Places of Special Virtue Vicki Cummings, Alasdair Whittle. 2017-02-20 This volume explores the landscape settings of megalithic chambered monuments in Wales. Set against a broader theoretical discussion on the significance of the landscape, the authors consider the role of visual landscapes in prehistory, meanings attached to the landscape, and the values and beliefs invested in it. Wales is rich in Neolithic monuments, but the general absence of certain classic monumental forms found in the rest of Britain and Ireland, such as causewayed enclosures, henges, and cursus monuments, seems to have marginalised the Welsh record from many wider discussions on the Neolithic. Instead of seeing Wales as an area which lacks many of these 'classic' components, Cummings and Whittle argue that Wales has its own unique and individual Neolithic which is simply different from the Neolithic found further to the east. It is suggested that this difference may relate to an essentially mobile existence, with strong links back to the Mesolithic period. The authors present three detailed case studies, examining the settings of sites in south-west, north-west and south-east Wales. They outline the history of research for each region, including the previous classification of the monuments and any excavations, and describe the specific landscape settings of the monuments. They assess the significance of a variety of landscape features which would have been visible from the monuments, in particular emphasising the mythological and symbolic significance of the sea, rivers and mountains. An illustrated inventory of sites completes the volume.

Was the Cat in the Hat Black? Philip Nel.2017-07-06 Racism is resilient, duplicitous, and endlessly adaptable, so it is no surprise that America is again in a period of civil rights activism. A significant reason racism endures is because it is structural: it's embedded in culture and in institutions. One of the places that racism hides-and thus perhaps the best place to oppose it-is books for young people. *Was the Cat in the Hat Black?* presents five serious critiques of the history and current state of children's literature tempestuous relationship with both implicit and explicit forms of racism. The

book fearlessly examines topics both vivid-such as The Cat in the Hat's roots in blackface minstrelsy-and more opaque, like how the children's book industry can perpetuate structural racism via whitewashed covers even while making efforts to increase diversity. Rooted in research yet written with a lively, crackling touch, Nel delves into years of literary criticism and recent sociological data in order to show a better way forward. Though much of what is proposed here could be endlessly argued, the knowledge that what we learn in childhood imparts both subtle and explicit lessons about whose lives matter is not debatable. The text concludes with a short and stark proposal of actions everyone-reader, author, publisher, scholar, citizen- can take to fight the biases and prejudices that infect children's literature. While Was the Cat in the Hat Black? does not assume it has all the answers to such a deeply systemic problem, its audacity should stimulate discussion and activism.

The Library at Night Alberto Manguel. 2011-07-27 In the tradition of *A History of Reading*, this book is an account of Manguel's astonishment at the variety, beauty and persistence of our efforts to shape the world and our lives, most notably through something almost as old as reading itself: libraries. *The Library at Night* begins with the design and construction of Alberto Manguel's own library at his house in western France - a process that raises puzzling questions about his past and his reading habits, as well as broader ones about the nature of categories, catalogues, architecture and identity. Thematically organized and beautifully illustrated, this book considers libraries as treasure troves and architectural spaces; it looks on them as autobiographies of their owners and as statements of national identity. It examines small personal libraries and libraries that started as philanthropic ventures, and analyzes the unending promise - and defects - of virtual ones. It compares different methods of categorization (and what they imply) and libraries that have built up by chance as opposed to by conscious direction. In part this is because this is about the library at night, not during the day: this book takes in what happens after the lights go out, when the world is sleeping, when books become the rightful owners of the library and the reader is the interloper. Then all daytime order is upended: one book calls to another across the shelves, and new alliances are created across time and space. And so, as well as the best design for a reading room and the makeup of Robinson Crusoe's library, this book dwells on more nocturnal subjects: fictional libraries like those carried by Count Dracula and Frankenstein's monster; shadow libraries of lost and censored books; imaginary libraries of books not yet written. *The Library at Night* is a fascinating voyage through the mind of one of our most beloved men of letters. It is an invitation into his memory

and vast knowledge of books and civilizations, and throughout – though mostly implicitly – it is also a passionate defence of literacy, of the unique pleasures of reading, of the importance of the book. As much as anything else, *The Library at Night* reminds us of what a library stands for: the possibility of illumination, of a better path for our society and for us as individuals. That hope too, at the close, is replaced by something that fits this personal and eclectic book even better: something more fragile, and evanescent than illumination, though just as important.

