Curlee Girlee Atara Twersky. 2016-11-15 Curlee Girlee's hair makes her mad! She wants it to grow down her back like spaghetti, not sideways and all curly-whirly. Curlee Girlee wants to look like everybody else- and she'll try anything to solve her problem. Then one day she discovers that her curly hair is perfect just the way it is. Curlee Girlee doesn't need to look like everyone else to be beautiful.

A Revision of the Dulcamaroid Clade of Solanum L. (Solanaceae) Sandra Knapp. 2013-05-10 This volume is a monograph of the 47 species of the Dulcamaroid clade of the large and diverse genus Solanum. Species in the group occur in North, Central and South America, and in Europe and Asia. The group is most species-rich in Peru and Brazil, and three of the component species, Solanum laxum of Brazil, Solanum seforthianum of the Caribbean and Solanum crispum of Chile are cultivated in many parts of the world. All species are illustrated and a distribution map of each is provided. All names are typified and nomenclatural and bibliographic details for all typifications presented. One new species from Ecuador is described. The monograph is the first complete taxonomic treatment of these species since the worldwide monograph of Solanum done by the French botanist Michel-Felix Dunal in 1852.

Key Topics in Conservation Biology 2 David W. Macdonald, Katherine J. Willis. 2013-02-06 Following the much acclaimed success of the first volume of Key Topics in Conservation Biology, this entirely new second volume addresses an innovative array of key topics in contemporary conservation biology. Written by an internationally renowned team of authors, Key Topics in Conservation Biology 2 adds to the still topical foundations laid in the first volume (published in 2007) by exploring a further 25 cutting-edge issues in modern biodiversity conservation, including controversial subjects such as setting conservation priorities, balancing the focus on species and ecosystems, and financial mechanisms to value biodiversity and pay for its conservation. Other chapters, setting the framework for conservation, address the sociology and philosophy of peoples' relation with Nature and its impact on health, and such challenging practical issues as wildlife trade and conflict between people and carnivores. As a new development, this second volume of Key Topics includes chapters on major ecosystems, such as forests, islands and both fresh and marine waters, along with case studies of the conservation of major taxa: plants, butterflies, birds and mammals. A further selection of topics consider how to safeguard the future through monitoring, reserve planning, corridors and connectivity, together with approaches to reintroduction and re-wilding, along with managing wildlife disease. A final chapter, by the editors, synthesises thinking on the relationship between biodiversity conservation and human development. Each topic is explored by a team of top international experts, assembled to bring their own cross-cutting knowledge to a penetrating synthesis of the issues from both theoretical and practical perspectives. The interdisciplinary nature of biodiversity conservation is reflected throughout the book. Each essay examines the fundamental principles of the topic, the methodologies involved and, crucially, the human dimension. In this way, Key Topics in Conservation Biology 2, like its sister volume, Key Topics in Conservation Biology, embraces issues from cutting-edge ecological science to policy, environmental economics, governance, ethics, and the practical issues of implementation. Key Topics in Conservation Biology 2 will, like its sister volume, be a valuable resource in universities and colleges, government departments, and conservation agencies. It is aimed particularly at senior undergraduate and graduate students in conservation biology and wildlife management and wider ecological and environmental subjects, and those taking Masters degrees in any field relevant to conservation and the environment. Conservation practitioners, policy-makers, and the wider general public eager to understand more about important environmental issues will also find this book invaluable.

Undeniable Atrocities .2016 Since the Mexican government escalated its war on organized crime at the end of 2006, over 150,000 Mexicans have been intentionally murdered. Countless thousands of others have been tortured; no one knows how many have disappeared. Caught between government forces and organized crime cartels, the Mexican people have suffered as atrocities and impunity reign. Based on three years of research, over 100 interviews, and previously unreleased government documents, this report finds a reasonable basis to believe that government forces and members of criminal cartels have perpetrated crimes against humanity in Mexico. The report comprehensively examines why there has been so little justice for atrocity crimes, and finds the main answers in political obstruction. Given the lack of political will to end impunity, new approaches must be taken. The report argues for a series of institutional changes, most importantly the creation of an internationalized investigative body, based inside Mexico, with powers to independently investigate and prosecute atrocity crimes.--Page 4 of cover.

