East Plays West Stephen Wagg, David Andrews. 2012-09-10 The Cold War spanned some five decades from the devastation that remained after World War Two until the fall of the Berlin wall, and for much of that time the perception was that only on the Eastern side were politics and sport inextricably linked. However, this assumption underestimates the extent to which sport was an important symbol for both power blocs in their ongoing ideological struggle. This collection of essays from leading international authorities on sport, culture and ideology brings together an impressive body of work organized around key political themes and outstanding moments in sport, and is at once a political history of sport and an illuminating new perspective on the forces that shaped this unsettled time.

Regulating Professions Tracey L Adams. 2018-08-08 Self-regulation has long been at the core of sociological understandings of what it means to be a profession. However, the historical processes resulting in the formation of self-regulating professions have not been well understood. In *Regulating Professions*, Tracey L. Adams explores the emergence of self-regulating professions in British Columbia, Ontario, Quebec, and Nova Scotia from Confederation to 1940. Adams's in-depth research reveals the backstory of those occupations deemed worthy to regulate, such as medicine, law, dentistry, and land surveying, and how they were regulated. Adams evaluates sociological explanations for professionalization and its regulation by analysing their applicability to the Canadian experience and especially the role played by the state. By considering the role of all those involved in creating the professional landscape in Canada, Adams provides a clear picture of the process and illuminates how important this has been in building Canadian institutions and society.

Heritage Regimes and the State Bendix, Regina, Eggert, Aditya, Peselmann, Arnika. 2013-07-02 What happens when UNESCO heritage conventions are ratified by a state? How do UNESCO's global

efforts interact with preexisting local, regional and state efforts to conserve or promote culture? What new institutions emerge to address the mandate? The contributors to this volume focus on the work of translation and interpretation that ensues once heritage conventions are ratified and implemented. With seventeen case studies from Europe, Africa, the Caribbean and China, the volume provides comparative evidence for the divergent heritage regimes generated in states that differ in history and political organization. The cases illustrate how UNESCO's aspiration to honor and celebrate cultural diversity diversifies itself. The very effort to adopt a global heritage regime forces myriad adaptations to particular state and interstate modalities of building and managing heritage.

Buyology Martin Lindstrom.2010-02-02 NEW YORK TIMES BESTSELLER • “A fascinating look at how consumers perceive logos, ads, commercials, brands, and products.”—Time How much do we know about why we buy? What truly influences our decisions in today's message-cluttered world? In *Buyology*, Martin Lindstrom presents the astonishing findings from his groundbreaking three-year, seven-million-dollar neuromarketing study—a cutting-edge experiment that peered inside the brains of 2,000 volunteers from all around the world as they encountered various ads, logos, commercials, brands, and products. His startling results shatter much of what we have long believed about what captures our interest—and drives us to buy. Among the questions he explores: • Does sex actually sell? • Does subliminal advertising still surround us? • Can “cool” brands trigger our mating instincts? • Can our other senses—smell, touch, and sound—be aroused when we see a product? *Buyology* is a fascinating and shocking journey into the mind of today's consumer that will captivate

anyone who's been seduced—or turned off—by marketers' relentless attempts to win our loyalty, our money, and our minds.

French Cinema from the Liberation to the New Wave, 1945-1958 André Bazin. 2012 Andre Bazin is credited with almost single-handedly establishing the study of film as an accepted intellectual pursuit. Bazin's *French Cinema from the Liberation to the New Wave, 1945-1958* contains, for the first time in English, nearly all of his writings about the practitioners as well as the predecessors of the French New Wave, a movement that had a profound impact on the evolution of cinematic style and subject matter.

Convergence and Divergence in European Education and Training Systems Andy Green, Tom Leney, Alison Wolf. 1999 This book offers a unique picture of education and training in the EU between the early 1980s and the late 1990s. It synthesizes a wealth of research, policy documents and original data from the fifteen Member States and from the European Commission. The advent of the Single Market and of the euro have focused attention on economic integration in Europe; while discussions of globalization also emphasize common trends and economic convergence.

