Calculus Made Easy Silvanus P. Thompson, Martin Gardner. 2014-03-18 Calculus Made Easy by Silvanus P. Thompson and Martin Gardner has long been the most popular calculus primer, and this major revision of the classic math text makes the subject at hand still more comprehensible to readers of all levels. With a new introduction, three new chapters, modernized language and methods throughout, and an appendix of challenging and enjoyable practice problems, Calculus Made Easy has been thoroughly updated for the modern reader.

Make Your Own Living Trust Denis Clifford. 2023-03-03 Make Your Own Living Trust can help you make an individual or shared living trust that's valid in your state, saving your family time, money, and headaches. You can use a living trust to name beneficiaries for property and set up property management for young people. In this way, a living trust is like a will. However, unlike a will, a living trust lets your family bypass probate court— which saves everyone money, delay, and hassle. Make Your Own Living Trust provides all of the plain English instructions, worksheets, and forms you need to create an individual or shared living trust and a basic will (for yourself and your family), without the need for a lawyer. Whether you are single or part of a couple, you can use this book to: decide whether a living trust is right for your family keep control over trust property while you live appoint someone to manage trust property, if needed name beneficiaries to inherit your assets set up property management for young beneficiaries, and learn how to transfer all types of assets to your trust, including real estate, stocks, jewelry, art, or business assets. Even if you prefer to hire a

lawyer to draw up your trust, you can use this book to learn about living trusts before you go to the lawyer. Using the book to learn about living trusts will save you a considerable amount of money, compared to paying a lawyer to explain it to you. All of the explanations, instructions, and examples are in the book, and the forms are available for download details inside the book. The legal forms in this book are not valid in Louisiana, Canada, or the U.S. Territories.

Management and Applications of Complex Systems G. Rzevski,S. Syngellakis.2019-03-19 Composed of selected research papers, this book brings together new developments and processes for managing complexity. The included works originate from renowned complexity thinkers, well established practitioners and new researchers in the area of complexity and detail issues of common interest.

Make Your Own Living Trust Denis Clifford.2023-03-31 Most people have heard of living trusts but have only a vague idea about what trusts are and whether they really need one. This book explains how trusts work and who should use them, and it gives you all of the forms and instructions you need to make one yourself.

Advanced Linux Programming CodeSourcery LLC,Mark L. Mitchell,Alex Samuel,Jeffrey Oldham.2001-06-11 This is the eBook version of the printed book. If the print book includes a CD-ROM, this content is not included within the eBook version. Advanced Linux Programming is divided into two parts. The first covers generic UNIX system services, but with a particular eye towards Linux specific information. This portion of the book will be of use even to advanced programmers who have worked with other Linux systems since it will cover Linux specific details and differences.

For programmers without UNIX experience, it will be even more valuable. The second section covers material that is entirely Linux specific. These are truly advanced topics, and are the techniques that the gurus use to build great applications. While this book will focus mostly on the Application Programming Interface (API) provided by the Linux kernel and the C library, a preliminary introduction to the development tools available will allow all who purchase the book to make immediate use of Linux.

NATO's Balancing Act David Scott Yost.2014 NATO's Balancing Act evaluates the alliance's performance of its three core tasks--collective defense, crisis management, and cooperative security--and reviews its members' efforts to achieve the right balance among them. Yost considers NATO's role in the evolving global security environment and its implications for collective defense and crisis management in the Balkans, Afghanistan, Africa, Libya, and elsewhere.

Language Curriculum Design John Macalister, I.S.P. Nation.2009-09-10 Crystal-clear and comprehensive yet concise, this text describes the steps involved in the curriculum design process, elaborates and justifies these steps, and provides opportunities for practicing and applying them. The description of the steps is done at a general level so that they can be applied in a wide range of particular circumstances. The process comes to life through plentiful examples of actual applications of the steps. Each chapter includes: examples from the authors' experience and from published research tasks that encourage readers to relate the steps to their own experience case studies and suggestions for further reading that put readers in touch with others' experience Curriculum, or course, design is largely a 'how-to-do-it' activity that involves the integration of knowledge from many of the areas in the field of Applied Linguistics, such as language acquisition research, teaching

methodology, assessment, language description, and materials production. Combining sound research/theory with state-of-the-art practice, Language Curriculum Design is widely applicable for ESL/EFL language education courses around the world.