Psychoanalyzing Serge Leclaire. 1998 Scarcely any theoretical discourse has had greater impact on literary and cultural studies than psychoanalysis, and yet hardly any theoretical discourse is more widely misunderstood and abused. In *Psychoanalyzing*, Serge Leclaire offers a thorough and lucid exposition of the psychoanalysis that has emerged from the French “return to Freud,” unfolding and elaborating the often enigmatic pronouncements of Jacques Lacan and patiently working through the central tenets of the “Ecole freudienne.” As a concise but nuanced introduction to the subject, *Psychoanalyzing* will prove indispensable to anyone interested in psychoanalysis, especially those curious about its Lacanian reconceptualization and the linguistic theory of the unconscious and its effects. Leclaire’s study is particularly valuable for the way its author links theoretical issues to psychoanalytic practice. The opening chapter—on listening—highlights the necessity, and the impossibility, of the “floating attention” required from the analyst, while preparing the reader for the following chapters, which deal with such topics as unconscious desire, how to speak of the body, and

the intrication of the object and the “letter” (i.e. the signifier, the “material support that concrete discourse borrows from language”). The final chapter—on transference—shows how the analytical dialogue differs from other dialogues. Despite the intricacy of its subject matter, the book takes very little for granted. It does not simplify the issues it presents, but does not assume a reader familiar with the concepts of psychoanalysis, let alone a reader acquainted with its French inflection. Each basic concept and term is carefully explained, so that the reader knows the meaning of “transference” or “primal scene” before proceeding to more advanced elements of psychoanalysis. Leclaire’s text is not intended merely to be “user friendly”; its purpose is to clarify and advance, rather than to impress or convert.

Angels Flight Michael Connelly.2009-12-23 A lawyer is found murdered on the eve of a landmark trial at the foot of Angels Flight in the heart of downtown Los Angeles. This time his job is to nail the killer of hot shot black lawyer Howard Elias. Elias has been found murdered on the eve of going to court on behalf of Michael Harris, a man the LAPD believes guilty of the rape and murder of a twelve-year-old girl. Elias had let it be known that the aim of his civil case was not only to reveal the real killer but to target and bring down the racist cops who beat up his client during a violent interrogation. Now it's all down to Bosch - and he's got to take a long, hard look at some of his colleagues in a police department that is rife with suspicion and hatred.

The Dare Harley Laroux.2023-10-31 Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The freak, Manson Reed: her favorite victim. But a lot

changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? The Dare is an 18+ erotic romance novella and a prequel to the Losers Duet. Reader discretion is strongly advised. This book contains graphic sexual scenes, intense scenes of BDSM, and strong language. A full content note can be found in the front matter of the book.

The Burning Room Michael Connelly.2014-11-03 In this #1 New York Times bestseller, Detective Harry Bosch and his rookie partner investigate a cold case that gets very hot . . . very fast. In the LAPD's Open-Unsolved Unit, not many murder victims die a decade after the crime. So when a man succumbs to complications from being shot by a stray bullet ten years earlier, Bosch catches a case in which the body is still fresh, but any other clues are virtually nonexistent. Even a veteran cop would find this one tough going, but Bosch's new partner, Detective Lucia Soto, has no homicide experience. A young star in the department, Soto has been assigned to Bosch so that he can pass on to her his hard-won expertise. Now Bosch and Soto are tasked with solving a murder that turns out to be highly charged and politically sensitive. Beginning with the bullet that has been lodged for years in the victim's spine, they must pull new leads from years-old evidence, and these soon reveal that the shooting was anything but random. As their investigation picks up speed, it leads to another unsolved case with even greater stakes: the deaths of several children in a fire that occurred twenty years ago. But when their work starts to threaten careers and lives, Bosch and Soto must decide

whether it is worth risking everything to find the truth, or if it's safer to let some secrets stay buried. In a swiftly-moving novel as relentless and compelling as its hero, Michael Connelly shows once again why Harry Bosch is one of the most popular and enduring figures in American crime fiction (Chicago Tribune).

Landscapes of Power and Identity Cynthia Radding.2006-01-18 *Landscapes of Power and Identity* is a groundbreaking comparative history of two colonies on the frontiers of the Spanish empire—the Sonora region of northwestern Mexico and the Chiquitos region of eastern Bolivia’s lowlands—from the late colonial period through the middle of the nineteenth century. An innovative combination of environmental and cultural history, this book reflects Cynthia Radding’s more than two decades of research on Mexico and Bolivia and her consideration of the relationships between human societies and the geographic landscapes they inhabit and create. At first glance, Sonora and Chiquitos are quite different: one a scrub-covered desert, the other a tropical rainforest of the greater Amazonian and Paraguayan river basins. Yet the regions are similar in many ways. Both were located far from the centers of colonial authority, organized into Jesuit missions and linked to the principal mining centers of New Spain and the Andes, and then absorbed into nation-states in the nineteenth century. In each area, the indigenous communities encountered European governors, missionaries, slave hunters, merchants, miners, and ranchers. Radding’s comparative approach illuminates what happened when similar institutions of imperial governance, commerce, and religion were planted in different physical and cultural environments. She draws on archival documents, published reports by missionaries and travelers, and previous histories as well as ecological studies and ethnographies.

