**International Guide to Student Achievement** John Hattie, Eric M. Anderman.2013-01-17 The International Guide to Student Achievement brings together and critically examines the major influences shaping student achievement today. There are many, often competing, claims about how to enhance student achievement, raising the questions of What works? and What works best? World-renowned bestselling authors, John Hattie and Eric M. Anderman have invited an international group of scholars to write brief, empirically-supported articles that examine predictors of academic achievement across a variety of topics and domains. Rather than telling people what to do in their schools and classrooms, this guide simply provides the first-ever compendium of research that summarizes what is known about the major influences shaping students' academic achievement around the world. Readers can apply this knowledge base to their own school and classroom settings. The 150+ entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick, easy reference. Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries, guiding readers to apply this knowledge to their own classrooms, their curriculums and teaching strategies, and their teacher training programs.

Accounting Education for the 21st Century Jane O. Burns, Belverd E. Needles.2014-06-28 Accounting practice, whether in business or government, is more dynamic, more complex, and addresses a wider array of issues than it did as little as five years ago. Significant and rapid social, political, technological and economic changes are taking place in the world economy and it is increasingly recognised that accountants in all countries play a key role in the process of economic development. Accounting education is undergoing a thorough review on a worldwide basis and major developments are taking place to produce quality accounting education that can keep pace with dramatic world change. This book provides an up-to-date view of the state of accounting education throughout the world and focusses on the global challenges facing accounting education as we approach the millenium.
