Innovation, Between Science and Science Fiction Thomas Michaud.2017-07-17 Fantasy and science fiction are both involved in the process of innovation in techno-scientific societies. Long regarded as a hindrance to rationality, and to science, science fiction has become the object of praise in recent decades. Innovative organizations use science fiction to stimulate the creativity of their teams, and more and more entrepreneurs are using its influence to develop innovation. Scientific practice relies in part on an imaginary dimension. The mapping of the technical imagination of science fiction has become an important strategic issue, as has its patentability. The conquest of space, the construction of cyberspace and virtual reality, biotechnologies and nanotechnologies are all at the center of futuristic fictions that participate in scientific speeches and discoveries.

The Screenwriter's Roadmap Neil Landau.2013-05-07 Finally, a GPS system for screenwriters! The potentially long and arduous journey of writing a screenplay was just made easier to navigate with The Screenwriter's Roadmap. Avoid the wrong turns, dead ends, gaping p(l)otholes, and other obstacles that result in frustration, wasted time, and wasted energy. The Screenwriter's Roadmap keeps you on track and helps you reach your destination- a finished, professional quality screenplay. Neil Landau, a successful Hollywood screenwriter and script doctor with over 2 decades of experience, provides you with 21 Guideposts, that if implemented, will help you nail down your screenplay's story structure, deepen its character arcs, bolster stakes, heighten suspense, and diagnose and repair its potential weaknesses. These Guideposts are based on field-tested, in-the-trenches experiences that have been proven to work. The Guideposts are augmented by interactive exercises, end of chapter homework assignments, examples from the latest blockbusters, as well as over 20 interviews with some of Hollywood's most successful screenwriters and directors, including David S. Goyer (Batman Begins, The Dark Knight, The Dark Knight Rises, Man of Steel), David Koepp (Jurassic Park, Mission: Impossible, Spider-Man, Panic Room, War of the Worlds, Angels & Demons), Melissa Rosenberg (The Twilight Saga: Twilight, The Twilight Saga: New Moon, The Twilight Saga: Eclipse, The Twilight Saga: Breaking Dawn - Part 1, The Twilight Saga: Breaking Dawn - Part 2, Dexter (TV)), and Eric Roth (Forrest Gump, The Insider, Munich, The Good Shepherd, The Curious Case of Benjamin Button, Extremely Loud and Incredibly Close). .

Archaeological Investigations on Guadeloupe, French West Indies Martijn van den Bel.2021 Comprising 20 scientific contributions to the archaeology of Guadeloupe, French West Indies (FWI), this volume places the latter Caribbean Island in the spotlight by presenting the results of four contemporaneous archaeological sites. By means of these four sites, this book explores a variety of issues contemplating the transition from the Early to the Late Ceramic Age in the Lesser Antilles. Studies of pre-Columbian material culture (ceramics, lithics, faunal, shell and human bone remains) are combined with additional microanalyses (starch and phytolith analyses, micromorphology and thin sections) to sort out the processes that triggered the cultural transition just before the end of the first millennium AD. The multi-disciplinary approach to address these sites Saladoid shows the current state of affairs on project-led archaeology in the French West Indies and should be of great value to both researchers and students of Caribbean archaeology, material cultures, zooarchaeology, environmental studies, historical ecology and other related fields--

The Cambridge History of Travel Writing Nandini Das,Tim Youngs.2019-01-24 Bringing together original contributions from scholars across the world, this volume traces the history of travel writing from antiquity to the Internet age. It examines travel texts of several national or linguistic traditions, introducing readers to the global contexts of the genre. From wilderness to the urban, from Nigeria to the polar regions, from mountains to rivers and the desert, this book explores some of the key places and physical features represented in travel writing. Chapters also consider the employment in travel writing of the diary, the letter, visual images, maps and poetry, as well as the relationship of travel writing to fiction, science, translation and tourism. Gender-based and ecocritical approaches are among those surveyed. Together, the thirty-seven chapters here underline the richness and complexity of this genre.

Perspectives on Travel Writing Glenn Hooper.2017-05-15 Ranging from the early modern to the postcolonial, and dealing mainly with encounters in Europe, the Americas and the Middle East, Perspectives on Travel Writing is a collection of new essays by international scholars that examines some of the various contexts of travel writing, as well as its generic characteristics. Contributions examine the similarities between autobiography and memoir, fiction, and travel writing, and attempt to define travel writing as a genre. Utilising a variety of approaches, the essays display a shared concern with what travel writing does and how it does it. The effects of encounter and border-crossing on gender, 'race', and national identity are considered throughout. The collection begins with a review of some of the problems and issues facing the scholar of travel writing and moves on to a detailed discussion of the qualities of travel writing and its related forms. It then presents in chronological order a number of case studies, before closing with a critical discussion of approaches to the subject. An essay collection with broad historical and geographical coverage, this volume should appeal to students and researchers of travel and travel-related literatures from across the Humanities.

