Syndrome, has largely remained an unknown to modern arrhythmologists and cardiologists, particularly in the absence of any structural heart disease. Detailed observations of age-groups, especially the young, families and populations where sudden death frequently occurs, and improved understanding of its contributory factors and mechanisms are, however, showing the way forward. This addition to the Clinical Approaches to Tachyarrhythmias (CATA) Series, written by the investigators who discovered and probed the Brugada Syndrome, discusses the history, etiology, pathology and clinical manifestations of sudden death. From diagnosis, prognosis, to therapeutic approaches using the latest catheter ablation techniques, electrophysiological surgery, and genetic appraisal, the work is a testimony to the author's investigation. Using clinical cases in Thailand and Laos, they further unravel the syndrome's molecular mechanisms, studying related syndromes, such as the long-QT syndrome, infant death, and arrhythmogenic right ventricular cardiomyopathy. By being informed of the electrophysiological abnormalities that contribute to familial and genetic diseases, physicians, cardiologists and all those who care for patients with cardiac arrhythmias will be better able to identify and treat patients in whom the Brugada Syndrome may strike next.

**Cinema and Sensation** Martine Beugnet.2007 Cinema and Sensation: French Film and the Art of Transgression looks at a much-debated phenomenon in contemporary cinema: the reemergence of filmmaking practices (and, by extension, of theoretical approaches) that give precedence to cinema as the medium of the senses. France offers an intriguing case in point here. A specific sense of momentum comes from the release, in close succession, of a series of films that exemplify a characteristic awareness of cinema's sensory impact and transgressive nature: *Adieu*; *A ma soeur*; *Baise-moi*; *Beau Travail*; *La Blessure*; *La Captive*; *Dans ma peau*; *Demonlover*; *L'Humanité*; *Flandres*; *L'Intrus*; *Les Invisibles*; *Lady Chatterley*; *Leçons de ténèbres*; *Romance*; *Sombre*; *Tiresia*; *Trouble Every Day*; *Twenty-nine Palms*; *Vendredi soir*; *La Vie nouvelle*; *Wild Side*; and *Zidane, un portrait du XXIème siècle*. These films, among others, typify a willingness to explore cinema's unique capacity to move us both viscerally and intellectually. Martine Beugnet focuses on the crucial and fertile overlaps that occur between experimental and mainstream cinema. Her book draws on the writings of Deleuze, Merleau-Ponty, and Bataille, among others, but first and foremost, she develops her arguments from the films themselves, from the comprehensive description of specific sequences, techniques, and motifs that allows us to engage with the works as material events and as thinking processes. In turn, she demonstrates how the films, envisaged as forms of embodied thought, offer alternative ways of approaching today's most burning sociocultural debates from the growing supremacy of technology, to globalization, exile, and exclusion.

**The Tactile Eye** Jennifer M. Barker.2009-05-27 The Tactile Eye expands on phenomenological analysis and film theory in its accessible and beautifully written exploration of the visceral connection between films and their viewers. Jennifer M. Barker argues that the experience of cinema can be understood as deeply tactile—a sensuous exchange between film and viewer that goes beyond the visual and aural, gets beneath the skin, and reverberates in the body. Barker combines analysis of embodiment and phenomenological film theory to provide an expansive description of cinematic tactility. She considers feminist experimental film, early cinema, animation, and horror, as well as classic, modernist, and postmodern cinema; films from ten national cinemas; and work by Chuck Jones, Buster Keaton, the Quay Brothers, Satyajit Ray, Carolee Schneemann, and Tom Tykwer, among others.

**Facing a World in Crisis** Jiddu Krishnamurti.2005-03-08 J. Krishnamurti, one of the most beloved and renowned religious teachers of the twentieth century, often taught his students that they must look at the state of the world, with all its violence and conflict, if they are ever to understand themselves. To turn away from world events was for him not to be alive to what life has to teach. *Facing a World in Crisis* presents a selection of talks that Krishnamurti gave on how to live in and respond to troubling and uncertain times. His message of personal responsibility and the importance of connecting with the broader world is presented in a nonsectarian and nonpolitical way. Direct and ultimately life-affirming, *Facing a World in Crisis* will resonate with readers today who are looking for a new way to understand and find hope in challenging times.

