Ein Regentropfen kehrt ins Meer zurück Abt Muho.2016-09-01 Warum wir uns vor dem Tod nicht fürchten müssen Viele Menschen fürchten sich vor dem Sterben, vor Krankheit, Alter und Tod. Der in Japan praktizierende Zen-Meister Muho kann diese Ängste gut nachvollziehen: Der frühe Tod seiner Mutter, den er als siebenjähriges Kind erlebte, hat ihn zutiefst geprägt. In Deutschland geboren und aufgewachsen, führte ihn dieses einschneidende Erlebnis Jahre später zum Zen und schließlich nach Japan. Inzwischen leitet er das tief in den japanischen Bergen gelegene Zen-Kloster Antaiji. Kaum jemand versteht es daher besser, die westliche und die östliche Sicht auf die zentralen Aspekte unseres Lebens zu verbinden: Während sich die meisten Menschen im Westen um ihre Zukunft sorgen und festzuhalten versuchen, was sie an Beziehungen, Erinnerungen und Werten besitzen, konzentriert man sich im Zen ganz auf den gegenwärtigen Moment. Die Kunst des Loslassens beginnt demnach nicht erst am Ende des Lebens, sondern jetzt – wenn wir uns auf diesen Augenblick einlassen. Es geht um die einzige Frage, die zählt: Bin ich wirklich einverstanden mit dem Leben, wie ich es heute lebe?

The Man with the Lumpy Nose Lawrence Lariar.2019-02-05 As World War II comes to a close, a Manhattan detective uncovers a link between a series of brutal murders and a Nazi propagandist. Lawrence Lariar was one of the most popular cartoonists of the twentieth century. But from the 1940s through the 1960s, he also crafted a line of lean and mean detective and mystery novels under his own name as well as the pseudonyms Michael Stark, Adam Knight, Michael Lawrence, and Marston La France. Lariar now gets his due as a leading artist in hardboiled crime fiction. To cartoonist and sleuth Homer Bull it looks like random murders: one man stabbed near an isolated lake in Red Hook, another taken out on a city street, and a woman slashed to death in her Queens apartment. There's only one common thread: a bizarre hulk with a schnoz like a gnarled fist seen nosing around the crime scenes. The next time Homer and his fellow artists of the Comic Arts Club converge it's to discuss the fiend's latest victim: their much-hated newspaper editor, Earl Chance, knifed like the others. But Homer smells something fishy: Chance's past. It not only reeks, it's connecting the victims, that hovering proboscis, and most alarmingly, the members of Homer's club. And it's drawing the lot of them into nothing as common as spree killings. It's more like an insidious conspiracy to corrupt the entire nation. The Man with the Lumpy Nose is the 3rd book in the Homer Bull & Hank MacAndrews Mysteries, but you may enjoy reading the series in any order.

Chena the Making of an Orphan Lydia Callins.2013-09-20 Set in the 1990s, the horrific past of a troubled little orphaned girl named Chena who is forced to grow up quickly in an urban environment of drugs, abuse, and neglect unfolds through flashbacks as the guileful teenage Chena embarks on a voyage of love with high school heartthrob Brandon. However, this relationship is marred by infidelity and leads to the exposure not only of betrayal by Chena's promiscuous best friend Becky, but also of a horrific childhood secret, leaving Chena to discover if her past will determine her future, and if she will ever find love. Ultimately, a tragic death results, and the circumstances surrounding this death compel Chena to face her own past as she crosses moral lines, taking vengeance into her own hands.

Central themes are fiction, literary tradition, scholarly discovery and observation.

Medieval Cats Kathleen Walker-Meikle.2011 From ancient Egypt to the modern day, cats have been one of the most beloved pets. In fact, images of cats appear extensively in medieval manuscripts, where they are depicted as pets and mousers, appear in bestiaries and marginalia, and are even depicted in religious iconography. This delightful and informative gift book presents a wealth of cat imagery from a variety of medieval sources and is peppered with fascinating facts about the medieval view of cats and many stories of people and their pets in the Middle Ages. Among the amusing anecdotes are tales of cats having free rein of dining halls, prompting books of manners to admonish owners for petting cats while they sat on the dining table; instructions to anchoresses to not keep any animal as a pet except a cat; and examples of leases that also specify the number and age of a home's feline inhabitants. Sure to charm cat lovers and medievalists alike, Medieval Cats is a whimsical compendium of illustrations and tales.

Irish History For Dummies Mike Cronin.2011-07-12 From Norman invaders, religious wars—and the struggle for independence—the fascinating, turbulent history of a tortured nation and its gifted people When Shakespeare referred to England as a jewel set in a silver sea, he could just as well have been speaking of Ireland. Not only has its luminous green landscape been the backdrop for bloody Catholic/Protestant conflict and a devastating famine, Ireland's great voices—like Joyce and Yeats—are now indelibly part of world literature. In *Irish History For Dummies*, readers will not only get a bird's-eye view of key historical events (Ten Turning Points) but, also, a detailed, chapter-by-chapter timeline of Irish history beginning with the first Stone Age farmers to the recent rise and fall of the Celtic tiger economy. In the informal, friendly For Dummies style, the book details historic highs like building an Irish Free State in the 1920s—and devastating lows (including the Troubles in the '60s and '70s), as well as key figures (like MP Charles Parnell and President Eamon de Valera) central to the cause of Irish nationalism. The book also details historic artifacts, offbeat places, and little-known facts key to the life of Ireland past and present. Includes Ten Major Documents—including the Confession of St. Patrick, The Book of Kells, the Proclamation of the Irish Republic, and Ulysses Lists Ten Things the Irish Have Given the World—including Irish coffee, U.S. Presidents, the submarine, shorthand writing, and the hypodermic syringe Details Ten Great Irish Places to Visit—including Cobh, Irish National Stud and Museum, Giants Causeway, and Derry Includes an online cheat sheet that gives readers a robust and expanded quick reference guide to relevant dates and historical figures Includes a Who's Who in Irish History section on dummies.com With a light-hearted touch, this informative guide sheds light on how this ancient land has survived wars, invasions, uprisings, and emigration to forge a unique nation, renowned the world over for its superb literature, music, and indomitable spirit.