Geographies of Disability Brendan Gleeson.2002-09-11 This book explains how space, place and mobility have shaped the experiences of disabled people both in the past and in contemporary societies. The key features of this insightful study include: * a critical appraisal of theories of disability and a new disability model * case studies to explore how the transition to capitalism disadvantaged disabled people * an exploration of the Western city and the policies of community care and accessibility regulation. Brendan Gleeson presents an important contribution to the major policy debates on disability in Western societies and offers new considerations for the broader debates on embodiment and space within Geography.

Creoles in Education Bettina Migge,Isabelle Léglise,Angela Bartens.2010 This volume offers a first survey of projects from around the world that seek to implement Creole languages in education. In contrast to previous works, this volume takes a holistic approach. Chapters discuss the sociolinguistic, educational and ideological context of projects, policy developments and project implementation, development and evaluation. It compares different kinds of educational activities focusing on Creoles and discusses a list of procedures that are necessary for successfully developing, evaluating and reforming educational activities that aim to integrate Creole languages in a viable and sustainable manner into formal education. The chapters are written by practitioners and academics involved in educational projects. They serve as a resource for practitioners, academics and persons wishing to devise or adapt educational initiatives. It is suitable for use in upper level undergraduate and post-graduate modules dealing with language and education with a focus on lesser used languages.

International Health Regulations (2005) World Health Organization.2008-12-15 In response to the call of the 48th World Health Assembly for a substantial revision of the International Health Regulations, this new edition of the Regulations will enter into force on June 15, 2007. The purpose and scope of the Regulations are to prevent, protect against, control and provide a public health response to the international spread of disease in ways that are commensurate with and restricted to public health risks, and which avoid unnecessary interference with international traffic and trade. The Regulations also cover certificates applicable to international travel and transport, and requirements for international ports, airports and ground crossings.

Tourism, Creativity and Development Greg Richards,Julie Wilson.2007-11-07 Destinations across the world are beginning to replace or supplement culture-led development strategies with creative development. This book critically analyzes the impact and effectiveness of creative strategies in tourism development and charts the emergence of 'creative tourism'. Why has 'creativity' become such an important aspect of development strategies and of tourism development in particular? Why is this happening now, apparently simultaneously, in so many destinations across the globe? What is the difference between cultural tourism and creative tourism? These are among the important questions this book answers. It critically examines the developing relationship between tourism and creativity, the articulation of the 'creative turn' in tourism, and the impact this has on theoretical perspectives and practical approaches to tourism development. A wide range of examples from Europe, North America, Asia, Australia and Africa explore the interface between tourism and creativity including: creative spaces and places such as cultural and creative clusters and ethnic precincts; the role of the creative industries and entrepreneurs in the creation of experiences; creativity and rural areas; the 'creative class' and tourism; lifestyle, creativity and tourism and marketing creative tourism destinations. The relationship between individual and collective forms of creativity and the widely differing forms of modern tourism are also discussed. In the concluding section of the book the contribution of creativity to tourism and to development strategies in general is assessed, and areas for future research are outlined. The diverse multidisciplinary contributions link theory and practice, and demonstrate the strengths and weaknesses of creativity as a tourism development strategy and marketing tool. It is the first exploration of the relationship between tourism and creativity and its consequences for tourism development in different parts of the world.

The Cat in Art Stefano Zuffi. 2007-04 Almost from the beginning of art, humans have portrayed cats. The animal originally domesticated for the humble purpose of catching mice was already a goddess in ancient Egypt and a beloved household pet in ancient Rome. Throughout history, cats have been a beautiful vessel for symbolic meanings, ranging from dark unruly sensuality to perfect domestic tranquillity. In this book, cats inhabit 170 art masterpieces. Sometimes they are the stars of the work and sometimes they are working their magic from the corners of rooms (in which case both the whole work and a detail showing the cat are both illustrated). Here are paintings by Van Eyck, Raphael, Leonardo, Bruegel, Rembrandt, Chardin, Gainsborough, Manet, Renoir, Bonnard, Gauguin, Matisse, Balthus, Picasso, Warhol and many other famous artists. Stefano Zuffi's charming text tells us what it all means. The cats, meanwhile, are beautiful, seductive and mysterious.

