Backbone Ph.D. Julia Dye.2019-05-22 Noncommissioned officers stand as the backbone of the United States Marine Corps. The Corps is among the most lasting institutions in America, though few understand what makes it so strong and how that understanding can be applied effectively in today's world. In this insightful and thoroughly researched book, Julia Dye explores the cadre of noncommissioned officers that make up the Marine Corps' system of small-unit leadership. To help us better understand what makes these extraordinary men and women such effective leaders, Dye examines the fourteen leadership traits embraced by every NCO. These qualities— including judgment, enthusiasm, determination, bearing, and unselfishness—are exemplified by men like Terry Anderson, the former Marine sergeant who spent nearly seven years as a hostage in Beirut, John Basilone, the hero of the Pacific, and many others. To assemble this extraordinary chronicle, Julia Dye interviewed Anderson and dozens of other Marines, mining a rich trove of historical and modern NCO heroes that comprise the Marine Corps' astonishing legacy, from its founding in 1775 to the present day.

*Essential Leadership Lessons from the Thin Blue Line* Dean Crisp. 2021-09-07 A veteran police chief's hard-won lessons on leading yourself, leading others, and leading an organization. *Essential Leadership Lessons from the Thin Blue Line* is just that &- lessons learned the old-fashioned way through trial and error, studying, hard work, and experience while on our nation's front lines to serve and protect. Dean Crisp spent decades leading people where a single misstep could cost a life. Faced with the daily challenges of a police chief, Dean threw himself into learning all he could about effective leadership and applying those lessons in his departments. He shares those hard-won lessons in this book. Dean lays the book out into three key sections that build on each other to help you become a better leader: Leading Yourself, Leading Others, Leading the Organization. Dean's approach to leadership is built on his concept of Diamond Leadership, a four-point method that creates a self-perpetuating synergy for positive change. Dean has taught this method in elite conferences to countless rising leaders, and now he brings it to you. I think that all leaders want to be really good at leading and most seek ways to improve. Some are even willing to go to extraordinary lengths to become the best. I am hoping this book will inspire others to be their best and to constantly strive to get better, to shoot for the stars, to get outside their comfort zones, and to push themselves to become remarkable. &-Dean Crisp Built on the success of Dean's debut leadership book, *Leadership Lessons from the Thin Blue Line*, this new release features a revised approach to the curriculum, expanded information, and a streamlined formula to develop the leader within you. *Essential Leadership Lessons from the Thin Blue Line* uses personal anecdotes to drive home the human element of leadership and will connect with you at any point on your journey to

becoming a significant leader. My motive and intent in writing this book is simple: I want to provide the reader with leadership lessons and experiences which I hope will help you, the reader, to become a better leader and, more importantly, a better person. &-Dean Crisp

**Extreme Ownership** Summary Station. 2016 This is a book for anyone wanting to learn to be a better leader. While it does contain stories of war time, it is about what Jocko and Leif learned that led them to victory. A way to construct, educate, and motivate your teams to accomplish the goals you have set forth. Most leadership books focus on the individual, even corporate training programs seem to follow the same guidelines. But to have strong leadership you need to have a strong team. There will come a time when a leader and their team fails, it is a fact of life, mistakes happen, but we can learn from them and become better from having gone through it. When everything seems to be up in the air and you've got a lot of balls that you are juggling, you have to remember to relax, look around, and make a call. This may not be a war your company is engaging in, but you still need to decide what is most important out of all you've got going on, and make a decision about that one thing. Great leadership is the reason behind the success of any team, and that isn't just the senior leaders, but the junior leaders as well. It takes everyone doing their part to make it a success. The best leaders don't care about the tiny part they play in the process and how to make themselves outshine everyone else, the best leaders just want the project to be a success and do what they need to do to help it along.