Writing and Editing for Digital Media Brian Carroll.2023-05-23 In this fifth edition, Brian Carroll explores writing and editing for digital media with essential information about voice, style, media formats, ideation, story planning, and storytelling. Carroll explains and demonstrates how to effectively write for digital spaces and combines hands-on, practical exercises with new material on podcasting, multi-modal storytelling, misinformation and disinformation, and writing specifically for social media. Each chapter features lessons and exercises through which students can build a solid understanding of the ways that digital communication provides opportunities for dynamic storytelling and multi-directional communication. Broadened in scope, this new edition also speaks to writers, editors, public relations practitioners, social media managers, marketers, as well as to students aspiring to these roles. Updated with contemporary examples and new pedagogy throughout, this is the ideal handbook for students seeking careers in digital media, particularly in content development and digital storytelling. It is an essential text for students of media, communication, public relations, marketing, and journalism who are looking to develop their writing and editing skills for these ever-evolving fields and professions. This book also has an accompanying eResource that provides additional weekly activities, exercises, and assignments that give students more opportunity to put theory into practice.

Capitalist Nigger Chika Onyeani.2012-03-27 Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any

other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' - discipline, self-reliance, ruthlessness - to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

The Routledge Handbook of Translation and Health Şebnem Susam-Saraeva, Eva Spišiaková. 2021-05-09 The Routledge Handbook of Translation and Health provides a bridge between translation studies and the burgeoning field of health humanities, which seeks novel ways of understanding health and illness. As discourses around health and illness are dependent on languages for their transmission, impact, spread, acceptance and rejection in local settings, translation studies offers a wealth of data, theoretical approaches and methods for studying health and illness globally. Translation and health intersect in a multitude of settings, historical moments, genres, media and users. This volume brings together topics ranging from interpreting in healthcare settings to translation within medical sciences, from historical and contemporary travels of medicine through translation to areas such as global epidemics, disaster situations, interpreting for children, mental health, women's health, disability, maternal health, queer feminisms and sexual health, and nutrition. Contributors come from a wide range of disciplines, not only from various branches of translation and interpreting studies, but also from disciplines such as psychotherapy, informatics,

health communication, interdisciplinary health science and classical Islamic studies. Divided into four sections and each contribution written by leading international authorities, this timely Handbook is an indispensable resource for all students and researchers of translation and health within translation and interpreting studies, as well as medical and health humanities. Introduction and Chapter 18 of this book are freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons [Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND)] 4.0 license.

Operating Systems Thomas Anderson, Michael Dahlin. 2014 Over the past two decades, there has been a huge amount of innovation in both the principles and practice of operating systems. Over the same period, the core ideas in a modern operating system - protection, concurrency, virtualization, resource allocation, and reliable storage - have become widely applied throughout computer science. Whether you get a job at Facebook, Google, Microsoft, or any other leading-edge technology company, it is impossible to build resilient, secure, and flexible computer systems without the ability to apply operating systems concepts in a variety of settings. This book examines both the principles and practice of modern operating systems, taking important, high-level concepts all the way down to the level of working code. Because operating systems concepts are among the most difficult in computer science, this top to bottom approach is the only way to really understand and master this important material.

Wuthering Heights Emily Bronte. 2020-09-28 *Wuthering Heights* is the name of Mr. Heathcliff's dwelling. "Wuthering" being a significant provincial adjective, descriptive of the atmospheric tumult to which its station is exposed in stormy weather. Pure, bracing ventilation they must have up there at all times, indeed: one may guess the power of the north wind blowing over the edge, by the

excessive slant of a few stunted firs at the end of the house; and by a range of gaunt thorns all stretching their limbs one way, as if craving alms of the sun. Happily, the architect had foresight to build it strong: the narrow windows are deeply set in the wall, and the corners defended with large jutting stones. Before passing the threshold, I paused to admire a quantity of grotesque carving lavished over the front, and especially about the principal door; above which, among a wilderness of crumbling griffins and shameless little boys, I detected the date 1500, and the name Hareton Earnshaw. I would have made a few comments, and requested a short history of the place from the surly owner; but his attitude at the door appeared to demand my speedy entrance, or complete departure, and I had no desire to aggravate his impatience previous to inspecting the penetralium. One stop brought us into the family sitting-room, without any introductory lobby or passage: they call it here the house pre-eminently. It includes kitchen and parlour, generally; but I believe at Wuthering Heights the kitchen is forced to retreat altogether into another quarter: at least I distinguished a chatter of tongues, and a clatter of culinary utensils, deep within; and I observed no signs of roasting, boiling, or baking, about the huge fireplace; nor any glitter of copper saucepans and tin cullenders on the walls. One end, indeed, reflected splendidly both light and heat from ranks of immense pewter dishes, interspersed with silver jugs and tankards, towering row after row, on a vast oak dresser, to the very roof. The latter had never been under-drawn: its entire anatomy lay bare to an inquiring eye, except where a frame of wood laden with oatcakes and clusters of legs of beef, mutton, and ham, concealed it. Above the chimney were sundry villainous old guns, and a couple of horse-pistols: and, by way of ornament, three gaudily-painted canisters disposed along its ledge. The floor was of smooth, white stone; the chairs, high-backed, primitive structures, painted green: one or two heavy black ones lurking in the shade. In an arch under the dresser reposed a

huge, liver-coloured bitch pointer, surrounded by a swarm of squealing puppies; and other dogs haunted other recesses.

