Faletto Latinoamericano Enzo Faletto Verné.2016 En este libro hemos querido recopilar un conjunto de artículos y ensayos publicados por Enzo Faletto en diferentes revistas, conferencias, libros y documentos de trabajo, muchos de los cuales fueron en coautoría con otros académicos. En todos ellos el motivo central de sus reflexiones es América Latina, la que fue una de las principales preocupaciones de Faletto y motivo de constante estudio y análisis. Enzo Faletto es un clásico que puede presentarse sin ninguna duda como el más importante sociólogo chileno, pero no se puede olvidar nunca que es un historiador. Al menos él no lo olvidó nunca, de manera que su sociología tiene esa orientación histórica concreta que lo aleja de la artificiosa construcción de modelos abstractos. Explícitamente en el libro Dependencia y desarrollo en América Latina se señala con énfasis que no se trata de elaborar una teoría abstracta, sino de comprender el proceso histórico de desarrollo del capitalismo que se daba en la región. Tanto él como Cardoso van a objetar en repetidas oportunidades que se hable de una Teoría de la dependencia para referirse a ese trabajo.

20 Herramientas para hacer arquitectura Artemio Quintino Zepeda.2021-01-20 Partamos de una de las tesis más célebres del filósofo Immanuel Kant, la que dice: nadie puede hacerse pasar por prácticamente versado en alguna ciencia, si desprecia la teoría. En ese caso, ocurre simplemente que quien la desdeña ignora su profesión. Sobre todo si cree poder llegar más lejos, que lo que le permitiría la teoría, mediante ensayos y experimentos hechos a tuestas. Sin embargo, debemos tolerar que un diseñador considere en su presunta práctica que la teoría es inútil y superflua. Que lo que se puede oír con agrado en la teoría carece de toda validez para lo práctico. Ciertamente que cuando la teoría se queda en meras ideas, esos vulgares proverbios son justos. Lo cierto es que el diseño se oscurece si cree que únicamente con los ojos puestos en una minuciosa metodología de investigación se puede ver más y con mayor precisión que con los ojos puestos en nuestra herencia teórica. Por tal razón se hace necesario que los maestros que enseñamos práctica y teoría del diseño, estemos vinculados por los mismos principios teóricos. En tal sentido, este libro presenta 20 herramientas de diseño con la intención de ser una alternativa para abatir tal deficiencia.

Arquitectura Marvin Trachtenberg, Isabelle Hyman.1990-11-23 La arquitectura es a la vez un arte estructural, práctico y visual. Sin solidez, es peligrosa. sin utilidad, es meramente una escultura a gran escala, y sin belleza no es más que una construcción utilitaria. Al contemplar la historia de la arquitectura en términos generales como una serie de innovaciones dinámicas, los profesores Trachtenberg y Hyman toman en consideración las causas de los cambios producidos en la construcción y el gusto, dónde se han originado las influencias, cuales han sido sus efectos y cómo los avances tecnológicos -el ascensor, el hierro, el acero y el cristal- han moldeado nuestro entorno. Empezando la historia con las primitivas estructuras prehistóricas, se sigue el hilo de la invención arquitectónica a través de nueve mil años de civilización. Un glosario de términos arquitectónicos, una extensa bibliografía y un detallado índice onomástico, conceptual y temático, cierran y completan este libro. Las abundantes fotografías de exteriores, interiores y detalles y las numerosas plantas y dibujos ayudan eficazmente a la comprensión y disfrute del lector de un tema complejo.

Empire Michael Hardt, Antonio Negri.2001-09-15 Imperialism as we knew it may be no more, but Empire is alive and well. It is, as Michael Hardt and

Antonio Negri demonstrate in this bold work, the new political order of globalization. Their book shows how this emerging Empire is fundamentally different from the imperialism of European dominance and capitalist expansion in previous eras. Rather, today's Empire draws on elements of U.S. constitutionalism, with its tradition of hybrid identities and expanding frontiers. More than analysis, Empire is also an unabashedly utopian work of political philosophy.