She also considers cultural artifacts, including archaeological remains, architecture, liturgical music, and religious dances. Radding demonstrates how colonial encounters were conditioned by both the local landscape and cultural expectations; how the colonizers and colonized understood notions of territory and property; how religion formed the cultural practices and historical memories of the Sonoran and Chiquitano peoples; and how the conflict between the indigenous communities and the surrounding creole societies developed in new directions well into the nineteenth century.

The Gods of Guilt Michael Connelly.2013-12-02 INSPIRATION FOR THE ORIGINAL SERIES THE LINCOLN LAWYER - THE #1 TV SHOW ON NETFLIX Defense attorney Mickey Haller is forced to bend the law until it breaks when he is hired to defend a man accused of killing a prostitute in this novel of courtroom suspense, the best one yet (The Washington Post). Mickey Haller gets the text, Call me ASAP - 187, and the California penal code for murder immediately gets his attention. Murder cases have the highest stakes and the biggest paydays, and they always mean Haller has to be at the top of his game. When Mickey learns that the victim was his own former client, a prostitute he thought he had rescued and put on the straight and narrow path, he knows he is on the hook for this one. He soon finds out that she was back in LA and back in the life. Far from saving her, Mickey may have been the one who put her in danger. Haunted by the ghosts of his past, Mickey must work tirelessly and bring all his skill to bear on a case that could mean his ultimate redemption or proof of his ultimate guilt. The Gods of Guilt shows once again why Michael Connelly excels, easily surpassing John Grisham in the building of courtroom suspense (Los Angeles Times).

[A Darkness More Than Night](#) Michael Connelly.2001-01-23 LAPD Detective Harry Bosch crosses paths with FBI profiler Terry McCaleb while investigating the murder of a Hollywood actress. Harry

Bosch is up to his neck in a case that has transfixed all of celebrity-mad Los Angeles: a movie director is charged with murdering an actress during sex, and then staging her death to make it look like a suicide. Bosch is both the arresting officer and the star witness in a trial that has brought the Hollywood media pack out in full-throated frenzy. Meanwhile, Terry McCaleb is enjoying an idyllic retirement on Catalina Island when a visit from an old colleague brings his former world rushing back. It's a murder, the unreadable kind of murder he specialized in solving back in his FBI days. The investigation has stalled, and the sheriff's office is asking McCaleb to take a quick look at the murder book to see if he turns up something they've missed. McCaleb's first reading of the crime scene leads him to look for a methodical killer with a taste for rituals and revenge. As his quick look accelerates into a full-sprint investigation, the two crimes -- his murdered loner and Bosch's movie director -- begin to overlap strangely. With one unsettling revelation after another, they merge, becoming one impossible, terrifying case, involving almost inconceivable calculation. McCaleb believes he has unmasked the most frightening killer ever to cross his sights. But his investigation tangles with Bosch's lines, and the two men find themselves at odds in the most dangerous investigation of their lives.

A History of Gold and Money, 1450 to 1920 Pierre Vilar. 1991 For much of human history, the motive force behind war, conquest, social conflict and world exploration has been the drive to acquire gold. From the ancient world of Croesus to the wealthy dynasties of Renaissance Italy, from the earliest European explorations into Africa, America, and Asia to the gold rushes of the nineteenth century and the banking crises that lay beyond them, Pierre Vilar depicts the awesome power of avarice to structure the world in which we live. The insidious power of gold and money is the subject of this enlightening and entertaining history. The age of exploration brought an influx of

treasure into Western Europe, prompting disputes between theologians and early economists over the causes of inflation in the sixteenth century. In time, American silver distorted metropolitan Spanish society beyond recognition. Vilar goes on to examine the roots of the modern banking and financial systems in institutions founded in Holland, England and France during the seventeenth and eighteenth centuries. And in the nineteenth century, the gold rushes of Australia, California and South Africa generated new modifications in the international monetary system. Vilar concludes the story of these developments with a discussion of the crisis of the 1920s that, in the wake of the world credit crash of 2008, is more pertinent than ever. *A History of Gold and Money* provides a unique work of synthesis on the role of money in modern economic history.