Mastering AWS Security Albert Anthony.2017-10-26 In depth informative guide to implement and use AWS security services effectively. About This Book Learn to secure your network, infrastructure, data and applications in AWS cloud Log, monitor and audit your AWS resources for continuous security and continuous compliance in AWS cloud Use AWS managed security services to automate security. Focus on increasing your business rather than being diverged onto security risks and issues with AWS security. Delve deep into various aspects such as the security model, compliance, access management and much more to build and maintain a secure environment. Who This Book Is For This book is for all IT professionals, system administrators and security analysts, solution architects and Chief Information Security Officers who are responsible for securing workloads in AWS for their organizations. It is helpful for all Solutions Architects who want to design and implement secure architecture on AWS by the following security by design principle. This book is helpful for personnel in Auditors and Project Management role to understand how they can audit AWS workloads and how they can manage security in AWS respectively. If you are learning AWS or championing AWS adoption in your organization, you should read this book to build security in all your workloads. You will benefit from knowing about security footprint of all major AWS services for multiple domains, use cases, and scenarios. What You Will Learn Learn about AWS Identity Management and Access control Gain knowledge to create and secure your private network in AWS Understand and secure your infrastructure in AWS Understand monitoring, logging and auditing in AWS Ensure Data Security in AWS Learn to secure your applications in AWS Explore AWS Security best practices In Detail Mastering AWS Security starts with a deep dive into the fundamentals of the

shared security responsibility model. This book tells you how you can enable continuous security, continuous auditing, and continuous compliance by automating your security in AWS with the tools, services, and features it provides. Moving on, you will learn about access control in AWS for all resources. You will also learn about the security of your network, servers, data and applications in the AWS cloud using native AWS security services. By the end of this book, you will understand the complete AWS Security landscape, covering all aspects of end - to -end software and hardware security along with logging, auditing, and compliance of your entire IT environment in the AWS cloud. Lastly, the book will wrap up with AWS best practices for security. Style and approach The book will take a practical approach delving into different aspects of AWS security to help you become a master of it. It will focus on using native AWS security features and managed AWS services to help you achieve continuous security and continuous compliance.

Journalistic Metamorphosis Jorge Vázquez-Herrero, Sabela Direito-Rebollal, Alba Silva-Rodríguez, Xosé López-García. 2020-01-03 This book aims to reflect how journalism has changed in recent years through different perspectives concerning the impact of technology, the reconfiguration of the media ecosystem, the transformation of business models, production and profession, as well as the influence of digital storytelling, mobile devices and participation within the context of glocal information. Journalism innovation implies modifications in techniques, technologies, processes, languages, formats and devices intended to enhance the production and consumption of the journalistic information. This book becomes an interesting resource for researchers and professionals working in news media to identify the best practices and discover new types of information flows in a rapidly changing news media landscape.

Schutz vor Diskriminierung im Beschäftigungsverhältnis in Großbritannien - Equality Act 2010

Verena Guttenberg.2015-03-19 Die Bekämpfung von Ungleichbehandlungen und Benachteiligungen ist ein fundamentaler Wert, eine der Grundfesten der Demokratie und einer der Eckpfeiler des Zusammenlebens in der modernen, multikulturellen Gesellschaft. Dies gilt in besonderer Weise für die vulnerable Rechtsbeziehung der privaten Beschäftigungsverhältnisse. In Großbritannien wurden die entsprechenden beschäftigungsbezogenen Schutzmechanismen mit dem „Equality Act 2010“ vor verhältnismäßig kurzer Zeit auf eine neue Grundlage gestellt. Zum ersten Mal seit nunmehr beinahe 50 Jahren ist das im europäischen Vergleich teils sehr fortschrittliche und wegweisende britische Diskriminierungsschutzrecht in Gestalt von bisher neun bedeutenden Rechtsakten sowie rund 100 Rechtsverordnungen in einem einzigen einheitlichen Gleichstellungsgesetz zusammengeführt. Die vorliegende Arbeit erschließt dieses neue Gesetz für den deutschen Rechtsanwender und zeigt die wesentlichen Unterschiede und Gemeinsamkeiten zum deutschen Recht und insbesondere dem Allgemeinen Gleichbehandlungsgesetz auf.