Elite and True James L. Barnhart.2022-08-09 Begin your journey to increased personal and professional productivity and strengthened workforce morale as you apply elite leadership lessons Inspiring, educational, and entertaining, *Elite and True* translates James Barnhart's real-life experiences in the US Navy's Officer Candidate School, Nuclear Power School, and submarine service into deeper leadership insights than most people will ever experience in their entire careers. Barnhart deftly transforms his own military experiences into a broad format that readers can apply to general leadership situations in their own lives. Many people seem to confuse leadership and management, or to incorrectly use the two terms interchangeably. As one officer succinctly stated to distinguish leadership from management, "You lead people, while you manage things." Never confuse management of assets, budgets, projects, or any inanimate object with leadership of cognizant, sentient, emotional human beings. To lead is to inspire people to perform. To manage is to measure and prioritize actions. The skills necessary for management differ markedly from those of leadership. Whenever you're unsure of an answer, there is no better response than, "I do not

know, but I will find out." This is the universal right answer. To hazard an unqualified guess can mislead the inquirer, and the basic "I don't know" is insufficient. The key is to honestly admit to not knowing, then to make real efforts to seek out and return the answer at the soonest opportunity. Beneficiaries of hard-won and valuable lessons from the author's own life in the US Navy and as a manager in the corporate world, readers will learn how to develop leadership capabilities in four clear phases: unsure follower, determined follower, positional leader, and true leader. The true leader is the authentic leader, true to oneself and to others. When readers finish *Elite and True*, they will feel motivated and energized—and know that they can accomplish more personally—and with their teams—than they could previously. This unique book is for those who aspire to lead, are presently leading, or who hold a management position in government or the private sector.

*Leadership Lessons of the Navy Seals* Jeff Cannon,Lt. Cmdr. Jon Cannon.2011-08-01 Not too long ago, a group of SEALs boarded a vessel that was racing for Iranian waters. The SEALs had watched the vessel for some time. The vessel's lights had been extinguished, and it was traveling late at night at the edge of the shipping lane. It rode low in the water, and its hatches had been welded shut. Barbed wire wound around its deck, and its windows had been boarded up, except for small slits to allow the crew to navigate. Whatever was in its hull would eventually help pay for several ex-Soviet ballistic physicists, surface-to-air guidance systems, and new microbe incubation chambers. The SEALs moved quietly along the main deck, around funnels and hoisting cranes, until they approached the pilothouse. One hatch on the pilothouse had not been welded shut, but it had been bolted on the inside. The SEALs surveyed the structure and then announced to whoever was inside that they were on board. They demanded that the hatch be opened. They were ignored. There was an outside chance that these were innocent civilian merchants; if they had not been, the SEALs would have blown through the walls immediately. Instead, they kept their weapons pointed toward the structure while they unpacked their manual cutting devices. The crew inside could be heard chattering nervously, but they still refused to open the door. In a few moments, their protests were irrelevant. They were in restraints. Their master was being questioned. The vessel had been stopped just short of Iranian waters. Soon, its contents would be offloaded and the hull would be auctioned off in Mombasa or Dubai. Six weeks later, on a Saturday afternoon, the second SEAL in charge of the group that had boarded the vessel sat and nursed his beer in a nondescript bar in San Diego. The platoon commander finished mowing his lawn. Later, he played soccer with his kids and cooked dinner on the barbecue for his wife. The platoon chief worked in his garage on his 1972 Vega. The petty officers studied for college degrees, practiced with their bands, worked out, or went surfing. If you saw any of them that night or the next morning, you wouldn't know who they were or what they had done. Professionalism has been a SEAL theme since the first two SEAL teams were formed in 1962. That was when President Kennedy recognized the need for commando shock troops that could counter the growing number of insurrections, guerilla movements, and terrorist organizations in the world. Today, there are eight SEAL teams, four on each coast. There are also four special boat detachments that control the fast boats that insert and extract SEALs along coasts and waterways. Despite their Navy lineage, SEALs are as proficient on land as they are in water and in the air,