Postmodernism, or, The Cultural Logic of Late Capitalism Fredric Jameson.1992-01-06 Now in paperback, Fredric Jameson's most wide-ranging work seeks to crystalize a definition of "postmodernism". Jameson's inquiry looks at the postmodern across a wide landscape, from "high" art to "low" from market ideology to architecture, from painting to "punk" film, from video art to literature.

Philosophy of Liberation Enrique Dussel.2003-12-02 Argentinean philosopher, theologian, and historian Enrique Dussel understands the present international order as divided into the culture of the center -- by which he means the ruling elite of Europe, North America, and Russia -- and the peoples of the periphery -- by which he means the populations of Latin America, Africa, and part of Asia, and the oppressed classes (including women and children) throughout the world. In 'Philosophy of Liberation,' he presents a profound analysis of the alienation of peripheral peoples resulting from the imperialism of the center for more than five centuries. Dussel's aim is to demonstrate that the center's historic cultural, military, and economic domination of poor countries is 'philosophically' founded on North Atlantic ontology. By expressing supposedly universal knowledge, European philosophies, argues Dussel, have served to equate the cultural standards, modes of behavior, and rationalistic orientation of the West with human nature and to condemn the unique characteristics of peripheral peoples as nonbeing, nothing, chaos, irrationality. Hence, Western philosophies have historically legitimated and hidden the domination that oppressed cultures have suffered at the hands of the center. Dussel probes multinational corporations, the communications media, and the armies of the center with their counterparts among the Third World elite. The creation of a just world order in the future, according to Dussel, hinges on the liberation of the periphery, based on a philosophy that is able to think the world from the perspective of the poor and to reclaim the Third World's distinct cultural inheritance, which is imbedded in the popular cultures of the poor. Apart from the liberation of the periphery, there will be no future: the center will feed itself on the sameness it has ingrained within itself. The death of the child, of the poor, will be its own death. This is a disquieting but stimulating book for scholars and advanced students of philosophy, ethics, liberation theology, and global politics.

Postmodern Culture Hal Foster.1985 In all the arts a war is being waged between modernists and postmodernists. Radicals have tended to side with the modernists against the forces of conservatism. Postmodern Culture is a break with this tendency. Its contributors propose a postmodernism of resistance - an aesthetic that rejects hierarchy and celebrates diversity. Ranging from architecture, sculpture and painting to music, photography and film, this collection is now recognised as a seminal text on the postmodernism debate.The essays are by Hal Foster, Jürgen Habermas, Kenneth Frampton, Rosalind Krauss, Douglas Crimp, Craig Owens, Gregory L. Ulmer, Fredric Jameson, Jean Baudrillard, and Edward W. Said.

A Little House Fondation Le Corbusier.2020-03-09 Villa le Lac, which was designated a World Heritage in 2016, was designed and built by Le Corbusier as Geneva lakeside home for his parents in 1925. Because of its spare arrangement of spaces, he referred to it as a “dwelling machine.” Even today it remains the modern prototype of the “small house” that fulfills all of the functions of a residence with a minimum of floor area and seamless transitions between spaces. For the first time, this book is appearing in three separate language editions, following the original edition in which Le Corbusier documented the history of the building: with photographs, sketches and a poetic text. Access to the original photographs allowed the quality of the illustrations in this edition to be improved significantly.

The Historiography of Modern Architecture Panayotis Tournikiotis.2001-02-27 The history of modern architecture as constructed by historians and key texts. Writing, according to Panayotis Tournikiotis, has always exerted a powerful influence on architecture. Indeed, the study of modern architecture cannot be separated from a fascination with the texts that have tried to explain the idea of a new architecture in a new society. During the last forty years, the question of the relationship of architecture to its history—of buildings to books—has been one of the most important themes in debates about the course of modern architecture. Tournikiotis argues that the history of modern architecture tends to be written from the present, projecting back onto the past our current concerns, so that the beginning of the story really functions as a representation of its end. In this book the buildings are the quotations, while the texts are the structure. Tournikiotis focuses on a group of books by major historians of the twentieth century: Nikolaus Pevsner, Emil Kaufmann, Sigfried Giedion, Bruno Zevi, Leonardo Benevolo, Henry-Russell Hitchcock, Reyner Banham, Peter Collins, and Manfredo Tafuri. In examining these writers' thoughts, he draws on concepts from critical theory, relating architecture to broader historical models.

