*A Beat a Week* Glenn Kotche.2013-09-27 *A Beat a Week*, by Wilco drummer Glenn Kotche, contains 52 unique beats from his recorded catalog. Intended as a supplemental method, it explains the inspiration, origins, and evolution of these diverse beats with detailed text alongside each one. Taking the same concepts that embody Kotche's playing, it promotes a total percussion approach to drumset by exhibiting a wide variety of source material ranging from rock, jazz, classical, marching, world, and electronic percussion idioms. Each beat is broken down into step-by-step examples for deeper understanding and in-depth study. This book is perfect for drummers at all levels or anyone curious about the creative process.

Traditional American Folk Songs for Tongue Drum or Handpan Helen Winter. We have created a collection of songs that you can play easily. Most of these melodies are rather unique. These are lesser-known songs that you and your kids will certainly love. If you are interested in more popular songs, see another book in our series: *Tongue Drum Songbook for Beginner: Play Simple Kids Songs by Number*. Most of the songs in this songbook are easy enough for beginner musicians, even if you are not experienced with musical notation. By simply following numbers, you will begin to play right away. Because numbers are often engraved on most modern tongue drums, we believe that using numbers in addition to a classic musical score is the best way to get beginners without musical background to play. QR codes have also been added to all songs so that players can follow the link and hear the rhythm before playing. Tongue drums are usually tuned to include one octave. For this reason, most of the songs are written using just the main octave. You will not find songs with flat/sharp notes here because it is not common to see tongue drums with these notes. The tongue drum, which is a great way to help you get in touch with your feelings, emotions, and inner self. Absolute Beginner. Tongue Drum and Handpan Song Tutorial Helen Winter. We collect very simple and well-known songs and melodies with easy

rhythms. You can begin to play in just two steps. First, you will play using circles that contain either a number, without having to consider note duration, key, or time signatures. These numbers correspond to those on the keys of your tongue drum. So you just need to follow the numbers. You can get an idea of how the song might be played by listening to the YouTube clip of the same song, which you can access with the QR code below each song. Then, if you find that you can play the song with more confidence, you can try using the second page of the same song, with the actual notes. There, the same melody is written in a traditional manner with all the necessary musical symbols. However, we simplified the melodies in this step as well, transposing the most songs for one octave, leaving the numbers under the notes. We hope that playing these simple melodies will bring you a new relaxation and meditation experience filled with a lot of joy. Playing traditional music notes is difficult for people who have no musical knowledge. You need to know the rhythmic value of each note, its place on the staff, note duration, and its combination with other notes. Being aware of all this simultaneously demands music experience and advanced skills. Nevertheless, even if you have never studied music, you can begin to play complicated melodies, and also experiment with your tongue drum in a meditative way. The steel tongue drum (aka tong drum, tank drum, gluck-o-phone, hapi drum, mandala, or lotus drum) and the handpan (aka hank drum, UFO drum, zen drum) are percussion musical instruments designed to help you focus on your feelings, sensations, and body. Numbered Sheet Music for 8-Note Steel Drum with Simple Traditional African Songs Helen Winter.2022-11-13 The steel tongue drum and the handpan are percussion musical instruments designed to help you focus on your feelings, sensations, and body. No previous training or skills are necessary to enjoy these fascinating instruments. Playing drums can relieve stress and disappointment. Because most tongue drums include and are tuned to involve the notes of the main octave, all songs from this book are possible to play in one octave. If you have less than one octave of keys on your drum, you may need to skip some songs. If you have more than 8 keys, for example, an 11- or 15-note handpan this book would be a great start to your drum experience. Yet, each tongue drum is very different, and it is impossible to accommodate songs for all kinds of tongue drums in one music book. This songbook was written to help the absolute beginner, whether child or adult learn to play in a simple and easy way that requires no knowledge of reading music. If you are a beginner, playing by note can be difficult. It is easier to follow number-coded circles with note numbers. In Africa, singing always involves dancing, so the emphasis is placed more firmly on rhythms than on melody or harmony. Due to their clear rhythmic patterns, African songs are an ideal material for any musician. Its main task is not to be reproduced, but to get everyone involved, since music, by definition, is the expression of emotional states with the help of sounds of a certain frequency and rhythm. An indication of the country of origin of the song in this tongue drum meditation music book is an approximation because many traditional cultures cross current national borders. The language in which the song is sung is more important, and it can be used in various countries. Most songs have been simplified for adult beginners. Since African music assumes improvisation and variation, we recommend using this sheet music only as a guide. The most important thing is to listen and repeat the recordings linked to the QR code.

If you have less than 1 octave of keys on your drum, you may need to skip some songs. However, if your drum has many sharp notes, you will need a book that contains chromatic songs. **70 Simple Songs for the 8-Note Tongue Drum. Without Musical Notes** Helen Winter. We call this series "I don't read music" since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. All 70 songs in this book have been written without using the classic music score system, because it is for absolute beginner who can not read sheet music. This book is aimed for those who want to add popular melodies to their experimentation. We use circles with numbers because most modern tongue drums have numbers engraved or painted on their keys. We do not show the note duration. You can experiment with a duration on your own. We recommend finding each of these songs on YouTube and listening to the rhythm before beginning to play. Our sheet music is only a guide. The most important thing is to listen and repeat the recordings. All songs from this book are possible to play in one octave. These songs are suitable for a diatonic 8-note tongue drum, which should have numbers 1, 2, 3, 4, 5, 6, 7, and 1 of the next octave. Please note: if you have a model of the tongue drum with 5 tongues, or if some keys from the octave are missing, you will not be able to play all of the songs in this book. The songbook includes very simple, popular children's and folk songs, but even well-known children's songs played on the tongue drum will create an unusual magical sound.
