The Oxford History of Literary Translation in English: Peter France, Kenneth Haynes. 2006-02-23 In the one hundred and ten years covered by volume four of *The Oxford History of Literary Translation in English*, what characterized translation was above all the move to encompass what Goethe called 'world literature'. This occurred, paradoxically, at a time when English literature is often seen as increasingly self-sufficient. In Europe, the culture of Germany was a new source of inspiration, as were the medieval literatures and the popular ballads of many lands, from Spain to Serbia. From the mid-century, the other literatures of the North, both ancient and modern, were extensively translated, and the last third of the century saw the beginning of the Russian vogue. Meanwhile, as the British presence in the East was consolidated, translation helped readers to take possession of 'exotic' non-European cultures, from Persian and Arabic to Sanskrit and Chinese. The thirty-five contributors bring an enormous range of expertise to the exploration of these new developments and of the fascinating debates which reopened old questions about the translator's task, as the new literalism, whether scholarly or experimental, vied with established modes of translation. The complex story unfolds in Britain and its empire, but also in the United States, involving not just translators, publishers, and readers, but also institutions such as the universities and the periodical press. Nineteenth-century English literature emerges as more open to the foreign than has been recognized before, with far-reaching effects on its orientation.

Hanging Of Bhagat Singh Vol V, Bhagat Singh's Jail Note Book Malwinder Jit Singh Waraich, Harish Jain. 2016-06-01 Shaheed Bhagat Singh's 'Jail Notebook' opens a window into his exploration of ideas of distinguished thinkers and philosophers. Well-known among his comrades as an avid and voracious reader, Bhagat Singh managed to procure during his imprisonment in jail a large number of selected books by prominent authors of his choice. The excerpts, notes and quotes from those books which he wrote down in his jail notebook reflected not only the seriousness with which he studied the books but also his intellectual sophistication and social and political concerns. However, the perfunctory reference to the sources or books from which these notes and quotes were taken left a rather perplexing question mark with regard to the authentic source i.e. from exactly which editions of which books by which particular authors were these taken. As a result, fantastic claims and wild speculations came to be made by admiring scholars as to the number of books and the kind of original works of great thinkers that Bhagat Singh was able to study in the jail. As a sequel to that the present work Bhagat Singh's 'Jail Note Book', Its Context and Relevance by Harish Jain represents an exceptionally tenacious and laborious search and research into the specific and authentic sources of the particular notes and quotes entered in the Jail Notebook. The story of the author's exploration for over a decade, searching and identifying books by following astute guesses and hunches, and rummaging through many likely or probable books accessible at that time, many of which were not easily available now, makes a fascinating reading. Contextualising the importance and reach of the ideas of the various authors in those times helps one to understand why they might have appeared significant to Bhagat Singh. Besides discussing the ideas central to the books he read attempt has been made here to explain the import of the quotes he chose to copy. A unique work of its kind, this study is both enriching and a pleasure to read.

The Mecca Uprising Nasir al-Huzaimi. 2020-12-10 On 20th November 1979, the Salafi Group, led by a charismatic figure named Juhaiman al-Utaibi, seized control of the Sacred Mosque in Mecca, the holiest site in the Muslim World. The Salafi Group was not trying to establish an Islamic state. Instead, its members believed they were players in a prophetic script about the End of Time. After a two-week siege, the Saudi government recaptured the mosque, threw the survivors into prison, and had them publicly executed. The Mecca Uprising offers an insider's account of the religious subculture that incubated the Mecca Uprising, written by a former member of the Salafi Group, Nasir al-Huzaimi. Huzaimi did not participate in the uprising, but he was arrested in a government sweep of Salafi Group members and spent six years in prison. In 2011, he published his memoir, Days with Juhaiman, offering the most detailed picture we have of the Salafi Group and Juhaiman. The Mecca Uprising had profound effects on Saudi Arabia and the Muslim world [DC1] [YG2]. The Saudi government headed off opposition from religious activists and made efforts to buttress the ruling family's legitimacy as the guardians of Islam. Huzaimi's memoir sheds light on the background of this religious and political landscape, and is the most detailed account we have of the Salafi Group and Juhaiman. The English edition is complete with an introduction and annotations prepared by expert David Commins to help readers understand the relevance of the Meccan Uprising [DC3] and how it fits into the history of the Islamic World. [DC1]lower case? Muslim world [YG2]changed to author's suggestion [DC3]Mecca Uprising

