City Dreams, Country Schemes Kathleen A. Brosnan, Amy L. Scott. 2013-10-11 The American West, from the beginning of Euro-American settlement, has been shaped by diverse ideas about how to utilize physical space and natural environments to create cohesive, sometimes exclusive community identities. When westerners developed their towns, they constructed spaces and cultural identities that reflected alternative understandings of modern urbanity. The essays in *City Dreams, Country Schemes* utilize an interdisciplinary approach to explore the ways that westerners conceptualized, built, and inhabited urban, suburban, and exurban spaces in the twentieth century. The contributors examine such topics as the attractions of open space and rural gentrification in shaping urban development; the role of tourism in developing national parks, historical sites, and California's Napa Valley; and the roles of public art, gender, and ethnicity in shaping urban centers. *City Dreams, Country Schemes* reveals the values and expectations that have shaped the West and the lives of the people who inhabit it.

Robert Louis Stevenson William Gray. 2004-03-12 More than most writers, Robert Louis Stevenson requires a Literary Life. Fascination with Stevenson's life (the 'Stevenson biography' is almost a minor genre) has tended to eclipse his literary achievement. This study focuses on Stevenson's writing practice within the different geographical, cultural and political contexts that shaped it, from Scotland to the South Seas. Following Stevenson's own views on biography, the book is not structured primarily in terms of chronology, but is more a kind of literary geography than traditional

literary history.

Shivering Babe, Glorious Lord Douglas Wirth.2016-05-13 The Nativity Stories from Matthew and Lukes gospels have endured through the centuries, but the way Christmas is celebrated has been dramatically reshaped. In the modern era the story of Christs birth has been overshadowed by fanciful tales of Santa, Frosty, and Rudolph. Holiday customs designed to enhance the enjoyment of Christmas have often come to obscure the message of the Saviors birth. The Christmas season now exists primarily to foster the urge to shop rather than a desire to pause and reflect on the good news of Christs coming. Today the Nativity Stories are seldom considered as a whole, and the theological riches of these sacred texts have regrettably been reduced to The Christmas Story. The biblical

narratives that have inspired poets and artists for centuries warrant more careful study. *Shivering Babe, Glorious Lord* surveys the Nativity Stories through twenty centuries of Christian tradition: their composition by Matthew and Luke; their relationship to the larger biblical narrative; their profound influence on theology and worship; their modern decline and the reemergence of Christmas in a secular guise in the nineteenth and twentieth centuries. Readers yearning for a more Christ-centered Christmas will find helpful resources here.

Locating Queer Histories Matt Cook, Alison Oram, Justin Bengry. 2022-10-06 Ranging from the mid-19th century to the present, and from Edinburgh to Plymouth, this powerful collection explores the significance of locality in queer space and experiences in modern British history. The chapters cover a broad range of themes from migration, movement and multiculturalism; the distinctive queer social and political scenes of different cities; and the ways in which places have been reimagined through locally led community history projects. The book challenges traditional LGBTQ histories which have tended to conceive of queer experience in the UK as a comprising a homogeneous, national narrative. Edited by leading historians, the book foregrounds the voices of LGBTQ-identified people by looking at a range of letters, diaries, TV interviews and oral testimonies. It provides a unique and fascinating account of queer experiences in Britain and how they have been shaped through different localities.

American Holiday Postcards, 1905–1915 Daniel Gifford.2013-08-16 In the early 20th century, postcards were one of the most important and popular expressions of holiday sentiment in American culture. Millions of such postcards circulated among networks of community and kin as part of a larger American postcard craze. However, their uses and meanings were far from universal. This book argues that holiday postcards circulated primarily among rural and small town, Northern, white women with Anglo-Saxon and Germanic heritages. Through analysis of a broad range of sources, Daniel Gifford recreates the history of postcards to account for these specific audiences, and reconsiders the postcard phenomenon as an image-based conversation among exclusive groups of Americans. A variety of narratives are thus revealed: the debates generated by the Country Life Movement; the empowering manifestations of the New Woman; the civic privileges of whiteness; and the role of emerging technologies. From Santa Claus to Easter bunnies, flag-waving turkeys to gun-toting cupids, holiday postcards at first seem to be amusing expressions of a halcyon past. Yet with

knowledge of audience and historical conflicts, this book demonstrates how the postcard images reveal deep divides at the height of the Progressive Era.

The Struggle for Sustainability in Rural China Bryan Tilt. 2009-12-15 Though China's economy is projected to become the world's largest within the next twenty years, industrial pollution threatens both the health of the country's citizens and the natural resources on which their economy depends. Capturing the consequences of this reality, Bryan Tilt conducts an in-depth, ethnographic study of Futian Township, a rural community reeling from pollution. The industrial township is located in the populous southwestern province of Sichuan. Three local factories—a zinc smelter, a coking plant, and a coal-washing plant—produce air and water pollution that far exceeds the standards set by the World Health Organization and China's Ministry of Environmental Protection. Interviewing state and company officials, factory workers, farmers, and scientists, Tilt shows how residents cope with this pollution and how they view its effects on health and economic growth. Striking at the heart of the community's environmental values, he explores the intersection between civil society and environmental policy, weighing the tradeoffs between protection and economic growth. Tilt ultimately finds that the residents are quite concerned about pollution, and he investigates the various strategies they use to fight it. His study unravels the complexity of sustainable development within a rapidly changing nation.

