Shedding of Plants Parts T.T. Kozlowski.2012-12-02 Shedding of Plant Parts focuses on the anatomical, physiological, and ecological features of shedding of vegetative and reproductive parts of plants. This book encompasses both natural and induced shedding. Organized into 12 chapters, this book first outlines the extent of shedding of plant cells, tissues, and organs and summarizes the biological and economic implications of such shedding. Separate chapters follow that discuss anatomical and histochemical changes in leaf abscission; the physiological ecology and internal regulation of abscission; and the shedding of shoots, branches, bark, roots, pollen, seeds, and reproductive structures of forest trees. This book also explains the anatomical changes in abscission of reproductive structures, chemical thinning of flowers and fruits, and chemical control of fruit abscission. This book will be valuable to plant anatomists, pathologists, and physiologists, and to agronomists, arborists, biochemists, ecologists, entomologists, foresters, horticulturists, landscape architects, meteorologists, and soil scientists.

Lloyd's Register of Shipping 1933 Steamers Lloyd's Register Foundation.1933-01-01 The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes, which are self-propelled and sea-going, regardless of classification. Before the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name.

Celestial Treasury Marc Lachièze-Rey, Jean-Pierre Luminet. 2001-07-16 Throughout history, the mysterious dark skies above us have inspired our imaginations in countless ways, influencing our endeavours in science and philosophy, religion, literature and art. Heavenly Treasures is a truly beautiful book showing the richness of astronomical theories and illustrations in Western civilization through the ages, exploring their evolution, and comparing ancient and modern throughout. From Greek verse, mediaeval manuscripts and Victorian poetry to spacecraft photographs and computer-generated star charts, the unprecedented wealth of these portrayals is quite breathtaking.

The Profession of Arms Sir John Hackett. 1988

Goya Janis A. Tomlinson. 2002-03-11 Francisco Goya y Lucientes (1746-1828) created magnificent paintings, tapestry designs, prints, and drawings over the course of his long and productive career. Women frequently appeared as the subjects of Goya's works, from his brilliantly painted cartoons for the Royal Tapestry Factory to his stunning portraits of some of the most powerful women in Madrid. This groundbreaking book is the first to examine the representations of women within Goya's multifaceted art, and in so doing, it sheds new light on the evolution of his artistic creativity as well as on the roles assumed by women in late eighteenth- and early nineteenth-century Spain. Many of Goya's most famous works are featured and explicated in this beautifully designed and produced book. The artist's famous tapestry cartoons are included, along with the tapestries woven after them for the royal palaces of the Prado and the Escorial. Goya's infamous Naked Maja and Clothed Maja are also highlighted, with a discussion on whether these works were painted at the same time and how they might have originally hung in relation to one another. Focus is also placed on Goya's more experimental prints and drawings, in which the artist depicted women alternatively as targets of

satire, of sympathy, or of admiration. Essays by eminent authorities provide a historical and cultural context for Goya's work, including a discussion on the significance of fashion and dress during the period. The resultant volume is surely to be treasured by all who admire Goya's art and by those who are interested in women's issues of his time.

Bibliographie Des Arts Du Spectacle Alain Chevalier,Nicole Leclercq.2000 Par son caractère exhaustif, cette bibliographie offre au praticien, au simple amateur, aussi bien qu'au chercheur spécialisé, la possibilité d'embrasser d'un coup d'oeil la quasi-totalité des ouvrages en français, concernant les spectacles, parus entre 1985 et 1995. This comprehensive bibliography of the performing arts lists almost 8000 French-language books, published between 1985 and 1995, and is a welcome work of reference for anyone interested in the subject.

Lloyd's Register of Shipping 1920 Steamers Lloyd's Register Foundation.1920-01-01 The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes, which are self-propelled and sea-going, regardless of classification. Before the time, only those vessels classed by Lloyd's Register were listed. Vessels are listed alphabetically by their current name.

Aristomenes of Messene Daniel Ogden.2004-12-31 With Aristomenes of Messene, Daniel Ogden identifies yet another fertile and undervalued topic in Ancient History. He has previously studied illegitimacy in the ancient Greek world (Greek Bastardy, OUP, 1996), Greek ideas about the relationship between deformity and power (Crooked Kings of Ancient Greece, Duckworth, 1997), the nature and causes of dynastic murder in the Hellenistic world (Polygamy, Prostitutes and Death, Classical Press of Wales, 1999) and the techniques of calling up the dead in the ancient world (Greek

and Roman Necromancy, Princeton UP, 2001). Among his other books is a volume edited for the Classical Press of Wales, *The Hellenistic World: New perspectives* (2002). The legends of Aristomenes, hero of the Messenian resistance to Sparta, were designed to excite, gratify and amuse. Yet they remain almost unknown even to specialist ancient historians. This book, the first monograph to be devoted to Aristomenes, redirects attention to his adventures, which at times resemble those of King Arthur, Robin Hood and even Sinbad the Sailor. The book goes beyond the question of the historicity of Aristomenes, and examines the meaning and symbolism of the stories in their own right. The study will be welcomed by those with an interest in the history of Sparta, in Pausanias (our principal source for the tales), and in Greek traditional narrative. Famously, Sparta tried to suppress the identity and self-confidence of its Messenian helots. Yet here are stories which give access to the imagination of this long-muted but ultimately liberated people..