Diseño y delito Hal Foster.2004-12-15 «Hoy día uno no necesita ser asquerosamente rico para proyectarse no sólo como diseñador sino como diseñado, sea el producto en cuestión la casa de uno o su negocio, sus mejillas caídas (cirugía estética) o su personalidad retraída (drogas de diseño), su memoria histórica (museos de diseño) o su futuro ADN (niños de diseño). ¿Podría ser este «sujeto diseñado» el resultado no deseado del tan cacareado «sujeto construido» de la cultura posmoderna? Una cosa parece clara: en el preciso momento en que se pensaba que el lazo consumista no podía estrecharse más en su lógica narcisista, lo hizo: el diseño es cómplice de un circuito casi perfecto de producción y consumo, sin mucho ?margen de maniobra? para nada más.» Del marketing cultural a las relaciones históricas entre el arte contemporáneo y el museo moderno, pasando por la arquitectura espectáculo, el auge de las ciudades globales o las vicisitudes conceptuales de la historia del arte y los estudios visuales, «Diseño y delito» ofrece, con su estilo polémico, una serie de reflexiones que permitan iluminar las condiciones de la cultura crítica en nuestros días.

Postmodernity David Lyon.1999 ...written with enthusiasm and a commitment to clarity...Lyon shows that the employment of a sociological imagination can add new and unexpected depth to cultural analyses. Keith Tester, University of Portsmouth * What does 'postmodernity' mean? How does it help us grasp the meaning of 'modernity'? Is it better than similar terms such as 'high', 'late', 'reflexive' or 'radicalized' modernity? * What are the enduring social consequences of the widespread diffusion of communication and information technologies and of consumer-oriented lifestyles? * Does being postmodern mean that 'anything goes', or are values and beliefs still socially significant? In the second edition of this highly successful text, postmodernity is seen as the social condition of the twenty-first century, in which some of the most familiar features of the modern world are not only called into question, but actually undermined by novel trends. The key carriers of the postmodern - new technologies and consumerism - emerged in thoroughly modern contexts, but so profoundly affect everyday social life that modernity itself is changing shape. Postmodernity is a way of describing a new society in-the-making without supposing that modernity has been entirely left behind. While some dub these changes as 'high' or 'late' modern, this book argues that 'postmodernity' best captures today's transformations of modernity. Postmodernity is explored as a theoretical concept in order to uncover and illuminate central social trends of the present. Its historical roots and cultural dimensions are examined, as are the ideas of its leading theorists. In this updated and expanded edition, greater attention is paid to processes of globalization as well as to the postmodern view of cyberspace, cyborgs, and the body as a site of moral conflict.

Terra 2008 Leslie Rainer,Angelyn Bass Rivera,David Gandreau.2011-06-14 Earthen architecture constitutes one of the most diverse forms of cultural heritage and one of the most challenging to preserve. It dates from all periods and is found on all continents but is particularly prevalent in Africa, where it has been a building tradition for centuries. Sites range from ancestral cities in Mali to the palaces of Abomey in Benin, from monuments and mosques in Iran and Buddhist temples on the Silk Road to Spanish missions in California. This volume's sixty-four papers address such themes as earthen architecture in Mali, the conservation of living sites, local knowledge systems and intangible aspects, seismic and other natural forces, the conservation and management of archaeological sites, research advances, and training.

