Beginning Topology Sue E. Goodman. 2021-08-04 Beginning Topology is designed to give undergraduate students a broad notion of the scope of topology in areas of point-set, geometric, combinatorial, differential, and algebraic topology, including an introduction to knot theory. A primary goal is to expose students to some recent research and to get them actively involved in learning. Exercises and open-ended projects are placed throughout the text, making it adaptable to seminar-style classes. The book starts with a chapter introducing the basic concepts of point-set topology, with examples chosen to captivate students' imaginations while illustrating the need for rigor. Most of the material in this and the next two chapters is essential for the remainder of the book. One can then choose from chapters on map coloring, vector fields on surfaces, the fundamental group, and knot theory. A solid foundation in calculus is necessary, with some differential equations and basic group theory helpful in a couple of chapters. Topics are chosen to appeal to a wide variety of students: primarily upper-level math majors, but also a few freshmen and sophomores as well as graduate students from physics, economics, and computer science. All students will benefit from seeing the interaction of topology with other fields of mathematics and science; some will be motivated to continue with a more in-depth, rigorous study of topology.

The Man Who Laughs Victor Hugo. 2011-05-01 Moving away from the explicitly political content of his previous novels, Victor Hugo turns to social commentary in *The Man Who Laughs*, an 1869 work that was made into a popular film in the 1920s. The plot deals with a band of miscreants who deliberately deform children to make them more effective beggars, as well as the long-lasting emotional and social damage that this abhorrent practice inflicts upon its victims.

South Asian Pornographies Darshana Sreedhar Mini, Anirban K. Baishya. 2024-06-21 *South Asian Pornographies* is the first consolidated volume that explores the relationships between pornography, obscenity, law and desire in South Asia. Focusing on case studies from India, Sri Lanka and Bangladesh while gesturing towards other countries in South Asia, the authors of this volume come from fields as varied as history, literature, media and communication, and the visual arts. The book proposes that as a geo-political location, South Asia has a unique relationship to pornography, given the multiplicity of cultural and legal-censorial regimes that define the obscene and the permissible. South Asian case studies can demonstrate how pornography in the region is often defined in oblique terms, finding reflection in various modes of popular (and sometimes underground) culture, bypassing legal and censorial constraints. Like questions of identity that can only be answered in the plural (identities rather than identity), this book demonstrates how a range of pornographies constitutes the force field of sexualized media in South Asia. It will be of interest to researchers and advanced students of Communication Studies, Cultural Studies, Film Studies, History, Sociology, and Social and Cultural Anthropology. The chapters in this book were originally published in the journal *Porn Studies*.

Read this book at your own peril. Olivia Kade wrote the book that ended the world. Now she needs someone who won't read it. Civilization is a lie. Hidden deep in our genes is the truth. Her book, *SATYR*, is an international bestseller, and it is being blamed for acts of senseless violence and bloodshed all over the world. Indian by Choice Amit Dasgupta. 2011-02-02 *Indian by Choice* tackles the complex theme of identity; it is a journey of self-discovery through the myriad human relationships that help us see things in perspective and in context. Written in the form of a graphic novel, it tells the story of Mandy, a second generation Indian, born and brought up in Chicago. He is as American as they come - hot dogs, French Fries, baseball and the love of all things American, especially blonde. He is, of course, no different from his clones who are in several other parts of the world - England and Australia, the Netherlands and Canada. They blend with their surroundings by assimilating the culture of their adopted home and denying their Indian roots and heritage. In the case of the hero of our book, he has even changed his name from Mandeep to Mandy! He is required, under duress, to travel to India for a family wedding and despite his fears and his doubts, his distaste and his abhorrence of 'all things Indian', he finds himself drawn into a world that he was familiar with only through his relationship with his parents and sister. These had to do with strong and pervasive family ties and bonding, friendships that were open and warm-hearted. All this appeared to be so 'normal and natural' in India. Through candid discussions, he confronts his fears and ignorance about India. When it is time for him to leave, he finds that there is much about India he simply did not know and a great deal he would like to know more. He increasingly reconciles with his suppressed identity. He willingly makes the choice of not denying his Indian roots. He is an Indian by choice.

Neighbourhoods in Urban India Sadan Jha,Dev Nath Pathak,Amiya Kumar Das.2021-12-30 '...a brilliant exploration of urbanism between the concept city and the lived city.... The volume focuses on urban life lived between home and the world, institutions and experiences, representations and affects.... Its fascinating range of empirically rich and analytically sophisticated excavations of neighbourhoods make the volume a must-have in the bookshelf on South Asian urban studies.' -Gyan Prakash, Princeton University 'A must-read for those who wish to study the micro aspects of contemporary urbanity.' -Sujata Patel, Savitribai Phule Pune University 'This book is a powerful addition to the study of Indian urbanism.' -Ravi Sundaram, Centre for the Study of Developing Societies (CSDS) In the last couple of decades, the global South, in general, and India, in particular, have witnessed a massive growth of cities. In India, more than one-third of its population lives in cities. However, urban development, growth and expansion are not merely about infrastructures and enlargement of cityscapes. This edited volume focuses on neighbourhoods, their particularities and their role in shaping our understanding of the urban in India. It locates Indian experiences in the larger context of the global South and seeks to decentre the dominant Euro-American discourse of urban social life. *Neighbourhoods in Urban India: In Between Home and the City* offers an understanding of neighbourhoods as changing socio-spatial units in their specific regional settings by underlining the way value regimes (religiosity and subjectivities) give neighbourhoods their social meanings and stereotypes. It unpacks discourses and knowledge practices, such as planning, architecture and urban discourses of governance. It further discloses the linkages and disjunctures between the social practices of neighbourhoods and the language, logic and experiences of dwelling, housing, urban planning and governance, and focuses on the particularities and heterogeneities of neighbourhoods and neighbourliness.
