Loan Phonology Andrea Calabrese,Leo Wetzels.2009 For many different reasons, speakers borrow words from other languages to fill gaps in their own lexical inventory. The past ten years have been characterized by a great interest among phonologists in the issue of how the nativization of loanwords occurs. The general feeling is that loanword nativization provides a direct window for observing how acoustic cues are categorized in terms of the distinctive features relevant to the L1 phonological system as well as for studying L1 phonological processes in action and thus to the true synchronic phonology of L1. The collection of essays presented in this volume provides an overview of the complex issues phonologists face when investigating this phenomenon and, more generally, the ways in which unfamiliar sounds and sound sequences are adapted to converge with the native language s sound pattern. This book is of interest to theoretical phonologists as well as to linguists interested in language contact phenomena.

Black Sheep and Kissing Cousins . When someone says, at a holiday dinner table, "Oh, those Lawrence cousins lose control all the time," or the Davises always had more talent than luck, you can be sure there's a lesson being passed along, from one generation to another. Who tells stories to whom and about what is never a random matter. Our family stories have a secret power: they play a unique role in shaping our identity and our sense of our place in the world. They give us values, inspirations, warnings, and incentives. We need them. We use them. We keep them. They reverberate throughout our lives, affecting our choices in love, work, friendship, and lifestyle. Elizabeth Stone, whose grandparents came from Italy to Brooklyn, artfully weaves her own family stories among the stories of more than a hundred people of all backgrounds, ages, and regions—clarifying for us predictable types of family legends, providing ways to interpret our own stories and their roles in our lives. She examines stories of birth, death, work, money, and romantic adventure—all in the context of the family storytelling ritual. And she shows how stories about our most ancient ancestors may provide answers at milestone moments in our lives, as well as how stories about our newest family members carve out places for them so that they will fit into their families, comfortably or otherwise. Upon its initial publication in 1988, Studs Terkel said that the book is "A wholly original approach to an ancient theme: family storytelling and its lasting mark on the individual." Judy Collins noted that "Elizabeth Stone's marvelous book on family myths and fables is irresistible. It lets us in on our own secrets in a provocative and exciting way." And Maggie Scarf wrote, "What a clever topic, and how beautifully Elizabeth Stone has written about it! I recommend Black Sheep and Kissing Cousins for everyone who has ever been raised in a family."

How to Do Things with Words John Langshaw Austin.1975 This work sets out Austin's conclusions in the field to which he directed his main efforts for at least the last ten years of his life. What Then Must We Do? Gar Alperovitz.2013-05-01 Never before have so many Americans been more frustrated with our economic system, more fearful that it is failing, or more open to fresh ideas about a new one. The seeds of a new movement demanding change are forming. But just what is this thing called a new economy, and how might it take shape in America? In *What Then Must We Do?* Gar Alperovitz speaks directly to the reader about where we find ourselves in history, why the time is right for a new-economy movement to coalesce, what it means to build a new system to replace the crumbling one, and how we might begin. He also suggests what the next system might look like—and where we can see its outlines, like an image slowly emerging in the developing trays of a photographer's darkroom, already taking shape. He proposes a possible next system that is not corporate capitalism, not state socialism, but something else entirely—and something entirely American. Alperovitz calls for an evolution, not a revolution, out of the old system and into the new. That new system would democratize the ownership of wealth, strengthen communities in diverse ways, and be governed by policies and institutions sophisticated enough to manage a large-scale, powerful economy. For the growing group of Americans pacing at the edge of confidence in the old system, or already among its detractors, *What Then Must We Do?* offers an elegant solution for moving from anger to strategy.