**Kaija Saariaho: Emilie Suite (Vocal Score)** Kaija Saariaho.2014-04-01 Kaija Saariaho's *Emilie Suite* was a joint commission by Carnegie Hall, New York City, Cité de la Musique, Paris, Luzerner Sinfonieorchester and Orchestre Philharmonique de Strasbourg. It was first performed on 30 November 2011 at Carnegie Hall by the Avanti! Chamber Orchestra conducted by Hannu Lintu, with Elizabeth Futral (soprano). The first performance in Paris took place on 23 April 2013 at Cité de la Musique by the Avanti! Chamber Orchestra conducted by Ernest Martínez Izquierdo, with Barbara Hannigan (soprano).

**Understanding Asperger Syndrome and High Functioning Autism** Gary B. Mesibov, Victoria Shea, Lynn W. Adams.2001-08-31 This volume, the first in the series, explores the high-functioning group of people within the spectrum of autism disorders. It is the culmination of over a decade of clinical work and research, including the most current information available about this group. Written in a style that is accessible to both seasoned clinicians and concerned lay persons, this volume is a unique resource.

**Limited by Design** Michael Crow, Barry Bozeman.1998-09-25 *Limited by Design* is the first comprehensive study of the varying roles played by the more than 16,000 research and development laboratories in the U.S. national innovation system. Michael Crow and Barry Bozeman offer policy makers and scientists a blueprint for making more informed decisions about how to best utilize and develop the capabilities of these facilities. Some labs, such as Bell Labs, Westinghouse, and Eastman Kodak, have been global players since the turn of the century. Others, such as Los Alamos National Laboratory, have been mainstays of the military/energy industrial complex since they evolved in the 1940s. These and other institutions have come to serve as the infrastructure upon which a range of industries have relied and have had a tremendous impact on U.S. social and economic history. Michael Crow and Barry Bozeman illustrate the histories, missions, structure, and behavior of individual laboratories, and explore the policy contexts in which they are embedded. In studying this large and varied collection of labs, Crow, Bozeman, and their colleagues develop a new framework for understanding the structure and behavior of laboratories that also provides a basis for rationalizing federal science and technology policy to create more effective laboratories. The book draws upon interviews and surveys collected from thousands of scientists, administrators, and policy makers, and features boxed lab windows throughout that provide detailed information on the variety of laboratories active in the U.S. national innovation system. *Limited by Design* addresses a range of questions in order to enable policy makers, university administrators, and scientists to plan effectively for the future of research and development.

**The Linguistics of Punctuation** Geoffrey Nunberg.1990-09 Geoffrey Nunberg challenges a widespread assumption that the linguistic structure of written languages is qualitatively identical to that of spoken language: It should no longer be necessary to defend the view that written language is truly language, but it is surprising to learn of written-language category indicators that are realized by punctuation marks and other figural devices.' He shows that traditional approaches to these devices tend to describe the features of written language exclusively by analogy to those of spoken language, with the result that punctuation has been regarded as an unsystematic and deficient means for presenting spoken-language intonation. Analysed in its own terms, however, punctuation manifests a coherent linguistic subsystem of 'text-grammar' that coexists in writing with the system of 'lexical grammar' that has been the traditional object of linguistic inquiry. A detailed analysis of the category structure of English text-sentences reveals a highly systematic set of syntactic and presentational rules that can be described in terms independent of the rules of lexical grammar and are largely matters of the tacit knowledge that writers acquire without formal instruction. That these rules obey constraints that are structurally

analogous to those of lexical grammar leads Nunberg to label the text-grammar an 'application' of the principles of natural language organization to a new domain. Geoffrey Nunberg is a researcher at Xerox Palo Alto Research Center.

**Kyra Kyralina** Panait Istrati.1926 The first volume in a series of volumes indebted to Oriental modes of storytelling, such as found in *The Thousand and One Nights*, Kyra Kyralina is a book of great charm and profound insight into the human condition.

*Woof Meow Tweet-Tweet* Cécile Boyer.2011 Follow a dog, a cat, and a bird as they do their favorite things, and then encounter each other.

*Gender and Technology in the Making* Cynthia Cockburn,Susan Ormrod.1993 The authors follow the microwave's life trajectory from the design office to the factory and thence to the shops and household. Examining the different jobs women and men do, the different kinds of knowledge they contribute and the unequal importance they are ascribed in the evolution of the microwave, this book shows how technology relations continue to disadvantage women--Back cover.