something that is frequently overlooked. They parachute and conduct ambush and sniper operations. They train as heavily in land navigation and land warfare as they do in water operations. In fact, the only real difference between taking down a beach house and taking down an inland house is that SEALs have more options for approaching the beach house because they can also use dive gear or boats. The actions at the target are the same. And taking down either type of house doesn't approach the complexities and hurdles of taking down a moving cruise ship or container vessel at sea. SEALs train continuously and hard. The initial SEAL training, at Basic Underwater Demotion School (BUD/S), is 6 months long and routinely stresses its students to such a degree that there is an 80 percent dropout rate. Following BUD/S, students attend courses in parachuting, mini-submarine operations, sniping, communications, demolitions, field medicine, languages, and a wide range of other areas. By the time they enter a SEAL team and are selected for a SEAL platoon, they will have received their masters in unconventional commando warfare.

**The Navy SEAL Art of War** Rob Roy, Chris Lawson. 2015-04-28 In a groundbreaking, narrative-driven book for businesses, managers (and those who aspire to the managerial ranks), and entrepreneurs, a veteran Navy SEAL Chief Petty Officer shows how the skills that enable SEAL teams to achieve the impossible in the battlefield can help business executives and career-minded individuals make better decisions and get the best out of their teams. Anyone can make good decisions when everything is in their favor. But in life, as in war, it's in chaotic, challenging times that genuine leaders distinguish themselves. As a Navy SEAL Chief Petty Officer, Rob Roy learned this lesson over twenty-five years of combat, in which the difference between life and death was his team's ability to decode complex environments, take decisive action, and seize opportunities when they presented themselves. In *The Navy SEAL Art of War*, Roy decodes the leadership lessons of the battlefield for today's business leaders and individuals: how to make good decisions under pressure, how to utilize and leverage the strengths of others while minimizing the weaknesses of the individual or team, and how to act instead of react, anticipating events despite having minimal information and effectively communicating tasks and priorities. Illustrated with countless stories from the front lines, and featuring unprecedented exercises and drills from the SEALs' training program, *The Navy SEAL Art of War* is destined to take its place beside *It's Your Ship* as a bestselling business classic.

**West Point Admiral** Shelton Radm Cec Usn (Ret) Michael W. 2022-04 How can you be a West Point graduate and a Navy admiral? Mike Shelton has been asked that question many times throughout his life! Indeed, when Cadet Michael Shelton began his Plebe year at the United States Military Academy at West Point in 1963, he had no idea that four decades later he would retire from military service as a Rear Admiral in the US Navy. In *West Point Admiral: Leadership Lessons from Four Decades of Military Service*, Shelton outlines his military career beginning with West Point, the war in Vietnam, and through postings across the globe. Along the way, he witnessed firsthand the traits of good leadership--and bad--as he rose steadily through the ranks. Shelton provides his candid perspective on how the military has evolved through the years and the differences between Army/Navy philosophies, all while telling the story of his life in the service and his beloved US Navy Seabees.

As leaders of SEAL Team Three's Task Unit Bruiser, their mission was one many thought

impossible: help U.S. forces secure Ramadi, a violent, insurgent-held city deemed all but lost. In gripping, firsthand accounts of heroism, tragic loss, and hard-won victories, they learned that leadership—at every level—is the most important factor in whether a team succeeds or fails. Willink and Babin returned home from deployment and instituted SEAL leadership training to pass on their harsh lessons learned in combat to help forge the next generation of SEAL leaders. After leaving the SEAL Teams, they launched a company, Echelon Front, to teach those same leadership principles to leaders in businesses, companies, and organizations across the civilian sector. Since that time, they have trained countless leaders and worked with hundreds of companies in virtually every industry across the U.S. and internationally, teaching them how to develop their own high-performance teams and most effectively lead those teams to dominate their battlefields. Since its release in October 2015, *Extreme Ownership* has revolutionized leadership development and set a new standard for literature on the subject. Required reading for many of the most successful organizations, it has become an integral part of the official leadership training programs for scores of business teams, military units, and first responders. Detailing the mindset and principles that enable SEAL units to accomplish the most difficult combat missions, *Extreme Ownership* demonstrates how to apply them to any team or organization, in any leadership environment. A compelling narrative with powerful instruction and direct application, *Extreme Ownership* challenges leaders everywhere to fulfill their ultimate purpose: lead and win. Editorial Reviews

