Rabah Arezki,Meriem Ait Ali Slimane,Andrea Barone,Detter Klaus,Klaus Decker,Dag Detter,Rachel Yuting Fan,Ha Nguyen,Graciela Murciago,Lemma Senbet.2019-10-08 La première partie du présent rapport examine les perspectives de croissance à court et à moyen terme des pays de la région Moyen-Orient et Afrique du Nord (MENA). Elle indique que la région devrait enregistrer un taux de croissance modeste de 0,6 % en 2019, qui devrait monter à 2,6 % en 2020 et atteindre 2,9 % en 2021. Les prévisions de croissance pour 2019 ont été réduites de 0,8 point de pourcentage par rapport aux projections d'avril 2019. Des risques baissiers substantiels pèsent sur les perspectives économiques de la région — les plus notables étant l'intensification des difficultés de l'économie mondiale et l'accroissement des tensions géopolitiques. Dans la deuxième partie du rapport, il est démontré que les pays de la région doivent asseoir une concurrence loyale pour passer complètement d'une économie administrée à une économie de marché. Les auteurs commencent par examiner les politiques de concurrence en vigueur dans la région, puis appellent au renforcement des lois sur la concurrence et des organismes chargés de les faire respecter, en vue de promouvoir des pratiques équitables. Ils préconisent également de transformer les entreprises publiques en sociétés commerciales, d'encourager le secteur privé et d'uniformiser les règles du jeu pour tous. Toute initiative de réforme des économies de la région serait appuyée par une gestion professionnelle des actifs publics, laquelle pourrait puiser dans une nouvelle source de richesse nationale.

The Role of the Management Accountant Lukas Goretzki,Erik Strauss.2017-09-27 There is considerable national variation in the professionalization and status of the management accountant. Although researchers from different countries have contributed to our knowledge about tasks and roles, we have limited insights into the development, education, and socio-cultural influences in different countries and surprisingly little is known about the local and national contexts in which these roles are learned and performed. This book bridges this research gap using two complementary perspectives. The first part explores management accountants in a range of different national contexts, providing information about country-specific historical developments and educational standards as well as specific roles and tasks. The second part focusses on important global developments that will increasingly impact management accountants in the future, such as sustainability, the financial crisis, technology and changing roles. By combining local context with a global overview, this insightful volume provides an agenda for future research which will be of great interest to

scholars and advanced students in management accounting throughout the world.

Gestion et administration des entreprises Akoun Joseph Adoyi.2011 Les Concepts Clefs en Management développés dans ce livre font ressortir les informations nécessaires sur les points de réflexion et les lignes d'actions managériales en syntonie avec les exigences de l'entrepreneuriat. Dans un style simple et percutant, Monsieur Adoyi Akoun Joseph nous définit les lois sur lesquelles influent ces exigences et nous montre la manière simple de savoir décider ; car de toute part, des informations nous assaillent sans que nous puissions toujours démêler le vrai du faux, les faits des interprétations. Les mécanismes économiques nous paraissent déployer leurs contraintes bien au delà de notre portée ; Appuyé sur une documentation vaste et précise avec des thèmes bien choisis tels que le machiavélisme et le management, l'ergonomie, la théorie des attentes, le stress, les écoles de pensée et d'analyse stratégique, la culture d'entreprise, le tableau de bord, la gestion des conflits dans l'entreprise, la gestion de la carrière, l'absentéisme dans l'entreprise, le recrutement, l'organisation scientifique du travail, l'éthique dans l'entreprise, le pouvoir, etc, ce livre suscitera à coup sûr de nombreuses réactions compte tenu des idées nouvelles qu'il développe.