World Development Indicators 2016 World Bank.2016-04-29 World Development Indicators 2016 provides a compilation of relevant, high-quality, and internationally comparable statistics about global development and the fight against poverty. It is intended to help policymakers, students, analysts, professors, program managers, and citizens find and use data related to all aspects of development, including those that help monitor progress toward the World Bank Group’s two goals of ending poverty and promoting shared prosperity. Six themes are used to organize indicators—world view, people, environment, economy, states and markets, and global links. WDI 2016 includes: •A selection of the most popular indicators across 214 economies and 14 country groups organized into six WDI themes •A new section on the Sustainable Development Goals (SDGs) has replaced the one on Millennium Development Goals (MDGs). •The SDG section covers all 17

goals, and important targets to achieve these goals. Each goal has been presented in a maximum 2-page spread with selected indicators to explain the targets. •Each of the remaining sections includes an introduction, a map, a table of the most relevant and popular indicators for that theme together with a discussion of indicator compilation methodology. •A user guide describing resources available online and on mobile apps. Download the WDI DataFinder Mobile App and other Data Apps at data.worldbank.org/apps. WDI DataFinder is a mobile app for browsing the current WDI database on smartphones and tablets, using iOS and Android, available in four languages: English, French, Spanish, and Chinese. Use the app to: •Browse data using the structure of the WDI •Visually compare countries and indicators •Create, edit, and save customized tables, charts, and maps •Share what you create on Twitter, Facebook, and via email

The Future of Pakistan Stephen P. Cohen.2011 With each passing day, Pakistan becomes an even more crucial player in world affairs. Home of the world's second-largest Muslim population, epicenter of the global jihad, location of perhaps the planet's most dangerous borderlands, and armed with nuclear weapons, this South Asian nation will go a long way toward determining what the world looks like ten years from now. The Future of Pakistan presents and evaluates several scenarios for how the country will develop, evolve, and act in the near future, as well as the geopolitical implications of each. Led by renowned South Asia expert Stephen P. Cohen, a team of authoritative contributors looks at several pieces of the Pakistan puzzle. The book begins with Cohen's broad yet detailed overview of Pakistan, placing it within the context of current-day geopolitics and international economics. Cohen's piece is then followed by a number of shorter, more tightly focused essays addressing more specific issues of concern. Cohen's fellow contributors hail from America, Europe, India, and Pakistan itself, giving the book a uniquely international and

comparative perspective. They address critical factors such as the role and impact of radical groups and militants, developments in specific key regions such as Punjab and the rugged frontier with Afghanistan, and the influence of □and interactions with □India, Pakistan's archrival since birth. The book also breaks down relations with other international powers such as China and the United States. The all-important military and internal security apparatus come under scrutiny, as do rapidly morphing social and gender issues. Political and party developments are examined along with the often amorphous division of power between Islamabad and the nation's regions and local powers. Uncertainty about Pakistan's trajectory persists. The Future of Pakistan helps us understand the current circumstances, the relevant actors and their motivation, the critical issues at hand, the different outcomes they might produce, and what it all means for Pakistanis, Indians, the United States, and the entire world. Praise for the work of Stephen P. Cohen The Idea of Pakistan: The intellectual power and rare insight with which Cohen breaks through the complexity of the subject rivals that of classics that have explained other societies posing a comparable challenge to understanding. □ Middle East Journal India: Emerging Power: In light of the events of September 11, 2001, Cohen's perceptive, insightful, and balanced account of emergent India will be essential reading for U.S. foreign policymakers, scholars, and informed citizens. □ Choice

Neural Machine Translation Philipp Koehn.2020-06-18 Learn how to build machine translation systems with deep learning from the ground up, from basic concepts to cutting-edge research. *Modernizing IBM i Applications from the Database up to the User Interface and Everything in Between* Nadir K. Amra,Hernando Bedoya,Tony Cairns,Dan Cruikshank,Rich Diedrich,John Eberhard,Mark Evans,Antonio Florez,Susan Gantner,Jesse Gorzinski,Isaac Ramírez Herrera,Brian May,Michel Mouchon,Jon Paris,Mike Pavlak,Trevor Perry,Pascal Polverini,Jim Ritchhart,Tim

