Gender Shock Phyllis Burke.1996 In *Gender Shock*, Phyllis Burke explodes the many myths surrounding our rigid gender system of male and female by looking through three lenses of gender identity: behavior, appearance, and science. Analyzing the latest research in psychology, genetics, neurology, and sociology, Burke finds that gender (or behavior) is not the result of one's biological sex (the body itself) and that gender and sexuality are separate elements of the self. With common sense and compassion, Burke challenges the notion that men and women are from different planets by revealing how there are more variations within each sex than there are between the two.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Deconstructing Europe Sandra Ponzanesi,Bolette B. Blaagaard.2019-07-09 This book engages with the question of what makes Europe postcolonial and how memory, whiteness and religion figure in representations and manifestations of European 'identity' and self-perception. To deconstruct Europe is necessary as its definition is now contested more than ever, both internally (through the proliferation of ethnic, religious, regional differences) and externally (Europe expanding its boundaries but closing its borders). This edited volume explores a number of theoretical discussions on the meaning of Europe and proposes analyzing some of the deeds committed, both today and in the past, in the name of Europe by foregrounding a postcolonial approach. To deconstruct Europe as a postcolonial place does not imply that Europe's imperial past is over, but on the contrary that Europe's idea of self, and of its polity, is still struggling with the continuing hold of colonialist and imperialist attitudes. The objective of this volume is to account for historical legacies which have

been denied, forgotten or silenced, such as the histories of minor and peripheral colonialisms (Nordic colonialisms or Austrian, Spanish and Italian colonialism) and to account for the realities of geographical margins within Europe, such as the Mediterranean and the Eastern border while tracing alternative models for solidarity and conviviality. The chapters deal with social and political formations as well as cultural and artistic practices drawing from different disciplinary backgrounds and methodological traditions. As such it creates an innovative space for comparative and cross-disciplinary exchanges. This book was previously published as a special issue of the journal *Social Identities*.

So when hot Carter Paulson walks in the door of Robin's diner, it looks like the list may have come to life after all...until she realizes he's profoundly deaf. Carter isn't looking for a girlfriend. Especially not a hearing one. Not that he has anything against hearing girls, they just don't speak the same language. But when the cute waitress at Grape Country Dairy makes an effort to talk with him, he takes her out on his yellow Ducati motorcycle. Music, language, and culture all take a backseat as love drives the bike. But how long can this summer really last?

Three Masters: Balzac, Dickens, Dostoevsky Stefan Zweig. 2019-08-16 In these early 20th century literary essays, Stefan Zweig offers a Central European view of the writers he believed to be the "three greatest novelists" of the 19th century: Balzac, Dickens, and Dostoevsky. In Zweig's view, Balzac set out to emulate his childhood hero Napoleon. Writing 20 hours a day, Balzac's literary ambition was "tantamount to monomania in its persistence, its intensity, and its concentration." His characters, each similarly driven by one desperate urge, were more vital to Balzac than people in his daily life. In Zweig's reading, Dickens embodied Victorian England and its "bourgeois smugness". His characters aspire to "A few hundred pounds a year, an amiable wife, a dozen children, a well-appointed table and succulent meats to entertain their friends with, a cottage not too far from London, the windows giving a view over the green countryside, a pretty little garden, and a modicum of happiness." The ideal of middle-class respectability suffuses Dickens' fiction. Dostoevsky drew on the struggles of his own life to illuminate the contradictions of the human soul. In Zweig's view, his heroes had no desire to be citizens or ordinary human beings. While Balzac's heroes "would gladly have subjugated the world, Dostoevsky's heroes wished to transcend it."

Delusions of Gender Cordelia Fine. 2005-02-01 THE BRILLIANT AND HUGELY INFLUENTIAL BOOK BY THE WINNER OF THE 2017 ROYAL SOCIETY INSIGHT INVESTMENT SCIENCE BOOKS PRIZE 'Fun, droll yet deeply serious.' New Scientist 'A brilliant feminist critic of the neurosciences ... Read her, enjoy and learn.' Hilary Rose, THES 'A witty and meticulously researched exposé of the sloppy studies that pass for scientific evidence in so many of today's bestselling books on sex differences.' Carol Tavris, TLS Gender inequalities are increasingly defended by citing hard-wired differences between the male and female brain. That's why, we're told, there are so few women in science, so few men in the laundry room - different brains are just suited to different things. With sparkling wit and humour, Cordelia Fine attacks this 'neurosexism', revealing the mind's remarkable plasticity, the substantial influence of culture on identity, and the malleability of what we consider to be 'hardwired' difference. This modern classic shows the surprising extent to which boys and girls, men

and women are made - not born.

Starworld Audrey Coulthurst,Paula Garner.2019-04-16 In a novel in two voices, a popular teen and an artistic loner forge an unlikely bond — and create an entire universe — via texts. But how long before the real world invades Starworld? Sam Jones and Zoe Miller have one thing in common: they both want an escape from reality. Loner Sam flies under the radar at school and walks on eggshells at home to manage her mom's obsessive-compulsive disorder, wondering how she can ever leave to pursue her dream of studying aerospace engineering. Popular, people-pleasing Zoe puts up walls so no one can see her true self: the girl who was abandoned as an infant, whose adoptive mother has cancer, and whose disabled brother is being sent away to live in a facility. When an unexpected encounter results in the girls' exchanging phone numbers, they forge a connection through text messages that expands into a private universe they call Starworld. In Starworld, they find hilarious adventures, kindness and understanding, and the magic of being seen for who they really are. But when Sam's feelings for Zoe turn into something more, will the universe they've built survive the inevitable explosion?
