A Scent of Champagne Richard Juhlin.2016-10-04 Champagne may be the most misunderstood category of wine in the world, as many labels of sparkling wines bear the name in error. True champagne comes only from the French province of Champagne and contains three specific grape varieties. But figuring out more about the wine can be confusing: what is the difference between cuvée de prestige, blanc de noirs, and rosé? What is the best kind of food to pair with champagne? How many different kinds of sweetness are there? What is the best method of storage? Richard Juhlin, the world's foremost champagne expert, answers these questions and more as he takes the reader on a journey to the geographical area of Champagne and through the history of the drink. He explains how to arrange tastings and develop one's sense of smell, and why the setting where you drink champagne is important, including personal anecdotes about his lifelong journey from PE teacher to connoisseur. Also included is a catalog section that describes and ranks different champagne houses, types, and vintages. Sit back and enjoy Juhlin's graceful prose with a lovely glass of champagne, the sparkling wine that has come to epitomize luxury and elegance. Food Composition Data H. Greenfield.2012-11-02 About twenty years ago, there was a recognition in Europe that real benefits would flow from coordinating the manner in which food composition tables were produced in the various countries of Europe. Subsequent development of computerised nutritional data bases has further highlighted the potential advantages of working together. Such cooperation could lead to improved quality and compatibility of the various European nutrient data bases and the values within them. This realisation was one of the driving forces behind the development of the Eurofoods initiative in the 1980's when those people in Europe interested in data on food composition began working together. This initiative received further impetus with the establishment of the Eurofoods-Enfant Concerted Action Project within the framework of the FLAIR (Food-Linked Agro-Industrial Research) Programme of the Commission of the European Communities. It was quickly recognised that the draft guidelines for the production, management and use of food composition data which had been prepared under the aegis of INFOODS (International Network of Food Data Systems, a project of the United Nations University), would be especially applicable to the objectives of the Concerted Action. The guidelines have been written by two recognised experts. Many people associated with FLAIR Eurofoods-Enfant have added constructive criticism and advice to that offered previously by those associated with INFOODS. Thus the guidelines are backed by a consensus in the community of those responsible for the production and use of food composition tables and nutrient data bases.

Rice as Self Emiko Ohnuki-Tierney.1994-11-14 Are we what we eat? What does food reveal about how we live and how we think of ourselves in relation to others? Why do people have a strong attachment to their own cuisine and an aversion to the foodways of others? In this engaging account of the crucial significance rice has for the Japanese, *Rice as Self* examines how people use the metaphor of a principal food in conceptualizing themselves in relation to other peoples. Emiko Ohnuki-Tierney traces the changing contours that the Japanese notion of the self has taken as different historical Others--whether Chinese or Westerner--have emerged, and shows how rice and rice paddies have served as the vehicle for this deliberation. Using Japan as an example, she proposes a new cross-cultural model for the interpretation of the self and other.

Curing & Smoking Steven Lamb.2018-02-22 In the thirteenth River Cottage Handbook, Steven Lamb shows how to cure and smoke your own meat, fish and cheese. Curing and smoking your own food is a bit of a lost art in Britain these days. While our European neighbours have continued to use these methods on their meat, fish and cheese for centuries, we seem to have lost the habit. But with the right guidance, anyone can preserve fresh produce, whether living on a country farm or in an urban flat - it doesn't have to take up a huge amount of space. The River Cottage ethos is all about knowing the whole story behind what you put on the table; and as Steven Lamb explains in this thorough, accessible guide, it's easy to take good-quality ingredients and turn them into something sensational. *Curing & Smoking* begins with a detailed breakdown of any kit you might need (from sharp knives to sausage stuffers, for the gadget-loving cook) and an explanation of the preservation process - this includes a section showing which products and cuts are most suitable for different methods of curing and smoking. The second part of the book is organised by preservation method, with an introduction to each one, and comprehensive guidance on how to do it. And for each method, there are, of course, many delicious recipes! These include chorizo Scotch eggs, salt beef, hot smoked mackerel, home-made gravadlax ... and your own dry-cured streaky bacon sizzling in the breakfast frying-pan. With an introduction by Hugh Fearnley-Whittingstall and full-colour photographs as well as illustrations, this book is the go-to guide for anyone who wants to smoke, brine or air-dry their way to a happier kitchen.