The Beetles of the Galápagos Islands, Ecuador Stewart B. Peck,National Research Council Canada,National Research Council Canada. Monograph Publishing Program.2006

The Nave Sculpture of Vézelay Kirk Ambrose.2006 This scholarly work fundamentally changes the

way we think about the monastic church of Vezelay and its sculptures. Kirk Ambrose provides a new account of the celebrated sculptural ensemble at this important French Romanesque monastic church. Whereas scholarly attention in the past has focused almost exclusively on the Pentecostal portal, Ambrose devotes most of his analysis to the nave capitals. He considers how these works intersect with various aspects of monastic culture, from poetry to a sign language used during observed periods of silence. From this study it emerges how many of the sculptures resonated with communal practices and with interpretive modes in use at the site. Deeming the attempt to uncover an underlying or unifying program to be an anachronistic project, Ambrose explores historically specific ways this ensemble cohered for medieval viewers. Covering a range of themes, including hagiography, ornament, and violence, he develops alternative approaches for the examination of serial imagery. As a result, this book has broad implications for the study of eleventh- and twelfth-century art in the West.--BOOK JACKET.

Who's who in America John William Leonard, Albert Nelson Marquis. 1920 Vols. 28-30 accompanied by separately published parts with title: Indices and necrology.

Invention of Hysteria Georges Didi-Huberman. 2004-09-17 The first English-language publication of a classic French book on the relationship between the development of photography and of the medical category of hysteria. In this classic of French cultural studies, Georges Didi-Huberman traces the intimate and reciprocal relationship between the disciplines of psychiatry and photography in the late nineteenth century. Focusing on the immense photographic output of the Salpêtrière hospital, the notorious Parisian asylum for insane and incurable women, Didi-Huberman shows the crucial role played by photography in the invention of the category of hysteria. Under the direction of the medical teacher and clinician Jean-Martin Charcot, the inmates of Salpêtrière identified as hysterics

were methodically photographed, providing skeptical colleagues with visual proof of hysteria's specific form. These images, many of which appear in this book, provided the materials for the multivolume album *Iconographie photographique de la Salpêtrière*. As Didi-Huberman shows, these photographs were far from simply objective documentation. The subjects were required to portray their hysterical type—they performed their own hysteria. Bribed by the special status they enjoyed in the purgatory of experimentation and threatened with transfer back to the inferno of the incurables, the women patiently posed for the photographs and submitted to presentations of hysterical attacks before the crowds that gathered for Charcot's Tuesday Lectures. Charcot did not stop at voyeuristic observation. Through techniques such as hypnosis, electroshock therapy, and genital manipulation, he instigated the hysterical symptoms in his patients, eventually giving rise to hatred and resistance on their part. Didi-Huberman follows this path from complicity to antipathy in one of Charcot's favorite cases, that of Augustine, whose image crops up again and again in the *Iconographie*. Augustine's virtuosic performance of hysteria ultimately became one of self-sacrifice, seen in pictures of ecstasy, crucifixion, and silent cries.

Laudato Si Pope Francis.2015-07-18 "In the heart of this world, the Lord of life, who loves us so much, is always present. He does not abandon us, he does not leave us alone, for he has united himself definitively to our earth, and his love constantly impels us to find new ways forward. Praise be to him!" - Pope Francis, *Laudato Si'* In his second encyclical, *Laudato Si'*: On the Care of Our Common Home, Pope Francis draws all Christians into a dialogue with every person on the planet about our common home. We as human beings are united by the concern for our planet, and every living thing that dwells on it, especially the poorest and most vulnerable. Pope Francis' letter joins the body of the Church's social and moral teaching, draws on the best scientific research, providing the foundation for "the ethical and spiritual itinerary that follows." *Laudato Si'* outlines: The current state of our "common home" The Gospel message as seen through creation The human causes of the ecological crisis Ecology and the common good Pope Francis' call to action for each of us Our Sunday Visitor has included discussion questions, making it perfect for individual or group study, leading all Catholics and Christians into a deeper understanding of the importance of this teaching.

Forty Studies that Changed Psychology Roger R. Hock.2005 This unique book closes the gap between psychology books and the research that made them possible. Its journey through the "headline history" of psychology presents 40 of the most famous studies in the history of the science, and subsequent follow-up studies that expanded their findings and relevance. Readers are granted a valuable insider's look at the studies that continue to be cited most frequently, stirred up the most controversy when they were published, sparked the most subsequent related research, opened new fields of psychological exploration, and changed most dramatically our knowledge of human behavior. For individuals with an interest in an introduction to psychology.
