The Price We Pay Marty Makary.2019-09-10 New York Times bestseller Business Book of the Year--Association of Business Journalists From the New York Times bestselling author comes an eye-opening, urgent look at America's broken health care system--and the people who are saving it--now with a new Afterword by the author. A must-read for every American. --Steve Forbes, editor-in-chief, FORBES One in five Americans now has medical debt in collections and rising health care costs today threaten every small business in America. Dr. Makary, one of the nation's leading health care experts, travels across America and details why health care has become a bubble. Drawing from on-the-ground stories, his research, and his own experience, *The Price We Pay* paints a vivid picture of the business of medicine and its elusive money games in need of a serious shake-up. Dr. Makary shows how so much of health care spending goes to things that have nothing to do with health and what you can do about it. Dr. Makary challenges the medical establishment to remember medicine's noble heritage of caring for people when they are vulnerable. *The Price We Pay* offers a road map for everyday Americans and business leaders to get a better deal on their health care, and profiles the disruptors who are innovating medical care. The movement to restore medicine to its mission, Makary argues, is alive and well--a mission that can rebuild the public trust and save our country from the crushing cost of health care.

Muzungu Pamela Sisman Bitterman.2011-02-03 Muzungu, the Swahili word for white folk, translated literally means confused person wandering about. During the author's months working and traveling through Kenya, this description fits her to a tee. Her audacious Kenyan adventure makes for a bucket load of anecdotes and impressions born of heart and hands-on experience-enough to knock your socks off. The devil in Africa is in the details, and Muzungu is there in the trenches - raw, down and dirty, unapologetic. The author witnesses religious elders morphing into villains, political leaders exposed as criminals, tribal chiefs engaging in forbidden rituals, disease obliterating a generation, dedicated missionaries at the ends of their ropes, and a country in violent revolt. Her husband is railroaded and sentenced to prison. Her co-worker, the author's stalwart bellwether for hard fact and unlikely personal guide into the shadowy underbelly of the country, ultimately commits suicide. She is present for a bizarre meeting between doctors and activists from President Bush's AIDS Relief Project. With these topics being ever-present on today's world stage, this is one story that is dying to get out there. The author's white skin and declaration that she is a writer become her free pass through each successive door and ticket to all events, bar none: in the hospital wards, surgery rooms, orphan clinics, homes, schools, villages, churches, government offices, during tribal ceremonies and throughout the commission of heinous crimes. The reader will meet an African mission's peculiar band of residents up close and personal, their unsparing good, bad and ugly. The author herself is not immune to this intense scrutiny. Quite the opposite, in fact. No pious filter softens this writer's lens. A living newsreel of realities informs the narrative. Candid conversations and interviews are recorded verbatim and in their entirety. The real AIDS in Africa will be disclosed. Western definition does not apply. In fact, the reader may come to realize that few concepts familiar to them can be applied in Kenya. The term lost in translation emerges as a gross understatement. Fellow volunteers who find themselves trapped in the foxholes during a horrific national political revolution witness and report from the front lines. Secret tribal rituals are described in graphic detail. Long-established cultural traditions are examined. Western religion's influence is dissected. Foreign intervention is challenged. History is revisited. Kenya is deconstructed. The reader is invited into a tiny school where the students create a children's picture book for the author in the hope that she can get it published for them in America. Vignettes from the Orphan Feeding Program and the Mobile Medical Clinic will break hearts. Tribal chiefs, church bishops, heads of Non-Governmental Organizations, leaders of Faith-Based Operations, representatives of all manner of self-righteous American and European groups desperate to leave their idealistic fingerprints on the continent, hold forth. Those with their fingers truly on the pulse of the people furiously demand to be heard as well. However, it is the locals themselves who provide the most unwaveringly transparent view of the Kenyans and their condition. Muzungu is complete with color photographs that will touch anyone who has ever had a financial, spiritual, anthropological, sociological or humanitarian interest in Africa, or those who are simply adventurers at heart. Unlike other books on the subject of Africa, this one is specific to the author's own uniquely personal experience with Kenya - too fantastic to be believed. Almost.