Fiction of the New Statesman, 1913-1939 Bashir Abu-Manneh.2011 Fiction of the New Statesman is the first study of the short stories published in the renowned British journal the New Statesman. This book argues that New Statesman fiction advances a strong realist preoccupation with ordinary, everyday life, and shows how British domestic concerns have a strong hold on the working-class and lower-middle-class imaginative output of this period.

Civil Society in British History Jose Harris.2005-07-14 This book explores the many different strands in the language of civil society from the sixteenth to the twentieth centuries. Through a series of case-studies it investigates the applicability of the term to a wide range of historical settings. These include 'state interference', voluntary associations, economic decision-making, social and economic planning, the 'bourgeois public sphere', civil society in wartime, the 'inclusion' and 'exclusion' of women, and relations between the state, the voluntary sector, and individual citizens. The contributors suggest that the sharp distinction between civil society and the state, common in much

continental thought, was of only limited application in a British context. They show how past understandings of the term were often very different from (even in some respects the exact opposite of) those held today, arguing that it makes more sense to understand civil society as a phenomenon that varies between different cultures and periods, rather than a universally applicable set of principles and procedures.

Other Capitals of the Nineteenth Century Richard Hibbitt. 2017-10-17 This book rethinks the notion of nineteenth-century capital(s) from geographical, economic and symbolic perspectives, proposing an alternative mapping of the field by focusing on different loci and sources of capital. Walter Benjamin's essay 'Paris, the Capital of the Nineteenth Century' identifies the French capital as the epitome of modernity. His consideration of how literature enters the market as a commodity is developed by Pierre Bourdieu in *The Rules of Art*, which discusses the late nineteenth-century French literary field in terms of both economic and symbolic capital. This spatio-temporal approach to culture also underpins Pascale Casanova's *The World Republic of Letters*, which posits Paris as the capital of the transnational literary field and Greenwich Meridian of literature. This volume brings together essays by specialists on Bayreuth, Brussels, Constantinople, Coppet, Marseilles, Melbourne, Munich and St Petersburg, as well as reflections on local-colour literature, the Symbolist novel and the strategies behind literary translation. Offering a series of innovative perspectives on nineteenth-century capital and cultural output, this study will be invaluable for all upper-level students and scholars of modern European literature, culture and society.

Tourism, Creativity and Development Greg Richards, Julie Wilson. 2007-11-07 Destinations across the world are beginning to replace or supplement culture-led development strategies with creative development. This book critically analyzes the impact and effectiveness of creative strategies in

tourism development and charts the emergence of 'creative tourism'. Why has 'creativity' become such an important aspect of development strategies and of tourism development in particular? Why is this happening now, apparently simultaneously, in so many destinations across the globe? What is the difference between cultural tourism and creative tourism? These are among the important questions this book answers. It critically examines the developing relationship between tourism and creativity, the articulation of the 'creative turn' in tourism, and the impact this has on theoretical perspectives and practical approaches to tourism development. A wide range of examples from Europe, North America, Asia, Australia and Africa explore the interface between tourism and creativity including: creative spaces and places such as cultural and creative clusters and ethnic precincts; the role of the creative industries and entrepreneurs in the creation of experiences; creativity and rural areas; the 'creative class' and tourism; lifestyle, creativity and tourism and marketing creative tourism destinations. The relationship between individual and collective forms of creativity and the widely differing forms of modern tourism are also discussed. In the concluding section of the book the contribution of creativity to tourism and to development strategies in general is assessed, and areas for future research are outlined. The diverse multidisciplinary contributions link theory and practice, and demonstrate the strengths and weaknesses of creativity as a tourism development strategy and marketing tool. It is the first exploration of the relationship between tourism and creativity and its consequences for tourism development in different parts of the world.

The Rural Tradition William J. Keith.1974-12-15 'There is probably no single quality or characteristic - besides love of the countryside - that must inevitably distinguish a rural writer,' notes W.J. Keith. However, 'what distinguishes rural writing that belongs to literature from that belonging to natural history, agricultural history, etc., is, as Richard E. Haymaker has observed, the writer's means of revealing Nature as well as describing her...In the final analysis the rural essayist paints neither landscapes nor self-portraits; instead he communicates the subtle relationship between himself and his environment, offering for our inspection his own attitudes and his own vision. We may be asked to look or to agree, but more than anything else we are invited to share. Ultimately, then, the best rural writing may be said to provide us, in a phrase adapted from Robert Langbaum, with a prose of experience.' Keith argues that non-fiction rural prose should be recognized as a distinct literary tradition that merits serious critical attention. In this book he tests the cogency of thinking in terms of a 'rural tradition,' examines the critical problems inherent in such writing, and traces significant continuities between rural writers. Eleven of the more important and influential writers from the seventeenth century to modern times come under individual scrutiny: Izaak Walton, Gilbert White, William Cobbett, Mary Russell Mitford, George Borrow, Richard Jefferies, George Sturt/'George Bourne', W.H. Hudson, Edward Thomas Williamson, and H.J. Massingham. In examining these writers within the context of the rural tradition, Keith rescues their works from the literary attic where they have too often been relegated as awkward misfits. When studied together, each throws fascinating light on the others and is seen to fit into a loose but nonetheless discernible 'line.'

