Empire State of Mind Zack O'Malley Greenburg.2015-09-22 I'm not a businessman-I'm a business, man. --Jay-Z Some people think Jay-Z is just another rapper. Others see him as just another celebrity/mega-star. The reality is, no matter what you think Jay-Z is, he first and foremost a business. And as much as Martha Stewart or Oprah, he has turned himself into a lifestyle. You can wake up to the local radio station playing Jay-Z's latest hit, spritz yourself with his 9IX cologne, slip on a pair of his Rocawear jeans, lace up your Reebok S. Carter sneakers, catch a Nets basketball game in the afternoon, and grab dinner at The Spotted Pig before heading to an evening performance of the Jay-Z-backed Broadway musical Fela! and a nightcap at his 40/40 Club. He'll profit at every turn of your day. But despite Jay-Z's success, there are still many Americans whose impressions of him are foggy, outdated, or downright incorrect. Surprisingly to many, he honed his business philosophy not at a fancy B school, but on the streets of Brooklyn, New York and beyond as a drug dealer in the 1980s. Empire State of Mind tells the story behind Jay-Z's rise to the top as told by the people who lived it with him- from classmates at Brooklyn's George Westinghouse High School; to the childhood friend who got him into the drug trade; to the DJ who convinced him to stop dealing and focus on music. This book explains just how Jay-Z propelled himself from the bleak streets of Brooklyn to the heights of the business world. Zack O'Malley Greenburg draws on his one-on-one interviews with hip-hop luminaries such as DJ Clark Kent, Questlove of The Roots, Damon Dash, Fred Fab 5 Freddy Brathwaite, MC Serch; NBA stars Jamal Crawford and Sebastian Telfair; and recording industry executives including Craig Kallman, CEO of Atlantic Records. He also includes new information on Jay-Z's various business dealings, such as: *The feature movie about Jay-Z and his first basketball team that was filmed by Fab 5 Freddy in 2003 but never released. *The Jay-Z branded Jeep that was scrapped just before going into production. *The real story behind his association with Armand de Brignac champagne. *The financial ramifications of his marriage to Beyonce. Jay-Z's tale is compelling not just because of his celebrity, but because it embodies the rags-to-riches American dream and is a model for any entrepreneur looking to build a commercial empire.

Drawing is Thinking Milton Glaser.2008-11-26 For more than fifty years, Milton Glaser has designed much of the world we live and experience every day. His posters, books, albums, restaurants, advertisements, and so much more have identified him as the preeminent force in design in America. Now, in Drawing is Thinking, Glaser draws upon an amazing vocabulary of images and techniques to create his most personal book to date. In a way, he has not only been drawing all his life, he has been thinking about art and design on that journey. Based on his view that all art has its origin in the impulse to create, he has designed a book that powerfully delineates this position. In Drawing is Thinking, the drawings depicted are meant to be experienced sequentially, so that the viewer not only follows Glaser through these pages, but comes to inhabit his mind. The drawings

represent a sweeping range of subject matter taken from the full range of a reflective master's career. The pages suggest that drawing is not simply a way to represent reality, but, as the title implies, a better way to perceive the world. The maker and the viewer become more attentive, one by creating the work, the other by experiencing it. Glaser's two signature books, *Graphic Design and Art is Work*, are each in print decades after their first appearances. In different ways, each is a display of his work with extended descriptions of how the work came about, and how design problems were visually resolved. But in *Drawing is Thinking* the author is less interested in display. Glaser this time is concerned with how the mind works in its attempt to create reality.--BOOK JACKET.

Egyptian Society Under Ottoman Rule, 1517-1798 Michael Winter.2003-09-02 Michael Winter's book presents a panoramic view of Ottoman Egypt from the overthrow of the Mamluk Sultanate in 1517 to Bonaparte's invasion of 1798 and the beginning of Egypt's modern period. Drawing on archive material, chronicle and travel accounts from Turkish, Arabic, Hebrew and European sources as well as up-to-date research, this comprehensive social history looks at the dynamics of the Egyptian-Ottoman relationship and the ethnic and cultural clashes which characterised the period. The conflicts between Ottoman pashas and their Egyptian subjects and between Bedouin Arabs and the more sedentary population are presented, as is the role of women in this period and the importance of the doctrinal clash of Islam both orthodox and popular, Christianity and Judaism. Winter's broad survey of a complex and dynamic society draws out the central theme of the emergence, from a period of ethnic and religious tension, of an Egyptian consciousness fundamental to Egypt's later development.

New York Ricans from the Hip Hop Zone R. Rivera.2003-02-07 New York Puerto Ricans have been an integral part of hip hop culture since day one: from 1970s pioneers like Rock Steady Crew's Jo-Jo, to recent rap mega-stars Big Punisher (R.I.P.) and Angie Martinez. Yet, Puerto Rican participation and contributions to hip hop have often been downplayed and even completely ignored. And when their presence has been acknowledged, it has frequently been misinterpreted as a defection from Puerto Rican culture and identity, into the African American camp. But nothing could be further from the truth. Through hip hop, Puerto Ricans have simply stretched the boundaries of Puerto Ricanness and latinidad.