Rowe, Jon Rush, Paul Tuohy, Jeroen Van Lommel, Carol Woodbury, IBM Redbooks. 2015-12-07 This IBM® Redbooks® publication is focused on melding industry preferred practices with the unique needs of the IBM i community and providing a holistic view of modernization. This book covers key trends for application structure, user interface, data access, and the database. Modernization is a broad term when applied to applications. It is more than a single event. It is a sequence of actions. But even more, it is a process of rethinking how to approach the creation and maintenance of applications. There are tangible deliveries when it comes to modernization, the most notable being a modern user interface (UI), such as a web browser or being able to access applications from a mobile device. The UI, however, is only the beginning. There are many more aspects to modernization. Using modern tools and methodologies can significantly improve productivity and reduce long-term cost while positioning applications for the next decade. It is time to put the past away. Tools and methodologies have undergone significant transformation, improving functionality, usability, and productivity. This is true of the plethora of IBM tools and the wealth of tools available from many Independent Solution Providers (ISVs). This publication is the result of work that was done by IBM, industry experts, and by representatives from many of the ISV Tool Providers. Some of their tools are referenced in the book. In addition to reviewing technologies based on context, there is an explanation of why modernization is important and a description of the business benefits of investing in modernization. This critical information is key for line-of-business executives who want to understand the benefits of a modernization project. This book is appropriate for CIOs, architects, developers, and business leaders. Related information Making the Case for Modernization, IBM Systems Magazine

[America's Climate Choices](#) National Research Council, Division on Earth and Life Studies, Board on

Atmospheric Sciences and Climate, Committee on America's Climate Choices. 2011-06-11 Climate change is occurring. It is very likely caused by the emission of greenhouse gases from human activities, and poses significant risks for a range of human and natural systems. And these emissions continue to increase, which will result in further change and greater risks. America's Climate Choices makes the case that the environmental, economic, and humanitarian risks posed by climate change indicate a pressing need for substantial action now to limit the magnitude of climate change and to prepare for adapting to its impacts. Although there is some uncertainty about future risk, acting now will reduce the risks posed by climate change and the pressure to make larger, more rapid, and potentially more expensive reductions later. Most actions taken to reduce vulnerability to climate change impacts are common sense investments that will offer protection against natural climate variations and extreme events. In addition, crucial investment decisions made now about equipment and infrastructure can lock in commitments to greenhouse gas emissions for decades to come. Finally, while it may be possible to scale back or reverse many responses to climate change, it is difficult or impossible to undo climate change, once manifested. Current efforts of local, state, and private-sector actors are important, but not likely to yield progress comparable to what could be achieved with the addition of strong federal policies that establish coherent national goals and incentives, and that promote strong U.S. engagement in international-level response efforts. The inherent complexities and uncertainties of climate change are best met by applying an iterative risk management framework and making efforts to significantly reduce greenhouse gas emissions; prepare for adapting to impacts; invest in scientific research, technology development, and information systems; and facilitate engagement between scientific and technical experts and the many types of stakeholders making America's climate choices.

Learning Python Mark Lutz.2007-10-22 Portable, powerful, and a breeze to use, Python is ideal for both standalone programs and scripting applications. With this hands-on book, you can master the fundamentals of the core Python language quickly and efficiently, whether you're new to programming or just new to Python. Once you finish, you will know enough about the language to use it in any application domain you choose. *Learning Python* is based on material from author Mark Lutz's popular training courses, which he's taught over the past decade. Each chapter is a self-contained lesson that helps you thoroughly understand a key component of Python before you continue. Along with plenty of annotated examples, illustrations, and chapter summaries, every chapter also contains Brain Builder, a unique section with practical exercises and review quizzes that let you practice new skills and test your understanding as you go. This book covers: Types and Operations -- Python's major built-in object types in depth: numbers, lists, dictionaries, and more Statements and Syntax -- the code you type to create and process objects in Python, along with Python's general syntax model Functions -- Python's basic procedural tool for structuring and reusing code Modules -- packages of statements, functions, and other tools organized into larger components Classes and OOP -- Python's optional object-oriented programming tool for structuring code for customization and reuse Exceptions and Tools -- exception handling model and statements, plus a look at development tools for writing larger programs *Learning Python* gives you a deep and complete understanding of the language that will help you comprehend any application-level examples of Python that you later encounter. If you're ready to discover what Google and YouTube see in Python, this book is the best way to get started.

Learning Python Mark Lutz.2009-10-06 Google and YouTube use Python because it's highly adaptable, easy to maintain, and allows for rapid development. If you want to write high-quality,

efficient code that's easily integrated with other languages and tools, this hands-on book will help you be productive with Python quickly -- whether you're new to programming or just new to Python. It's an easy-to-follow self-paced tutorial, based on author and Python expert Mark Lutz's popular training course. Each chapter contains a stand-alone lesson on a key component of the language, and includes a unique Test Your Knowledge section with practical exercises and quizzes, so you can practice new skills and test your understanding as you go. You'll find lots of annotated examples and illustrations to help you get started with Python 3.0. Learn about Python's major built-in object types, such as numbers, lists, and dictionaries Create and process objects using Python statements, and learn Python's general syntax model Structure and reuse code using functions, Python's basic procedural tool Learn about Python modules: packages of statements, functions, and other tools, organized into larger components Discover Python's object-oriented programming tool for structuring code Learn about the exception-handling model, and development tools for writing larger programs Explore advanced Python tools including decorators, descriptors, metaclasses, and Unicode processing