Sons of the Empire Robert Macdonald.2011-11-01 In *Sons of the Empire*, Robert MacDonald explores popular ideas and myths in Edwardian Britain, their use by Baden-Powell, and their influence on the Boy Scout movement. In particular, he analyses the model of masculinity provided

by the imperial frontier, the view that life in younger, far-flung parts of the empire was stronger, less degenerate than in Britain. The stereotypical adventurer - the frontiersman - provided an alternative ethic to British society. The best known example of it at the time was Baden-Powell himself, a war scout, the Hero of Mafeking in the South African war, and one of the first cult heroes to be created by the modern media. When Baden-Powell founded the Boy Scouts in 1908, he used both the power of the frontier myth and his own legend as a hero to galvanize the movement. The glamour of war scouting was hard to resist, its adventures a seductive invitation to the first recruits. But Baden-Powell had a serious educational program in mind: Boy Scouts were to be trained in good citizenship. MacDonald documents his study with a wide range of contemporary sources, from newspapers to military memoirs. Exploring the genesis of an imperial institution through its own texts, he brings new insight into the Edwardian age.

Rural Urban Framework Joshua Bolchover,John Lin.2013-10-24 While most attention is given to the booming mega-cities in China and the associated problems of over-population, the rural areas in China are being largely ignored. Yet, a sustainable development of the rural areas is precisely that, which will be decisive for China's future. Through its rapid development into an industrial country, China now needs to tackle far-reaching problems such as increasing population, growing income gap

between the poor and the rich, rural exodus, decreased agricultural production, and environmental pollution. Rural Urban Framework is a work group at the University of Hong Kong that not only researches the far-reaching changes of the last thirty years in China's rural areas, but has also realized concrete projects aimed at improving supply and infrastructure on site. In this publication, the authors present for the first time the results of their research as well as their built projects in the Chinese backlands, and question whether China's only future model lies in cities.

Rural Modernity, Everyday Life and Visual Culture Rosemary Shirley. 2016-03-03 Through the lens of the everyday, this book explores 'the countryside' as an inhabited and practised realm with lived rhythms and routines. It relocates the topography of everyday life from its habitually urban focus, out into the English countryside. The rural is often portrayed as existing outside of modernity, or as its passive victim. Here, the rural is recast as an active and complex site of modernity, a shift which contributes alternative ways of thinking the rural and a new perspective on the everyday. In each chapter, pieces of visual culture - including scrapbooks, art works, adverts, photographs and films - are presented as tools of analysis which articulate how aspects of the everyday might operate differently in non-metropolitan places. The book features new readings of the work of significant artists and photographers, such as Jeremy Deller and Alan Kane, Stephen Willats, Anna Fox, Andrew Cross, Tony Ray Jones and Homer Sykes, seen through this rural lens, together with analysis of visually fascinating archival materials including early Shell Guides and rarely seen scrapbooks made by the Women's Institute. Combining everyday life, rural modernity and visual cultures, this book is able to uncover new and different stories about the English countryside and contribute significantly to current thinking on everyday life, rural geographies and visual cultures.

Who Said the Mechanics of Essay Writing Can't Be Fun? Francis A. Andrew.2018-10-04 This book is essentially a sequel to Francis A. Andrew's earlier book, "Who Said English Grammar Was Boring?" The "sequel" begins by devoting a few chapters to some grammar points and continues with explanations and examples of twenty three essay types. As well as example essays, each unit provides reading passages which are unrelated to the essay type. The reason for this is to encourage students to read widely and thus to see reading and writing as interconnected and inter-related skills.

Town and Country Planning in England and Wales John B. Cullingworth.1971-12-15 The British

Town and Country Planning machine is the most sophisticated in the world, yet its inadequacies are only too apparent to those who are familiar with its evolution and operation. During the last decade it has been in a constant state of change in an attempt to come to terms with the needs of a rapidly changing society. This work attempts to provide a comprehensive picture of the planning system and the ways in which it is changing. An historical introduction leads into an account of the machinery of planning and the major new provisions of the 1968 Town and Country Planning Act. Special attention is then paid to the problems of land values, amenity, derelict land, planning for leisure, new and expanding towns, urban renewal and the search for an adequate means of regional planning. The book ends with an examination of some of the fundamental problems of public acceptance of, and public participation in, a democratic system of planning. The book is aimed at the student and the general reader. It is not a legal text, but neither is it intended as a polemic.