The Cambridge Handbook of Immunities and International Law Tom Ruys, Nicolas Angelet, Luca Ferro. 2019-04-30 Few topics of international law speak to the imagination as much as international immunities. Questions pertaining to immunity from jurisdiction or execution under international law surface on a frequent basis before national courts, including at the highest levels of the judicial branch and before international courts or tribunals. Nevertheless, international immunity law is and remains a challenging field for practitioners and scholars alike. Challenges stem in part from the uncertainty pertaining to the customary content of some immunity regimes said to be in a 'state of flux', the divergent - and at times directly conflicting - approaches to immunity in different national and international jurisdictions, or the increasing intolerance towards impunity that has accompanied the advance of international criminal law and human rights law. Composed of thirty-four expertly written contributions, the present volume uniquely provides a comprehensive tour d'horizon of international immunity law, traversing a wealth of national and international practice.

Counting the Cost of COVID-19 on the Global Tourism Industry Godwell Nhamo, Kaitano Dube, David Chikodzi. 2020-09-19 This book profiles preliminary findings on the impact of COVID-19 on the travel, tourism and

hospitality sector. Starting with a narrative relating COVID-19 to the global development agendas, the book proceeds with a focus on global tourism value chains and linkages between COVID-19 and the Sustainable Development Goals (SDGs). Other perspectives addressed in separate chapters include impacts of COVID-19 on various industries within the global tourism value chain including aviation, airports, cruise ships, car rentals as well as ride and share car services, hotels, restaurants, sporting, pilgrimage and religious tourism, gaming and entertainment, and the stock market. The book also includes chapters on corporate, philanthropic and public donations, as well as tourism economic stimulus packages. It then concludes with a chapter focusing on building back a better tourism sector post-COVID-19 that strongly draws from the Sendai Framework on Disaster Risk Reduction (2015-2030) and the disaster cycle. To this end, this book is suitable as a read for several professionals in disciplines such as tourism and hospitality studies, economics, sustainable development, development studies, environmental sciences, geography, politics, planning and public health.

Anadenanthera Constantino M Torres,David B Repke.2014-06-11 A multidisciplinary study of pre-Columbian South America—centering on the psychoactive plant genus *Anadenanthera* As cultures formed and evolved in pre-Columbian South America, *Anadenanthera* became one of the most widely used shamanic inebriants. *Anadenanthera: Visionary Plant of Ancient South America* is more than a comprehensive reference on shamanic visionary substances; it is a useful tool for archeologists and pre-Columbian art historians. This thorough book examines the ritual and cultural use of *Anadenanthera* from prehistory to the present, along with its botany, chemistry, pharmacology, anthropology, and archeology. The earliest evidence for the use of psychoactive plants in South America is provided by remains of seeds and pods recovered from archeological sites four millennia old. Various preparations were derived from it with the intent of being a shamanic inebriant. Inhaled through the nose, smoked in pipes or as cigars, and prepared in fermented drinks, *Anadenanthera* served a central role in the cultural development of indigenous societies in South America. *Anadenanthera: Visionary Plant of Ancient South America* explores the full spectrum of information gleaned from research, covering numerous archeological sites in the Andean region, as well as discussing Amazonian shamanic rituals and lore. Analyses of the artistic expressions within the decorations of associated ceremonial paraphernalia such as ritual snuffing tubes and snuff trays are included. The text is richly illustrated with photographs and images of decorated ritual implements, and provides a comprehensive bibliography. *Anadenanthera: Visionary Plant of Ancient South America* explores: botanical aspects, taxonomy, and geographical distribution of *Anadenanthera* ethnographical, historical, and traditional aspects of *Anadenanthera* use chemical and pharmacological investigations of the genus and the various visionary preparations derived from it—with emphasis on the biologically active constituents theories of the mechanisms of action of the active tryptamines and carboline alkaloids comparisons of wood anatomy, morphology, and percentage of alkaloid content evaluation of stylistic and iconographic traits *Anadenanthera: Visionary Plant of Ancient South America* is a thorough, useful resource for archeologists, anthropologists, chemists, researchers, pre-Columbian art historians, and any layperson interested in pre-Columbian art, archeology, or visionary plants.