The Arabic Manuscript Tradition Adam Gacek.2017-07-31 Covering the entire spectrum of Arabic manuscripts, and especially the handwritten

book, this book consists of a glossary of technical terms and a bibliography. The technical terms, collected from a variety of sources, embrace a vast range of topics dealing with the making and reading (studying) of Arabic manuscripts. They include: the Arabic scripts, penmanship, writing materials and implements, the make-up of the codex, copying and correction, decoration and bookbinding. A similar coverage is reflected in the bibliography. In view of the fact that, as yet, there is no concise monograph on Arabic manuscripts in the English language, this book is an important contribution to this field. And, since Arabic manuscripts represent an enormous resource for research, this work is an indispensable reference for all students of Islamic civilization.

More Important Than the Music Bruce D. Epperson. 2013-10-01 Today, jazz is considered high art, America's national music, and the catalog of its recordings—its discography—is often taken for granted. But behind jazz discography is a fraught and highly colorful history of research, fanaticism, and the intense desire to know who played what, where, and when. This history gets its first full-length treatment in Bruce D. Epperson's *More Important Than the Music*. Following the dedicated few who sought to keep jazz's legacy organized, Epperson tells a fascinating story of archival pursuit in the face of negligence and deception, a tale that saw curses and threats regularly employed, with fisticuffs and lawsuits only slightly rarer. Epperson examines the documentation of recorded jazz from its casual origins as a novelty in the 1920s and '30s, through the overwhelming deluge of 12-inch vinyl records in the middle of the twentieth century, to the use of computers by today's discographers. Though he focuses much of his attention on comprehensive discographies, he also examines the development of a variety of related listings, such as buyer's guides and library catalogs, and he closes with a look toward discography's future. From the little black book to the full-featured online database, *More Important Than the Music* offers a history not just of jazz discography but of the profoundly human desire to preserve history itself.

Anthology of Musical Forms - Structure & Style (Expanded Edition) Leon Stein. 1999-11-27 *Structure and Style*, first published in 1962 and expanded in 1979, fills the need for new ways of analysis that put 20th-century music in perspective. It spans forms in use before 1600 through forms and techniques in use today. *Anthology of Musical Forms* provides musical examples of forms treated in *Structure and Style*. Some examples are

analyzed throughout. Most are left for the student to analyze. These books reflect Leon Stein's impressive background as student, musician, and composer. Stein studied composition with Leo Sowerby, Frederick Stock (conductor of the Chicago Symphony) and orchestration with Eric DeLamarter, his assistant. He earned M. Mus and Ph.D degrees at DePaul University and was associated with its School of Music as director of the Graduate Division and chairman of the Department of Theory and Composition until his retirement in 1976. He has composed a wide variety of works, including compositions for orchestra, chamber combinations, two operas, and a violin concerto.

Crossroads of European Histories R. A. Stradling.2006-01-01 This publication contains thirty-five papers written by European historians in relation to five key periods in European history: the year of revolutions 1848, the Balkan wars of 1912-13, the search for peace in 1919, the end of the Second World War and the beginning of the Cold War in 1945, and the events of 1989-90 in central and eastern Europe. The papers are drawn from five conferences organised by the Council of Europe based on the principles of Recommendation Rec (2001) 15 on European history teaching. They consider events based on the concept of 'multiperspectivity' which seeks to facilitate an open approach to historical debate based on critical analysis of different perspectives of historical developments, often involving controversial and sensitive issues. This publication is complemented by two related titles: a teaching manual and a DVD of original documents.

Modern Algorithms of Cluster Analysis Slawomir Wierzchoń,Mieczysław Kłopotek.2017-12-29 This book provides the reader with a basic

understanding of the formal concepts of the cluster, clustering, partition, cluster analysis etc. The book explains feature-based, graph-based and spectral clustering methods and discusses their formal similarities and differences. Understanding the related formal concepts is particularly vital in the epoch of Big Data; due to the volume and characteristics of the data, it is no longer feasible to predominantly rely on merely viewing the data when facing a clustering problem. Usually clustering involves choosing similar objects and grouping them together. To facilitate the choice of similarity measures for complex and big data, various measures of object similarity, based on quantitative (like numerical measurement results) and qualitative features (like text), as well as combinations of the two, are described, as well as graph-based similarity measures for (hyper) linked objects and measures for multilayered graphs. Numerous variants demonstrating how such similarity measures can be exploited when defining clustering cost functions are also presented. In addition, the book provides an overview of approaches to handling large collections of objects in a reasonable time. In particular, it addresses grid-based methods, sampling methods, parallelization via Map-Reduce, usage of tree-structures, random projections and various heuristic approaches, especially those used for community detection.