*Unstoppable Teams* Alden Mills.2019-03-26 Three-time Navy SEAL platoon commander and founder

of Perfect Fitness reveals how to put together teams that can accomplish any objective—by leveraging an unexpected set of values and priorities. SEALs and civilians operate in extremely different environments, but what makes both kinds of teams excel comes down to the same thing: service to others, trust, empathy, and a caring environment. Alden Mills has experience working in both the military and the private sector, as a SEAL platoon commander and as a startup founder of Perfect Fitness. He's seen firsthand what it takes to lead an unstoppable team of individuals. Teams are nothing more than a series of interconnected relationships with a collective, single-minded focus. Success almost never depends on individual talent and valor; instead, Alden Mills shows, it depends, first, on creating a strong foundation for yourself and, second, using that foundation to help others go beyond their individual pursuits and talents to create something bigger and better—an unstoppable team. Unstoppable Teams show managers at every level, at both large and small organizations, including private, public, and nonprofit, how to inspire, motivate, and lead the people around them. Mills draws on stories from his own experiences to impart these surprising team-building lessons: Too many people mistake groups of individuals for a team. No two people are alike, but we all have the same genetic drivers that motivate us—our will to survive, our ego-driven desire for personal gain, and our soul-driven yearning to be a part of something greater than ourselves. When we override our fears about survival, we can focus on our desire to thrive. The more you care for your teammates, the more they will dare for the team. Great ideas are not reserved for a select few—true teams embrace diversity of thought to find winning ideas. These lessons aren't exclusive to the Navy SEALs; they are used by successful entrepreneurs, nonprofit leaders, coaches, and sport captains—and now you can master them too. Unstoppable Teams is the handbook for how to build care-based teams that will push people to achieve more than they ever thought possible.

Navigating the Seven Seas Melvin G. Williams (Jr.).2011 Navigating the Seven Seas is an account of the leadership experiences two high-achieving African-Americans in the U.S. Navy. This father and son duo both achieved leadership ranks in the service of their country by following certain precepts than can applied for success in any profession, both military and civilian. Melvin G. Williams, Sr. served in the U.S. Navy for 27 years (1951-1978) and reached the highest enlisted leadership rank of Master Chief, with final Navy leadership assignment as a Command Master Chief. His son, Melvin G. Williams, Jr., served 32 years (1978-2010) and reached the rank of Vice Admiral with final Navy leadership assignment as a Fleet Commander). As two African Americans who served the nation for nearly 60 consecutive years across two generations, they hope to provide readers with their perspectives on leadership. Their book describes how they navigated up through the ranks of the U.S. Navy to positions of greater responsibility by employing their Seven Cs of leadership: Character, Competence, Courage, Commitment, Caring, Communicating, and Community. Their book addresses the questions regarding who a leader is, what a leader does, why and how a leader performs? Although the context of their experiences is with the U.S. Navy, their message is that the seven Leadership Cs are germane to all readers, regardless of occupation or leadership situation (civilian, military, public and private industry, etc.), and regardless of the reader's background, culture, or gender. The authors contend that leadership is an art and a science and that leadership can be learned, practiced, and refined and that there is no stereotypical type cast mold for leaders. They argue that if they as members of a minority can rise to leadership roles in the U.S. Navy by following these key principles to navigate across the rough seas of life, then anyone can employ these rules to rise to increased leadership responsibility in any profession or career.