*Native American Literatures* Suzanne Everts Lundquist.2004-01-01 Following the structure of other titles in the Continuum Introductions to Literary Genres series, *Native American Literatures* includes: A broad definition of the genre and its essential elements. A timeline of developments within the genre. Critical concerns to bear in mind while reading in the genre. Detailed readings of a range of widely taught texts. In-depth analysis of major themes and issues. Signposts for further study within the genre. A summary of the most important criticism in the field. A glossary of terms. An annotated, critical reading list. This book offers students, writers, and serious fans a window into some of the most popular topics, styles and periods in this subject. Authors studied in *Native American Literatures* include: N. Scott Momaday, Leslie Marmon Silko, Louise Erdrich, James Welch, Linda Hogan, Gerald Vizenor, Sherman Alexie, Louis Owens, Thomas King, Michael Dorris, Simon Ortiz, Cater Revard and Daine Glancy>

**Application-driven Terminology Engineering** Fidelia Ibekwe-SanJuan,Anne Condamines,Maria Teresa Cabré.2007-01-01 A common framework under which the various studies on terminology processing can be viewed is to consider not only the texts from which the terminological resources are built but particularly the applications targeted. The current book, first published as a Special Issue of *Terminology* 11:1 (2005), analyses the influence of applications on term definition and processing. Two types of applications have been identified: intermediary and terminal applications (involving end users). Intermediary applications concern the building of terminological knowledge resources such as domain-specific dictionaries, ontologies, thesaurus or taxonomies. These knowledge resources then form the inputs to terminal applications such as information extraction, information retrieval, science and technology watch or automated book index building. Most of the applications dealt with in the book fall into the first category. This book represents the first attempt, from a pluridisciplinary viewpoint, to take into account the role of applications in the processing of terminology.

**Under Development: Gender** C. Verschuur,I. Guérin,H. Guétat-Bernard.2016-04-30 Despite various decades of research and claim-making by feminist scholars and movements, gender remains an overlooked area in development studies. Looking at key issues in development studies through the prisms of gender and feminism, the authors demonstrate that gender is an indispensable tool for social change.

**Vulgar Latin** Jozsef Herman.2010-11-01 Vulgar Latin refers to those features of Latin language that were not recommended by the classical grammarians but existed nonetheless. Although Vulgar Latin is not well documented, evidence can be deduced from details of the spelling, grammar, and vocabulary that occur in texts of the later Roman Empire, late antiquity, and the early Middle Ages. Every aspect of Vulgar Latin is exemplified in this book, proving that the language is not separate in itself, but an integral part of Latin.Originally published in French in 1967, *Vulgar Latin* was translated more recently into Spanish in an expanded and revised version. The English translation by Roger Wright accurately portrays Vulgar Latin as a complicated field of study, where little is known with absolute certainty, but a great deal can be worked out with considerable probability through careful critical analysis of the data. This text is an invaluable aid to research and understanding for all those interested in Latin, Romance languages, historical linguistics, early medieval texts, and early medieval history.József Herman is the former director of the Linguistic Research Institute at the Hungarian Academy of Sciences and is currently Professor of Latin Linguistics at the University of Venice. He is a well-known authority on the history of later Latin and the prehistory of Romance languages

**A Fulfulde (Maasina) - English - French Lexicon** Donald W. Osborn,David J. Dwyer,Joseph I. Donohoe.2012-01-01 The Lexicon brings together lexical material from a wide range of published and non-published sources to create an extensive compilation of the vocabulary of Fulfulde as it is spoken in that part of central Mali known as Masina (in Fulfulde, Maasina). The Lexicon is intended primarily for non-Fulfulde speakers who are learning the language at the intermediate or advanced levels and who need access to a comprehensive reference source on Fulfulde vocabulary. Scholars, development workers, and others whose research or fieldwork involves use of the Fulfulde of Masina may find it helpful as well in clarifying nuances of meaning and standardized spelling for the less familiar terms they might encounter. It is also intended that the present work, beyond the matter of organizing vocabulary, will contribute significantly to the expanding lexicographical and linguistic investigations of Fulfulde.

