Positive Mind Therapy Rakesh K. Mittal.2006-01-01 The common concept of humanity revolves round the personality of an individual and that too is often narrowed down to the physical person which is objective and perceivable as an essential tool for social behaviour. But what lies under this exterior is a whole mass of emotions, responses and reactions which activate the physical personality or else the external form is nothing but a mass of dead and inert matter. These two layers of the human personality are clearly discernible even to an outsider. But there is a subtler undercurrent of ideas, thoughts and impressions which serve as a causative layer to the internal personality and from which the emotions responses and reactions arise. In this book the author has compiled his feelings and experiences at the causative layer depicting how every event of life is a step towards evolution.

Creative Evolution Amit Goswami.2014-01-23 By denying evolution altogether, says quantum physicist Amit Goswami, intelligent design believers fly in the face of scientific data. But the idea of intelligent design does contain substance that neo-Darwinists cannot ignore. Goswami posits that consciousness, not matter, is the primary force in the universe. Biology must come to terms with feeling, meaning, and the purposefulness of life, as well as with the idea of a designer. What's more, reconciling the question of life's purposefulness and the existence of the designer with neo-Darwinism also answers many other difficult questions. The result is a paradigm shift for biology and the vision of a coherent whole that Goswami calls science within consciousness. In this timely, important book, the author offers clear arguments supported by the findings of quantum physics that represent a major step in resolving controversies between science and religion.

In Search of Spiritual Intelligence Betty Steinhauer.2020-03-15 My name is Betty Steinhauer. I have no address. I own very little besides what I carry with me as I roam the streets. Just stuff bundled in 9-10 suitcases parked with friends across the world. For me, being homeless is part of a bigger plan. After being hit by a car several years ago not long after retiring, I had an epiphany. I realised that I had been on my own spiritual journey since my first visit to India in 1990. Since then, I have travelled to 155 countries, sometimes as a tourist, sometimes on business, sometimes for my charity. I have made friends all over the world. But, I still had unanswered questions. So, I decided to sell everything, pack up my life and travel the world with a difference. This time I would journey not as a tourist but as a traveller wanting to learn from every wise person who crossed my path, and every challenging situation I found myself in. I would document my learning from the people I interviewed across the world. And so was born my new book, In Search of Spiritual Intelligence.

Being Love Sister Shivani,Suresh Oberoi. We can each radiate unconditional love. We don't even need to create it - we are love. But the flow of love is blocked in moments of hurt, blame, anger, criticism, competition or insecurity. These emotions have dominated our emotional space, and hardly

enable us to feel our own love. So today, we rely on someone else to love us. This book teaches us to think right, enable self-love, feel it and extend it to other people. The central message here is that love is not 'out there', but within us. A spectrum of emotions like attachment, expectations, hurt, worry, stress, fear or anger, which we use in the pretext of love, are analysed. The conversations also explore the fact that the parent-child relationship is not challenging - It does not need to be. As you free yourself from judgments and expectations, as you start thinking right for people, and as you accept people for who they are, you become a Radiator of unconditional love. You are one decision away from vibrating at a frequency of love ... by not needing love or giving love - but just by being love.

The Brahma Kumaris as a 'Reflexive Tradition' John Walliss.2017-11-22 This title was first published in 2002. Drawing on primary research on the Brahma Kumaris World Spiritual University, a millenarian New Religious Movement of Indian origin, this book examines the status of tradition in the contemporary world through a critical engagement with the recent social theory of Anthony Giddens on the emergence of a post-traditional society. Wallis examines both the ways in which forms of tradition not only persist but also flourish in the contemporary world and also the manner in which such traditions are drawn on and (re)created by individuals in their ongoing construction of self-identity. Illuminating some of the difficulties encountered when social theory is applied to 'the real world', this book also offers a way of theorising about the status of contemporary religiosity that does not refer directly to the notion of secularisation.

Values for a Better World BK Jagdish Chander.1995-02-27 Every sane person on earth would like the present-day world-conditions to improve substantially because, looking at the total picture of the world, one finds that there are thousand times more thorns and thistles than roses or raspberries. Leaders, in many fields, have tried, in many ways, to enhance the quality of life but the hopes and aspirations of a vast majority of the humankind have been belied. Various kinds of remedies have been applied or tried but, of late, it has become almost the united voice of all that Moral, Social and Human Values are the ultimate and the much-needed remedy.

Feeling Great Dadi Janki,Kelly Johnson,Peter Vegso.2015-04-14 Why do we lose our ability to feel great? And what is 'feeling great' anyway? Is it really possible to feel great in today's world where every day there is some new crisis or disorder? Some new upheaval or unexpected negativity? Where violence is rife? Is feeling great out of place or insensitive to the reality of many people's lives? In this treasure of a book, Janki, Vegso and Johnson call on their decades of spiritual study and practical experience to answer these and other essential questions. You will learn what it really means to 'feel great' - and it might not be what you expect. You will discover that feeling great is not about having a good time for a few hours, or having money to spend. It's about putting your life in order and remembering who you really are. It's about practicing the four keys revealed in this book—enthusiasm, optimism, contentment, and respect—then learning how to start acquiring and applying them. Janki and Vegso's rich descriptions of the sticking points we encounter on our journey through life demonstrate how we can recover our ability to truly feel great - not as a temporary indulgence, but as a lasting state of being. Now is the time to start feeling great, and this uplifting book shows you how easy it can be.

