vivid character of the mountains into his dishes at St. Hubertus, the only Michelin 3-starred restaurant with completely regional cuisine. In the first volume of this 2-book set, brilliant photographs reveal both unspoiled landscapes and the agricultural and architectural changes humans have made in the past millennia. Striking portraits of locals capture the people and producers Niederkofler works with. Breathtaking food photography conveys the stunning ingredients and creations that Niederkofler develops. The second volume includes 80 of Niederkofler's recipes, divided into the four seasons to reflect his ethos of sustainability. Understanding Consumers of Food Products Lynn

Frewer,Hans Van Trijp.2006-12-22 In order for food businesses, scientists and policy makers to develop successful products, services and policies, it is essential that they understand food consumers and how they decide which products to buy. Food consumer behaviour is the result of various factors, including the motivations of different consumers, the attributes of specific foods, and the environment in which food choices occur.

Recognising diversity between individual consumers, different

stages of life, and different cultural contexts is increasingly important as markets become increasingly diverse and international. The book begins with a comprehensive introduction and analysis of the key drivers of consumer food choices, such as the environment and sensory product features. Part two examines the role of consumers' attitudes towards quality and marketing, and their views on food preparation and technology. Part three covers cultural and individual differences in food choice as well as addressing potentially influential factors such as age and gender. Important topics such as public health and methods to change consumers' preferences for unhealthy foods are discussed in part four. The final section concludes with advice on developing coherent safety policies and the consumers' responsibility for food production and consumption. Understanding consumers of food products is a standard reference for all those in the food industry concerned with product development and regulation. Develop an understanding of buyer behaviour to assist developing successful products Recognise the diversity between consumers and learn how to cater for their needs Covers cultural and individual differences in food choice

Tartine Bread Chad Robertson.2013-10-29 The Tartine Way — Not all bread is created equal The Bread Book ...the most beautiful bread book yet published... -- The New York Times, December 7, 2010 Tartine — A bread bible for the home or professional bread-maker, this is the book! It comes from Chad Robertson, a man many consider to be the best bread baker in the United States, and co-owner of San Francisco's Tartine Bakery. At 5 P.M., Chad Robertson's rugged, magnificent Tartine loaves are drawn from the oven. The bread at San Francisco's legendary Tartine Bakery sells out within an hour almost every day. Only a handful of bakers have learned the techniques Chad Robertson has developed: To Chad Robertson, bread is the foundation of a meal, the center of daily life, and each loaf tells the story of the baker who shaped it. Chad Robertson developed his unique bread

over two decades of apprenticeship with the finest artisan bakers in France and the United States, as well as experimentation in his own ovens. Readers will be astonished at how elemental it is.

Bread making the Tartine Way: Now it's your turn to make this bread with your own hands. Clear instructions and hundreds of step-by-step photos put you by Chad's side as he shows you how to make exceptional and elemental bread using just flour, water, and salt. If you liked Tartine All Day by Elisabeth Prueitt and Flour Water Salt Yeast by Ken Forkish, you'll love Tartine Bread!