Evolutions in Sustainable Investing Cary Krosinsky, Nick Robins, Stephen Viederman. 2011-12-27 Sustainable Investing is fast becoming an essential method of generating long-term returns, moving beyond the negative approaches to socially responsible investing that have dominated the field. This book, our second on the subject, provides over 15 case studies of leading global investors and companies demonstrating how they successfully apply sustainability aspects to their core strategies. Learn from prominent thought leaders Dan Esty and Paul Hawken among others who have contributed key chapters. Our chapter on performance shows clearly how these strategies have been working once negative approaches are parsed out by those examining fund returns. This book also

examines in great depth what data exists, and what's on the horizon, to best measure & capture sustainability successfully. Regional perspectives, including 3 chapters on Asia, and focuses on Canada, Australia, Africa & India are also included, as is a look across asset classes. Sustainable Investing, when performed with a positive perspective, has been outperforming the mainstream, unlike negative approaches designed to match benchmark returns. From eco-efficiency to sustainability-driven innovation and beyond, investors of all shapes & sizes need to know how best to position themselves for the radical market shifts underway.

Smart Trends in Computing and Communications Yu-Dong Zhang, Tomonobu Senjyu, Chakchai So-In, Amit Joshi. 2022-07-05 This book gathers high-quality papers presented at the Sixth International Conference on Smart Trends in Computing and Communications (SmartCom 2022), organized by Global Knowledge Research Foundation (GR Foundation) in partnership with IFIP InterYIT during January 11-12, 2022. It covers the state of the art and emerging topics in information, computer communications, and effective strategies for their use in engineering and managerial applications. It also explores and discusses the latest technological advances in, and future directions for, information and knowledge computing and its applications.

The Art of Debugging with GDB, DDD, and Eclipse Norman Matloff, Peter Jay

Salzman. 2008-09-15 Debugging is crucial to successful software development, but even many experienced programmers find it challenging. Sophisticated debugging tools are available, yet it may be difficult to determine which features are useful in which situations. The Art of Debugging is your guide to making the debugging process more efficient and effective. The Art of Debugging illustrates the use three of the most popular debugging tools on Linux/Unix platforms: GDB, DDD, and Eclipse.

The text-command based GDB (the GNU Project Debugger) is included with most distributions. DDD is a popular GUI front end for GDB, while Eclipse provides a complete integrated development environment. In addition to offering specific advice for debugging with each tool, authors Norm Matloff and Pete Salzman cover general strategies for improving the process of finding and fixing coding errors, including how to: -Inspect variables and data structures -Understand segmentation faults and core dumps -Know why your program crashes or throws exceptions -Use features like catchpoints, convenience variables, and artificial arrays -Avoid common debugging pitfalls Real world examples of coding errors help to clarify the authors' guiding principles, and coverage of complex topics like thread, client-server, GUI, and parallel programming debugging will make you even more proficient. You'll also learn how to prevent errors in the first place with text editors, compilers, error reporting, and static code checkers. Whether you dread the thought of debugging your programs or simply want to improve your current debugging efforts, you'll find a valuable ally in *The Art of Debugging*.

Getting Started with IBM WebSphere Cast Iron Cloud Integration Carla Sadtler, Lars Besselmann-Hamandouche, Nick Bletzer, Simon Dickerson, Leonardo Rodriguez Leon, Roberto Mascarenhas, Giuliano Diniz de Moraes, Rajath Ramesh, IBM Redbooks. 2012-01-25 Cloud computing provides companies with many capabilities to meet their business needs but can also mean that a hybrid architecture is created that includes on-premise systems and the cloud. Integration is needed to bridge the gap between the on-premise existing systems and the new cloud applications, platform, and infrastructure. IBM® WebSphere® Cast Iron® meets the challenge of integrating cloud applications with on-premise systems, cloud applications-to-cloud applications, and on-premise to on-premise applications. It contains a graphical development environment that provides built-in

connectivity to many cloud and on-premise applications and reusable solution templates that can be downloaded from a solution repository. The integration solutions that are created can then run on either an on-premise integration appliance or the multi-tenant WebSphere Cast Iron Live cloud service. This IBM Redbooks® publication is intended for application integrators, integration designers, and administrators evaluating or already using IBM WebSphere Cast Iron. Executives, leaders, and architects who are looking for a way to integrate cloud applications with their on-premise applications are also shown how WebSphere Cast Iron can help to resolve their integration challenges. The book helps you gain an understanding of Cast Iron and explains how to integrate cloud and on-premise applications quickly and simply. It gives a detailed introduction to the development tool and the administration interfaces and how they are used. It also discusses security, high availability, and re-usability. The book also includes three detailed scenarios covering real-world implementations of a Cast Iron Integration Solution.

