A Dangerous Fiction Barbara Rogan.2013-07-25 When a glamorous literary agent falls prey to a violent stalker, she discovers that the publishing biz can really be murder, for fans of *The Spellman Files* and *Maisie Dobbs* “Suspenseful . . . Barbara Rogan cleverly explores . . . our capacity for self-deception and weaves it into an absorbing mystery that keeps its secret until the very end.” —NPR Jo Donovan always manages to come out on top. Originally from the backwoods of Appalachia, she forged a hard path to elegant lunches and parties among New York City’s literati. At thirty-five, she’s the widow of the renowned novelist (and notorious playboy) Hugo Donovan, the owner of one of the best literary agencies in town, and is one of the most sought-after agents in the business. But all this is about to fall apart, as a would-be client turns stalker, a hack shops around a proposal for an unauthorized tell-all biography of Hugo, and a handsome old flame shows up without warning. Both a seasoned author and a former literary agent herself, Barbara Rogan knows the publishing world from all angles. Fans of Lisa Lutz and Jaqueline Winspear will adore Jo Donovan and Rogan’s wickedly sharp tale that skewers the dangerous fictions we read—and the dangerous fictions we tell ourselves.

The Making of Modern Colombia David Bushnell.1993-02-09 Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.

The Rejection of Consequentialism Samuel Scheffler.1994-08-11 In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Oppositional Voices Tina Kronitiris.2014-05-22 *Oppositional Voices* is a study of six women writers in the late Elizabethan period, who, ignoring Renaissance society's injunction that women should confine themselves to religious compositions, wrote and translated poetry, drama and romantic fiction. Tina Kronitiris brings together their work, including at times their voiced opposition to certain oppressive ideas and stereotypes. Rather than simply glorify these voices, her study subtly probes the influence of a culture inimical to female creative activity on the writings of these women.

The Acharnians Aristophanes.2021-04-25 *Acharnians* is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance from some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.

On the Government of Rulers Ptolemy of Lucca, Thomas Aquinas.2010-11-24 Ptolemy, considered a proto-Humanist by some, combined the principles of Northern Italian republicanism with Aristotelian theory in his *De Regimine Principum*, a book that influenced much of the political thought of the later Middle Ages, the Renaissance, and the early modern period. He was the first to attack kingship as despotism and to draw parallels between ancient Greek models of mixed constitution and the Roman Republic, biblical rule, the Church, and medieval government. In addition to his translation of this important and radical medieval political treatise, written around 1300, James M. Blythe includes a sixty-page introduction to the work and provides over 1200 footnotes that trace Ptolemy's sources, explain his references, and comment on the text, the translation, the context, and the significance.

When Scotland Was Jewish Elizabeth Caldwell Hirschman, Donald N. Yates.2015-05-07 The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland’s history has been largely ignored for centuries? This book argues that much of Scotland’s history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland’s identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors’ wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

Modern Wales Kenneth O. Morgan.1995 Drawing on an unrivalled knowledge of the sources, Kenneth O. Morgan discusses in this important collection key issues in the making of modern Wales as a distinctive part of the United Kingdom. The essays range from the age of Lloyd George to that of Aneurin Bevan. The topics addressed include Church disestablishment, war and peace, the university movement, the challenge of the new Liberalism, of socialism and of industrial unionism, the Attlee government, and the abiding influence of nationhood and nationalism. The second section focuses on localities, on political and social change and challenge in communities as diverse as rural Cardiganshire and Montgomeryshire, the south Wales valleys and the urban centres of Cardiff and Swansea. In the final section, there is a series of penetrating studies of major political

personalities of the period: outstanding Liberals such as Gladstone, David Lloyd George, Tom Ellis, Stuart Rendel and Lord Rhondda; Labour and socialist leaders such as Mabon, Noah Ablett, Jim Griffiths and Aneurin Bevan; and the Welsh biographical tradition down to the revived nationalism of the contemporary era.

Scanderbeide Margherita Sarrocchi.2007-11-01 The first historical heroic epic authored by a woman, Scanderbeide recounts the exploits of fifteenth-century Albanian warrior-prince George Scanderbeg and his war of resistance against the Ottoman sultanate. Filled with scenes of intense and suspenseful battles contrasted with romantic episodes, Scanderbeide combines the action and fantasy characteristic of the genre with analysis of its characters' motivations. In selecting a military campaign as her material and epic poetry as her medium, Margherita Sarrocchi (1560?-1617) not only engages in the masculine subjects of political conflict and warfare but also tackles a genre that was, until that point, the sole purview of men. First published posthumously in 1623, Scanderbeide reemerges here in an adroit English prose translation that maintains the suspense of the original text and gives ample context to its rich cultural implications.