Postcolonialism and the Hebrew Bible. 2013-08-11 This volume returns to where initial interest in postcolonial biblical criticism began: the Hebrew Bible. It does so not to celebrate the significant achievements of postcolonial analysis over the last few decades but to ask what the next step might be. In these essays, established and newer scholars, many from the interstices of global scholarship, discuss specific texts, neo/post/colonial situations, and theoretical issues. Moving from the Caribbean to Greenland, from Ezra-Nehemiah to the Gibeonites, this collection seeks out new territory, new questions, and possibly some new answers. The contributors are Roland Boer, Steed Davidson, Richard Horsley, Uriah Y. Kim, Judith McKinlay, Johnny Miles, Althea Spencer-Miller, Leo Perdue, Christina Petterson, Joerg Rieger, and Gerald West.

Biblical Exegesis, Fourth Edition John H. Hayes,Carl R. Holladay.2022-10-04 This is a beginner's guide to biblical exegesis, providing exegetical methods, practices, and theories. This book provides simple, helpful information and guidance about doing exegesis, without being overly prescriptive; succinctly introduces students to various methods; provides basic bibliographies that take students beyond an introductory discussion; and emphasizes exegesis as an everyday activity based on commonsense principles rather than as an esoteric enterprise. This revised edition of this perennially best-selling textbook includes discussions of emerging methods of interpretation aimed at a contemporary audience. Several chapters have been updated and improved, and readers will find an incisive new chapter on exegesis with a focus on identity and advocacy. Holladay has also written a new concluding chapter on exegesis as the art of seeing. Bibliographies are updated, and a helpful glossary is included in this new edition.

The EuroQol Group after 25 years Richard Brooks.2012-08-22 The EuroQol Group first met in Rotterdam in May 1987 determined to develop a standardised non-disease-specific instrument for valuing health-related quality of life. The book traces the activities of the Group over the next 25 years. The instrument constructed, eventually named the EQ-5D, was translated into many languages and used in a wide range of countries and

settings. The book describes how the instrument's descriptive system was determined, how translation and language issues were handled, and how valuations were provided. Recent developments, in particular a 5-level version (EQ-5D-5L), and a youth version (EQ-5D-Y) are covered. The history of the institutional and administrative framework within which the Group operated is also treated.

Latin for the New Millennium: Level 2: student text Milena Minkova,Terence Tunberg.2009-10-15 Latin for the New Millennium, Levels 1 and 2 is a complete introductory course to the Latin language, suitable for both high school and college students, consisting of two volumes, each accompanied by a teacher's manual and students' workbooks. The strategy employed for teaching and learning incorporates the best of both the reading approach and the more abstract grammatical method. The choice of vocabulary in each chapter reflects ancient authors commonly studied for the AP Latin examinations. There are exercises designed for oral use, as well as a substantial core of more conventional exercises in each chapter. The readings, pictures, and supplementary inserts on cultural information illuminate Roman life, civilization, Roman history, and mythology, as well as the continuing use of Latin after antiquity and its vigorous literary tradition in such periods as the Middle Ages and Renaissance. Each chapter also includes derivatives, the influence of Latin vocabulary on English, and selected proverbs or common Latin sayings. Latin for the New Millennium Level 3 builds on the strong foundation of Levels 1 and 2 and provides students an in-depth experience of Caesar, Catullus, Cicero, Horace, Ovid, and Vergil as well as of the Renaissance writer Erasmus. This text provides students an introduction to unadapted Latin literature and builds their literary analysis skills.--adapted from publisher website.