Time, Space and Phantasy Rosine Jozef Perelberg. 2013-12-16 Time, Space, and Phantasy examines the connections between time, space, phantasy and sexuality in clinical practice. It explores the subtleties of the encounter between patient and analyst, addressing how aspects of the patient's unconscious past are actualised in the present, producing new meanings that can be re-translated to the past. Perelberg's analysis of Freud's Multi-dimensional model of temporality suggests that he always viewed the constitution of the individual as non-linear. In Freud's formulations, the individual is decentred and ruled by different temporalities, most of which escape their consciousness. Perelberg identifies the similarities between this and Einstein's theory of relativity which states that rather than being absolute, time depends on the relative position and speed of the observing individual suggesting that rather than being a reality, time is an abstraction, connecting objects and events. Throughout this text, Perelberg draws together connections between time, mental space, and phantasy showing how time is constantly reshaped in the light of new events and experiences. This book will be of interest to psychoanalysts, psychotherapists, psychologists, and social workers.

Giuseppe Terragni Peter Eisenman. 1993 Forty years in the making, Giuseppe Terragni: Transformations, Decompositions, Critiques documents and investigates two of Italian rationalist architect Giuseppe Terragni's masterworks: the Casa del Fascio (1933-36) and the Casa Giuliani-Frigerio (1939-40), both in Como. This far-reaching study -- illustrated with more than five hundred original architectural diagrams and archival photographs -- employs what Eisenman calls critical and textual reading of both buildings. He attempts to broaden the definition of the formal from a narrow aesthetic and compositional view to include first the conceptual and then the textual. It is through

this idea of the textual that Eisenman begins to define an idea of the critical in architecture. Eisenman's methodology is wholly removed from traditional approaches -- social, historical, aesthetic, functional. Instead, the various articulations and openings on the facades constitute a set of marks, notations that provide the basis for his analysis. In the Casa del Fascio, for example, each of the four sequential design schemes records the previous state, encoding the process of transformation in the final building. In the Casa Giuliani-Frigerio it is instead the process of decomposition that generates the facades. Also included in the book are an essay by Terragni and a critique by Manfredo Tafuri. In the end, it is the dual protagonists -- the architect and the author -- who together establish a new theoretical and analytical framework.

Of Woman Born: Motherhood as Experience and Institution Adrienne Rich. 2021-04-27 The pathbreaking investigation into motherhood and womanhood from an influential and enduring feminist voice, now for a new generation. In *Of Woman Born*, originally published in 1976, influential poet and feminist Adrienne Rich examines the patriarchic systems and political institutions that define motherhood. Exploring her own experience—as a woman, a poet, a feminist, and a mother—she finds the act of mothering to be both determined by and distinct from the institution of motherhood as it is imposed on all women everywhere. A “powerful blend of research, theory, and self-reflection” (Sandra M. Gilbert, *Paris Review*), *Of Woman Born* revolutionized how women thought about motherhood and their own liberation. With a stirring new foreword from National Book Critics Circle Award-winning writer Eula Biss, the book resounds with as much wisdom and insight today as when it was first written.

[How to Read Nancy](#) Paul Karasik, Mark Newgarden. 2017-10-31 Everything that you need to know about reading, making, and understanding comics can be found in a single Nancy strip by Ernie

Bushmiller from August 8, 1959. Paul Karasik and Mark Newgarden's groundbreaking work *How to Read Nancy* ingeniously isolates the separate building blocks of the language of comics through the deconstruction of a single strip. No other book on comics has taken such a simple yet methodical approach to laying bare how the comics medium really works. No other book of any kind has taken a single work by any artist and minutely (and entertainingly) pulled it apart like this. *How to Read Nancy* is a completely new approach towards deep-reading art. In addition, *How to Read Nancy* is a thoroughly researched history of how comics are made, from their creation at the drawing board to their ultimate destination at the bookstore. Textbook, art book, monogram, dissection, *How to Read Nancy* is a game changer in understanding how the "simplest" drawings grab us and never leave. Perfect for students, academics, scholars, and casual fans.

Visual Journeys Through Wordless Narratives Evelyn Arizpe,Teresa Colomer,Carmen Martínez-Roldán.2014-04-30 Winner of the Literacy Research Association's 2015 Edward B. Fry Book Award Immigration is an ongoing, global phenomenon and schools and teachers in host countries must

continually find new ways of working with the increasing numbers of immigrant pupils, including refugees and asylum seekers. Language and literacy are crucial for inclusion in a new context but these must be developed in spaces where these children feel safe to explore themes that resonate with their experiences; to express their understanding and to engage in intercultural exchange. Visual Journeys Through Wordless Narratives presents the exploration of response strategies to Shaun Tan's *The Arrival*. The inquiry was carried out in educational settings, with children from many different parts of the world, in four host countries: the UK, Spain, Italy and the USA. The findings reveal the benefits of using wordless narratives such as picturebooks and graphic novels together with visual strategies to support immigrant children's literary understandings and visual literacy. They also reveal the wealth of experiences the children bring with them which have the potential to transform educational practices.