Petticoats and Prejudice - Women's Press Classics Constance Backhouse.2015-02-01 Drawing on historical records of women's varying experiences as litigants, accused criminals, or witnesses, this book offers critical insight into women's legal status in nineteenth-century Canada. In an effort to recover the social and political conditions under which women lobbied, rebelled, and in some cases influenced change, *Petticoats and Prejudice* weaves together forgotten stories of achievement and defeat in the Canadian legal system. Expanding the concept of "heroism" beyond its traditional limitations, this text gives life to some of Canada's lost heroines. Euphemia Rabbitt, who resisted an attempted rape, and Clara Brett Martin, who valiantly secured entry into the all-male legal profession, were admired by their contemporaries for their successful pursuits of justice. But Ellen Rogers, a prostitute who believed all women should be legally protected against sexual assault, and Nellie Armstrong, a battered wife and mother who sought child custody, were ostracized for their ideas and demands. Well aware of the limitations placed upon women advocating for reform in a patriarchal legal system, Constance Backhouse recreates vivid and textured snapshots of these and other women's courageous struggles against gender discrimination and oppression. Employing social history to illuminate the reproductive, sexual, racial, and occupational inequalities that continue to shape women's encounters with the law, *Petticoats and Prejudice* is an essential entry point into the gendered treatment of feminized bodies in Canadian legal institutions. This book was co-published with The Osgoode Society for Canadian Legal History.

Encyclopedia of Ephemera Michael Twyman.2018-10-24 The joy of finding an old box in the attic filled with postcards, invitations, theater programs, laundry lists, and pay stubs is discovering the stories hidden within them. The paper trails of our lives -- or ephemera -- may hold sentimental value, reminding us of great grandparents. They chronicle social history. They can be valuable as collectibles or antiques. But the greatest pleasure is that these ordinary documents can reconstruct with uncanny immediacy the drama of day-to-day life. The Encyclopedia of Ephemera is the first work of its kind, providing an unparalleled sourcebook with over 400 entries that cover all aspects of everyday documents and artifacts, from bookmarks to birth certificates to lighthouse dues papers. Continuing a tradition that started in the Victorian era, when disposable paper items such as trade cards, die-cuts and greeting cards were accumulated to paste into scrap books, expert Maurice Rickards has compiled an enormous range of paper collectibles from the obscure to the commonplace. His artifacts come from around the world and include such throw-away items as cigarette packs and crate labels as well as the ubiquitous faxes, parking tickets, and phone cards of daily life. As this major new reference shows, simple slips of paper can speak volumes about status, taste, customs, and taboos, revealing the very roots of popular culture.

Cafe Royal Cocktail Book Frederick Carter, Jared McDaniel Brown, Tarling W. J..2008-05-01 Originally published in 1937 by the United Kingdom Bartenders Guild, Cafe Royal Cocktail Book compiled by William J Tarling offers a rare glimpse into the wide array of drinks offered in London bars between the two world wars. Tarling, head bartender at the Cafe Royal during had two goals. He wanted to extend this resource to consumers. He also wanted to raise funds for the United Kingdom Bartenders Guild Sickness Fund and the Cafe Royal Sports Club Fund. Thus, he drew from the recipes previously compiled for Approved Cocktails, and added more of his own. He also collected many more original recipes from his contemporaries. The result was an outstanding and timely book. It did more than gather recipes, it captured a boom time in the history of cocktails, glass by glass. Sadly, there was only one printing and it became an unobtainable rarity, locking away a time capsule of drinks and knowledge. Reproduced in collaboration with the UKBG, Exposition Universelle des Vins et Spiritueux, and Mixellany Limited, this facsimile edition unlocks that knowledge for a new generation of consumers and bartenders around the world. Within these pages are some of the earliest known recipes for drinks made with tequila and vodka as well as memorable concoctions made with absinthe and other recently revived ingredients-an essential addition to every cocktail book library.