People from Our Side Peter Pitseolak,Dorothy Eber.1975 The text of *People from Our Side* consists of Peter Pitseolak's manuscript -- originally written in syllabics -- and a narrative drawn from interviews conducted by Dorothy Eber with the help of young Inuit interpreters. Peter Pitseolak learned the system of reading and writing brought by the missionaries and from an early age formed the habit of keeping a diary. He took his first photograph for a white man who was afraid to approach a polar bear and later, in the early 1940s, acquired his own camera and taught himself, with the help of his wife Aggeok, to develop films in igloo, tent, and hut. His pictures catch, as no white photographer's could, the authentic quality and detail of Eskimo life in the last days of the camp system. Sweeping from nomadic times to the early 1970s, Peter Pitseolak provides a frank and vigorous account of how change came to Baffin Island. A realist who knew he was providing a social history of a vanishing way of life, his story is a farewell to traditional camp life and to Seekooseelak -- where the people of Cape Dorset once had their camps. -- from google books.

*The Rejection of Consequentialism* Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

**Nanosciences and Nanotechnology** Jean-Michel Lourtioz,Marcel Lahmani,Claire Dupas-Haeberlin,Patrice Hesto.2015-10-07 This book provides information to the state of art of research in nanotechnology and nano medicine and risks of nano technology. It covers an interdisciplinary and very wide scope of the latest fundamental research status and industrial applications of nano technologies ranging from nano physics, nano chemistry to biotechnology and toxicology. It provides information to last legislation of nano usage and potential social impact too. The book contains also a reference list of major European research centers and associated universities offering licences and master of nano matter. For clarity and attractivity, the book has many illustrations and specific inserts to complete the understanding of the scientific texts.

**Ready Player Two** Shira Chess.2017-10-01 Cultural stereotypes to the contrary, approximately half of all video game players are now women. A subculture once dominated by men, video games have become a form of entertainment composed of gender binaries. Supported by games such as *Diner Dash*, *Mystery Case Files*, *Wii Fit*, and *Kim Kardashian: Hollywood*—which are all specifically marketed toward women—the gamer industry is

now a major part of imagining what femininity should look like. In *Ready Player Two*, media critic Shira Chess uses the concept of “Player Two”—the industry idealization of the female gamer—to examine the assumptions implicit in video games designed for women and how they have impacted gaming culture and the larger society. With *Player Two*, the video game industry has designed specifically for the feminine ideal: she is white, middle class, heterosexual, cis-gendered, and abled. Drawing on categories from time management and caregiving to social networking, consumption, and bodies, Chess examines how games have been engineered to shape normative ideas about women and leisure. *Ready Player Two* presents important arguments about how gamers and game developers must change their thinking about both women and games to produce better games, better audiences, and better industry practices. Ultimately, this book offers vital prescriptions for how one of our most powerful entertainment industries must evolve its ideas of women.

Encyclopedia of French Film Directors Philippe Rège.2009-12-11 Cinema has been long associated with France, dating back to 1895, when Louis and Auguste Lumi\_re screened their works, the first public viewing of films anywhere. Early silent pioneers Georges MZli\_s, Alice Guy BlachZ and others followed in the footsteps of the Lumi\_re brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In *Encyclopedia of French Film Directors*, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one-timers, nearly 3,000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death; information on the individual's education and professional training; and other pertinent details, such as real names (when the filmmaker uses a pseudonym). The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age\_Jean Renoir and RenZ Clair\_to French New Wave artists such as Fran\_ois Truffaut and Jean-Luc Godard.

Recherche Littéraire / Literary Research Marc Maufort.2019-12-23 As the annual peer-reviewed publication of the International Comparative Literature Association (ICLA), *Recherche littéraire / Literary Research* is an Open Access journal published by Peter Lang. Its mission is to inform comparative literature scholars worldwide of recent contributions to the field. To that end, it publishes scholarly essays, review essays discussing recent research developments in particular sub-fields of the discipline, as well as reviews of books on comparative topics. Scholarly essays are submitted to a double-blind peer review. Submissions by early-career comparative literature scholars are strongly encouraged. En tant que publication annuelle de l'Association internationale de littérature comparée (AILC), *Recherche littéraire / Literary Research* est une revue expertisée par des pair·e·s et publiée par Peter Lang en libre accès voie dorée. Elle vise à faire connaître aux comparatistes du monde entier les développements récents de la discipline. Dans ce but, la revue publie des articles de recherche scientifique, des essais critiques dressant l'état des lieux d'un domaine particulier de la littérature comparée, ainsi que des comptes rendus de livres sur des sujets comparatistes. Les articles de recherche sont soumis à une évaluation par des pair·e·s en double anonyme. Des soumissions par de jeunes chercheuses et chercheurs en littérature comparée sont fortement encouragées.