Convergence and Divergence in European Education and Training Systems demonstrates that, while European education and training systems are responding to powerful general trends, they remain

highly distinctive, with no obvious movement towards a single common pattern.

Education, Globalization and the Nation State A. Green.1997-05-23 Andy Green develops on his earlier historical work on Education and State Formation in a study of education and the nation state in an era of globalization. *Education, Globalization and the Nation State* offers the first sustained analysis of the implications of globalization for modern education systems. In a series of historical and comparative essays ranging from Europe to America and Asia, Green assesses the changing relations between education and the nation state in different regions, and concludes that the national education system is far from obsolete.

Pause & Effect Mark Stephen Meadows.2002-09-10 Interactive narrative is the cornerstone for many forms of digital media: web sites, interface design, gaming environments, and even artificial intelligence. In *Pause & Effect*, Mark Stephen Meadows examines the intersection of storytelling, visual art, and interactivity. He takes the key principles from these areas and applies them to the design, architecture, and development of successful interactive narrative. This provocative book will appeal to designers with its edgy aesthetic and artistic sensibility. Striking graphic and typographic imagery complement unique design features that encourage interactivity through varying levels of information, different navigational possibilities, and even flip-book animations.

Attic Script Henry R. Immerwahr.1990 This study places the inscriptions found on Athenian vases in the context of the early development of writing in Athens. Focusing on the period from the invention of the alphabet in the 8th century B.C. to the early 4th century B.C., when the local alphabet had been supplanted by the common Ionic script, the book presents inscriptions on stone, both public and private, scratched inscriptions on pottery, including the political ostraca, and some inscriptions on lead tablets. Although the vase inscriptions are brief, they number in the thousands

and give an accurate picture of the art of writing and the state of literacy in the Classical Period.

Stadt - Macht - Korruption Jens Ivo Engels, Andreas Fahrmeir, Cesare Mattina, Frédéric Monier.2017
Marseille, Köln, Montreal - offensichtlich kennen viele Gesellschaften dieses Phänomen: Eine oder auch mehrere Städte im Land haben den Ruf korrupt zu sein. Ausgehend von diesem Befund gehen die Autorinnen und Autoren dieses Bandes dem Verhältnis von Stadt und Korruption nach. Dabei beschränken sie sich in ihren Beiträgen nicht auf die Images der als korrupt geltenden Städte. Sie untersuchen auch die konkreten Praktiken, die üblicherweise als Korruption bezeichnet werden, und stellen mögliche Gegenmassnahmen dar. Ziel des Bandes ist es, die Bedeutung dieser Thematik aufzuzeigen - denn von wenigen Ausnahmen abgesehen hat sich die Stadtgeschichte bisher nicht mit der Geschichte der Korruption beschäftigt. Die Beiträge decken eine breite Palette von Städten in Ländern in und ausserhalb Europas ab, darunter Deutschland, Frankreich, Grossbritannien, Italien, Spanien, die Niederlande, Russland, Kanada, die USA und China. Zeitliche Schwerpunkte sind die Phase der Urbanisierung um 1900 sowie die Mitte des 20. Jahrhunderts.

State Formation, Regime Change, and Economic Development Jørgen Møller.2016-12-19

Failed or weak states, miscarried democratizations, and economic underdevelopment characterize a large part of the world we live in. Much work has been done on these subjects over the latest decades but most of this research ignores the deep historical processes that produced the modern state, modern democracy and the modern market economy in the first place. This book elucidates the roots of these developments. The book discusses why China was surpassed by Europeans in spite of its early development of advanced economic markets and a meritocratic state. It also hones in on the relationship between geopolitical pressure and state formation and on the European conditions

that - from the Middle Ages onwards - facilitated the development of the modern state, modern democracy, and the modern market economy. Finally, the book discusses why some countries have been able to follow the European lead in the latest generations whereas other countries have not. State Formation, Regime Change and Economic Development will be of key interest to students and researchers within political science and history as well as to Comparative Politics, Political Economy and the Politics of Developing Areas.