The Rejection of Consequentialism Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical

deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Healing the Land and the Nation Sandra M. Sufian.2008-11-15 A novel inquiry into the sociopolitical dimensions of public medicine, *Healing the Land and the Nation* traces the relationships between disease, hygiene, politics, geography, and nationalism in British Mandatory Palestine between the world wars. Taking up the case of malaria control in Jewish-held lands, Sandra Sufian illustrates how efforts to thwart the disease were intimately tied to the project of Zionist nation-building, especially the movement's efforts to repurpose and improve its lands. The project of eradicating malaria also took on a metaphorical dimension—erasing anti-Semitic stereotypes of the “parasitic” Diaspora Jew and creating strong, healthy Jews in Palestine. Sufian shows that, in reclaiming the land and the health of its people in Palestine, Zionists expressed key ideological and political elements of their nation-building project. Taking its title from a Jewish public health mantra, *Healing the Land and the Nation* situates antimalarial medicine and politics within larger colonial histories. By analyzing the science alongside the politics of Jewish settlement, Sufian addresses contested questions of social organization and the effects of land reclamation upon the indigenous Palestinian population in a decidedly innovative way. The book will be of great interest to scholars of the Middle East, Jewish studies, and environmental history, as well as to those studying colonialism, nationalism, and public health and medicine.

The Sakoku Edicts and the Politics of Tokugawa Hegemony Michael S. Laver.2011-01 In the major literature on early modern Japan, the sakoku (closed country) edicts lurk in the background, and while scholars are generally aware of the major tenets of the policy, for example, the inability of Japanese to travel abroad or the clampdown on Christianity, the specifics of the edicts have yet to be studied in detail despite its potential to reveal much about this era of Japan's history. This work seeks to clarify the seventeen-article sakoku edicts of 1635 as well as to situate the edicts in the general foreign policy of seventeenth-century Edo Japan. This book will also examine a number of other policies that evolved in the first half of the seventeenth century to complete what is commonly (and somewhat erroneously) referred to as the closed-country period. A great number of works on European and Chinese interactions with Japan have appeared over the past few decades, and most of them have done a fine job of dispensing with the myth that Japan was somehow hermetically sealed from the outside world. Scholars are aware that the Dutch played a large role in keeping the shogun informed about affairs in Europe, and that the Chinese were coming to Japan in ever greater numbers. They are also aware of the relationship between Japan and Korea. However, the fact remains that the Tokugawa did take pains to regulate the interactions of Europeans with Japan, and these measures are generally found in the various edicts passed by the bakufu in the first half of the seventeenth century. This book translates and illuminates the specific machinery of Japan's foreign relations, especially as it pertained to European trade and Christianity. In so doing, this study will situate the edicts—which are largely taken for granted, even though little has been studied—in Japan's early modern history. There are two insights this book presents. First of all, the study will demonstrate that the sakoku edicts were not a monolithic piece of legislation, but rather they evolved over time. The edicts against Christianity, the expulsion of the Spanish and the Portuguese, and the establishment of the machinery to regulate foreign trade were all responses to historical stimuli, and as such evolved in response to Japan's interactions with Europe and European trade and ideas. Second, this work will show that, ironically, the Tokugawa control of Japan's foreign policy was meant to strengthen its domestic control, especially vis-a-vis the powerful daimyo of western Japan, who traditionally profited with relations with the West. Therefore, there is much more to the sakoku edicts than simply the regulation of Japan's relations with foreigners. This book will appeal to the wider academic community working on pre-modern and early modern Japan. It will also be of value to those whose work involves the expansion of Europe into Asia, as well as European-Asian interactions. Written in a highly accessible style, this book will be of interest to even the casual reader of Japanese history.

The World Atlas of Wine 8th Edition Hugh Johnson, Jancis Robinson.2019-10-01 The most useful single volume on wine ever published... If I owned only one wine book, it would be this one. - Andrew Jefford, *Decanter* Few wine books can be called classic, but the first edition of *The World Atlas of Wine* made publishing history when it appeared in 1971. It is recognized by critics as the essential and most authoritative wine reference work available. This eighth edition will bring readers, both old and new, up to date with the world of wine. To reflect all the changes in the global wine scene over the past six years, the Atlas has grown in size to 416 pages and 22 new maps have been added to the wealth of superb cartography in the book. The text has been given a complete overhaul to address the topics of most vital interest to today's wine-growers and drinkers. With beautiful photography throughout, Hugh Johnson and Jancis Robinson, the world's most respected wine-writing duo, have once again joined forces to create a classic that no wine lover can afford to be without. *The World Atlas of Wine* is the single most important reference book on the shelf of any wine student. - Eric Asimov, *New York Times* Like a good bottle of wine, you'll find yourself going back to it again and again... Perfect for anyone who has a thirst for greater wine knowledge. - Edward Deitch, *NBC/today.com* *The World Atlas of Wine* belongs on your shelf... The essential rootstock of any true wine lover's library. A multi-layered snapshot of wine and how it has evolved. - Dave McIntyre, *Washington Post*
