[Chronicle of a Last Summer](#) Yasmine El Rashidi.2017-06-13 A young Egyptian woman recounts her personal and political coming of age in this brilliant debut novel. Cairo, 1984. A blisteringly hot summer. A young girl in a sprawling family house. Her days pass quietly: listening to a mother's phone conversations, looking at the Nile from a bedroom window, watching the three state-

sanctioned TV stations with the volume off, daydreaming about other lives. Underlying this claustrophobic routine is mystery and loss. Relatives mutter darkly about the newly-appointed President Mubarak. Everyone talks with melancholy about the past. People disappear overnight. Her own father has left, too—why, or to where, no one will say. We meet her across three decades, from youth to adulthood: As a six-year old absorbing the world around her, filled with questions she can't ask; as a college student and aspiring filmmaker pre-occupied with love, language, and the repression that surrounds her; and then later, in the turbulent aftermath of Mubarak's overthrow, as a writer exploring her own past. Reunited with her father, she wonders about the silences that have marked and shaped her life. At once a mapping of a city in transformation and a story about the shifting realities and fates of a single Egyptian family, Yasmine El Rashidi's *Chronicle of a Last Summer* traces the fine line between survival and complicity, exploring the conscience of a generation raised in silence.

Learning Stories Margaret Carr,Wendy Lee.2012-03-19 Margaret Carr's seminal work on Learning

Stories was first published by SAGE in 2001, and this widely acclaimed approach to assessment has since gained a huge international following. In this new full-colour book, the authors outline the philosophy behind Learning Stories and refer to the latest findings from the research projects they have led with teachers on learning dispositions and learning power, to argue that Learning Stories can construct learner identities in early childhood settings and schools. By making the connection between sociocultural approaches to pedagogy and assessment, and narrative inquiry, this book contextualizes Learning Stories as a philosophical approach to education, learning and pedagogy. Chapters explore how Learning Stories: - help make connections with families - support the inclusion of children and family voices - tell us stories about babies - allow children to dictate their own stories - can be used to revisit children's learning journeys - can contribute to teaching and learning wisdom This ground-breaking book expands on the concept of Learning Stories and includes examples from practice in both New Zealand and the UK. It outlines the philosophy behind this pedagogical tool for documenting how learning identities are constructed and shows, through research evidence, why the early years is such a critical time in the formation of learning dispositions. Margaret Carr is a Professor of Education at the University of Waikato, New Zealand. Wendy Lee is Director of the Educational Leadership Project, New Zealand.

Why Mr. Right Can't Find You J. M. Kearns.2009-12-15 How many of us never meet the person with whom we could be happy? How many of us limit our romantic choice to the people who happen to wash up on our shore? In *Why Mr Right Can't Find You*, J.M. Kearns, Ph. D., shows that finding true

love can be a proactive adventure. In chapters like *How Men See Women*, *The Underrated Chance Encounter*, and *The Truth About Bars*, J.M. Kearns lays bare the surprising vulnerabilities of the single male, and the power they confer on women. Men, he explains, are not shallow, not the enemy, and not aliens from Mars. In fact, the good man who is searching for you is your greatest ally, and Kearns shows you exactly how to take advantage of that fact. In the process he overturns the classic dating myths - that destiny chose the one and only man for you, that baggage is bad, that all men prefer the same body type - and solves the fascinating riddle of compatibility, with a hilarious and practical guide to the factors that make two people click, illustrated with real-life vignettes straight from the dating trenches. Finally, in a full online dating section, Kearns (who met his partner online) gives clear, simple advice on sites, photo sets, matchmaking, body issues, and that crucial first meeting. Review If you've been on the lookout for ages but still haven't found The One, this is for you...you'll be in the arms of your true love in no time! —OK! Magazine A literary MRI of the male brain. —Georgie Banks, CBC News Viewpoint. Kearns insists it's really not difficult to direct the right man to you, whether it's online, someone you already know, or a total stranger. So read this, sit back and wait for the offers to pour in... Kearns says we should break the mentality of 'acceptable' places and realize 'any time is a good time to meet Mr. Right.' And sadly, men can't read our minds to establish our interest, so direct him to you. —Cosmopolitan-UK

Carnivore Cooking for Cool Dudes Brad Kearns, Brian McAndrew, William Shewfelt. 2019-12-06 The carnivore diet has emerged as an extremely compelling and scientifically validated strategy to drop excess body fat quickly, heal from assorted autoimmune, inflammatory, and leaky gut conditions, and dramatically elevate the nutrient density of your diet. While uncool naysayer dudes will dismiss the carnivore diet out of hand as crazy or even dangerous, these Cool Dudes will give you the straight scoop about the rationale for and benefits of eating sustainably-raised, nose-to-tail animal foods. This can be done with a strict protocol to address chronic ailments, or with a carnivore-ish strategy where certain less-offensive plant foods (e.g., fruit, dark chocolate, guacamole) are included in delicious recipes and snacks. This fun-loving but highly informative book will help you sort through the hype and misinformation about carnivore, and gain insights from some of the world's leading carnivore advocates like Dr. Paul Saladino and Dr. Shawn Baker. For example, with the intestinal microbiome widely regarded as the next frontier of health and medical science, you'll learn why a carnivore eating pattern can spark a dramatic reconstitution of gut bacteria and an