The Rise of Professional Women in France Linda L. Clark.2000-12-21 This history of professional women in positions of administrative responsibility illuminates women's changing relationship to the public sphere in France since the Revolution of 1789. Linda L. Clark traces several generations of French women in public administration, examining public policy and politics, attitudes towards gender, and women's work and education. Women's own perceptions and assessments of their positions illustrate changes in gender roles and women's relationship to the state. With seniority-based promotion, maternity leaves and the absence of the marriage bar, the situation of French women administrators invites comparison with their counterparts in other countries. Why has the profile of women's employment in France differed from that in the USA and the UK? This study gives unique insights into French social, political and cultural history, and the history of women during the nineteenth and twentieth centuries. It will interest scholars of European history and also specialists in women's studies.

Hard Times Studs Terkel.2012-10-09 First published in 1970, Studs Terkel's bestselling *Hard Times* has been called "a huge anthem in praise of the American spirit" (*Saturday Review*) and "an invaluable record" (*The New York Times*). With his trademark grace and compassion, Terkel evokes a mosaic of memories from those who were richest to those who were destitute: politicians,

businessmen, artists and writers, racketeers, speakeasy operators, strikers, impoverished farmers, people who were just kids, and those who remember losing a fortune. Now, in a handsome new illustrated edition, a selection of Studs's unforgettable interviews are complemented by images from another rich documentary trove of the Depression experience: Farm Security Administration photographs from the Library of Congress. Interspersed throughout the text of *Hard Times*, these breathtaking photographs by Dorothea Lange, Walker Evans, Jack Delano, and others expand the human scope of the voices captured in the book, adding a new dimension to Terkel's incomparable volume. *Hard Times* is the perfect introduction to Terkel's work for new readers, as well as a beautiful new addition to any Terkel library.

Impossible Engineering Chandra Mukerji. 2021-11-09 The Canal du Midi, which threads through southwestern France and links the Atlantic to the Mediterranean, was an astonishing feat of seventeenth-century engineering--in fact, it was technically impossible according to the standards of its day. *Impossible Engineering* takes an insightful and entertaining look at the mystery of its success as well as the canal's surprising political significance. The waterway was a marvel that connected modern state power to human control of nature just as surely as it linked the ocean to the sea. The Canal du Midi is typically characterized as the achievement of Pierre-Paul Riquet, a tax farmer and entrepreneur for the canal. Yet Chandra Mukerji argues that it was a product of collective intelligence, depending on peasant women and artisans--unrecognized heirs to Roman traditions of engineering--who came to labor on the waterway in collaboration with military and academic supervisors. Ironically, while Louis XIV and his treasury minister Jean-Baptiste Colbert used propaganda to present France as a new Rome, the Canal du Midi was being constructed with unrecognized classical methods. Still, the result was politically potent. As Mukerji shows, the project

took land and power from local nobles, using water itself as a silent agent of the state to disrupt traditions of local life that had served regional elites. Impossible Engineering opens a surprising window into the world of seventeenth-century France and illuminates a singular work of engineering undertaken to empower the state through technical conquest of nature.

School Knowledge for the Masses John W. Meyer,David Kamens,Aaron Benavot.2017-04-28 First published in 1992, this book presents unique quantitative data on the content coverage of primary education in a large number of countries since 1920. It demonstrates that these curricular outlines tend to be surprisingly similar across very disparate countries, and suggests the world processes that produced this result. Specifically, the study shows that the contemporary primary curriculum dates from changes in the late nineteenth century; that there has been a general shift towards a 'social studies' subject; that instruction in mathematics and sciences has tended to expand; that there have been substantial increases in foreign language instruction (and changes in the languages taught); and that instruction in the arts and physical education come to the standard world education model much later than other subjects. This work will be of particular interest to those studying primary curriculum, international education and the sociology of education.

Adult Literacy Programs in Uganda Anthony Okech, Roy A. Carr-Hill. 2001-01-01 The policy of the World Bank has been to focus on universal primary education, rather than supporting adult literacy programmes. But slow progress in Sub-Saharan Africa has convinced the Bank that adult literacy, especially amongst women, is a key factor in promoting economic and social development. This study of programmes in Uganda shows that adult literacy programmes can be more effective than was previously thought; that government run programmes can be as effective as those run by non-governmental organisations and that there is a large, unsatisfied demand among Ugandan adults for more education.