Las aventuras de la vanguardia Juan José Sebrelli.2011-06-01 Sebrelli descubre el acceso a uno de los relatos más apasionados de la actualidad: la historia de los movimientos y las vanguardias artísticas del siglo XX. Su incursión no solo invita a transitar las distintas tendencias sino a pensar acerca de las conductas y los acontecimientos que las hicieron posibles. Entre el logro técnico y la impostura exhibicionista, entre la conformidad crítica y el prestigio clandestino, entre la operación solitaria y la megalomanía, Sebrelli advierte los síntomas de malestar en la cultura, los matices de hastío de quienes determinan el valor de la obra de arte -museos, mecenas y otras instituciones- y los reclamos de orden y jerarquías que precipitan el relevo, las continuidades y rupturas. Con su agudeza acostumbrada, hace desfilar ante nuestros ojos diversas manifestaciones de acatamiento ante el totalitarismo estatal y la dictadura de mercado. Los puntos de vista del autor de «El asedio a la modernidad» y «El vacilar de las cosas» nos persuaden por su atrevimiento y su riqueza intelectual tanto cuando adopta una posición firmemente argumentativa como cuando sostiene hipótesis

riesgosas. El estilo de Sebrelí es ya una de las definiciones más certeras e imprevisibles de nuestra época.

Transforming Modernity Néstor García Canclini. 2010-06-28 Is popular culture merely a process of creating, marketing, and consuming a final product, or is it an expression of the artist's surroundings and an attempt to alter them? Noted Argentine/Mexican anthropologist Néstor García Canclini addresses these questions and more in *Transforming Modernity*, a translation of *Las culturas populares en el capitalismo*. Based on fieldwork among the Purépecha of Michoacán, Mexico, some of the most talented artisans of the New World, the book is not so much a work of ethnography as of philosophy—a cultural critique of modernism. García Canclini delineates three interpretations of popular culture: spontaneous creation, which posits that artistic expression is the realization of beauty and knowledge; memory for sale, which holds that original products are created for sale in the imposed capitalist system; and the tourist outlook, whereby collectibles are created to justify development and to provide insight into what capitalism has achieved. *Transforming Modernity* argues strongly for popular culture as an instrument of understanding, reproducing, and transforming the social system in order to elaborate and construct class hegemony and to reflect the unequal appropriation and distribution of cultural capital. With its wide scope, this book should appeal to readers within and well beyond anthropology—those interested in cultural theory, social thought, and Mesoamerican culture.

La poesía de José Hierro Jesús Barrajón. 1999 En este trabajo sobre la poesía de José Hierro (Madrid, 1922) se estudia la lírica de este autor como exponente del proceso de transformación que la conduce de la modernidad a eso que, en espera de mejor nombre, llamamos posmodernidad. El autor entiende que el irracionalismo poético propio de aquella marca la escritura poética de sus tres primeros libros (*Tierra sin nosotros*, *Alegría*, *Con las piedras*, *con el viento*). A partir de *Quinta del 42*, pero, sobre todo, desde *Cuanto sé de mí* y *Libro de las alucinaciones*, Hierro se encaminará hacia una lírica que -manteniendo como centro los mismos asuntos: la temporalidad, la confusión existencial, la nostalgia, el fracaso- replantea su propio sentido y función. La reflexión metapoética, el recurso a la distancia de la ironía, el perspectivismo de la voz poética, se hacen ahora más presentes. Desde estos planteamientos, Hierro camina al lado de la lírica que, por esos años, escriben los poetas de generaciones posteriores a la suya.

Nature, Empire, and Nation Jorge Cañizares-Esguerra. 2006 This collection of essays explores two traditions of interpreting and manipulating nature in the early-modern and nineteenth-century Iberian world: one instrumental and imperial, the other patriotic and national. Imperial representations laid the ground for the epistemological transformations of the so-called Scientific Revolutions. The patriotic narratives lie at the core of the first modern representations of the racialized body, Humboldtian theories of biodistribution, and views of the landscape as a historical text representing different layers of historical memory.