White Poison Kayemb ". Uri L. ". Nawej.2006-09-26 White Poison is probably the strongest and most reasonable appeal ever addressed to the African continent, for its spiritual liberation, and therefore its real independence. With non refutable historical facts, the author calls upon his African brothers and sisters to break down the chains in which colonial christian Europe still oppresses them. He encourages them to find back the glory and the values of their own ancestral spiritual heritage. This book has the power to revolutionize spiritual life in Africa. This book is a new religious message which offers to Africans the keys for their real spiritual decolonization, a real new authentic gospel for Africa. An intense call for Africa to wake up. You read it, and you will never again be the same.

Architectural Temperance Victor Deupi.2015-03-05 Architectural Temperance examines relations between Bourbon Spain and papal Rome (1700-1759) through the lens of cultural politics. With a focus on key Spanish architects sent to study in Rome by the Bourbon Kings, the book also discusses the establishment of a program of architectural education at the newly founded Real Academia de Bellas Artes de San Fernando in Madrid. Victor Deupi explores why a powerful nation like Spain would temper its own building traditions with the more cosmopolitan trends associated with Rome; often at the expense of its own national and regional traditions. Through the inclusion of previously unpublished documents and images that shed light on the theoretical debates which shaped eighteenth-century architecture in Rome and Madrid, Architectural Temperance provides readers with new insights into the cultural history of early modern Spain.

Meet Me at the Fair: A World's Fair Reader Celia Pearce,Bobby Schweizer,Laura Hollengreen,Rebecca Rouse.2014 Together with the Olympics, world's fairs are one of the few regular international events of sufficient scale to showcase a spectrum of sights, wonders, learning opportunities, technological advances, and new (or renewed) urban districts, and to present them all to a mass audience. Meet Me at the Fair: A World's Fair Reader breaks new ground in scholarship on world's fairs by incorporating a number of short new texts that investigate world's fairs in their multiple aspects: political, urban/architectural, anthropological/ sociological, technological, commercial, popular, and representational. Contributors come from eight different countries and represent affiliations in academia, museums and libraries, professional and architectural firms, non-profit organizations, and government regulatory agencies. In taking the measure of both the material artifacts and the larger cultural production of world's fairs, the volume presents its own phantasmagoria of disciplinary perspectives, historical periods, geographical locales, media, and messages, mirroring the microcosmic form of the world's fair itself.

Saturn and Melancholy Raymond Klibansky,Erwin Panofsky,Fritz Saxl.2019-11-21 Saturn and Melancholy remains an iconic text in art history, intellectual history, and the study of culture, despite being long out of print in English. Rooted in the tradition established by Aby Warburg and the Warburg Library, this book has deeply influenced understandings of the interrelations between the humanities disciplines since its first publication in English in 1964. This new edition makes the original English text available for the first time in decades. Saturn and Melancholy offers an unparalleled inquiry into the origin and development of the philosophical and medical theories on which the ancient conception of the temperaments was based and discusses their connections to astrological and religious ideas. It also traces representations of melancholy in literature and the arts up to the

sixteenth century, culminating in a landmark analysis of Dürer's most famous engraving, Melencolia I. This edition features Raymond Klibansky's additional introduction and bibliographical amendments for the German edition, as well as translations of source material and 155 original illustrations. An essay on the complex publication history of this pathbreaking project - which almost did not see the light of day - covers more than eighty years, including its more recent heritage. Making new a classic book that has been out of print for over four decades, this expanded edition presents fresh insights about Saturn and Melancholy and its legacy as a precursor to modern interdisciplinary studies.

Hmong-Miao in Asia Nicholas Tapp, Jean Michaud, Christian Culas, Gary Y. Lee.2004 This volume presents the most comprehensive collection of research on Hmong culture and life in Asia yet to be published. It compliments the abundant material on the Hmong diaspora by focusing instead on the Hmong in their Asian homeland. The contributors are scholars from a number of different backgrounds with a deep knowledge of Hmong society and culture, including several Hmong. The first group of essays addresses the fabric of Hmong culture by considering issues of history, language, and identity among the Hmong/Miao from Laos to China. The second part introduces the challenges faced by the Hmong in contemporary Thailand, Laos, and Vietnam. Nicholas Tapp is senior fellow in anthropology at the Australian National University. Jean Michaud is associate researcher in Asian studies at University de Montreal. Christian Culas is a member of the National Center for Scientific Research in Marseille. Gary Yia Lee is senior ethnic liaison officer for New South Wales.