Актуальные проблемы Европы No4 / 2012 Тамара Кондратьева.2017-04-29 Исследуется влияние иммиграции на партийно-политическую жизнь европейских стран. Рассматриваются программные установки основных политических партий по проблемам иммиграции. Анализируются изменения в партийной стратегии и тактике, обусловленные как сдвигами в структуре электората, так и усиливающимися в последние годы в Европе антииммигрантскими настроениями. Для научных сотрудников, специалистов в сфере государственного управления, преподавателей вузов, аспирантов и студентов.

Representation Learning for Natural Language Processing Zhiyuan Liu, Yankai Lin, Maosong Sun.2020-07-03 This open access book provides an overview of the recent advances in representation learning theory, algorithms and applications for natural language processing (NLP).

It is divided into three parts. Part I presents the representation learning techniques for multiple language entries, including words, phrases, sentences and documents. Part II then introduces the representation techniques for those objects that are closely related to NLP, including entity-based world knowledge, sememe-based linguistic knowledge, networks, and cross-modal entries. Lastly, Part III provides open resource tools for representation learning techniques, and discusses the remaining challenges and future research directions. The theories and algorithms of representation learning presented can also benefit other related domains such as machine learning, social network analysis, semantic Web, information retrieval, data mining and computational biology. This book is intended for advanced undergraduate and graduate students, post-doctoral fellows, researchers, lecturers, and industrial engineers, as well as anyone interested in representation learning and natural language processing.

Routledge Encyclopedia of Translation Technology Chan Sin-wai.2023-04-26 Routledge Encyclopedia of Translation Technology, second edition, provides a state-of-the-art survey of the field of computer-assisted translation. It is the first definitive reference to provide a comprehensive overview of the general, regional, and topical aspects of this increasingly significant area of study. The Encyclopedia is divided into three parts: Part 1 presents general issues in translation technology, such as its history and development, translator training, and various aspects of machine translation, including a valuable case study of its teaching at a major university; Part 2 discusses national and regional developments in translation technology, offering contributions covering the crucial territories of China, Canada, France, Hong Kong, Japan, South Africa, Taiwan, the Netherlands and Belgium, the United Kingdom, and the United States; Part 3 evaluates specific matters in translation technology, with entries focused on subjects such as alignment,

concordancing, localization, online translation, and translation memory. The new edition has five additional chapters, with many chapters updated and revised, drawing on the expertise of over 50 contributors from around the world and an international panel of consultant editors to provide a selection of chapters on the most pertinent topics in the discipline. All the chapters are self-contained, extensively cross-referenced, and include useful and up-to-date references and information for further reading. It will be an invaluable reference work for anyone with a professional or academic interest in the subject.

802.11 Wireless Networks: The Definitive Guide Matthew S. Gast.2005-04-25 As we all know by now, wireless networks offer many advantages over fixed (or wired) networks. Foremost on that list is mobility, since going wireless frees you from the tether of an Ethernet cable at a desk. But that's just the tip of the cable-free iceberg. Wireless networks are also more flexible, faster and easier for you to use, and more affordable to deploy and maintain. The de facto standard for wireless networking is the 802.11 protocol, which includes Wi-Fi (the wireless standard known as 802.11b) and its faster cousin, 802.11g. With easy-to-install 802.11 network hardware available everywhere you turn, the choice seems simple, and many people dive into wireless computing with less thought and planning than they'd give to a wired network. But it's wise to be familiar with both the capabilities and risks associated with the 802.11 protocols. And *802.11 Wireless Networks: The Definitive Guide*, 2nd Edition is the perfect place to start. This updated edition covers everything you'll ever need to know about wireless technology. Designed with the system administrator or serious home user in mind, it's a no-nonsense guide for setting up 802.11 on Windows and Linux. Among the wide range of topics covered are discussions on: deployment considerations network monitoring and performance tuning wireless security issues how to use and select access points network monitoring essentials

wireless card configuration security issues unique to wireless networks With wireless technology, the advantages to its users are indeed plentiful. Companies no longer have to deal with the hassle and expense of wiring buildings, and households with several computers can avoid fights over who's online. And now, with 802.11 Wireless Networks: The Definitive Guide, 2nd Edition, you can integrate wireless technology into your current infrastructure with the utmost confidence.

