Periodo Especial Huberto García Muñoz. 2019-11-29 Las pesquisas de un doble asesinato en Madrid conducen al inspector Durán a Cuba, inmersa en la enorme crisis económica y social del año 1994 denominada como Período Especial por el régimen. La investigación que apunta a una trama conspirativa se desarrolla en circunstancias inusuales, desenvolviéndose en un ambiente social extraño, para un burgués acomodado de clase media, que lo va atrapando y vinculando hasta sufrir el “corrientazo” que le hará cuestionar los principios más básicos de su vida y lo introducirá en el período especial de su propia existencia.

Musicoterapia en educación especial Josefa Lacárcel Moreno.1990 La musicoterapia es la terapia basada en la producción y audición de la música, escogida ésta por sus resonancias afectivas, por las posibilidades que da al individuo para expresarse a nivel individual y de grupo, y de reaccionar a la vez según su sensibilidad, y también al unísono con los otros. Se utiliza con éxito en numerosas instituciones especializadas en la reeducación de niños inadaptados y de Educación Especial por sus efectos positivos, produciendo relajamiento o acción, según los casos, y creando una atmósfera de alegría y confianza

La dulce ciencia A.J. Liebling.2019-04-08 Nombrado MEJOR LIBRO DE DEPORTES DE TODOS LOS TIEMPOS por la revista Sports Illustrated en 2002, La Dulce Ciencia recopila en un único e inolvidable volumen las clásicas piezas del periodista del New Yorker A.J. Liebling sobre boxeo, esa Dulce Ciencia de los Moratones. A través de sus páginas, Liebling nos ofrece un retrato animado e idiosincrásico del universo pugilístico de principios de la década de 1950 —la época dorada del boxeo estadounidense—, un mundillo que incluye a personajes de todo tipo: desde representantes jactanciosos hasta entrenadores veteranos y segundos astutos y, cómo no, a los luchadores mismos: figuras de la talla de Joe Louis, Rocky Marciano, Sugar Ray Robinson o Archie Moore, al que definió como un virtuoso de anacrónica perfección. Sin embargo, sus geniales escritos van mucho más allá de la mera crónica deportiva. Con su inconfundible estilo, Liebling siempre busca la historia humana detrás de la pelea y evoca la tensión y la atmósfera en el estadio tan nítidamente como lo que sucede en el ring, capturando así este feroz arte como nadie lo había hecho antes. Considerado el autor que mejor supo retratar el ambiente pugilístico, en una ocasión afirmó: El boxeador, como el escritor, debe estar solo.

Global Biodiversity T. Pullaiah.2018-12-07 This fourth volume in the new multi-volume set Global Biodiversity is a rich resource on the biodiversity of a selection of countries in the Americas and in Australia. Chapters explore both wild and cultivated plants, wild and domesticated animals, and the variety of microbes of the countries of Bolivia, Brazil, Canada, Costa Rica, Cuba, Ecuador, Honduras, Mexico, Australia, Paraguay, the United States, and Venezuela. The different chapters explore the geographical status, ecosystem diversity, species diversity, genetic diversity, and conservation efforts in each selected country. They focus on genetic diversity of crop plants/cultivated plants and domesticated animals and their wild relatives and also discuss the endangered and protected plants and animals of the respective counties. Other volumes in this series include coverage of selected countries in Asia, Europe, and Africa. The volumes provide an informative compilation on the variety and variability of life in the regions discussed and will help to fill the gap in knowledge while also encouraging the conservation of biodiversity and sustainable utilization.

Si bien los derechos de la mujer han avanzado —como es el caso del derecho al voto, a la planificación familiar, a la educación y a ocupar puestos políticos, entre otros—, se siguen presentando brechas incluso en los derechos ya alcanzados. Estereotipar a mujeres y hombres en roles determinados es una conducta basada en constructos sociales perpetuados por generaciones. La deconstrucción de los mismos depende de una generación de hombres y mujeres educados con

una perspectiva de género. Los niños y niñas son definitivamente excelentes candidatos para ser los portadores de este cambio en pro de la igualdad de género; es cierto también que jóvenes y adultos debemos participar, pero si los más pequeños crecen dentro de una cultura de igualdad aportarán grandes beneficios hacia una cultura sustentable de igualdad. En este contexto, esta publicación está conformada por ocho capítulos escritos por mujeres orientados a fomentar una cultura de igualdad a través del cuento, ya sea como estrategia lúdica, emocional o cognitiva. Las autoras han desarrollado en cada capítulo un marco conceptual que sustenta las experiencias de su quehacer como maestras, psicólogas, investigadoras y madres, y cada una de ellas, a través de las vivencias con sus propios hijos o estudiantes, o bien en el trabajo de campo que implica una investigación, han demostrado la efectividad del cuento como estrategia en la formación de valores, el enriquecimiento de una cultura general, el fortalecimiento de emociones y, finalmente, en cómo a través de ellos se responde de manera sencilla a los grandes cuestionamientos infantiles.