Maigret and the Madwoman Georges Simenon. 1979 Simenon created one of the great moral detectives . . . a master of the slow unfolding of the criminal mind. JOHN MORTIMER Someone is moving a kind old woman's furniture while she is away, but by the time Maigret investigates, she is dead. A kind, elderly lady-meticulously groomed and showing no signs of derangement-appeals to Inspector Maigret, frightened because someone has been moving furniture in her apartment. Nothing, however, has been stolen, and Maigret's subordinates at Police Headquarters shrug her off as Maigret's madwoman. Touched by the imploring look in her eyes, Maigret promises to investigate-but someone gets there ahead of him. Simenon is . . . in a class by himself. THENEW YORKER Georges Simenon (1903-1989) was born in Liege, Belgium. He published his first novel at seventeen and went on to write more than two hundred novels, becoming one of the world's most prolific and bestselling authors. His books have sold more than 500 million copies and have been translated into fifty languages. Maigret is a registered trademark of the Estate of Georges Simenon

Digital Art through the Looking Glass Oliver Grau (Hg.). 2019-12-11 Digital art challenges archiving, collecting and preserving methods within and outside of gallery, library, archive and museum (GLAM) institutions. By its media, art in the digital sphere is processual, contextual, modular and ephemeral, and its creative process is collaborative. From artists, scholars, technicians and conservators—to preserve this contemporary art is a transdisciplinary task. This book brings together leading international experts from digital art theory and preservation, digital humanities, collection management, conservation and media art histories. In a transdisciplinary approach, theoretic and practice-based research from these stakeholders in art, research, education and exhibition are presented to create an overview of present preservation methods and discuss demands and opportunities for the future. Finally, the need for a new appropriate museum and archive infrastructure is shown to preserve the art of our time.

Louis XV Journal (Diary, Notebook) Peter Pauper Press. 2013-07 160 lined pages. 6 1/4 wide x 8 1/4 high. Hardcover. Acid-free, archival paper. Gilded curlicues twine across this journal's cover, which is modeled after the binding of a devotional work from King Louis XV's opulent reign. Antoine-Michel Padeloup, bookbinder to the French monarch himself, may have had a hand in the original's creation. Its design marries the playful exuberance of rococo fashion with the elegant symmetry of baroque styling. Protective magnetic foldover hardcover.

The Ethics of Animal Labor Jocelyne Porcher. 2017-02-15 This book argues for a moral consideration of animal work relations. Paying special attention to the livestock industry, the author challenges the zootechnical denigration of animals for increased productivity awhile championing the collaborative nature of work. For Porcher, work is not merely a means to production but a means of living together unity. This unique reconsideration of work envisions animals as co-laborers with humans, rather than overwrought tools for exploitative, and often lethal, employment. Readers will learn about the disjunction between those focused on productivity and profit and those who favor a more ethical work environment for animals. Porcher's text also engages environmental and political debates concerning animal-human relations.

French Gastronomy Jean-Robert Pitte. 2002-03-27 This we can be sure of: when a restaurant in the western world is famous for its cooking, it is the tricolor flag that hangs above the stove, opined one French magazine, and this is by no means an isolated example of such crowing. Indeed, both linguistically and conceptually, the restaurant itself is a French creation. Why are the French recognized by themselves and others the world over as the most enlightened of eaters, as the great gourmets? Why did the passion for food—gastronomy—originate in France? In *French Gastronomy*, geographer and food lover Jean-Robert Pitte uncovers a novel answer. The key, it turns out, is France herself. In her climate, diversity of soils, abundant resources, and varied topography lie the roots of France's food fame. Pitte masterfully reveals the ways in which cultural phenomena surrounding food and eating in France relate to space and place. He points out that France has some six hundred regions, or microclimates, that allow different agricultures, to flourish, and fully navigable river systems leading from peripheral farmlands directly to markets in the great gastronomic centers of Paris and Lyon. With an eye to this landscape, Pitte wonders: Would the great French burgundies enjoy such prestige if the coast they came from were not situated close to the ancient capital for the dukes and a major travel route for medieval Europe? Yet for all the shaping influence of earth and climate, Pitte demonstrates that haute cuisine, like so much that is great about France, can be traced back to the court of Louis XIV. It was the Sun King's regal gourmandise—he enacted a nightly theater of eating, dining alone but in full view of the court—that made food and fine dining a central affair of state. The Catholic Church figures prominently as well: gluttony was regarded as a benign sin in France, and eating well was associated with praising God, fraternal conviviality, and a respect for the body. These cultural ingredients, in combination with the bounties of the land, contributed to the full flowering of French foodways. This is a time of paradox for French gourmandism. Never has there been so much literature published on the subject of culinary creativity, never has there been so much talk about good food, and never has so little cooking been done at home. Each day new fast-food places open. Will French cuisine lose its charm and its soul? Will discourse become a substitute for reality? *French Gastronomy* is a delightful celebration of what makes France unique, and a call to everyone who loves French food to rediscover

its full flavor.