Happiness Unlimited Sister Shivani,Suresh Oberoi.2019 In these enlightening and eye-opening conversations, the renowned spiritual mentor, Sister BK Shivani reveals how to create a life of joy, contentment and bliss, because we all have the choice and the power to do so. According to her, the reason why there is so little happiness in the world is dependency. Happiness is not dependent on 'anything' or 'anyone', or found 'anywhere'. We keep delaying our happiness until things are just right in our life. We think we will be happy in the future and then wonder why we are not happy now. Happiness is only possible when we are able to accept everyone as they are, at every moment, in every situation. This book is a medium for the awakening and acceptance of self-responsibility. Helping us choose our thoughts and feelings aligned with our true nature of purity, peace and love. To make us shift from asking to sharing; from holding on to letting go; from expectations to acceptance; from the past and the future to being in the now. Happiness is a 'decision', not a 'consequence'.

Journey Into Inner Space Brahma Kumaris.2019-05-01 We are pleased to announce publication of Journey Into Inner Space, a treasure chest of wisdom that draws on science, great literature, and spiritual understanding to reveal the journey of the soul. This innovative Brahma Kumaris production is more than a conventional book. It has artwork that comes alive using a technology called Augmented Reality. Animations of the images, accompanied by a spoken commentary, convey the essence of each chapter. We hear the renowned actor and director Clarke Peters narrate new understandings linking science and spirit, giving us a glimpse of our divinity. And the journey closes with a meditation led by Sister Jayanti, one of the world's most experienced teachers of Raja Yoga, gently guiding us towards our own, personal inner space. Combining ancient and modern wisdom, the Journey offers both an explanation and an experience of what is meant by the inner life, the world of the spirit or soul, as compared with the physical world around us. 'Journey Into Inner Space is both important and timely in sharing the rapid convergence of leading-edge science and spirituality. This new story, based on the latest scientific discoveries at all scales of existence and within many fields of research, is revealing that mind and consciousness aren't something we have - but rather what we and the whole world are. As well as being illustrated with beautiful artwork, the book offers an Augmented Reality feature that allows the reader to experience the essence of its message through animations and spoken commentaries. In showing that the physical realm is the manifestation of a deeper, unified, informational and intentional reality, the Journey confirms meaning and purpose to our existence, and that of our entire Universe.' - Dr Jude Currivan, cosmologist and author of The Cosmic Hologram In my own journey through life I have been fortunate to be guided at various stages by wise and compassionate people who were able to show me that one is moved to act at various levels in one's consciousness. At several 'lower' levels of consciousness one's urgent priority is to survive and fight or flee and then, one might mature, using intellect and logic to work out what is out there. However there is a deeper and yet higher path to the good life and bliss. The short, concise, animated book 'Journey into Inner Space' is a delightful introduction to this path and shows that human wisdom knows this from science, art and spirituality. I have had a long association with Business and Politics and have found that when acting from this holistic understanding, one acts with more compassion and inclusivity and everything one tries to do is for the benefit of all beings for all time . This is the only way the Planet and our species will survive. 'Journey into Inner Space' helps one to experience this. Lord Andrew Stone Parliamentarian, London U.K. Each of us journeys towards God on our chosen path. As we come nearer the Holy One, words that easily cause division become less important and increasingly, instead of picturing God as external to us, we sense God's presence in the silence of the heart. We recognise that we and all others are 'eternal beings whose true nature is peace, love and happiness.' At whatever stage you are on your journey, this easy-to-read book will help you to explore your inner space more deeply. - Rev Dr Marcus Braybrooke, President, World Congress of Faiths

Thought for Today Brahma Kumaris.2005-12 More and more attention is being paid to diet and exercise these days. It's all about the importance of keeping the body healthy, and even the government supports this as it sees how neglect in these areas leads to more illness in the longer term, and higher costs in running the national health sector. Paradoxically, the more attention is being paid to the physical aspects of the human being, less time and attention seems to be paid to spiritual well being. With Thought for Today we have a ready made collection of 'meals for the mind?' and a 'daily exercise plan?' for thoughts. Using seven themes: Contentment, Peace, Love, Power, Knowledge, Purity, Mercy, this little book allows the reader to dip in depending on the mood of the moment. Within each chapter theme, there are 40 to 50 thoughts given in the form of directive statements on the attitudes and outlook we can usefully bring to situations. A welcome addition is at the beginning of each theme, we have a page that defines the quality and reminds us of why it is we aspire to develop it within us. Something that is useful when enthusiasm may wane a little, particularly when the demands of the day can mean we drift away from this alternative form of nourishment! Begin every day with a thought from this little book. If mornings are rushed, then let it live in your pocket or bag, - a well thumbed book (as this can become) is an indispensable friend.