Culturally Relevant Pedagogy Gloria Ladson-Billings. 2021 For the first time, this volume provides a definitive collection of Gloria Ladson-Billings' groundbreaking concept of Culturally Relevant Pedagogy (CRP). After repeatedly confronting deficit perspectives that asked, "What's wrong with 'those' kids?", Ladson-Billings decided to ask a different question, one that fundamentally shifted the way we think about teaching and learning. Noting that "those kids" usually meant Black students, she posed a new question: "What is right with Black students and what happens in classrooms where teachers, parents, and students get it right?" This compilation of Ladson-Billings' published work on Culturally Relevant Pedagogy examines the theory, how it works in specific subject areas, and its role in teacher education. The final section looks toward the future, including what it means to re-mix CRP with youth culture such as hip hop. This one-of-a-kind collection can be used as an introduction to CRP and as a summary of the idea as it evolved over time, helping a new generation to see the possibilities that exist in teaching and learning for all students. Sorting Things Out Geoffrey C. Bowker, Susan Leigh Star. 2000-08-25 A revealing and surprising look at how classification systems can shape both worldviews and social interactions. What do a seventeenth-century mortality table (whose causes of death include fainted in a bath, frightened, and itch); the identification of South Africans during apartheid as European, Asian, colored, or black; and the separation of machine- from hand-washables have in common? All are examples of classification—the scaffolding of information infrastructures. In *Sorting Things Out*, Geoffrey C. Bowker and Susan Leigh Star explore the role of categories and standards in shaping the modern world. In a clear and lively style, they investigate a variety of classification systems, including the International Classification of Diseases, the Nursing Interventions Classification, race classification under apartheid in South Africa, and the classification of viruses and of tuberculosis. The authors emphasize the role of invisibility in the process by which classification orders human interaction. They examine how categories are made and kept invisible, and how people can change this invisibility when necessary. They also explore systems of classification as part of the built information environment. Much as an urban historian would review highway permits and zoning decisions to tell a city's story, the authors review archives of classification design to understand how decisions have been made. *Sorting Things Out* has a moral agenda, for each standard and category valorizes some point of view and silences another. Standards and

classifications produce advantage or suffering. Jobs are made and lost; some regions benefit at the expense of others. How these choices are made and how we think about that process are at the moral and political core of this work. The book is an important empirical source for understanding the building of information infrastructures.

How to Play Video Games Nina Huntemann.2019-03-26 Forty original contributions on games and gaming culture What does Pokémon Go tell us about globalization? What does Tetris teach us about rules? Is feminism boosted or bashed by Kim Kardashian: Hollywood? How does BioShock Infinite help us navigate world-building? From arcades to Atari, and phone apps to virtual reality headsets, video games have been at the epicenter of our ever-evolving technological reality. Unlike other media technologies, video games demand engagement like no other, which begs the question—what is the role that video games play in our lives, from our homes, to our phones, and on global culture writ large? How to Play Video Games brings together forty original essays from today's leading scholars on video game culture, writing about the games they know best and what they mean in broader social and cultural contexts. Read about avatars in Grand Theft Auto V, or music in The Legend of Zelda: Ocarina of Time. See how Age of Empires taught a generation about postcolonialism, and how Borderlands exposes the seedy underbelly of capitalism. These essays suggest that understanding video games in a critical context provides a new way to engage in contemporary culture. They are a must read for fans and students of the medium.

Figures of Southeast Asian Modernity Joshua Barker,Erik Harms,Johan A. Lindquist.2013-07-31 We live in a world populated not just by individuals but by figures, those larger-than-life people who in some way express and challenge our conventional understandings of social types. This innovative and collaborative work takes up the wide range of figures that populate the social and cultural imaginaries of contemporary Southeast Asia—some familiar only in specific places, others recognizable across the region and even globally. It puts forward a series of ethnographic portraits of figures that represent and give voice to something larger than themselves, offering a view into social life that is at once highly particular and general. They include the Muslim Television Preacher in Indonesia, Miss Beer Lao, the Rural DJ in Thailand, the Korean Soap Opera Junkie in Burma, the Filipino Seaman, and the Photo Retoucher in Vietnam. Figures of Southeast Asian Modernity brings together the fieldwork of over eighty scholars and covers the nine major countries of the region: Burma (Myanmar), Cambodia, Indonesia, Laos, Malaysia, the Philippines, Singapore, Thailand, and Vietnam. An introduction outlines important social transformations in Southeast Asia and key theoretical and methodological innovations that result from ethnographic attention to the study of key figures. Each section begins with an introduction by a country editor followed by short essays offering vivid and intimate portraits set against the background of contemporary Southeast Asia. The result is a volume that combines scholarly rigor with a meaningful, up-to-date portrayal of a region of the world undergoing rapid change. A reference bibliography offers suggestions for further reading. Figures of Southeast Asia Modernity is an ideal teaching tool for introductory classes to Southeast Asia studies, anthropology, and geography.