Méthode de Préparation de la Carte Scolaire International Institute for Educational Planning, Jacques Hallak. 1973 This case study highlights a typical example of the kind of gap that exists between centralized planning and implementation. Despite the existence of fairly sophisticated central planning machinery in Ireland and an active desire for reform on the part of the government (with an explicit policy on school location, buildings, curriculum, etc.), the school networks in the County still remain largely outdated and ill-adapted to modern circumstances. This situation results in costly under utilization of resources, a lack of equality of educational opportunity and supply, and inadequate pedagogical provision. The County is highlighted geographically and placed comparatively in the Irish context under the headings of demography, economic and social

background, and educational system. Profiles of the school networks are given, and an analysis and a diagnosis are made of the first and second levels respectively. Internal comparative analysis by catchment area is made separately for the two levels under enrollment, transport, teaching staff, curriculum, physical facilities, costs, and financing. Prognoses and proposals for future school networks are made, and an enrollment forecast to 1976 is made against a background of the economic and social development perspective and the demographic trends for the County. The methodology, parameters, and principles of school mapping are presented. (Photographs may reproduce poorly.) (Author/MLF)

The New Oxford Shakespeare: Authorship Companion Gary Taylor, Gabriel Egan. 2017-02-10 This companion volume to *The New Oxford Shakespeare: The Complete Works* concentrates on the issues of canon and chronology—currently the most active and controversial debates in the field of Shakespeare editing. It presents in full the evidence behind the choices made in *The Complete Works* about which works Shakespeare wrote, in whole or part. A major new contribution to attribution studies, the *Authorship Companion* illuminates the work and methodology underpinning the groundbreaking *New Oxford Shakespeare*, and casts new light on the professional working practices, and creative endeavours, of Shakespeare and his contemporaries. We now know that Shakespeare collaborated with his literary and dramatic contemporaries, and that others adapted his works before they reached printed publication. The *Authorship Companion*'s essays explore and explain these processes, laying out everything we currently know about the works' authorship. Using a variety of different attribution methods, *The New Oxford Shakespeare* has confirmed the presence of other writers' hands in plays that until recently were thought to be Shakespeare's solo work. Taking this process further with meticulous, fresh scholarship, essays in the *Authorship Companion*

show why we must now add new plays to the accepted Shakespeare canon and reattribute certain parts of familiar Shakespeare plays to other writers. The technical arguments for these decisions about Shakespeare's creativity are carefully laid out in language that anyone interested in the topic can understand. The latest methods for authorship attribution are explained in simple but accurate terms and all the linguistic data on which the conclusions are based is provided. The New Oxford Shakespeare consists of four interconnected publications: the Modern Critical Edition (with modern spelling), the Critical Reference Edition (with original spelling), a companion volume on Authorship, and an online version integrating all of this material on OUP's high-powered scholarly editions platform. Together, they provide the perfect resource for the future of Shakespeare studies.

Investing in Cultural Diversity and Intercultural Dialogue Unesco.2009-01-01 This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the

attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

Lebanon in Limbo Theodor Hanf, Nawwāf Salām. 2003 Twelve years after the wars ended, the country of Lebanon entered a state of limbo. It was no longer in the center of the Middle Eastern conflicts, yet it remained under the impact of the region's conflicts. Ethno-religious communities persisted, with a modernization of their co-existence. However, the entrepreneurial middle classes had become weakened by emigration, and social cleavages deepened. Considerable achievements in reconstruction were followed by economic stagnation. The danger of authoritarianism by diffusion could not be overlooked. In this reprint - originally published in 2003 - a representative survey shows what lessons the Lebanese learned from the war. They refused the use of violence and war. Their willingness to co-exist in diversity increased. The citizens have not particularly valued their political leaders, yet they remain democratic by conviction.