**Serial Offenders** Louis B. Schlesinger.2000-07-31 Although serial offenders have been a recognized problem in society for centuries, only recently have the complexities of these individuals come to light. *Serial Offenders: Current Thought, Recent Findings* presents current and inclusive information on serial offending in a clear and straightforward manner. Citing numerous case examples, this book will provide forensic psychologists and psychologists, as well as criminologists, social workers and corrections officials with relevant and informative data. Author Louis B. Schlesinger presents current thinking on serial offenders in the first of three parts contained in the text. In Part I, he covers serial homicide, child molestation, rape, arson, and the nonviolent serial offender, while offering new information and perspectives on these traditional problems. Part II reverses thought, and takes a look at recent clinical and research findings. From profiling by law-enforcement and health-care workers to the neurobiological approach to understanding why people continually commit these crimes, Part II delves beyond right and wrong to illuminate and identify the many shades of gray. Part III focuses on the unusual aspects of serial offending and on special populations of offenders. From infantophilia to serial offending by females, adolescents and members of the clergy, Schlesinger provides insight into a world that few have witnessed in such a comprehensive manner.

Cinema and Agamben Henrik Gustafsson,Asbjorn Gronstad.2014-01-16 *Cinema and Agamben* brings together a group of established scholars of film and visual culture to explore the nexus between the moving image and the influential work of Italian philosopher Giorgio Agamben. Including two original texts by Agamben himself, published here for the first time in English translation, these essays facilitate a unique multidisciplinary conversation that fundamentally rethinks the theory and praxis of cinema. In their resourceful analyses of the work of artists such as David Claerbout, Jean-Luc Godard, Philippe Grandrieux, Michael Haneke, Jean Rouch, and others, the authors put to use a range of key concepts from Agamben's rich body of work, like biopolitics, de-creation, gesture, potentiality and profanation. Sustaining the eminently interdisciplinary scope of Agamben's writing, the essays all bespeak the importance of Agamben's thought for forging new beginnings in film theory and for remedying the elegiac proclamations of the death of cinema so characteristic of the current moment.

**Quantum Communications and Cryptography** Alexander V. Sergienko.2018-10-03 All current methods of secure communication such as public-key cryptography can eventually be broken by faster computing. At the interface of physics and computer science lies a powerful solution for secure communications: quantum cryptography. Because eavesdropping changes the physical nature of the information, users in a quantum exchange can easily detect eavesdroppers. This allows for totally secure random key distribution, a central requirement for use of the one-time pad. Since the one-time pad is theoretically proven to be undecipherable, quantum cryptography is the key to perfect secrecy. *Quantum Communications and Cryptography* is the first comprehensive review of the past, present, and potential developments in this dynamic field. Leading expert contributors from around the world discuss the scientific foundations, experimental and theoretical developments, and cutting-edge technical and engineering advances in quantum communications and cryptography. The book describes the engineering principles and practical implementations in a real-world metropolitan network as well as physical principles and experimental results of such technologies as entanglement swapping and quantum teleportation. It also offers the first detailed treatment of quantum information processing with continuous variables. Technologies include both free-space and fiber-based communications systems along with the necessary protocols and information processing approaches. Bridging the gap between physics and engineering, *Quantum Communications and Cryptography* supplies a springboard for further developments and breakthroughs in this rapidly growing area.

The Lemoine Affair Marcel Proust.2012-11-06 Their friend Marcel Proust had killed himself after the fall in diamond shares, a collapse that annihilated a part of his fortune. This is the first-ever translation into English of this startling tour-de-force by one of the twentieth century's greatest writers. *The Lemoine Affair* was inspired by the real-life French scandal involving Henri Lemoine, who claimed he could manufacture diamonds from coal and convinced numerous people—including officers of the De Beers diamond mine company and Proust himself—to invest in the scheme. In a series of pastiches—imitations written in the style of other writers—Proust tells the story of the embarrassment rippling across high society Paris in the wake of the scandal, poking fun at himself (in one story, a character declares that Marcel Proust is so embarrassed he's suicidal) while lampooning some of France's greatest writers, including Flaubert, Balzac, and Saint-Simon. Full of sophisticated wit and dazzling wordplay, and rife with allusions to his friend and fictional characters, many Proust scholars see the dead-on mimicry of *The Lemoine Affair*—written soon after Proust's rejection of society life—as the work by which he honed his own unique, masterly voice. *The Art of The Novella Series* Too short to be a novel, too long to be a short story, the novella is generally unrecognized by academics and publishers. Nonetheless, it is a form beloved and practiced by literature's greatest writers. In the *Art Of The Novella* series, Melville House celebrates this renegade art form and its practitioners with titles that are, in many instances, presented in book form for the first time.