Hilda Hurricane Roberto Drummond.2011-07-15 Eighteen-year-old Hilda, known as the girl in the gold bikini when she swam at her country club in Belo Horizonte, Brazil, abruptly leaves the gilded life to take up residence in room 304 of the Hotel Marvelous—as a prostitute. There she becomes Hilda Hurricane, an erotic force of nature no man can resist. The exception is reporter-narrator Roberto Drummond, who attempts to unravel the mystery of why the girl in the gold bikini would forego a comfortable life to join the world's oldest profession. While some in Belo Horizonte cheer Hilda's liberated lifestyle, others seek to have her moved outside the city limits, and a would-be saint cannot seem to finish the exorcism he began outside the Hotel Marvelous. Set against the social and political upheaval of the 1960s, Hilda's story seduces even as Drummond becomes aware of more ominous forces approaching Belo Horizonte. *Hilda Hurricane* was both a critical and a commercial success in Brazil, with more than 200,000 copies sold. (The DVD of the television adaptation has sold more than a million copies.) Admirers of Kurt Vonnegut will revel in Drummond's similarly sharp satire and playful digressions, particularly about left-wing politics, which blur the boundary between fiction and autobiography. Yet the real genius of the author's interventions may be that they never slow the story long enough to lose sight of this mysterious beauty swept up in the turmoil of the times.

Reactionary Nationalists, Fascists and Dictatorships in the Twentieth Century Ismael Saz,Zira Box,Toni Morant,Julián Sanz.2019-07-23 This book provides a comparative study of fascisms and reactionary nationalisms. It presents these as transnational political cultures and examines the dictatorships and regimes in which these cultures played significant roles. The book is organised into three main sections, focusing on nationalists, fascists and dictatorships in turn. The chapters range across French, Italian, Spanish, Portuguese and German experiences, and include a broader overview of the political cultures in Central and Eastern Europe as well as Latin America. The chapters consider the identities, organizations and evolution of the various cultures and specific political movements, alongside the intersections between these movements and how they adapted to changing contexts. By doing so, the book offers a global view of fascisms and reactionary nationalisms, and promotes debate around these political cultures.

Archives and Human Rights Jens Boel,Perrine Canavaggio,Antonio González Quintana.2021-02-09 Why and how can records serve as evidence of human rights violations, in particular crimes against humanity, and help the fight against impunity? Archives and Human Rights shows the close relationship between archives and human rights and discusses the emergence, at the international level, of the principles of the right to truth, justice and reparation. Through a historical overview and topical case studies from different regions of the world the book discusses how records can concretely support these principles. The current examples also demonstrate how the perception of the role of the archivist has undergone a metamorphosis in recent decades, towards the idea that archivists can and must play an active role in defending basic human rights, first and foremost by enabling access to documentation on human rights violations. Confronting painful memories of the past is a way to make the ghosts disappear and begin building a brighter, more serene future. The establishment of international justice mechanisms and the creation of truth commissions are important elements of this process. The healing begins with the acknowledgment that painful chapters are essential parts of history; archives then play a crucial role by providing evidence. This book is both a tool and an inspiration to use archives in defence of human rights. Women's Right to the City Cruz Armando González Izaguirre.2019-11-20 Der Autor analysiert, wie Frauen ihre politischen Ansprüche auf Wohnen mit der Familie als politischer Kategorie in der Gestaltung von Stadträumen in Sinaloa (Mexiko) Mitte der 70er und 80er Jahre gestalteten. Frauen forderten und verstärkten die kulturelle und politische Bedeutung der Selbstverwaltung der Frauen, während sie versuchten, ihre dringenden Wohnbedürfnisse zu erfüllen: ein Stück Land für ihre Kinder zu erwerben und diesen zu legalisieren. Diese intergenerationelle Beziehung zwischen der politischen Partizipation von Frauen und der Familie als politischer Kategorie zeigt, dass die Familie ein entscheidender Faktor bei der Entwicklung von Siedlungen unterschiedlicher Intensität und Bedeutung war. Das politische Engagement der Frauen fand während ihres gesamten Kampfes um den Zugang zu Wohnraum statt: Landnahme, Organisation neuer Siedlungen und Erlangung des rechtlichen Eigentums an ihren Grundstücken. Die individuellen und kollektiven Erfahrungen der Frauen zeigen daher einen dynamischen Prozess der politischen Subjektwerdung, der auf dem Anspruch ein Stück Land für die Familie basiert.

Picasso and the War Years, 1937-1945 Steven A. Nash.2003-03 This absorbing book draws upon new research and works that, in some cases were held out of public view in Picasso's own collection, to explore the critically important--but still under-studied--period of his life from the Spanish Civil War through World War II and the Nazi occupation of France. This span of years is marked by some of the most intensely personal and expressive work of his career. The subjects he painted changed dramatically in direct response first to the horrors of war and then the dangers and privations of life in occupied Paris, where, though branded a degenerate artist by the Nazis, he chose to remain until the Liberation.