Transfer Pricing and Dispute Resolution Anuschka Bakker, Marc M. Levey. 2011 This book addresses the complexity, valuation and administrative nuances, and cultural impacts of resolving this significant cross-border issue when tax disputes arise. In recent years, transfer pricing has become in financial terms the most important tax issue faced by multinational companies and tax authorities worldwide. In times of economic downturn, as experienced in recent years, when tax authorities are challenged for revenue, the handling of these issues requires great care, skill, creativity and a true awareness of the ramifications confronting each tax jurisdiction. This book sets out in detail not only the general laws in each tax jurisdiction impacted by the multinational companies' transfer pricing practices, but also the ancillary concerns of how the issue is interpreted locally as well as related to the OECD Guidelines; the varied approaches to administrative resolution of these issues, including specific alternative dispute resolution mechanisms and the effective uses of advance pricing agreements; correlative adjustment procedures in the event of transfer pricing adjustments; cross-border exchange of information concerns; and how to proceed to litigation if all else fails administratively. It is here that the book delves into the specific procedures for litigation in each country which must be evaluated as part of the overall strategy for controversy resolution. Unfortunately, today litigation is on the rise in numerous jurisdictions and the presumption of an administrative resolution is no longer correct. An additional feature of this book is how practical anecdotes are intertwined into the analysis to give the reader a sense of pragmatism for these issues. To this point, there are the various case studies which highlight the technicalities of the local rules, customs, and practices.

Experiencing China Detlev Kirchgatter. 2003 If you are planning to enter the burgeoning Chinese economy, may he be a person with just an interest in this fourth largest country in the world and a population of 1.3 billion people. I went to China to discover facts of Chinese life, its fantastic progress, to see if I could make new friends and above all, to separate fact from fiction in my mind. In ten months' stay of travel, acting as a foreign expert, I had the opportunity to meet Chinese from every walk of life. Those heads of high technology plants to simple students from Tibet, to the ancient farmer having lived through the dark ages of the Mao period, a period that is not talked about and is best forgotten. The adage that East and West shall never meet I would now firmly discard as one of the fictions adhered to in the West. For when one delves below the superficiality one will find, regardless if in the West or the East, humanity has the same wants, feels the same pains as well as joys.

Trafalgar Sunrise Danielle Lim. 2018-06-15 Grace Hwang battles alongside fellow healthcare workers in Singapore when the Severe Acute Respiratory Syndrome (SARS) virus strikes in 2003. She looks back at her years in Trafalgar Home, a leper colony where she lived from 1961 to 1968. Alice, a friend from Trafalgar, is dying of cancer when SARS strikes. Alice had a baby while in Trafalgar Home, who had to be given up for adoption. Now, in the thick of SARS, Grace attempts to reunite Alice with her daughter before Alice dies, and seeks to discover who found the cure to leprosy. SARS is woven together with the leprosy plotline, another frightening illness that led to its sufferers being quarantined. Although the characters in the novel are fictional, the backdrop of events and places — SARS, Trafalgar Home, leprosy and its cure — are real and an important part of Singapore's history. Formerly known as the Singapore Leper Asylum, Trafalgar Home was a state-sanctioned asylum to detain leprosy sufferers indefinitely. The Leprosy Act was repealed in Singapore in 1976. Now, the story of Trafalgar Home is told to the many Singaporeans who have never heard of it or have forgotten it. This moving, thought-provoking story will strike at the hearts of many Singaporeans across a range of age groups, as it centres on the SARS outbreak of 2003. This event in our recent history is still remembered by many Singaporeans. In Singapore, 33 people died and 238 were infected, many who were healthcare workers who made tremendous sacrifices.

Learning from SARS Institute of Medicine, Board on Global Health, Forum on Microbial Threats. 2004-04-26 The emergence of severe acute respiratory syndrome (SARS) in late 2002 and 2003 challenged the global public health community to confront a novel epidemic that spread rapidly from its origins in southern China until it had reached more than 25 other countries within a matter of months. In addition to the number of patients infected with the SARS virus, the disease had profound economic and political repercussions in many of the affected regions. Recent reports of isolated new SARS cases and a fear that the disease could reemerge and spread have put public health officials on high alert for any indications of possible new outbreaks. This report examines the response to SARS by public health systems in individual countries, the biology of the SARS coronavirus and related coronaviruses in animals, the economic and political fallout of the SARS epidemic, quarantine law and other public health measures that apply to combating infectious diseases, and the role of international organizations and scientific cooperation in halting the spread of SARS. The report provides an illuminating survey of findings from the epidemic, along with an assessment of what might be needed in order to contain any future outbreaks of SARS or other emerging infections.

Online Information Services in the Social Sciences Neil Jacobs, Lesly Huxley. 2004-05-31 Information professionals are increasingly responsible not only for running traditional information and library services but also for providing an online presence for their organisation. This book shows how best practice in delivering online information services should be based on actual user needs and behaviour. A series of case studies provide real life examples of how social science information is being used in the community. The book then draws on these case studies to outline the main issues facing service providers: such as usability, metadata and management. The book concludes with a look to the future and how both technological and organisational changes will shape online information services. Case studies show how - in practical terms - information science issues relate to users' behaviour. Written by experts in the field, with each chapter drawing on both case studies and extensive experience in the field. Can be used as a detailed reference or an overview.