improvement in damaged gut lining in only a few days. By restricting otherwise healthy plant foods like fruits, vegetables, nuts, and seeds, those with leaky gut or lectin sensitivity have experienced truly mind-blowing health improvements. What's more, the high satiety and easy compliance with carnivore can help you shed excess body fat quickly, without having to suffer from calorie restriction, extreme workouts and frequent backslides and burnout. The three Cool Dudes--Brad, Brian and William--health experts who walk their talk, enjoy life, perform magnificent athletic feats fueled by meat, and are nice to their wives and strangers alike, give you everything you need to succeed in this award-winning book. You'll learn the right way to implement a nose-to-tail carnivore eating strategy featuring a strategic variety of sustainably raised animal foods like grassfed meat, pastured eggs, wild-caught seafood, and the true superfoods of the planet: liver and other nutrient-dense organ meats. You'll also pick up some cool fitness and lifestyle tips to help support your dietary transition instead of compromise it. Forget the hassle and complexity of typical cookbook offerings and enjoy 97 delicious, quick and easy carnivore-friendly recipes. Isn't it about time for you to become a lean, mean, athletic, smart, happy, tan cool dude? This book will help you get there, and have fun along the way.

It is no longer enough for scientists to communicate a scientific topic clearly. They must now be experts not only in their fields of study, but also in navigating the thoughts, feelings, and opinions of members of the public they engage with, and with each other. And the conversations are growing more fraught. In *Getting to the Heart of Science Communication*, Faith Kearns has penned a succinct guide for navigating the human relationships critical to the success of practice-based science. This meticulously researched volume takes science communication to the next level, helping scientists to see the value of listening as well as talking, understanding power dynamics in relationships, and addressing the roles of trauma, loss, grief, and healing.

Wait Till Next Year Doris Kearns Goodwin.2014-07-03 When historian Goodwin was six years old, her father taught her how to keep score for 'their' team, the Brooklyn Dodgers, which forged a lifelong bond between father and daughter. Set in the suburbs of New York in the 1950s, *Wait Till*

Next Year is a coming-of-age memoir in the era of Jackie Robinson, Pee Wee Reese and Duke Snider, when baseball truly was a national pastime that brought whole communities together. With her radio by her side and scorecard to hand, she recreates the postwar era, when the corner store was a place to share stories and neighborhoods were equally divided between Dodger, Giant, and Yankee fans. Weaved between the games and the seasons, Goodwin tells the story of a changing America - from the lunacy of the Cold War alarm drills to McCarthy and the Rosenberg trials - as well as her own loss of innocence encapsulated by her mother's death, her father's lapse into despair and the Dodger's departure from Brooklyn in 1957 following the destruction of the iconic Ebbets Field stadium. Poignant, unsentimental and deeply eloquent, Wait Till Next Year is a profound memoir about childhood and loss, baseball, and the power of sport to bind families and heal loss and reveal as metaphor the evolving heart of a nation.

Lyndon Johnson and the American Dream Doris Kearns Goodwin.2015-08-04 With a new foreword: The New York Times–bestselling biography of President Lyndon Johnson from the Pulitzer Prize-winning author of Team of Rivals. Featuring a 2018 foreword by the Pulitzer Prize-winning political historian that celebrates a reappraisal of Lyndon Johnson's legacy five decades after his presidency, from the vantage point of our current, profoundly altered political culture and climate, Doris Kearns Goodwin's extraordinary and insightful biography draws from meticulous research in addition to the author's time spent working at the White House from 1967 to 1969. After Johnson's term ended, Goodwin remained his confidante and assisted in the preparation of his memoir. In Lyndon Johnson and the American Dream, she traces the 36th president's life from childhood to his early days in politics, and from his leadership of the Senate to his presidency, analyzing his dramatic years in the White House, including both his historic domestic triumphs and his failures in Vietnam.

Drawing on personal anecdotes and candid conversation with Johnson, Goodwin paints a rich and complicated portrait of one of our nation's most compelling politicians in "the most penetrating, fascinating political biography I have ever read" (The New York Times).

Learning Through Play Christine Robinson,Tracy Treasure,Dee O'Connor,Gerardine Neylon,Cathie Harrison,Samantha Wynne.2018-04-10 Learning Through Play translates the theory of play into practice while seamlessly integrating the Australian Curriculum, government policy and current trends. It aims to create a shared understanding of play and play-based pedagogies that positively influence the everyday practices of educators and improve the learning experiences of children. The

book extensively covers the various contexts that children may engage with during the early years - the period from birth to age 8. Learning Through Play is structured to complement the Early Years Learning Framework and early childhood education studies. It begins by drawing on theories to discuss the centrality of play to children's development and learning, then delves into the practicalities and challenges of implementing these play-based approaches, and finally discusses the future of play in early childhood contexts. With several learning features that blend theory, context and practical skills, Learning Through Play will not only help pre-service teachers to understand play in principle and in practice, but also to advocate articulately for play-based approaches.