Our Iceberg Is Melting John Kotter, Holger Rathgeber. 2016-01-05 The revised and updated tenth anniversary edition of the classic, beloved business fable that has changed millions of lives in organizations around the world. Our Iceberg Is Melting is a simple story about doing well under the stress and uncertainty of rapid change. Based on the award-winning work of Harvard Business School's John Kotter, it can help you and your colleagues thrive during tough times. On an iceberg near the coast of Antarctica, group of beautiful emperor penguins live as they have for many years. Then one curious bird discovers a potentially devastating problem threatening their home—and almost no one listens to him. The characters in the story—Fred, Alice, Louis, Buddy, the Professor, and NoNo—are like people you probably recognize in your own organization, including yourself. Their tale is one of resistance to change and heroic action, seemingly intractable obstacles and clever tactics for dealing with those obstacles. The penguins offer an inspiring model as we all struggle to adapt to new circumstances. Our Iceberg Is Melting is based on John Kotter's pioneering research into the eight steps that can produce needed change in any sort of group. After finishing the story, you'll have a powerful framework for influencing your own team, no matter how big or small. This tenth anniversary edition preserves the text of the timeless story, together with new illustrations, a revised afterword, and a Q&A with the authors about the responses they've gotten over the past decade. Prepare to be both enlightened and delighted, whether you're already a fan of

this classic fable or are discovering it for the first time.

Knowing the Salween River: Resource Politics of a Contested Transboundary River Carl Middleton, Vanessa Lamb. 2019-08-12 This open access book focuses on the Salween River, shared by China, Myanmar, and Thailand, that is increasingly at the heart of pressing regional development debates. The basin supports the livelihoods of over 10 million people, and within it there is great socio-economic, cultural and political diversity. The basin is witnessing intensifying dynamics of resource extraction, alongside large dam construction, conservation and development intervention, that is unfolding within a complex terrain of local, national and transnational governance. With a focus on the contested politics of water and associated resources in the Salween basin, this book offers a collection of empirical case studies that highlights local knowledge and perspectives. Given the paucity of grounded social science studies in this contested basin, this book provides conceptual insights at the intersection of resource governance, development, and politics of knowledge relevant to researchers, policy-makers and practitioners at a time when rapid change is underway. - Fills a significant knowledge gap on a major river in Southeast Asia, with empirical and conceptual contributions - Inter-disciplinary perspective and by a range of writers, including academics, policy-makers and civil society researchers, the majority from within Southeast Asia - New policy insights on a river at the cross-roads of a major political and development transition

The Whole-Brain Child Daniel J. Siegel,Tina Payne Bryson.2011-10-04 NEW YORK TIMES BESTSELLER • More than 1 million copies in print! • The authors of No-Drama Discipline and The Yes Brain explain the new science of how a child’s brain is wired and how it matures in this pioneering, practical book. “Simple, smart, and effective solutions to your child’s struggles.”—Harvey Karp, M.D. In this pioneering, practical book, Daniel J. Siegel, neuropsychiatrist and author of the bestselling Mindsight, and parenting expert Tina Payne Bryson offer a revolutionary approach to child rearing with twelve key strategies that foster healthy brain development, leading to calmer, happier children. The authors explain—and make accessible—the new science of how a child’s brain is wired and how it matures. The “upstairs brain,” which makes decisions and balances emotions, is under construction until the mid-twenties. And especially in young children, the right brain and its emotions tend to rule over the logic of the left brain. No wonder kids throw tantrums, fight, or sulk in silence. By applying these discoveries to everyday parenting, you can turn any outburst, argument, or fear into a chance to integrate your child’s brain and foster vital growth. Complete with age-appropriate strategies for dealing with day-to-day struggles and illustrations that will help you explain these concepts to your child, The Whole-Brain Child shows you how to cultivate healthy emotional and intellectual development so that your children can lead balanced, meaningful, and connected lives. “[A] useful child-rearing resource for the entire family . . . The authors include a fair amount of brain science, but they present it for both

adult and child audiences.”—Kirkus Reviews “Strategies for getting a youngster to chill out [with] compassion.”—The Washington Post “This erudite, tender, and funny book is filled with fresh ideas based on the latest neuroscience research. I urge all parents who want kind, happy, and emotionally healthy kids to read *The Whole-Brain Child*. This is my new baby gift.”—Mary Pipher, Ph.D., author of *Reviving Ophelia* and *The Shelter of Each Other* “Gives parents and teachers ideas to get all parts of a healthy child’s brain working together.”—Parent to Parent

Divided Waters Helen M. Ingram, Nancy R. Laney. 1995-09 Explains the nature of water development and utilization on the U.S.-Mexico border, using the border city of Nogales as its focus in delineating the social, economic, political, and institutional problems that stand in the way of effective management, and arguing for the development of a more integrated and participatory approach to managing binational water resources.