The Sweet Science A. J. Liebling. 2014-05-13 A.J. Liebling's classic New Yorker pieces on the sweet science of bruising bring vividly to life the boxing world as it once was. It depicts the great events of boxing's American heyday: Sugar Ray Robinson's dramatic comeback, Rocky Marciano's rise to prominence, Joe Louis's unfortunate decline. Liebling never fails to find the human story behind the fight, and he evokes the atmosphere in the arena as distinctly as he does the goings-on in the ring--a combination that prompted Sports Illustrated to name *The Sweet Science* the best American sports book of all time.

Rukeli Jud Nirenberg.2018-05-03 Cuando los boxeadores fueron llamados al ring, Johann Trollmann, alias Rukeli, apareció con el pelo teñido de un rubio chillón. Iba cubierto de la cabeza a los pies con polvo blanco. No solo se había esforzado por parecer un alemán blanco, sino que peleó como decían que debería hacerlo un ario. Desde el primer asalto, apenas movió los pies. Se quedó plantado y retó a su contrincante para que se acercara a intercambiar golpes, sin retirada. De esta forma Rukeli usó su visibilidad en el cuadrilátero para protestar contra el régimen nazi y los prejuicios raciales de la época. En 1933, ganó el título de boxeo de peso semipesado de Alemania, pero los nazis no aceptaron su triunfo porque era gitano. Más allá de la dramática vida de Rukeli, Jud Nirenberg explora en este libro la forma en que otros boxeadores y atletas lidiaron con el racismo nazi. Los Juegos Olímpicos de 1936, personajes como Joe Louis, Max Baer, Max Schmeling, Jesse Owens, Helene Mayer (la única judía que representó a Alemania en los Juegos Olímpicos) y Adolph Hitler, un fanático del boxeo, forman parte también de esta historia. Este es un libro importante... un apasionante relato sobre la persecución gitana durante el Holocausto. La historia gitana ha sido ignorada o consignada a pie de página por carecer de una diáspora influyente, bien posicionada y con apoyo institucional. Nirenberg tiene un estilo apasionante y fluido, su libro es muy recomendable. Prof. Ernest Latham (historiador) Primero me excluyen de los juegos olímpicos porque un gitano no puede representar a Alemania, después me quitan el título de campeón porque un gitano no puede convertirse en un campeón alemán, luego van y me obligan a divorciarme para salvar a mi esposa y a mi hija [...] ¡Pero para ir a la guerra a defender a Alemania un gitano vale perfectamente!. Tríadas. Nuevas Lecturas en Ciencia y Tecnología Alberto Requena Rodríguez.2008-08 Unos cuantos, de entre los muchos temas que nos interesan de la Ciencia y Tecnología, se recogen a esa distancia suficientemente próxima como para escudriñar, pero manteniendo el zoom a la distancia apropiada para no exigir una preparación específica previa. Un tema único acapara demasiada atención; dos implican confrontación, contraste; tres aportan el sosiego tras la contienda entre los otros dos. Tríadas se mueve entre el sosiego de confrontaciones, que ponen el punto de reflexión cercano a nuestros intereses. Son una nueva forma de introducir el deseo de la lectura a través del contraste de temas desde puntos de vista diferentes. Una nueva forma de lecturas en Ciencia y Tecnología. Son como acordes en distinta tonalidad que nos cantan los avatares de la Ciencia y Tecnología a través de concreciones que han supuesto, suponen o supondrán aportaciones de enjundia en nuestro mundo. Las cosas no suceden aisladamente, ni por azar incontrolado, ni por suerte. Las interrelaciones son más determinantes que las mismas cosas. En muchos casos las definiciones delimitan un espacio y tiempo en el que las demás cosas son las que establecen la identidad de las primeras. Pero las interacciones ni son binarias, ni tampoco es necesario tener en cuenta a n cuerpos. Es posible que avancemos, considerablemente, teniendo en cuenta a tres cuerpos. Eso es lo que hacemos en Tríadas. Los temas, aisladamente, es posible que sean una cosa, pero en Tríadas tienen como razón de ser la derivada de la propia relación con los otros dos

elementos. De esta forma, encontramos nuevas perspectivas. Es un intento. Ya se sabe, en esto de las fórmulas, nada está todavía dicho. Muy al contrario, casi todo resta por decir. Aquí solamente se inicia.

Mujer y agua María Isabel Castro Rebolledo,Jeymmy Milena Walteros Rodríguez.2022-12-01 Mujer y agua: una relación natural es una obra que sitúa a la mujer en diversos roles en los que se exaltan sus conocimientos y capacidades como gestoras, científicas e incluso protectoras en defensa del agua, del ambiente y de las comunidades presentes en el territorio. El texto se divide en tres partes: 1) mujer y acción por el agua, 2) mujer y ciencia y 3) ecofeminismo; en las que se destaca el papel de la mujer como articuladora de procesos y puente de unión entre la ciencia, la academia y la sociedad. Es una invitación colectiva para proveer alternativas integrales a la resolución de

problemáticas y conflictos ambientales, donde el agua suele ser un foco de interés. El libro extiende una invitación a asumir retos y emprender acciones de adaptación, en tiempos de cambio.