The Cat in Art Stefano Zuffi.2007-04 Almost from the beginning of art, humans have portrayed cats. The animal originally domesticated for the humble purpose of catching mice was already a goddess in ancient Egypt and a beloved household pet in ancient Rome. Throughout history, cats have been a beautiful vessel for symbolic meanings, ranging from dark unruly sensuality to perfect domestic tranquillity. In this book, cats inhabit 170 art masterpieces. Sometimes they are the stars of the work and sometimes they are working their magic from the corners of rooms (in which case both the whole work and a detail showing the cat are both illustrated). Here are paintings by Van Eyck, Raphael, Leonardo, Bruegel, Rembrandt, Chardin, Gainsborough, Manet, Renoir, Bonnard, Gauguin, Matisse, Balthus, Picasso, Warhol and many other famous artists. Stefano Zuffi's charming text tells us what it all means. The cats, meanwhile, are beautiful, seductive and mysterious.

An Environmental History of the Middle Ages John Aberth.2013 The Middle Ages was a critical and formative time for Western approaches to our natural surroundings. An Environmental History of the Middle Ages is a unique and unprecedented cultural survey of attitudes towards the environment during this period. Exploring the entire medieval period from 500 to 1500, and ranging across the whole of Europe, from England and Spain to the Baltic and Eastern Europe, John Aberth focuses his study on three key areas: the natural elements of air, water, and earth; the forest; and wild and domestic animals. Through this multi-faceted lens, An Environmental History of the Middle Ages sheds fascinating new light on the medieval environmental mindset. It will be essential reading for students, scholars and all those interested in the Middle Ages

Animals in Early Medieval Art Carola Hicks.1993 The depiction and symbolism of animals have always fascinated us. This book illustrates their crucial importance in medieval art from the sixth to the eleventh centuries, and describes their use in sculpture, manuscripts, embroidery and metalwork. It shows how the underlying Celtic and Germanic traditions combined with Mediterranean influences to produce a far stronger animal art in Britain than anywhere else in Europe. Here, pagan imagery and symbolism were transmuted into Christian art and teaching, and by studying animal subjects in the whole of the British Isles rather than one region in particular, the artistic links between the Picts, Anglo-Saxons and Irish gradually emerge. Placing the emphasis on the naturalist tradition as well as the characteristic interlacing forms, *Animals In Early Medieval Art* uncovers the origins of the fantastic beasts of the bestiary, and draws conclusions about the transmission of motifs and ideas in general.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Classical Cats Donald W. Engels.2018-10-03 This is the definitive book on classical cats. The cat has played a significant role in history from the earliest times. Well known is its role in the religion and art of ancient

Egypt, no less than its association with witchcraft in the Middle Ages. But when did the cat become a domestic companion and worker as well? There has been much debate about the position of the cat in ancient Greece and Rome. Artistic representations are sometimes ambiguous, and its role as a mouse-catcher seems often to have been carried out by weasels. Yet other evidence clearly suggests that the cat was as important to Greeks and Romans as it is to many modern people. This book is the first comprehensive survey of the evidence for cats in Greece and Rome, and of their functions and representations in art. Donald Engels draws on authors from Aesop to Aristotle; on vase-painting, inscriptions and the plastic arts; and on a thorough knowledge of zoology of the cat. He also sets the ancient evidence in the wider context of the Egyptian period that preceded it, as well as the views of the Church fathers who ushered antiquity into the Middle Ages.

Medieval Pets Kathleen Walker-Meikle.2012 An engaging and informative survey of medieval pet keeping which also examines their representation in art and literature.

Holy and Noble Beasts David Salter.2001 It argues that through their depictions of animals, medieval writers were not only able to reflect upon their own humanity, but were also able to explore the meaning of more abstract values and ideas (such as civility, sanctity and nobility) that were central to the culture of the time.--BOOK JACKET.

The Mediterranean Passion John Pemble.2015-07-16 'The only remarkable thing people can tell of their doings these days is that they have stayed at home', declared George Eliot in 1869. In Victorian and Edwardian Britain travel became the rage. The middle classes and the aristocracy seemed in a constant flux of arrival and departure, their luggage festooned with foreign labels. The revolution in transport made this possible. The Mediterranean Passion describes how the British travelled to the South and where they went. Drawing on what these travellers wrote, and what was written for them, it enriches our understanding of the Victorians and Edwardians by exploring the medical, religious, sexual and aesthetic dimensions of their journeys and illuminates an important but neglected aspect of British social and cultural history. '... combines scholarship with charm ... It could easily be taken to the Mediterranean on a holiday and read with pleasure on a sunny beach or in the shade of a church.' Asa Briggs, Financial Times 'I was impressed not merely by the range of his erudition - historical, cultural, literary, topographical, medical et al. - and by the depth of his enquiries into his subject but by the subtlety and refinement of his prose. He deals with very elusive, complex and culturally contradictory matters, upon which few, if any, could arrive at persuasive generalisations; yet he does so throughout the book, while his conclusion is a marvel of judgment, excelling even what his preceded.' David Selbourne (author of The Principle of Duty) The Mediterranean Passion was the joint winner of the 1987 Wolfson Literary Award for History.