*Dictionnaire Français-anglais, Anglais-français* Larousse (Firm).2012 The most comprehensive French dictionary in its category, completely revised and updated.

Writing After Postcolonialism Jane Hiddleston.2017-09-21 'Focusing on francophone writing from North Africa as it has developed since the 1980s, Writing After Postcolonialism explores the extent to which the notion of 'postcolonialism' is still resonant for literary writers a generation or more after independence, and examines the troubled status of literature in society and politics during this period. Whilst analysing the ways in which writers from Algeria, Morocco and Tunisia have reacted to political unrest and social dissatisfaction, Jane Hiddleston offers a compelling reflection on literature's ability to interrogate the postcolonial nation as well as on its own uncertain role in the current context. The book sets out both to situate the recent generation of francophone writers in North Africa in relation to contemporary politics, to postcolonial theory, and evolving notions of 'world literature, and to probe the ways in which a new and highly sophisticated set of writers reflect on the very notion of 'the literary' during this period of transition.'

**The Poetics of Transgenerational Trauma** Meera Atkinson.2017-07-27 The first decades of the twenty-first century have been beset by troubling social realities: coalition warfare, global terrorism and financial crisis, climate change, epidemics of family violence, violence toward women, addiction, neo-colonialism, continuing racial and religious conflict. While traumas involving large-scale or historical violence are widely represented in trauma theory, familial trauma is still largely considered a private matter, associated with personal failure. This book contributes to the emerging field of feminist trauma theory by bringing focus to works that contest this tendency, offering new understandings of the significance of the literary testimony and its relationship to broader society. The Poetics of Transgenerational Trauma adopts an interdisciplinary approach in examining how the literary testimony of familial transgenerational trauma, with its affective and relational contagion, illuminates transmissive cycles of trauma that have consequences across cultures and generations. It offers bold and insightful readings of works that explore those consequences in story-Alison Bechdel's *Fun Home: A Family Tragicomic* (2006), Hélène Cixous's *Hyperdream* (2009), Marguerite Duras's *The Lover* (1992), Pat Barker's *Regeneration Trilogy* (1999), and Alexis Wright's *Carpentaria* (2006) and *The Swan Book* (2013), concluding that such testimony constitutes a fundamentally feminist experiment and encounter. The Poetics of Transgenerational Trauma challenges the casting of familial trauma in ahistorical terms, and affirms both trauma and writing as social forces of political import.

A History of Autism Adam Feinstein.2011-07-07 This unique book is the first to fully explore the history of autism - from the first descriptions of autistic-type behaviour to the present day. Features in-depth discussions with leading professionals and pioneers to provide an unprecedented insight into the historical changes in the perception of autism and approaches to it Presents carefully chosen case studies and the latest findings in the field Includes evidence from many previously unpublished documents and illustrations Interviews with parents of autistic children acknowledge the important contribution they have made to a more profound understanding of this enigmatic condition

**Facing Diasporic Trauma** Fatim Boutros.2015-11-09 Slavery is a recurring motif in the writings of Fred D'Aguiar, John Hearne and Caryl Phillips. **Thinking Syntactically** Liliane Haegeman.2009-02-04 Thinking Syntactically: A Guide to Argumentation and Analysis is a textbook designed to teach introductory students the skills of relating data to theory and theory to data. Helps students develop their thinking and argumentation skills rather than merely introducing them to one particular version of syntactic theory. Structured around a wide range of exercises that use clear and compelling logic to build arguments and lead up to theoretical proposals. Data drawn from current media sources, including newspapers, books, and television programs, to help students formulate and test hypotheses. Generative in spirit, but does not focus on specific theoretical approaches but enables students to understand and evaluate different approaches more easily. Written by an established author with an international reputation.
